

In the opinion of K&L Gates LLP, Bond Counsel, assuming compliance with certain covenants of the State, interest on the Bonds is excludable from gross income for federal income tax purposes under existing law. Interest on the Bonds is not an item of tax preference for purposes of either individual or corporate alternative minimum tax. Interest on the Bonds may be indirectly subject to corporate alternative minimum tax and certain other taxes imposed on certain corporations. Interest on the Bonds is not included in taxable income for purposes of the Alaska income tax imposed on corporations. Interest on the Bonds may be indirectly subject to the Alaska alternative minimum tax imposed on corporations to the extent that interest on the Bonds is subject to the federal alternative minimum tax on corporations. See “TAX MATTERS” herein for a discussion of the opinion of Bond Counsel.

\$175,560,000
STATE OF ALASKA
General Obligation Refunding Bonds
Series 2012A

Dates, Interest Rates, Prices and Yields Are Shown on the Inside Cover Page

The State of Alaska (the “State”) is issuing \$175,560,000 aggregate principal amount of General Obligation Refunding Bonds, Series 2012A (the “Bonds”).

The Bonds will be general obligations of the State and the full faith, credit and resources of the State will be pledged to the payment of principal of and interest on the Bonds. See “THE BONDS – Security for the Bonds” herein. The Bonds will be issued in fully registered form without coupons in denominations of \$5,000 or any integral multiple thereof. Interest on the Bonds will be payable on August 1, 2012 and semiannually thereafter on February 1 and August 1 in each year until maturity or earlier redemption. Interest will be calculated on the basis of a 360-day year of twelve 30-day months at the annual rates set forth on the inside front cover. The Bonds will be subject to redemption as described herein.

The Bonds will be initially registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York (“DTC”). Purchasers of Bonds will not receive physical certificates representing their interest in the Bonds purchased. DTC will act as securities depository for the Bonds. Individual purchases of interests in the Bonds will be made in book-entry form only, in the principal amount of \$5,000 or any integral multiple thereof. The principal of and interest on the Bonds will be payable directly to DTC by U.S. Bank National Association of Seattle, Washington, as authenticating agent, paying agent and registrar for the Bonds (the “Bond Registrar”). Upon receipt of payments of principal and interest, DTC is to remit such principal and interest to the Direct Participants (as such term is defined in Appendix E hereto) for subsequent disbursement to the purchasers of beneficial interests in the Bonds, as described herein.

The Bonds will be issued pursuant to the Alaska Constitution, Alaska Statutes 37.15.010 through 37.15.220 (the “Bond Act”) and the Resolution (as defined herein) for the purpose of refunding a portion of the State’s General Obligation Bonds, Series 2003A. See “THE BONDS – Application of Bond Proceeds” herein.

This cover page contains certain information for quick reference only. Investors must read the entire Official Statement to obtain information essential to the making of an informed decision.

The Bonds are offered when, as and if issued, subject to the approval of their validity and enforceability by K&L Gates LLP, Seattle, Washington, Bond Counsel. Certain legal matters will be passed upon for the Underwriters by Underwriters’ Counsel, Foster Pepper PLLC, Seattle, Washington. Acacia Financial Group, Inc. is serving as Financial Advisor to the State. It is expected that the Bonds in book-entry form will be available for delivery by Fast Automated Securities Transfer, through the facilities of DTC, on or about February 8, 2012.

The information contained in this Official Statement has been obtained from the State of Alaska and other sources the State deems reliable. No representation is made, however, as to the accuracy or completeness of such information, and nothing contained in this Official Statement is, or shall be relied upon as, a promise or representation by the Underwriters. The information concerning DTC and its book-entry system has been obtained from DTC, and no representation is made by the State as to the completeness or accuracy of such information.

No dealer, broker, salesperson or other person has been authorized by the State or the State Bond Committee (the "Committee") to give any information or to make any representations, other than those contained in this Official Statement, in connection with the offering of the Bonds, and, if given or made, such other information or representations must not be relied upon as having been authorized by the State or the Committee.

This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale. The information and expressions of opinion herein are subject to change without notice, and neither the delivery of this Official Statement nor any sales made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the State or DTC since the date hereof. This Official Statement does not constitute a contract between the State and any one or more of the purchasers or registered owners of the Bonds. All summaries of bond ordinances, resolutions, indentures, agreements or other documents are made subject to the provisions of such documents, respectively, and do not purport to be complete or definitive statements of any or all of such provisions.

The Underwriters have provided the following sentence for inclusion in this Official Statement. The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

The CUSIP numbers herein are provided by CUSIP Global Services. These numbers are not intended to create a database and do not serve in any way as a substitute for the CUSIP Service. CUSIP numbers are provided for the convenience of reference only. CUSIP numbers are subject to change. The State takes no responsibility for the accuracy of such CUSIP numbers.

Certain statements contained in this Official Statement reflect not historical facts but forecasts and "forward-looking statements." The words "estimate," "project," "anticipate," "expect," "intend," "believe" and similar expressions are intended to identify forward-looking statements. The achievement of certain results or other expectations contained in forward-looking statements involves known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements described to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Except for the historical information described in the continuing disclosure undertaking of the State, the State does not plan to issue any updates or revisions to those forward-looking statements if or when their expectations or events, conditions or circumstances on which such statements are based occur.

IN CONNECTION WITH THE OFFERING OF THE BONDS, THE UNDERWRITERS MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICE OF THE BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

THE BONDS HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, NOR HAS THE BOND RESOLUTION BEEN QUALIFIED UNDER THE TRUST INDENTURE ACT OF 1939, AS AMENDED, IN RELIANCE UPON EXEMPTIONS CONTAINED IN SUCH ACTS. THE REGISTRATION OR QUALIFICATION OF THE BONDS IN ACCORDANCE WITH APPLICABLE PROVISIONS OF SECURITIES LAWS OF THE STATES IN WHICH BONDS HAVE BEEN REGISTERED OR QUALIFIED AND THE EXEMPTION FROM REGISTRATION OR QUALIFICATION IN OTHER STATES CANNOT BE REGARDED AS A RECOMMENDATION THEREOF. NEITHER THESE STATES NOR ANY OF THEIR AGENCIES HAVE PASSED UPON THE MERITS OF THE BONDS OR THE ACCURACY OR COMPLETENESS OF THIS OFFICIAL STATEMENT. ANY REPRESENTATION TO THE CONTRARY MAY BE A CRIMINAL OFFENSE.

STATE OF ALASKA

General Obligation Refunding Bonds,

Series 2012A

INTRODUCTORY STATEMENT

This Introductory Statement is intended to be a brief description of, and is therefore qualified by, the information contained in this Official Statement. Each prospective purchaser reviewing this Introductory Statement is directed to review this entire Official Statement, including the Appendices attached hereto, as well as all the documents referenced, summarized or described in this Official Statement.

The purpose of this Official Statement, including the Appendices attached hereto, is to provide certain information concerning the State of Alaska (the "State") and the issuance of \$175,560,000 aggregate principal amount of the State of Alaska General Obligation Refunding Bonds, Series 2012A (the "Bonds"). The Bonds will be issued pursuant to Resolution No. 2012-01 (the "Resolution"), adopted by the State Bond Committee (the "Committee") on January 6, 2012. See "THE BONDS" herein for a description of the Bonds and the security therefor.

The Bonds will be general obligations of the State and the full faith, credit and resources of the State will be pledged to the payment of the principal of and interest on the Bonds. See "THE BONDS – Security for the Bonds" herein.

The Bonds are being issued to refund a portion of the State's General Obligation Bonds, Series 2003A (the "Series 2003A Bonds"), as more fully described under the caption "THE BONDS – Application of Bond Proceeds" herein.

The annual financial report for the State for the fiscal year ended June 30, 2011 is attached hereto as Appendix B. This report reflects historical performance. The financial performance of the State reflected in such report cannot be relied upon as a reliable indicator of subsequent performance. Historical trends cannot be used to anticipate results or trends in future periods.

This Official Statement includes brief descriptions of the Bonds and the Resolution. These descriptions do not purport to be comprehensive or definitive. References to such documents are qualified in their entirety by reference to the complete texts thereof. Copies of such documents are available for inspection at the office of the Committee. All quotations from and summaries and explanations of provisions of laws of the State herein do not purport to be complete and are qualified in their entirety by reference to the official compilations thereof. Summaries of, or references to, provisions of the Internal Revenue Code of 1986 (the "Code") contained herein are made subject to the complete provisions thereof and do not purport to be complete statements thereof. Certain capitalized terms used herein and not defined herein shall have the meanings assigned thereto in "APPENDIX E – INFORMATION REGARDING THE DEPOSITORY TRUST COMPANY."

The form of opinion of Bond Counsel is attached hereto as Appendix C.

THE BONDS

Authority for Issuance

The Bonds will be issued pursuant to the Alaska Constitution, AS 37.15.010 through 37.15.220 (the “Bond Act”) and the Resolution.

Security for the Bonds

The Bonds will be general obligations of the State and the full faith, credit and resources of the State will be pledged to the payment of the principal of and interest on the Bonds. The amounts required annually to pay the principal of and interest and redemption premium on all issued and outstanding general obligations bonds of the State are appropriated to the Committee to make all required payments of principal, interest and redemption premium. Pursuant to AS 37.15.012, if such appropriation is insufficient to fully pay these amounts, the necessary additional amounts are appropriated from the General Fund to the Committee to make all required payments of principal, interest and redemption premium.

For the payment of principal of and interest on general obligation indebtedness, including the Bonds, the State has the power to levy taxes, including taxes on all taxable property and income in the State, without limitation as to rate or amount. For a description of the State’s sources of revenues, see “INFORMATION CONCERNING THE STATE OF ALASKA – State Revenues” and for a more complete discussion of the authorization of general obligation bonds and the provisions for payment thereof, see “INFORMATION CONCERNING THE STATE OF ALASKA – Public Debt and Other Obligations of the State” herein.

General Description of the Bonds

The Bonds will be issued solely as fully registered Bonds without coupons (initially in the book-entry only system) in denominations of \$5,000 or any integral multiple thereof. The Bonds will be dated as of their date of original issuance and delivery and will bear interest at the rates and mature on the dates set forth on the inside cover page of this Official Statement. Interest accruing to the maturity or earlier redemption of the Bonds will be payable semiannually on February 1 and August 1 of each year, commencing on August 1, 2012, computed on the basis of a 360-day year (consisting of 12 months of 30 days each).

So long as Cede & Co. is the registered owner of the Bonds, principal of and interest on the Bonds are payable by wire transfer by the Bond Registrar to DTC, which, in turn, is obligated to remit such principal and interest to the Direct Participants for subsequent disbursement to the Beneficial Owners (as defined in Appendix E) of the Bonds, as further described in “APPENDIX E – INFORMATION REGARDING THE DEPOSITORY TRUST COMPANY.”

In the event that DTC or its successor (or substitute securities depository or its successor) resigns and no substitute securities depository can be obtained, or the State determines that it is in the best interests of the Beneficial Owners that they be able to obtain Bonds in the form of bond certificates, new Bonds are required to be issued and registered.

Application of Bond Proceeds

The Bonds are being issued to provide for the defeasance and optional redemption on August 1, 2013 of a portion of the outstanding principal amount of the Series 2003A Bonds maturing on or after August 1, 2014 (the “Refunded Bonds”). The net proceeds of the Bonds will be applied, together with

other legally available funds, to refund the Refunded Bonds. Details of the Refunded Bonds are set forth below.

Refunded Bonds

State of Alaska General Obligation Bonds, Series 2003A (General Purpose)

Dated: April 1, 2003

Maturity (August 1)	Outstanding Principal Amount	Redemption Date	Price	CUSIP #
2014	\$20,525,000	August 1, 2013	100%	011770P65
2015	\$21,420,000	August 1, 2013	100%	011770P73
2016	\$22,380,000	August 1, 2013	100%	011770P81
2017	\$23,410,000	August 1, 2013	100%	011770P99
2018	\$24,500,000	August 1, 2013	100%	011770Q23
2019	\$14,340,000	August 1, 2013	100%	011770Q31
2020	\$15,040,000	August 1, 2013	100%	011770Q49
2021	\$15,785,000	August 1, 2013	100%	011770Q56
2022	\$16,580,000	August 1, 2013	100%	011770Q64
2023	\$17,430,000	August 1, 2013	100%	011770Q72

The State will enter into an irrevocable Escrow Deposit Agreement with U.S. Bank National Association, Seattle, Washington, as escrow agent for the Refunded Bonds. Funds held by the escrow agent for the Refunded Bonds will be invested in noncallable, direct obligations of the United States (the "Escrow Obligations") maturing on the applicable redemption date. See "VERIFICATION OF MATHEMATICAL COMPUTATIONS" herein.

Redemption of the Bonds

Optional Redemption. The Bonds maturing on August 1, 2023, are subject to redemption prior to maturity, in whole or in part, at the option of the State, on any date on and after August 1, 2022, at a price of 100% of the principal amount thereof to be redeemed plus accrued interest to the date fixed for redemption.

Selection of Bonds to be Redeemed

If the State elects to redeem less than all of the Bonds for optional redemption, the State shall select the amount and maturities to be redeemed.

If fewer than all of the Bonds of a particular maturity shall be called for optional redemption: (1) if the Bonds are not registered in book-entry only form, any redemption of less than all of the Bonds will be allocated among the registered owners of such Bonds being redeemed as nearly as practicable in proportion to the principal amounts of the Bonds owned by each registered owner, in authorized denominations, and the particular Bonds to be redeemed will be determined by the Bond Registrar in any manner as the Bond Registrar in its sole discretion deems reasonable; and (2) if the Bonds are in book-entry only form and so long as DTC or a successor securities depository is the sole registered owner of the Bonds, any redemption of less than all of the Bonds of a single maturity will be done in accordance with DTC's procedures in effect at such time. It is the State's intent that redemption allocations made by DTC or such other intermediaries that may exist between the State and the Beneficial Owners be made in accordance with these same proportional provisions; provided, however, that the State provides no assurance that DTC or any other intermediary will allocate redemptions among Beneficial Owners on such a proportional basis.

Notice of Redemption

Except when the Bonds are in book-entry form, the Bond Registrar on behalf of the State shall give notice of redemption of any of the Bonds to be redeemed, which notice may be conditional, by first class mail to the Registered Owner of the Bond(s) designated for redemption, at least 20 days and not more than 60 days prior to the redemption date, at the address shown on the Register or at such other address as is furnished in writing by such registered owner to the Bond Registrar. Interest shall cease to accrue from the redemption date (unless the conditions set forth in the notice have not been met, in which case the notice of redemption shall have been withdrawn). Neither the State nor the Registrar will provide any notice to Beneficial Owners of the Bonds.

Unless the State has revoked a notice of redemption (or unless the State provided a conditional notice for redemption and the conditions for redemption set forth therein are not satisfied), official notice of redemption having been given, the Bonds or portions of Bonds so to be redeemed shall, on the redemption date, become due and payable at the redemption price therein specified and from and after such date (unless the State shall default in the payment of the redemption price) such Bonds or portions of Bonds shall cease to bear interest.

Purchase of the Bonds

The State has reserved the right to purchase any of the Bonds offered to the State at any time at a price deemed reasonable by the State.

Defeasance

In the event that money and/or government obligations, which are noncallable direct obligations of the United States or obligations unconditionally guaranteed by the United States, maturing at such time or times and bearing interest to be earned thereon in amounts (together with such money, if necessary) sufficient to redeem and retire part or all of the Bonds in accordance with their terms, as evidenced by a report of an independent accountant or verification agent (which report shall be required only if the defeasance is not a full cash defeasance), are set aside in a special account of the State to effect such redemption and retirement, and such moneys and the principal of and interest on such government obligations are irrevocably set aside and pledged for such purpose, then no further payments need be made for the payment of the principal of and interest on the Bonds so provided for, and such Bonds shall cease to be entitled to any lien, benefit or security of the Resolution except the right to receive the moneys so set aside and pledged, and such Bonds shall be deemed to be no longer outstanding.

Book-Entry System

When issued, the Bonds will be registered in the name of Cede & Co. (or such other name as may be requested by an authorized representative of DTC), as nominee of DTC. DTC will act as securities depository for the Bonds. Individual purchases will be made only in book-entry form through DTC, and purchasers will not receive physical certificates representing their interests in the Bonds purchased. Except as provided in the Resolution so long as Cede & Co. (or such other name as may be requested by an authorized representative of DTC) is the registered owner of the Bonds, as nominee of DTC, references in this Official Statement to Owners, Registered Owners or holders mean Cede & Co. (or such other name) and not the Beneficial Owners of the Bonds. For information about DTC and its book-entry system, see "INFORMATION REGARDING THE DEPOSITORY TRUST COMPANY" in Appendix E.

SOURCES AND USES TABLE

The proceeds of the Bonds are expected to be applied as shown below.

Sources of Funds:	
Par Amount of Bonds	\$175,560,000.00
Original Issue Premium/(Discount)	<u>30,035,178.80</u>
Total	\$205,595,178.80
Uses of Funds:	
Refunding Deposit	\$204,958,958.25
Costs of Issuance*	<u>636,220.55</u>
Total	<u>\$205,595,178.80</u>

* Costs of issuance include legal fees, printing costs, underwriting discount, financial advisory fees, rating agency fees and similar costs.

INFORMATION CONCERNING THE STATE OF ALASKA

General

Alaska is a sovereign state of the United States of America and is located in the far northwest corner of North America, to the west of Canada and approximately 500 miles north of the state of Washington. Most of the State's revenue is derived from resources owned by the State itself, including petroleum and minerals extracted from State-owned lands and securities in funds owned by the State.

State Government

Alaska became the 49th state in 1959 pursuant to the Alaska Statehood Act, which was enacted by the United States Congress in 1958 (the "Statehood Act"). The Alaska Constitution was adopted by the Constitutional Convention on February 5, 1956, ratified by the people of Alaska on April 24, 1956, and became operative with the formal proclamation of statehood on January 3, 1959.

There are three branches of government: legislative, executive and judicial. The legislative power of the State is vested in a legislature consisting of a Senate with a membership of 20 and a House of Representatives with a membership of 40 (the "Legislature"). The executive power of the State is vested in the governor. The judicial power of the State is vested in a supreme court, a superior court and the courts established by the legislature. The jurisdiction of courts and judicial districts are prescribed by law. The courts constitute a unified judicial system for operation and administration.

The State provides a range of services including education, health and human services, transportation, law enforcement, judicial, public safety, community and economic development, public improvements, and general administrative services.

State Bond Committee

The Legislature, by AS 37.15.110, has created the Committee. The Committee is comprised of the Commissioner of the Department of Commerce, Community & Economic Development, as chairperson, the Commissioner of the Department of Revenue, as secretary, and the Commissioner of the Department of Administration, or their designees. The Committee adopts resolutions and generally oversees the proceedings relating to the issuance of bonds by the State.

Overview of the Economy of the State

The key drivers of the Alaska economy include natural resource development, federal (including national defense) and state government, seafood and tourism. While petroleum extraction accounts for approximately 90% of the State's revenues, more than 25% of the State's employment is derived from government. Tourism provides 11% of the State's employment with seafood providing 10%. The State's population continues to grow, increasing 13% from 2000 to 2010 (April 2010 Census). The State's major exports are oil, natural gas, seafood (primarily salmon, cod, pollock and crab), coal, gold and zinc.

For more information regarding the economy of the State, see "APPENDIX A – SUMMARY INFORMATION REGARDING THE ECONOMY OF THE STATE".

State Ownership of Land and Natural Resources

Alaska includes approximately 586,412 square miles (approximately 365 million acres) in land and is the largest state in the United States, roughly equivalent in land to one-fifth of all of the other 49 states combined. Unlike the other 49 states, where most of the land is owned by individuals or entities in the private sector, less than one percent of the land in Alaska is owned by private, non-Native owners. In 1959, when Alaska became a state, 99.8 percent of the land was owned by the federal government. The Statehood Act, and later the Alaska Land Transfer Acceleration Act, enacted in 2004, gave the State the right to select and acquire approximately 104 million of the nearly 365 million acres of federal lands in Alaska. As of June 30, 2011, approximately 90 percent of this grant has been conveyed to the State. In addition, the State has acquired an estimated 65 million acres of submerged lands, some of which contain oil-producing and gas fields or areas that may have potential for oil and gas production.

The United States Congress enacted the Alaska Native Claims Settlement Act ("ANCSA") in 1971, following the discovery of a large oil and gas reservoir on the Alaska North Slope. Under ANCSA, 13 regional corporations and more than 200 village corporations were established with rights to select approximately 44 million acres of federal lands and associated subsurface and surface rights. Currently, the Native corporations own approximately 13 percent of Alaska lands, the State owns approximately 26 percent and the federal government owns approximately 60 percent, with less than 1 percent of Alaska lands owned by private, non-Native owners. As described below, the State obtains significant revenues from companies that lease State-owned lands for extraction of oil, natural gas, coal, gold, zinc and other minerals and shares with the federal government revenues from oil, natural gas and other assets extracted from federal lands leased by private companies.

Article 8, Section 1 of the Alaska Constitution provides that, "it is the policy of the State to encourage the settlement of its land and the development of its resources by making them available for maximum use consistent with the public interest". The Department of Natural Resources ("DNR") oversees all activities that occur on the 100 million acres of State upland and 60 million acres of submerged lands, and 40,000 miles of coastline. The DNR's mission is to "responsibly develop Alaska's resources by making them available for maximum use and benefit consistent with the public interest". As such, the DNR has the stewardship and public trust responsibility for all State-owned land, water and resources in addition to certain regulatory responsibility on private lands. The DNR manages the State's mineral, coal, oil and gas, geothermal, timber, material, and water resources, provides land use authorizations for surface activities on State land, receives title from the federal government in accordance with the Statehood Act and the Alaska Land Transfer Acceleration Act and conveys land to private purchasers. The DNR manages and distributes a large volume of technical data, public records, land records, and geospatial information.

Oil and Gas Reserves. The State's finances have been dominated by oil exploration and production since 1968, when the first large oil and gas reservoir on the Arctic Coast was discovered. The Trans-Alaska Pipeline System (the "TAPS"), an 800-mile, 48-inch crude oil pipeline from the State's

Arctic Coast to Valdez in southcentral Alaska, was completed in June 1977, enabling the production and transmission from the North Slope of Alaska of more than 16 billion barrels of crude oil between fiscal years 1978 and 2011. Crude oil production on the North Slope peaked in 1988 at slightly above 2.0 million barrels per day from the large Prudhoe Bay field, and from Kuparuk, the State's second largest oil-producing area, and from the Endicott and Lisburne satellite fields. Although oil is now being produced at additional fields on the North Slope (including newer North Slope projects at Milne Point and Northstar and numerous new satellite fields at Prudhoe Bay, Kuparuk and Alpine), production on the North Slope has declined in most years since 1988 to an estimated 603,000 barrels per day in fiscal year 2011. In its Fall 2011 Revenue Sources Book, the State forecasts that crude oil production on the North Slope will decline over the forecast period to 458,000 barrels per day by 2021. The forecast oil production in 2021 includes 217,000 barrels per day of expected production from projects currently under evaluation or under development. Oil production of the smaller fields in Cook Inlet in southcentral Alaska is projected to decline from 10,000 barrels per day in 2011 to 4,000 barrels per day in 2021.

Although crude oil volumes forecast for the near term are decreasing, State revenues have been increasing as a result of changes to the State's oil-related tax structure and increased prices for oil. The State expects that additional volumes will be recovered and that oil-related revenues will increase as a result of additional exploration and field development. See "—State Revenues— Oil and Gas Revenues." In addition, the potential for future production from known (discovered but undeveloped) and unknown (undiscovered) hydrocarbon resources in northern Alaska are considered. Two public studies of undiscovered conventional hydrocarbon resources in the Alaska North Slope have been conducted in the last five years. In August 2007, the U.S. Department of Energy released "Alaska North Slope Oil and Gas: A Promising Future or an Area in Decline?" – a report that assessed the potential for Alaska to remain a major producer of oil and gas under various development scenarios. The report looked at near-term potential (2005-2015) and long-term potential (2015-2050), mostly under a major gas sales scenario. According to the report, the North Slope is a relatively underexplored petroleum province that may provide oil and increasingly, natural gas, for years to come. In October 2010, the U.S. Department of Interior released 2010 Updated U. S. Geological Survey ("USGS") Assessment of Undiscovered Oil and Gas Resources of the National Petroleum Reserve in Alaska ("NPR-A"), a report that substantially reduced their estimate of technically recoverable conventional oil in NPR-A. This recent assessment estimates a mean technically recoverable conventional oil resource in the NPR-A of 896 million barrels, compared to the 2002 estimate of 10.56 billion barrels. Estimates of non-associated natural gas were reduced as well, but the change was much smaller in magnitude. It is important to note that the revision in estimated undiscovered conventional oil in NPR-A is based on data from wells drilled over the last decade in NPR-A and is not expected to be reflected in revised estimates for other regions of Alaska.

The 2007 U.S. Department of Energy ("DOE") report evaluated geologic and commercial viability of future oil and gas production from five areas or provinces: 1) the central Arctic area between the Colville and Canning Rivers (and adjacent State waters), 2) the 1002 area of the Arctic National Wildlife Refuge, 3) the NPR-A, 4) the Beaufort Sea Outer Continental Shelf ("OCS"), and 5) the Chukchi Sea OCS. Under the most optimistic scenario, DOE reported mean technically recoverable oil resources of 38.2 billion barrels and mean technically recoverable gas resources of 186.5 trillion cubic feet ("TCF") from these five areas. The State benefits from the production of federal oil within Alaska (especially in the NPR-A, where the State is entitled to 50 percent of all royalties, bonuses and rents) and benefits to some extent from the production of federal oil from non-State lands shipped through TAPS. These estimates are not included in the State of Alaska, Department of Revenue's projections of oil production from the North Slope, and the USGS estimates have no impact on currently expected revenues of the State. It is uncertain whether producers will recover any of these potential resources.

In the next ten years, the State anticipates new developments on State and federal lands, both of which benefit the State. Most of the opportunities to add production from State lands are from expanded heavy/viscous oil development, continued satellite development at Alpine, and continued developments at

Oooguruk and Nikaitchuq. Production from the Oooguruk field began during the summer of 2008 and is progressing as expected. The Nikaitchuq field began production on schedule in February of 2011. Production at Point Thomson is currently forecast based on a gas cycling production profile consistent with recent publicly available statements on the project. Production at the Umiat field is expected to begin within approximately five years. Umiat was discovered in the late 1940's by the U.S. Navy. It is estimated to have one billion barrels of oil in place with approximately 200 million recoverable barrels. It has not been developed due to its remoteness. The Point Thomson field, 20 miles east of the existing Badami development, together with three known satellite fields, is estimated to hold more than eight TCF of gas reserves and more than 500 million barrels of liquid hydrocarbons.

The State has also seen renewed interest in the bidding on leases of State land for oil and gas exploration and production. On December 7, 2011, the State received more than 300 bids from more than 15 bidders for oil and gas lease tracts on the North Slope and the Beaufort Sea, totaling more than \$21 million. Earlier, in June 2011, the State received 100 bids for 613,690 acres in Cook Inlet. The total \$11.1 million in high bids made it the fourth most lucrative Cook Inlet lease sale in State history.

Natural Gas Pipeline Developments. Natural gas development on the Alaska North Slope has been limited because a pipeline to transport recovered natural gas to market outside Alaska has never been constructed. As a result, natural gas produced in conjunction with oil production on the North Slope is not yet sold commercially in significant volumes. Most of the produced gas is re-injected into the North Slope oil fields for use in enhanced oil recovery projects at the Prudhoe Bay field or at the Kuparuk field while some is used on site or is sold to the TAPS and used to heat field camps, run electrical generators or power the TAPS pump stations. Although there are currently an estimated 35 TCF of known reserves on the North Slope, mostly in the Prudhoe Bay and Point Thomson fields, geologic estimates by the USGS place the amount of technically recoverable resources at more than 100 TCF.

The State's tax and royalty provisions apply to natural gas products as well as to oil, and the State's long-term planning is based in part on efforts to develop natural gas resources as oil production declines. See "State Revenues—Oil and Gas Revenues" herein. To spur commercialization of Alaska natural gas, the Legislature enacted the Alaska Gasline Inducement Act ("AGIA") in 2007. In August 2008, following an extensive application and evaluation process, the Legislature authorized the State to award an AGIA license to TransCanada Alaska, a wholly-owned subsidiary of the TransCanada Corporation ("TransCanada"). TransCanada has partnered with ExxonMobil, one of the three major North Slope producers, on the pipeline project. Pursuant to the AGIA license, TransCanada commits to initiate pre-development activities and to obtain necessary permits to build a 1,715-mile natural gas pipeline from a natural gas treatment plant at Prudhoe Bay to the Alberta Hub in Canada. Under AGIA, the State agreed to provide matching funds of up to \$500 million to reimburse TransCanada for a portion of the development costs of the proposed pipeline. The AGIA license obligates TransCanada to complete certain predevelopment and regulator steps but does not require them to proceed with construction. The project conducted its initial open season in 2010, receiving multiple bids from potential shippers. TransCanada is currently negotiating with potential shippers to execute signed precedent agreements.

Since the award of the license, substantial natural gas supplies have been discovered and developed in the continental United States. Further, a competitive pipeline project – the "Denali Project" – was undertaken in 2008 by ConocoPhillips and BP. Work on the Denali Project was subsequently suspended in 2011. The State is continuing to meet its obligations under the AGIA program and to review market developments which may impact the form and timing of an Alaska natural gas commercialization project.

In addition to efforts to develop a project to bring Alaska gas to markets outside the State, in 2009, the Alaska Gasline Development Corporation ("AGDC"), a subsidiary of the Alaska Housing Finance Corporation, was formed pursuant to AS 38.34.010, et seq., as amended. The primary purpose of

AGDC is to review and present options to the Legislature regarding a smaller pipeline project designed to bring gas from the North Slope to the Alaska ‘railbelt’ (the region between Fairbanks and the Kenai Peninsula where a majority of the State’s population and economic activity are domiciled). AGDC is continuing to evaluate project costs, approaches to development and financing and how the two gas development efforts may impact each other. There can be no assurance that either of these or any other commercialization effort will result in a project moving forward.

Mineral Resources. Gold, copper and platinum have been mined in Alaska since before World War II and although platinum is no longer mined, seven large mines that produce zinc, gold, lead, silver, coal and gravel and sand are currently in operation and several other large mines are under development or exploration. There are also numerous placer and other small mining operations. Of the approximately 100 million acres of land transferred to the State by the federal government, nearly 35 million acres were selected for transfer because of anticipated mineral value. As of the end of calendar year 2009, 3.6 million acres of State land are subject to mining claims. Approximately \$3.1 billion of minerals were produced in calendar year 2010 in metal, coal, and non-metal mines located in Alaska. As described below, the State’s revenues from mining are derived primarily from mining license taxes, corporate income taxes, annual rentals and production royalties. Production is expected to end over the next decade at many of the seven mines that currently contribute most of the State’s mining-related revenue (approximately \$139.4 million of revenue in fiscal year 2011). In most cases, as is common in the industry, new resource areas are being explored for expansions and extensions of the mine life. In addition, several projects are in advanced exploration or the permitting phase. See “—State Revenues—Mineral Revenues.”

Alaska has a number of deposits of rare earth elements, which are used in magnets, batteries, auto catalysts and other metallurgical applications. Finished products in which they are critical include smart phones, hybrid cars, military hardware, advanced consumer electronics, fiber optics and windmills. Bokan Mountain, which is located in Southeast Alaska, on Prince of Wales Island near Ketchikan, has inferred resources of between 1.0 and 6.7 million metric tons. While Bokan Mountain is the only project that is likely to be developed in the near future, there are three other known deposits located on Prince of Wales Island that are currently under evaluation, as well as deposits near Nome and Fairbanks. The Alaska Division of Geological & Geophysical Surveys (DGGs) is currently using a \$500,000 appropriation from the fiscal year 2012 budget to further detail Alaska’s potential to develop rare earth elements.

Other Major Resources. Fish and game have long been important resources in Alaska, and taxes on fish landings and processing represent a share of the State’s non-petroleum revenues. With substantially increased air and cruise services to Alaska in the last ten years, tourism is now another important source of revenue for the State. Although passenger fee revenues are restricted revenue and not available for general appropriations, the large commercial passenger cruise vessels are now subject to the State corporate income tax, the proceeds of which are unrestricted. See “State Revenues—Other Non-Oil Revenues” below.

State Revenues

The State does not currently impose personal income taxes and has never imposed general sales taxes. The State does, however, impose a number of business-related taxes that, together with rents and royalties and fines and fees, represented nearly 100 percent of unrestricted non-investment General Fund revenue and about 7.0 percent of unrestricted non-investment total revenue in fiscal year 2011. Grants, contributions and other revenue from the federal government and interest and investment income represent the remaining portions of State revenue.

From time to time, the State has implemented changes to its tax regime and/or tax rates. The State is currently considering changes to certain of its taxing systems, including the oil tax regime. There can be no assurance what, if any, changes may be implemented and, if implemented, what impact such changes may have on the near- and long-term revenues of the State.

The imposition of additional taxes would require authorization by the Legislature but would not require approval of the voters. It is possible that a referendum petition, if signed by the required number of voters, could be filed to challenge legislation imposing a tax. Such tax then would have to be approved by a majority of the voters voting on the referendum. State legislation has not been challenged by referendum in the past 20 years. Although some local taxes have been challenged by initiatives, State taxes have not.

There are 18 boroughs in Alaska and 144 cities, 96 of which are located within a borough. Of these, 13 boroughs and 23 cities impose property taxes and 9 boroughs and 52 cities impose sales taxes.

Oil and Gas Revenues. The State's unrestricted General Fund revenues are generated primarily from petroleum production activities. The State receives petroleum revenues (some of which are restricted) from five sources: oil and gas property taxes, corporate income taxes, oil and gas production taxes, bonuses and rents and oil and gas royalties.

Oil and Gas Property Tax. The State levies an oil and gas property tax on the value of taxable oil and gas exploration, production and pipeline transportation property in the State at a rate of 20 mills (two percent) of the assessed value of the property. This is the only centrally assessed Statewide property tax program in Alaska. Oil and gas reserves, oil or gas leases, the rights to explore or produce oil or gas, and intangible drilling expenses are not considered taxable property under the statute. The most notable properties that are subject to this tax are the TAPS (including the terminal at Valdez) and the field production systems at Prudhoe Bay. The assessed value of all existing properties subject to this tax as of January 1, 2011, was just over \$23.0 billion, compared with approximately \$24.0 billion as of January 1, 2010, \$22.0 billion as of January 1, 2009 and \$18.0 billion as of January 1, 2008.

Property taxes on exploration property are based upon estimated market value of the property. For property taxes on production property, values are based upon replacement cost, less depreciation based on the economic life of the proven reserves (or the economic limit in the case of taxes on offshore platforms or onshore facilities). The amount collected from property taxes on existing production property is expected to decrease in the future. For property taxes on pipeline transportation property (95 percent of which is TAPS property), values are determined based upon the economic value, taking into account the estimated life of the proven reserves of gas or unrefined oil expected to be transported by the pipeline and replacement cost, less depreciation based on the economic life of the reserves.

Local governments may also levy a property tax on oil and gas properties at individual mill rates up to 20 mills using the assessed values determined by the State. Taxpayers receive a credit against the State oil and gas property tax for property taxes paid to municipalities on such property up to the amount of State tax that would otherwise be due. Of the \$477 million of property taxes collected in fiscal year 2011 on oil and gas property in the State, the State's share was approximately \$110.7 million.

Revenue from oil and gas property taxes is deposited into the General Fund; settlement payments received by the State after a property tax assessment dispute, however, are deposited into the Constitutional Budget Reserve Fund. For additional information see “—Government Funds—The Constitutional Budget Reserve Fund”.

Corporate Income Tax. Alaska levies a corporate income tax on Alaska taxable net income of companies doing business in Alaska (other than insurance companies that pay premium tax and other than S corporations and limited liability companies). Corporate income tax rates are graduated and range from

one percent to 9.4 percent of income earned in Alaska. Taxable income is generally calculated using the provisions of the federal Internal Revenue Code, and the calculation of Alaska taxable income varies, depending on whether the corporation does business solely in Alaska, does business both inside and outside Alaska or is part of a group of corporations that operate as a unit in the conduct of a single business (a “unitary” or “combined” group). Oil and gas companies are combined on a world-wide basis, although for other industries only the companies doing business in the United States are combined. Taxpayers may claim all federal incentive credits, but federal credits that refund other federal taxes are not allowed. In addition to the federal incentive credits, the State provides additional incentives, including an education credit for contributions made to accredited State universities or colleges for education purposes, a minerals exploration incentive, an oil and gas exploration incentive and a gas exploration and development tax credit.

Most corporate net income tax collections are deposited into the General Fund, although collections from corporate income tax audit assessments of oil and gas corporations (an estimated \$167.3 million in fiscal year 2011, compared to \$552.7 million in fiscal year 2010 and \$202.6 million in fiscal year 2009) are deposited into the Constitutional Budget Reserve Fund.

Oil and Gas Production Taxes. The State levies a tax on oil and gas production income generated from production activities in the State. In November 2007, the Legislature amended the oil and gas production tax statutes and adopted the Alaska Clear and Equitable Share (“ACES”) legislation. Under ACES, the tax on production is levied on all oil and gas production except for the federal and State royalty shares and except that a hazardous release surcharge (the revenues of which are for deposit to a restricted response fund) is levied only on crude oil production. The ACES tax is levied on the net value of oil and gas production (the volume of oil and gas produced, multiplied by the wellhead value), less the total of operating expenditures and capital expenditures, multiplied by the applicable tax rate and then minus credits for certain capital expenditures and certain transition expenditures.

The base tax rate under ACES is 25 percent, and the tax rate increases 0.4 percent for every dollar per-barrel (or the equivalent for natural gas) the net income exceeds \$30 per barrel. At \$92.50 per barrel, this progressive factor changes from 0.4 percent to 0.1 percent for every additional dollar of profit on a barrel up to a total tax rate of 75 percent. The ACES system authorizes a company to reduce its tax liability to the extent that it invests in equipment, projects or other items that are deemed to be “capital expenditures,” by expensing such costs immediately instead of capitalizing them. As an incentive to reinvest in Alaska, capital costs that exceed \$0.30 per barrel are eligible for an additional 20-percent credit against the company’s ACES liability but only if such costs are spread over two years. Higher credits of 30 or 40 percent are available as an incentive for exploration expenditures from certain qualifying projects. An additional credit of up to \$12 million base allowance is granted to companies that qualify as small producers.

Taxpayers are required under the ACES legislation to make monthly estimated payments, based upon activities of the preceding month, due on the last day of the following month and to file an annual tax return to “true up” any tax liabilities or overpayments made during the year. As an incentive for new exploration, companies without tax liability against which to apply credits available under the ACES tax may apply for a refund of the value of most of the credits. In fiscal year 2011 the State paid out \$450 million to companies claiming such credits. The ACES legislation also requires that the companies report the volumes and expenditures used to calculate their estimated monthly installments and requires the companies to provide semiannually to the Department of Revenue their best estimates of future oil production and lease expenditures.

Before August 2006 the production tax system was based upon the gross value of oil and gas at the point of production plus an economic limit factor. In August 2006, the Legislature adopted legislation that established a net income-based tax (the “Petroleum Profits Tax” or “PPT”), which

established new tax rates on oil and gas production, repealed the economic limit factor volume-based tax and provided credit for certain qualifying expenditures and taxpayers. The PPT was replaced by ACES in 2007. As shown in Table 2 below, the PPT and ACES resulted in an increase in production tax revenue to the State as compared to the earlier tax system.

All unrestricted revenue generated by the oil and gas production taxes (\$3.1 billion in fiscal year 2009, \$2.9 billion in fiscal year 2010 and \$4.5 billion in fiscal year 2011) is deposited into the General Fund, except that any payments received as a result of an audit assessment under the oil and gas production tax or as a result of litigation with respect to the tax are deposited into the Constitutional Budget Reserve Fund.

Oil and Gas Royalties, Rents and Bonuses. Approximately 99 percent of all current oil production in the State, including the reserves at Prudhoe Bay, is from State land leased for exploration and development. As the land owner, the State earns revenue from leasing as (i) upfront bonuses, (ii) annual rent charges and (iii) retained royalty interests in the oil and gas production. State land is leased based on a competitive bonus bid system. The State retains a royalty interest of at least 12.5 percent on oil and gas production from land leased from the State, although some leases contain royalty rates of up to 20 percent and some also include a net profit-share production agreement. The State reserves the right to take its royalty in cash or in-kind (according to a formula based upon spot prices plus a transportation charge). In fiscal year 2011, the State took approximately 33,000 royalty barrels per day of North Slope oil in-kind, which it sold to Flint Hills Resources Alaska, LLC refinery in Alaska.

In addition to royalties from production on State land, the State receives 50 percent of royalties and lease bonuses and rents received by the federal government from leases of federal lands in the NPR-A. The State also receives revenues from federal royalties and bonuses on all other federal lands located within State borders and federal royalties and lease bonuses and rents from certain federal waters at rates negotiated on a field by field basis.

As shown in Tables 2 and 3 below, a portion of the State's oil-related revenue, including oil and other royalty and bonus payments, is restricted revenue and is not available for general appropriations. See "—Government Funds." The State Constitution requires that a minimum of 25 percent (and State statutes currently require 50 percent for certain leases) of all mineral and oil and gas lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments and bonuses received by the State be deposited to the Permanent Fund. Alaska statutes also require that at least 0.5 percent of all royalties and bonuses be contributed to the Public School Fund Trust and that most settlements with or judgments involving tax and royalty disputes be deposited to the Constitutional Budget Reserve Fund. See "—Government Funds". In addition, the State is required to deposit its entire share of lease bonuses, rents and royalties from oil activity in the NPR-A to the NPR-A Special Revenue Fund, from which a portion is used to make grants to municipalities that demonstrate present or future impact from oil development in the NPR-A. Of the revenue in the NPR-A Special Revenue Fund that is not appropriated to municipalities, 50 percent is to be deposited to the Permanent Fund, with up to 0.5 percent to the Public School Trust Fund and then to the Power Cost Equalization Fund. Any remaining amount is then available for General Fund appropriations.

Table 2 summarizes the sources and uses of oil and other petroleum-related revenue for fiscal years 2002 through 2011.

Table 2

**Sources and Initial Applications of Oil and Other Petroleum-Related Revenue
Fiscal Years Ended June 30, 2002 - 2011
(\$ millions)**

	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011

- (1) The standard deduction provided under ACES for production in the Prudhoe Bay and Kuparuk fields expired on December 31, 2009.
- (2) Net of deposits to the Permanent Fund and the Constitutional Budget Reserve Fund. The Constitution requires the State to deposit at least 25 percent to the Permanent Fund, and between 1980 and 2003 Alaska statutes required the State to deposit at least 50 percent to the Permanent Fund. The statutory minimum was changed to 25 percent beginning July 1, 2003, and changed back to 50 percent as of October 1, 2008. See "The Alaska Permanent Fund."
- (3) Includes proceeds of royalties taken in-kind.
- (4) By federal statute, the State receives 50 percent of federal revenues from oil and gas lease sales located in the NPR-A. In fiscal year 1996, all then-existing NPR-A leases were terminated, relinquished or expired. The Federal Bureau of Land Management entered into new 10-year leases beginning in fiscal year 1999. The State received its first payment from these leases in fiscal year 2001.

Source: State of Alaska; Department of Revenue

Mineral Revenues. The minerals industry contributed approximately \$139.4 million in State revenues in fiscal year 2011, primarily corporate income tax (\$81.4 million), mining license taxes (\$49 million) and mining rents and royalties (\$9 million).

Corporate Income Tax. The corporate income tax is based on the share of U.S. net income apportioned to Alaska, based upon the share of a company's property, payroll and sales in the State. State revenue from the corporate income tax on net income of mining companies rose from \$41.1 million in fiscal year 2009 to \$81.4 million in fiscal year 2011.

Mining License Tax. The State's mining license tax is based on the net income of individual mines for all mining property in the State, whether or not mining occurs on State-owned land. New mining operations, except for sand and gravel, are exempt from the tax for the three and a half years after production begins. Tax rates are scaled from 0 percent to 7 percent depending upon net income, with the 7 percent rate applying to all net income over \$100,000. Revenue from this tax increased from \$18.6 million in fiscal year 2006 to \$79.1 million in fiscal year 2007, decreased to \$54.4 million in fiscal

year 2008 and decreased to \$15.5 million in fiscal year 2009, then rebounded to \$29.7 million in fiscal year 2010 and \$49 million in fiscal year 2011. Revenue from the mining license tax is deposited into the General Fund; settlement payments received by the State after a tax assessment dispute, however, are deposited into the Constitutional Budget Reserve Fund. See “—Government Funds—The Constitutional Budget Reserve Fund”.

Production Royalties and Annual Rentals. The State charges a production royalty on mining operations conducted on State-owned lands in the amount of three percent of net income. The State is required by statute to deposit 50 percent of total minerals royalties to the Permanent Fund and 0.5 percent to the Public School Trust Fund, although deposits of 25 percent, the constitutionally-mandated minimum, were required to be made between July 1, 2003 and October 1, 2008. The proposed Pebble mine and the new Pogo mine are on State land but most of the existing mines are not. In fiscal year 2011, the State received \$9 million in royalty income, principally from coal royalties and rentals. See “—Government Funds—The Alaska Permanent Fund”.

Other Non-Oil and Non-Mineral Revenues. The State also receives unrestricted and restricted General Fund revenues from activities unrelated to petroleum and mining production. The State receives revenues from corporate income taxes paid by corporations other than petroleum producers and mining companies, cigarette/tobacco income taxes, motor fuel taxes, alcoholic beverage taxes, fishery business taxes, electric and telephone cooperative taxes, insurance premium taxes, commercial passenger vessel excise taxes and service charges, permit fees, fines and forfeitures, and miscellaneous revenues. As described below, some of these revenues are restricted (approximately \$467.3 million in fiscal year 2011) and must be shared with municipal governments or are otherwise restricted, but many are unrestricted and available for appropriation. In fiscal year 2011, \$272.3 million of such taxes and approximately \$116 million of service charges, fees and other non-tax revenues were unrestricted and available for appropriation.

Corporate Income Tax and Insurance Premium Tax. In addition to corporate income taxes paid by mining companies and by oil and gas producers, the State collected approximately \$76.3 million of other corporate income taxes in fiscal year 2011. Insurance companies doing business in Alaska pay a premium tax instead of paying corporate income tax or sales tax. Unrestricted revenues from insurance premium taxes totaled approximately \$49.6 million in fiscal year 2011.

Cigarette/Tobacco Income Tax. The State levies a tax on cigarettes imported into the State for sale or personal consumption. The cigarette tax is paid through the purchase of cigarette tax stamps, which must be affixed to every pack of cigarettes imported into the State for sale or personal consumption. The tax rate on cigarettes was increased from \$1.60/pack to \$1.80/pack on July 1, 2006 and to \$2.00/pack on July 1, 2007. \$0.76/pack from the cigarette tax is deposited to the Public School Trust Fund, together with cigarette and other tobacco products license fees. The remaining \$1.24/pack is deposited into the General Fund, with 8.9 percent of that amount going to the Tobacco Use Education and Cessation Fund, a subfund of the General Fund. In addition, the State levies a tax on other tobacco products imported into the State for sale, at a rate of 75 percent of the wholesale price, which is the established price at which a manufacturer sells other tobacco products to a distributor. All proceeds from the other tobacco products tax go to the General Fund.

Approximately \$23.2 million of revenue from cigarette taxes and from the tobacco products taxes was deposited into the Public School Trust Fund in fiscal year 2011 to be used for the rehabilitation, construction, repair and associated insurance costs of State school facilities. Cigarette tax revenue deposited in the Tobacco Education and Cessation Fund in fiscal year 2011 was \$3.4 million, and remaining General Fund cigarette tax revenue was \$34.8 million. In addition, the General Fund received \$11.7 million in other tobacco products tax revenue in fiscal year 2011.

Motor Fuel Taxes. The State generally levies a motor fuel tax at rates that vary from 3.2 cents per gallon for jet fuel to 8 cents per gallon for highway use, on almost all motor fuel sold, transferred or used within Alaska. Aviation-related fuel is restricted to airport-related uses, and 60 percent of aviation fuel taxes attributed to aviation fuel sales at municipal airports is shared with the municipalities (\$100,000 in fiscal year 2009) and are also restricted. The motor fuel tax, which generated approximately \$41.8 million in fiscal year 2008, was suspended by the Legislature for one year beginning September 1, 2008. As a result of the suspension, motor fuel tax revenue was \$10.1 million for fiscal year 2009. The tax suspension ended effective September 1, 2009. In fiscal year 2010, the unrestricted motor fuel tax generated \$28.8 million, and in fiscal year 2011 it produced \$39.5 million.

Fishery Business Taxes. The State imposes a number of fishery-related taxes and fees, including a fisheries business tax charged to fish processors (one percent to five percent of the value of raw fish) and a fishery resource landing tax of from one percent to three percent on the value of fish landed in Alaska but processed outside State boundaries. Proceeds from these fishery taxes are shared with qualified municipalities. The State's share of these fishery taxes in fiscal year 2010 was \$22.4 million and in fiscal year 2011 was \$22.8 million.

Federal Revenue. The federal government is a significant employer in Alaska, directly and indirectly, as a result of procurement contracts, grants and other spending. In addition to expenditures in connection with federal military bases and other activities in Alaska, the State receives funding from the federal government (approximately \$2.4 billion in fiscal year 2011 and \$2.4 billion in fiscal year 2010) for road and airport improvements, as aid to schools and Medicaid payments, all of which payments vary in amount and are restricted by legislative appropriation to specific uses. In general, federal funds are paid on a reimbursement basis and are subject to audit.

Investment Income. The State earns unrestricted and restricted investment earnings from a number of internal funds. Two primary sources of investment income for the State are two Constitutionally-mandated funds, the Permanent Fund and the Constitutional Budget Reserve Fund. The Permanent Fund had a fund balance (principal and the earnings reserve) of approximately \$41.6 billion as of June 30, 2011, compared to \$33.3 billion as of June 30, 2010, \$29.9 billion as of June 30, 2009 and \$36.5 billion as of June 30, 2008. The Constitutional Budget Reserve Fund had a fund balance of approximately \$10.3 billion as of June 30, 2011, compared to \$8.7 billion as of June 30, 2010, \$8.3 billion as of June 30, 2009 and \$5.6 billion as of June 30, 2008. Unrestricted, realized investment income from balances in both funds are available for appropriations, and as described below, the State borrows from the Constitutional Budget Reserve Fund when needed to address mismatches between revenue receipts and expenditures in the General Fund and/or to balance the budget at the end of the fiscal year. See "Government Funds – The Constitutional Budget Reserve Fund" and "—The Alaska Permanent Fund".

Although not as significant, the General Fund also receives the earnings on the Statutory Budget Reserve Fund, with a balance of \$2.6 billion as of June 30, 2011. See "Government Funds – The Statutory Budget Reserve Fund".

In addition to investment income from the above-described funds, the State receives investment income (including interest paid) from investment of other, unrestricted funds (\$96.3 million in fiscal year 2011, \$183.9 million in fiscal year 2010 and \$247.6 million in fiscal year 2009). See "—Government Budgeting and Government Funds."

Major Components of State Revenues. Table 3 summarizes the sources of unrestricted and restricted revenues available to the State in fiscal years 2002 through 2011

Government Budgets and Appropriations

The State is limited by its Constitution and statutes and by policy in how it manages its funds and, as in other states, no funds, regardless of source, may be spent without an appropriation from the Legislature.

Budgets. The State’s fiscal year begins on July 1 and ends on the following June 30. The Constitution requires the Governor to submit to the Legislature by December 15 a budget for the next fiscal year, setting forth all proposed expenditures and anticipated income of all departments, offices and agencies of the State, and to submit bills covering recommendations in the budget for new or additional revenues. The Constitution prohibits the withdrawal from the treasury of any funds, regardless of source, without an appropriation, and so the Governor’s proposed budget and the Legislature’s appropriation bills include federal and other funds as well as funds generated by the State. In addition to the annual budgets described below, the Governor is required by statute to prepare a six-year capital budget covering the succeeding six fiscal years and beginning in fiscal year 2010, is required by statute to prepare a 10-year fiscal plan with estimates of significant sources and uses of funds, including among other requirements, operating expenditures, capital expenditures and debt service expenditures. To assist the Governor in preparing budgets and fiscal plans, the Tax Division of the Department of Revenue prepares forecasts of all anticipated revenues. See “—Government Funds” and —“General Fund Forecasts.”

General Appropriations. The Governor is required to submit three budgets — an operating budget, a mental health budget and a capital budget — by December 15 and to introduce the budgets and appropriation bills formally to the Legislature in January by the fourth day of the regular Legislative session. The appropriation bills, with any changes made by the House Finance Committee, are voted upon first by the House of Representatives, which can amend the bills. The bills approved by the House of Representatives are then voted upon and may be amended by the Senate. Often a conference committee of three members from each house is required to work out differences between the House-

approved bills and the Senate-approved bills. The new versions are then submitted to both houses for final votes. Once enacted by both houses, the appropriations bills are delivered to the Governor for signature. The Governor may veto one or more of the appropriations made by the Legislature in an appropriations bill (a “line-item veto”). The Legislature may override a veto by the Governor, and either the Governor or the Legislature may initiate supplemental appropriations during the fiscal year to deal with new or changed revenue receipts, to correct errors or for any other reason.

The Governor has the ability to prioritize or restrict expenditures, redirect funds within an operating appropriation to fund core services, and expend unanticipated federal funds or program receipts. Historically, Alaskan Governors have placed restrictions on authorized expenditures during years when actual revenues were less than forecast and budgeted. Expenditure restrictions have included deferring capital expenditures, State employment hiring freezes, and restrictions on allowed non-core operating expenses.

The Legislature must appropriate to create the authority to expend General Fund revenue. If an expenditure of General Fund revenue is required mid-budget cycle, a special session of the Legislature would be required to provide the authority to expend.

Debt-Related Appropriations. The Governor’s proposed appropriations bills include separate subsections for appropriations for State debt and other subject-to-appropriation obligations and specify the sources of funds to pay such obligations. Pursuant to AS 37.15.012, if such appropriation is insufficient to fully pay amounts due on the State debt, the necessary additional amounts are appropriated from the General Fund to the Committee to make all required payments of principal, interest and redemption premium on the State debt.

Appropriation Limits. The Constitution does not limit expenditures but does provide for an appropriation limit and reserves one-third of the amount within the limit for capital projects and loan appropriations. Because State appropriations have never approached the limit, the reservation for capital projects and loan appropriations has not been a constraint. The appropriation limit does not include appropriations for Permanent Fund dividends described below, appropriations for revenue bond proceeds, appropriations to pay general obligation bonds or appropriations of funds received in trust from a non-State source for a specific purpose. In general, under the Constitution, appropriations that do not qualify for an exception may not exceed \$2.5 billion by more than the cumulative change, derived from federal indices, in population and inflation since July 1, 1981. For fiscal year 2011, the appropriations limit was approximately \$8.97 billion.

Government Funds

Because the State is dependent upon taxes, royalties, fees and other revenues that can be volatile, the State has developed a number of long-term and short-term options to address cashflow mismatches and budgetary deficits. In addition to the General Fund, some of these include using earnings from the Permanent Fund, borrowing from the Constitutional Budget Reserve Fund and/or from the Statutory Budget Reserve Fund, reducing State expenditures, transferring spending authority among line items, providing additional incentives to develop petroleum or mining resources, reinstating a State personal income tax and instituting a State sales tax. Most of these options, including the imposition of personal income taxes or sales taxes, would require action by the Legislature.

Often, when the State expects it will receive revenues in an amount greater than the amount originally budgeted, the State prefunds deposits required for the following fiscal year. During the last five fiscal years, for example, the State “forward-funded” deposits in a total amount of \$4.9 billion to pay for education, municipal revenue sharing, rural power cost reduction, and retirement system deposits. The fiscal year 2012 education operational budget was funded from prior year revenues.

The General Fund. The Constitution provides that with three exceptions, the proceeds of State taxes or licenses “shall not be dedicated to any special purpose.” The three exceptions are when required by the federal government for State participation in federal programs, any dedication existing before statehood and moneys to be placed in the Permanent Fund. As a result of these Constitutional provisions, most State revenue is deposited to the General Fund, which serves as the State’s primary operating fund and accounts for most of the State’s unrestricted financial resources. The State has, however, created more than 55 subfunds and “cash pools” within the General Fund to account for funds allocated to particular purposes or reserves, including the Constitutional Budget Reserve Fund; a Statutory Budget Reserve Fund, created by the Legislature in 1986; an Alaska Capital Income Fund, created in 2005; and a debt retirement fund.

In terms of long-term and short-term financial flexibility, the Constitutional Budget Reserve Fund and the Statutory Budget Reserve Fund (subfunds within the General Fund) and the Permanent Fund Earnings Reserve (part of the Permanent Fund) are of particular importance to the State. To balance revenues and expenditures in a time of financial stress, each of these funds can be drawn upon, either immediately, in the case of the Constitutional Budget Reserve Fund following a year-over-year revenue decline, or by a vote of the Legislature and with the approval of the Governor (by a three-quarters majority vote in the case of appropriations from the Constitutional Budget Reserve Fund and by a simple majority vote in the case of appropriations from the Statutory Budget Reserve Fund and from the Permanent Fund Earnings Reserve).

The Constitutional Budget Reserve Fund. The Constitution requires that oil and gas dispute-related revenue be deposited to the Constitutional Budget Reserve Fund. The Constitution provides that other than money required to be deposited to the Permanent Fund, all money received by the State after July 1, 1990 as a result of the termination, through settlement or otherwise, of an administrative proceeding or of litigation involving mineral lease bonuses, rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments or bonuses or involving taxes imposed on mineral income, production or property, are required to be deposited in the Constitutional Budget Reserve Fund. Money in the Constitutional Budget Reserve Fund may be appropriated (i) for any public purpose, upon the affirmative vote of three-fourths of the members of each house of the Legislature; or (ii) if the amount available to the State for appropriation for a fiscal year is less than the amount appropriated for the previous fiscal year. The Constitution also provides that until the amount appropriated from the Constitutional Budget Reserve Fund is repaid, excess money in the General Fund at the end of each fiscal year must be deposited in the Constitutional Budget Reserve Fund.

The State historically has borrowed from the Constitutional Budget Reserve Fund as part of its cash management plan to address timing mismatches between revenues and disbursements within a fiscal year and also to balance the budget when necessary at the end of the fiscal year. The Legislature last appropriated funds from the Constitutional Budget Reserve Fund in fiscal year 2005. As of June 30, 2009, the balance owed by the General Fund to the Constitutional Budget Reserve Fund was completely repaid and there have been no draws or appropriations from the Constitutional Budget Reserve Fund in fiscal years 2010 or 2011.

The balance in the Constitutional Budget Reserve Fund as of June 30, 2011 was \$10.3 billion.

The Statutory Budget Reserve Fund. The Statutory Budget Reserve Fund has existed in the State’s accounting structure since 1986. The Statutory Budget Reserve Fund is available for use for legal purposes with a simple majority vote of the Legislature and with approval by the Governor. In fiscal year 2008, the Legislature authorized the transfer to the Statutory Budget Reserve Fund of \$1.0 billion. In addition, in fiscal year 2010, approximately \$198 million was deposited into the Statutory Budget Reserve Fund and approximately \$1.44 billion was deposited in fiscal year 2011. As of June 30, 2011, the balance in the Statutory Budget Reserve Fund was \$2.6 billion. The Legislature did not authorize any

expenditures from the Statutory Budget Reserve Fund for fiscal year 2012. Earnings on the Statutory Budget Reserve Fund flow to the General Fund.

The Alaska Permanent Fund. The Permanent Fund was established by a voter-approved Constitutional amendment that took effect February 21, 1977. The amendment provides that “at least twenty-five percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments and bonuses received by the State shall be placed in a permanent fund, the principal of which shall be used only for those income-producing investments specifically designated by law as eligible for permanent fund investments” and that “all income from the permanent fund shall be deposited in the General Fund unless otherwise provided by law.”

In 1980, legislation was enacted that provided for the management of the Alaska Permanent Fund by the Alaska Permanent Fund Corporation, a public corporation and government instrumentality within the Department of Revenue, managed by a board of trustees. The same legislation modified the contribution rate to the Permanent Fund from 25 percent (the minimum constitutionally mandated contribution) to 50 percent of all mineral lease rentals, royalties, royalty sale proceeds, net profit shares, federal mineral revenue sharing payments and bonuses received by the State from mineral leases issued after December 1, 1979 or, in the case of bonuses, after May 1, 1980. The statutory contribution rate was changed back to 25 percent by legislation as of July 1, 2003 but then returned to 50 percent as of October 1, 2008. For fiscal year 2011, State revenues deposited into the Permanent Fund were \$887 million compared to \$679 million in fiscal year 2010. In addition to these constitutionally and statutorily mandated transfers to the Permanent Fund, the Legislature has made special appropriations from the General Fund to the Permanent Fund several times, totaling approximately \$2.7 billion as of June 30, 2011.

Pursuant to legislation enacted in 1982, annual appropriations are made from the earnings reserve of the Permanent Fund in accordance with appropriations, first for dividends and then for inflation-proofing. Between 1982 and 2011, \$18.2 billion of dividends (\$1,174 per person in fiscal year 2011) were paid to Alaska residents and \$13.3 billion of Permanent Fund income has been added to principal for inflation proofing purposes (for fiscal year 2011 the inflation proofing transfer was \$533 million, while for fiscal year 2010 the inflation calculation was -0.35 percent, therefore there was no inflation proofing transfer). In addition to the statutorily directed inflation proofing transfers, the Legislature has made special appropriations from the earnings reserve to the principal of the Permanent Fund, totaling approximately \$4.2 billion as of June 30, 2011.

If any income remains after these transfers (except the portion transferred to the Alaska Capital Income Fund as described below), it remains in the Permanent Fund’s earnings reserve as undistributed income. The Legislature may appropriate funds from the earnings reserve at any time for any other lawful purpose. The principal portion of the Permanent Fund (\$37.8 billion as of June 30, 2011, up from \$32.0 billion as of June 30, 2010) may not be spent without amending the State Constitution. The earnings reserve portion of the Permanent Fund (\$2.3 billion as of June 30, 2011, up from \$1.2 billion as of June 30, 2010) may be spent with a simple majority vote of the Legislature. The Permanent Fund is valued at approximately \$36.7 billion as of November 25, 2011.

During fiscal years 1990 through 1999, the Permanent Fund received dedicated State revenues from settlements of a number of North Slope royalty cases (known collectively as *State v. Amerada Hess, et al.*). The total of the settlements and retained income thereon, as of June 30, 2011, is approximately \$424.4 million. Earnings on the settlements are excluded from the dividend calculation in accordance with State law and beginning in 2005, the settlement earnings have been appropriated to the Alaska Capital Income Fund, a subfund within the General Fund. Funds in the Alaska Capital Income Fund and interest thereon (approximately \$20.8 million in fiscal year 2010) are unrestricted and have been appropriated for capital expenditures.

Table 4 summarizes the sources and uses of funds available for appropriation in fiscal years 2002 through 2011. The amounts shown in the column entitled “Recurring and Discretionary General Fund Expenditures” exclude amounts expended to satisfy funding requirements of the succeeding fiscal year.

General Fund Forecasts

The State regularly prepares General Fund financial forecasts for planning and budgetary purposes. Table 5 provides a summary of the State’s most recent revenue and expenditure forecasts, including forecast beginning and ending balances of available funds in the Constitutional Budget Reserve Fund and in the Statutory Budget Reserve Fund through 2021 and forecast oil prices and production levels during the same time period.

Of necessity, such forecasts include assumptions about events that are not within the State’s control. The forecast oil production volumes include only production on State land and only current production and production expected from projects currently under development or evaluation on State land. Similarly, the forecast does not include any revenues that could be received if a natural gas pipeline is constructed. In making its forecasts, the State makes assumptions about, among other things, the demand for oil and national and international economic factors and assumes that the Legislature will not amend current laws to change materially the sources and uses of State revenue and that no major calamities such as earthquakes or catastrophic damage to TAPS will occur. Actual revenues and expenditures will vary, perhaps materially, from year to year, particularly if any one or more of the assumptions upon which the State’s forecasts are based proves to be incorrect or if other unexpected events occur. See “—Government Funds” for a description of some of the actions the State can take when revenues prove to be lower than expected.

(1) Recurring and Discretionary General Fund Expenditures: Office of Management and Budget Enacted FY 2012 Budget, Governor's Budget for FY 2013, followed by 4% annual budget growth.

In addition to the balances in the Constitutional Budget Reserve Fund and Statutory Budget Reserve Fund shown above, the State also expects to hold the future value of the \$37.8 billion currently in the Permanent Fund. The forecasts show that no withdrawals from the Permanent Fund Earnings Reserve would be required for budgetary purposes during this time period.

General Fund Expenditure Trends

From fiscal year 2002 through fiscal year 2011, recurring General Fund expenditures have grown by an average of 12 percent annually. Although General Fund expenditures have increased by a greater percentage since fiscal year 2005, a significant portion of the increase in expenditures was for savings, to forward-fund future fiscal year obligations and to make targeted investments. Table 6 summarizes these expenditures from fiscal year 2007 through fiscal year 2011. "Savings" include deposits to the Statutory Budget Reserve Fund and the Constitutional Budget Reserve Fund, two of the State's most accessible reserve accounts. "Investments" include discretionary capital expenditures and supplemental operating expenditures (over \$200 million annually) as well as direct payments and any credits to oil companies to underwrite a portion of exploration and development costs. The direct payments to oil exploration and development companies are intended as incentives to encourage more oil exploration activity with the intended result being an increase in oil production in the future. The expenditures under "Fund Future Obligations" include a number of expenditures designed to relieve the State of certain future obligations, such as annual deposits to the retirement systems to reduce the unfunded accrued actuarial liabilities; deposits to the Public Education Fund to set aside in advance in excess of a full year's State K-12 education expenditures; funding of the Power Cost Equalization Fund Endowment, a program that underwrites a portion of the cost of rural consumer energy use; the Revenue Sharing Fund, a program that shares with local municipalities a portion of the State's resource income; and deposits to the Alaska Capital Income Fund, a fund set aside for future capital projects that could include the costs associated with developing a natural gas pipeline.

Source: State of Alaska

Other Funds Maintained by the State

The State maintains other types of funds, such as Enterprise Funds, Trust and Agency Funds, Capital Project Funds and Special Revenue Funds.

Enterprise Funds are operated by the State for “self-supported” activities that provide goods and/or services to the public on a charged payment basis. The International Airports Revenue Fund and a number of State loan program funds are Enterprise Funds.

Trust and Agency Funds are maintained to account for assets held by the State acting in the capacity of custodian or fiduciary agent. In addition to the Permanent Fund and the retirement systems funds, major funds in this category include the Public School Trust Fund, the Mental Health Trust Fund, the Alaska Children’s Trust Fund, the Power Cost Equalization Endowment and the University of Alaska Endowment.

Capital Projects Funds account for the use of the proceeds of general obligation bond issues and matching federal funds for capital outlays. In general, all capital outlay projects are accounted for through Capital Projects Funds except capital projects being financed by the General Fund through direct appropriations and capital projects financed with moneys in the International Airports Revenue Fund.

Special Revenue Funds are maintained in connection with the State’s issuance of revenue bonds, such as revenue bonds issued by the Alaska International Airports System and the Sport Fishing Revenue Bonds.

Public Debt and Other Obligations of the State

State debt includes general obligation bonds and revenue anticipation notes, and State-supported debt includes lease-purchase financings and revenue bonds. The State also provides guarantees and other support for certain debt and operates a school debt and capital project debt reimbursement program. These programs do not constitute indebtedness of the State but do provide, annually on a subject-to-appropriation basis, financial support for general obligation bonds of State agencies and political subdivisions.

Outstanding State Debt. State debt includes general obligation bonds and revenue anticipation notes. The State Constitution provides that general obligation bonds must be authorized by law and be ratified by the voters and permits authorization of general obligation bonds only for capital improvements. The amount and timing of a bond sale must be approved by the State Bond Committee.

For both general obligation bonds and revenue anticipation notes, the full faith, credit and resources of the State are pledged to the payment of principal and interest. If future State revenues are insufficient to make the required principal and interest payments, the State is legally required to raise taxes to provide sufficient funds for this purpose. \$643.77 million of general obligation bonds were outstanding as of June 30, 2011. See “—Summary of Outstanding Debt” and Tables 7 – 9 below.

On November 4, 2008, the voters approved \$315,050,000 in general obligation bonds for the purpose of design and construction of certain transportation projects. Of this amount, \$165 million aggregate principal amount of bonds were issued in 2009. The remaining \$150,050,000 of authorization for transportation projects was rescinded by appropriation of current year revenues in the fiscal year 2012 capital budget. No additional bonds will be issued by the State to fund these projects.

On November 2, 2010, voters approved \$397,200,000 in general obligation bonds for the purpose of design and construction of library, education and educational research facilities. The State issued \$200,000,000 of these bonds in 2010, and expects that a portion of the \$197,200,000 of remaining authority will be issued during fiscal 2013, depending upon project cash flow requirements.

The following other debt and debt programs of the State were outstanding as of June 30, 2011, except as otherwise noted.

State Guaranteed Debt. The only purpose for which State guaranteed debt may be issued is for payment of principal and interest on revenue bonds issued for the Veterans Mortgage Program by the Alaska Housing Finance Corporation for the purpose of purchasing mortgage loans made for residences of qualifying veterans. These bonds are general obligation bonds of the State, and they must be authorized by law, ratified by the voters and approved by the State Bond Committee. These bonds are known as “double-barrel bonds” because there are two distinct forms of security behind the bonds. The principal source of payment is the revenue stream generated by payments on the mortgage loans made from bond proceeds. Additional security to bondholders is provided by the general obligation pledge of the State to make the required debt service payments in the event that pledged revenues from mortgage repayments are insufficient. Approximately \$244.8 million of State guaranteed debt was outstanding as of June 30, 2011. On November 7, 2010 the voters approved an additional \$600 million of State guaranteed veteran’s mortgage bonds, and the total current unissued authorization is \$695.1 million.

State Supported Debt. State supported debt is debt for which the ultimate source of payment is, or may include, appropriations from the General Fund. The State does not pledge its full faith and credit to State-supported debt, but another public issuer may have pledged its full faith and credit to it. State supported debt is not considered “debt” under the Constitution, because the State’s payments on this debt are subject to annual appropriation by the Legislature. Voter approval of such debt is not required. State supported debt includes lease-purchase financing obligations (including lease revenue capital lease bonds and certificates of participation issued by lessors of facilities used by the State) and the share of municipal general obligation bonds issued for school construction and other capital projects that is reimbursable by the State on a subject to appropriation basis. Approximately \$1,209.3 million of State supported debt was outstanding as of June 30, 2011. As of June 30, 2011, the State was obligated on \$39.6 million of lease purchase financing obligations, \$315.6 million of capital lease bonds and \$28.2 million of capital project reimbursement. As of June 30, 2011, the State was reimbursing local municipalities on the debt service of \$825.9 million of bonds under the school reimbursement program. The State defeased \$20.6 million of the Anchorage Jail capital lease obligation in October 2011. Certificates of Participation totaling \$22 million for the Alaska Psychiatric Institute, the Seafood Safety Lab and the Virology Lab were defeased in November 2011.

State Moral Obligation Debt. State moral obligation debt consists of bonds issued by certain State agencies or authorities that are secured, in part, by a debt service reserve fund benefited by a

discretionary replenishment provision that permits, but does not legally obligate, the Legislature to appropriate to the particular State agency or authority the amount necessary to replenish the debt service reserve fund up to its funding requirement (generally the maximum amount of debt service required in any year). State moral obligation debt is payable in the first instance by revenues generated from loan repayments or by the respective projects financed from bond proceeds. Among those State agencies that have the ability to issue State moral obligation debt are: Alaska Aerospace Development Corporation (“AADC”) which has not issued any debt; Alaska Energy Authority (“AEA”); Alaska Housing Finance Corporation (“AHFC”); Alaska Industrial Development and Export Authority (“AIDEA”); Alaska Municipal Bond Bank (“AMBB”); and Alaska Student Loan Corporation (“ASLC”). Approximately \$1,128.0 million of State moral obligation debt was outstanding as of June 30, 2011.

State and University Revenue Debt. This type of debt is issued by the State or by the University of Alaska but is secured only by revenues derived from projects financed from bond proceeds. Revenue debt is not a general obligation of the State or of the University and does not require voter approval. Such debt is authorized by law and issued by the State Bond Committee or the University of Alaska for projects approved by the Commissioner of Transportation and Public Facilities or the University of Alaska. This type of debt includes Sportfish Revenue Bonds, International Airports Revenue Bonds, various University Revenue Bonds and Notes and Toll Facilities Revenue Bonds. A total of \$746.4 million of revenue bonds, including \$114.5 million of University of Alaska Revenue Bonds, Notes and Contracts, \$51.8 million of Sportfish Revenue Bonds and \$580.1 million of airport revenue bonds were outstanding as of June 30, 2011. On December 8, 2011, the State issued \$28.38 million principal amount of Sport Fishing Revenue Refunding Bonds to refund \$32.165 million aggregate principal amount of the State’s outstanding Sportfish Revenue Bonds.

State Agency Debt. State agency debt is secured by revenues generated from the use of bond proceeds or the assets of the agency issuing the bonds. This debt is not a general obligation of the State nor does the State provide security for the debt in any other manner, i.e., by appropriations, guarantees, or moral obligation pledges. As of June 30, 2011, there was \$818.1 million principal amount of State agency debt outstanding comprised of \$87.0 million AHFC obligations; \$10.8 million AMBB Coastal Energy Bonds payable to the National Oceanic and Atmospheric Administration; \$172.8 million Alaska Railroad Notes; \$374.9 million of obligations of the Northern Tobacco Securitization Corporation; and \$172.6 million ASLC obligations.

State Agency Collateralized or Insured Debt. As security for State agency collateralized or insured debt, the particular State agency pledges mortgage loans or other securities as primary security which, in turn, may be 100 percent insured or guaranteed by another party with a superior credit standing. This upgrades the credit rating on the debt and lowers the interest cost and makes it less likely that the State will assume responsibility for the debt. At June 30, 2011, the total principal amount outstanding of State agency collateralized or insured debt was approximately \$2,683.8 million comprised of approximately \$2,504.4 million issued by AHFC and \$179.4 million issued by AIDEA.

Through the Alaska Pension Obligation Bond Corporation, the State is authorized to issue up to \$5 billion of bonds and/or enter into contracts to finance the payment by governmental employers of their share of the unfunded accrued actuarial liabilities (“UAALs”) of the retirement systems. The State currently has no plans to issue pension obligation bonds. See also “STATE PENSION AND OTHER POST-EMPLOYMENT BENEFIT RESPONSIBILITIES” below.

Summary of Outstanding Debt. Table 7 lists, by type, the outstanding State-related debt as of June 30, 2011. There have been no general obligation bonds issued by the State since June 30, 2011. Since June 30, 2011, the State applied \$49 million of cash to defease \$42.6 million principal amount of State-supported debt. In addition, on December 8, 2011, the State issued \$28.38 million principal amount of Sport Fishing Revenue Refunding Bonds to refund \$32.165 million aggregate principal amount of the

State's Sportfish Revenue Bonds. Other categories of debt have not been compiled beyond June 30, 2011.

(1) University debt owed to AHFC is double counted in detail, but eliminated from Total Alaska Public Debt.

(2) Reimbursable school G.O. debt is included in "State Supported Debt"; Capital Leases are included in "State Agency Collateralized or Insured Debt and Municipal Debt"; State Reimbursement of Capital Projects is included in "University and Municipal Debt."

Source: State of Alaska.

General Fund Supported Obligations. General Fund support is pledged and required for only a portion of the total outstanding Alaska Public Debt. General Obligation Bonds are unconditionally supported, and Certificates of Participation and Capital Leases are subject-to-appropriation commitments with associated obligations. The School Debt and Capital Project Reimbursement Programs provide discretionary annual payments to municipal issuers for qualified general obligation bonds that are eligible by statute to participate in the programs. Over the last 20 years, the State has fully funded these programs. Tables 8 and 9 show the historical level of support the State has provided from the General Fund for these outstanding obligations and the forecast support required to retire the outstanding obligations.

- (1) State G.O. debt service is net of federal subsidies for interest expenses from 2012 through 2034. The Table does not reflect the results of this refunding Bond issue. Debt service shown on this schedule includes debt service on the Refunded Bonds, and excludes debt service on the Bonds and any other unissued general obligation bond authorizations.
- (2) On November 23, 2011, \$20.1 million of optionally redeemable COPs were defeased.
- (3) There are two prisons, a building and a parking garage financed with capital leases. On September 28, 2011, \$20.615 million of optionally redeemable Capital Lease Obligations were defeased.
- (4) Information as of June 30, 2011, provided by the Department of Education & Early Development.
- (5) Fiscal Year 2012 – Fiscal Year 2032 payments are estimated. Totals may not add due to rounding.

Source: *State of Alaska*

Payment History. The State has never defaulted on its bond obligations nor has it ever failed to appropriate funds for any outstanding lease obligations.

State Debt Capacity. The State has historically used the ratio of debt service to revenue as a guideline for determining debt capacity of the State. This policy was established due to the State's relatively small population and high per capita revenue due to oil resource-generated revenue. Historically the State's policy has been that debt service should not exceed five percent of unrestricted revenue when considering only general obligation bonds, certificates of participation and the University of Alaska bonds that are State supported. More recently, the State has included more discretionary General Fund supported obligations and programs, including the School Debt Reimbursement Program, the Capital Project Reimbursement Program and certain capital leases. With the more inclusive funding, the State's policy was amended to allow the annual payments on these items to range up to eight percent of unrestricted revenue. Using the official Fall 2011 State revenue forecast, the historical and projected ratio of debt service on outstanding obligations to unrestricted revenue is shown in Table 10.

STATE PENSION AND OTHER POST-EMPLOYMENT BENEFIT RESPONSIBILITIES

General

The State, through the Department of Administration, administers five retirement systems and also a healthcare trust, a deferred compensation plan and a supplemental annuity plan. The two largest retirement systems are Teachers' Retirement System ("TRS") and Public Employees' Retirement System ("PERS"). Smaller systems are the Alaska National Guard and Naval Militia Retirement System (the "Military System") and the Judicial Retirement System ("JRS"). The fifth system, the smallest, is the Elected Public Officers Retirement System (the "EPORS"), which provides benefits to elected officials who served in 1976.

PERS and TRS each had funding ratios in excess of 100 percent (*i.e.*, were "overfunded") as recently as 2001. Since that time, as a result of investment losses, recalibration of other post-employment benefit ("OPEB") liabilities and changes in actuarial assumptions and valuation methods, PERS and TRS each has had an unfunded accrued actuarial liability (a "UAAL") and increasing actuarially required employer contribution rates. The Military System and JRS, although much smaller systems, also had UAALs until June 30, 2008, when the Legislature made additional contributions in amounts calculated to eliminate the entire UAAL of each of the Military System and JRS as of June 30, 2006. The State maintains EPORS as a cash-funded, pay-as-you go arrangement and pays benefits each year as they arise. No assets are set aside to pay EPORS benefit costs.

The ARM Board

The Alaska Retirement Management (ARM) Board is the fiduciary for funds of three of the retirement systems: TRS, PERS and the Military System and oversees investments of all of the systems. The ARM Board's mission is to serve as the trustee of the assets of the State's retirement systems, the State Supplemental Annuity Plan, the deferred compensation program for State employees and the Retiree Healthcare Trusts.

Administration of the Systems

The Commissioner of the Department of Administration or the Commissioner's designee is the administrator, and the Attorney General is the legal counsel, for each of the State's retirement systems. The Treasury Division of the Department of Revenue provides investment and cash management services, together with 55 external money managers and consultants, for the ARM Board and for each of the retirement systems.

Valuation Reports

PERS and TRS are funded by a combination of mandatory employee contributions at rates that are determined by statute, investment income and employer contributions at rates determined by the ARM Board based upon recommendations of the actuary in its valuation reports. State law requires that actuarial valuation reports be prepared annually for TRS and PERS and that the work of the actuary be reviewed by a second, independent actuary. State law requires in addition that every four years a different independent actuary be retained to conduct a separate, complete valuation for comparison purposes.

Employer Contribution Rates. Employer contribution rates are determined by the ARM Board and are based upon State law, administrative regulations and the actuary's recommended employer contribution rates based upon results of the actuary's valuations. Individual employer rates represent a percentage of payroll based upon (i) the consolidated normal cost (a uniform rate for all employers within a specific pension program (e.g., PERS and TRS) calculated to reflect the cost of benefits accruing in the

applicable fiscal year, less the value of the employees' contributions during that year), plus (ii) the individual employer's share of the program's UAAL.

Employee Contributions. Employee contributions are established by statute and vary for each program and for tiers within a program. Employees may also make additional, voluntary contributions, which are accounted for separately.

The Public Employees Retirement System

General. PERS, formed in 1961, is the largest of the State's retirement systems with 160 employers comprising three State entities, 77 municipalities, 53 school districts and 27 other public entities. The three State entities represent approximately 50% of active PERS members. PERS is a cost-sharing, multiple employer plan composed of both a defined benefit ("DB") plan and a defined contribution ("DC") plan. Membership in either plan is dependent upon the participant date of hire. The PERS DB plan was closed to all new members effective July 1, 2006.

At June 30, 2010, the PERS DB membership consisted of 26,442 active members and 26,237 retirees and beneficiaries and the PERS DC membership consisted of 9,716 active members. PERS provides pension and other post-employment benefits, death and disability benefits prior to retirement and death benefits and survivor benefits after retirement, in a combination of defined benefit (Tiers 1, 2 and 3) and defined contribution (Tier 4) plans. PERS also provides a voluntary savings plan and beginning in fiscal year 2007 is funding costs of healthcare benefits through the separate Retiree Healthcare Trust within PERS. Membership in PERS is mandatory for all full- and part-time (15-30 hours per week) employees of the State and of the other participating governmental employers (other than employees exempted by statute or employer participation agreements or who belong to another of the State's retirement systems).

Participants first hired before July 1, 1986 are Tier 1 participants of PERS and are eligible for retirement and for health insurance premiums paid by PERS earlier than members hired after June 30, 1986 (Tier 2). Members first hired after June 30, 1996 (Tier 3) have a 10-year requirement for system-paid premiums, and members who are not peace officer/firefighter members have a different final average earnings calculation than members from Tiers 1 and 2.

Shift to Defined Contribution Plan. In 2005 the Legislature closed the PERS DB plan to members first hired on or after July 1, 2006 and created for Tier 4 employees a DC retirement plan which is composed of a participant-directed investment account, medical benefits, a health reimbursement arrangement and occupational disability and death benefits.

The PERS DC participant account is funded with employee contributions of 8% and an employer match of 5%. Each participant designates how contributions are to be allocated among various investment options. Participants are 100% vested in their employee contribution and related earnings. Employer contributions to the participant account, plus any earnings they generate are vested as shown in the following Table 11:

TABLE 11

PERS DC Vesting Schedule

<u>Years of Service</u>	<u>Vested Percentage of Employer Contributions</u>
1 year	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

Employee Contributions. The PERS DB member contribution rates are 7.5% for peace officers and firefighters, 9.6% for some school district employees, and 6.75% for general members, as required by statute. The DB member contributions earn interest at the rate of 4.50% per annum, compounded semiannually.

The PERS DC Plan member contribution rate is 8.0%, as required by statute.

Employer Contributions. The employer contribution rate is determined by the consulting actuary and adopted by the ARM Board annually. AS 39.35.255(a) sets the employer contribution rate at 22.0%. The employer contribution rate is paid based on all eligible salaries of the employer without regard to the participant’s tier status. The difference between the actuarially determined rate and the statutory employer effective rate is paid by the State as a direct appropriation.

Employer contributions made on behalf of DC members also include funding of the DC Retiree Medical Plan, Occupational Death and Disability Plan and the Health Reimbursement Arrangement. DC employer contribution rates are determined by the ARM Board and are based upon State law, administrative regulations and the actuary’s recommended employer contribution rates based upon results of the actuary’s valuations. Table 12 provides a 5 year history of the employer contribution rates.

Contributions from the State of Alaska. AS 39.35.280 provides that the State is required to contribute each July 1 or, if funds are not available on July 1, as soon after July 1 as funds become available, an amount for the ensuing fiscal year that, when combined with the total employer contribution rate of 22%, is sufficient to pay the PERS DB past service liability at the consolidated actuarially required contribution (ARC) adopted by the ARM Board for the fiscal year. Table 13 provides a 5 year history of the PERS contributions from the State under AS 39.35.280.

Table 13
PERS Contribution from the State (under AS 39.35.280)
(\$000s)

2012	House Bill 108	242,609	not yet available	

(1) Percent of Contributions made by State under AS 39.35.280
Source: *Division of Retirement and Benefits*

Pension Benefits. PERS DB members are eligible for normal retirement at age 55 or early retirement at age 50 (Tier 1) or (for Tiers 2 and 3) retirement at age 60 and early retirement at 55, in each case with at least five years of paid-up PERS service or other qualifying service. Members may retire at any age when they have at least 30 years of paid-up service.

PERS DC members are immediately and fully vested in member contributions and related earnings (losses). A member shall be fully vested in the employer contributions made on that member's behalf, and related earnings (losses), after five years of service.

Other Post-Employment Benefits. PERS pays the premium for healthcare benefits for all Tier 1 retirees, for Tier 2 retirees who are at least 60, and for Tier 3 retirees with ten years of credited service. Retirees in Tiers 1, 2 and 3 with 30 years of service (20 years for Tier 1 peace officers and firefighters and 25 years for other peace officers and firefighters) receive benefits with premiums paid by PERS regardless of their age or Tier. For Tier 4 retirees who are eligible for Medicare, PERS pays a portion (70-90 percent of the cost, depending upon length of service) of health insurance premiums.

PERS DC members are eligible for major medical benefits through the retiree medical plan after certain requirements have been met. In addition PERS DC members have access to a health reimbursement arrangement plan and Occupational Death and Disability Benefits.

Actuarial Valuation – PERS DB. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

The fiscal year 2011 contribution requirements are determined as a percentage of payroll, and reflect the cost of benefits accruing and a fixed 25-year amortization as a level percentage of payroll of the initial unfunded accrued liability and subsequent gains/losses and other changes. The payroll used to determine the contribution rates is the total payroll of all active members in the system, including those hired after July 1, 2006 who are in the DC plan. The amortization period is set by the ARM Board. Contribution rates are recommended by the actuary and adopted by the ARM Board each year.

The Legislature has discretion to deviate from the rates recommended by the ARM Board, however, they have not historically done so.

The funding objective of the plan, as adopted by the ARM Board, is to set a contribution rate that will pay the normal cost and amortize the initial UAAL and each subsequent annual change in the UAAL over a closed 25-year period as a level percentage of payroll.

Table 14 presents a summary of the funding status of PERS as a whole, including pension and post-employment healthcare benefits combined, as of June 30, 1999 through 2010. The information presented in Table 14 is derived from the 2010 PERS Valuation Report and differs from the information about PERS prepared for accounting purposes.

Table 14
PERS Funding Status (1)
(as of June 30)
(\$000s)

Actuarial Valuation Year	Aggregate Accrued Liability (000's)	Valuation of Assets	Unfunded Liability	Funded Ratio
1999	\$6,648,673	\$7,016,340	N/A	105.5%
2000 (2)	7,376,912	7,454,758	N/A	101.1
2001	7,868,574	7,941,756	N/A	100.9
2002 (2) (3)	9,859,591	7,412,833	\$2,446,758	75.2
2003	10,561,653	7,687,281	2,874,372	72.8
2004 (2)	11,443,916	8,030,414	3,413,502	70.2
2005	12,844,841	8,442,919	4,401,922	65.7
2006	14,388,413	9,040,908	5,347,505	62.8
2007 (4)	14,570,933	9,900,960	4,669,973	68.0
2008	15,888,141	11,040,106	4,848,035	69.5
2009	16,579,371	10,242,978	6,336,393	61.8
2010	18,132,492	11,157,464	6,975,028	61.5

(1) For PERS as a whole, all Tiers and pension and other post-employment benefits combined.

(2) Change in valuation assumptions (particularly the healthcare cost assumptions) and change in methods.

(3) Change in asset valuation method. In 2002, introduction of smoothing.

(4) Tier 4, the PERS defined contribution plan became effective for employees first hired after June 30, 2006 and the defined benefit plans were closed. Change in healthcare cost assumptions.

(2) In the year ended June 30, 2010, the postemployment healthcare annual required contribution and percentage contributed includes the Mercer legal settlement net of legal fees.

(3) Beginning in the year ended June 30, 2010, the postemployment healthcare annual required contribution and percentage contributed includes the Medicare Part D subsidy.

Source: PERS Financial Statement as of June 30, 2011.

Projections of benefits for financial report purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest actuarial valuation follows:

Valuation Date	June 30, 2010
Actuarial Cost Method	Entry Age Normal Level Percentage of Pay for Pension Level Dollar for Healthcare
Amortization Method	Level dollar, closed
Equivalent Single Amortization Period	19 years
Asset Valuation Method	5-year smoothed market
Actuarial Assumptions:	
Investment rate of return*	8.00% for pension, 7.23% for healthcare.
Projected salary increases	Peace Officer/Firefighter: Merit – 2.75% per year for the first 4 years of employment, grading down to 0.5% at 7 years and thereafter. Productivity – 0.5% per year. Others: Merit – 6.00% per year grading down to 2.00% after 5 years; for more than 6 years of service, 1.50% grading down to 0%. Productivity – 0.5% per year.
*Includes inflation at	3.12%
Cost-of-living adjustment	Post-retirement Pension Adjustment.

Changes in Actuarial Assumptions Since the Prior Valuation. The ARM Board contracted for an experience analysis to be performed of the actuarial assumptions underlying the PERS actuarial valuation. As a result of the experience analysis the following changes were made as of June 30, 2010 actuarial valuation:

	June 30, 2009	June 30, 2010
Investment Return	8.25% per year (geometric), compounded annually, net of expenses	8.00% per year (geometric), compounded annually, net of expenses
Salary Scale	Based on actual experience from 2001 to 2005.	Others: Based on actual experience from 2005 to 2009. Increased most rates. Peace Officer/Firefighter: Rates are increased for the first 4 years. Decreased at year 5. Based on actual experience 2005 to 2009.
Payroll Growth	4.00% per year	3.62% per year
Inflation	3.50%	3.12%
Pre-termination Mortality	Peace Officer/Firefighter: 1994 GAM Table*, 1994 Base Year. Others: 42% of 1994 GAM Table, 1994 Base Year.	Peace Officer/Firefighter: Based upon the 2005-2009 actual mortality experience. 1994 GAM Table, sex distinct, 1994 Base Year without margin projected to 2013 using Projection Scale AA, 80% of the male table for males and 60% of the female table for females. Others: Based upon the 2005-2009 actual mortality experience. 1994 GAM Table, sex distinct, 1994 Base Year without margin projected to 2013 using Projection Scale AA, 75% of the male table for males and 55% of the female table for females.
Post-termination Mortality	1994 GAM Table, 1994 Base Year.	1994 GAM Table, sex-distinct, 1994 Base Year without margin projected to 2013 using Projection Scale AA for males and with a 1- year set-forward for females.
Disability Mortality	1979 PBGC** Disability Mortality Table for those receiving Social Security disability benefits.	RP-2000 Disabled Retiree Mortality Table.
Turnover	Based on actual experience from 2001 to 2005.	Rates adjusted based on actual experience from 2005 to 2009.
Disability	Based on actual experience from 2001 to 2005.	Peace Officer/Firefighter: No change except to stop rates at earliest retirement age. Others: Male/Female rates decreased based on actual experience from 2005 to 2009 and stop rates at earliest retirement age.
Retirement	Based on actual experience from 2001 to 2005.	Rates were adjusted based on actual experience from 2005 to 2009.

** Pension Benefit Guaranty Corporation

Teachers' Retirement System

General. TRS was established in 1955 to provide pension and other post-employment benefits to teachers and other eligible participants. TRS includes 58 employers (including the 53 school districts). TRS is a cost-sharing, multiple employer plan composed of both a defined benefit ("DB") plan and a defined contribution ("DC") plan. Membership in either plan is dependent upon the participant date of hire. The TRS DB plan is closed to all new members effective July 1, 2006.

At June 30, 2010 the TRS DB membership consisted of 7,832 active members and 10,598 retirees and beneficiaries and the TRS DC membership consisted of 2,269 active members. TRS provides

pension and other post-employment benefits, death and disability benefits prior to retirement and death benefits and survivor benefits after retirement, in a combination of defined benefit (Tiers 1 and 2) and defined contribution (Tier 3) plans. TRS also funds costs of healthcare benefits through the separate Retiree Healthcare Trust within TRS. Membership in TRS is mandatory for all full- and part-time employees, including employees who are certificated elementary and secondary teachers, school nurses and certificated employees in positions requiring teaching certificates, employees in Department of Education and Early Development and Department of Labor and Workforce Development positions that require teaching certificates, University of Alaska full- and part-time teachers and with the approval of the TRS administrator, full-time administrative employees in positions requiring academic standing and certain full-time or part-time teachers of Alaska Native language or culture who elect to be covered under TRS.

Participants first hired before July 1, 1990 are Tier 1 participants of TRS and are eligible for retirement and for health insurance premiums paid by TRS earlier than members hired after July 1, 1990 (Tier 2).

Shift to Defined Contribution Plan. In 2005 the Legislature closed the TRS DB plan to members first hired on or after July 1, 2006 and created for Tier 3 employees a DC retirement plan which is composed of a participant-directed investment account, medical benefits, a health reimbursement arrangement, and occupational disability and death benefits.

The TRS DC participant account is funded with employee contributions of 8% and an employer match of 7%. Each participant designates how contributions are to be allocated among various investment options. Participants are 100% vested in their employee contribution and related earnings. Employer contributions to the participant account, plus any earnings they generate are vested as shown in the following Table 16:

TABLE 16

TRS DC Vesting Schedule

<u>Years of Service</u>	<u>Vested Percentage of Employer Contributions</u>
1 year	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

Employee Contributions. The TRS DB member contribution rates are 8.65% as required by statute. Eligible TRS DB members contribute an additional 1.11% of their salary under a supplemental contribution provision. The DB member contributions earn interest at the rate of 4.50% per annum, compounded semiannually.

The TRS DC member contribution rate is 8.0%, as required by statute.

Employer Contributions. The employer contribution rate is determined by the consulting actuary and adopted by the ARM Board annually. AS 14.25.070(a) sets the employer contribution rate at 12.56%. The employer contribution rate is paid based on all eligible salaries of the employer without regard to the participant’s tier status. The difference between the actuarially determined rate and the statutory employer effective rate is paid by the State as a direct appropriation.

Employer contributions made on behalf of DC members also include funding of the DC Retiree Medical Plan, Occupational Death and Disability Plan and the Health Reimbursement Arrangement. DC employer contribution rates are determined by the ARM Board and are based upon State law, administrative regulations and the actuary's recommended employer contribution rates based upon results of the actuary's valuations.

Table 17 provides a 5 year history of the employer contribution rates.

Table 17
TRS Employer Contribution Rates

Fiscal Year	ARM Board Adopted Rate	Employer Effective Rate	DC Employer Match	DC Retiree Medical Plan	DC Occupational Death and Disability	DC Health Reimbursement Arrangement (1)
2008	Varied	12.56%	7.00%	.99%	.62%	\$ 1,531.27
2009	44.17%	12.56%	7.00%	.99%	.62%	\$ 1,616.81
2010	39.53%	12.56%	7.00%	1.03%	.32%	\$ 1,699.71
2011	38.56%	12.56%	7.00%	.68%	.28%	\$ 1,720.70
2012	45.55%	12.56%	7.00%	.58%	.00%	\$ 1,778.09

(1) The employer contribution to the Health Reimbursement Arrangement is expressed as a dollar amount that must be paid in full on an annual basis for each year of service.

Source: Division of Retirement and Benefits

Contributions from the State. AS 14.25.085 provides that the State is required to contribute each July 1 or, if funds are not available on July 1, as soon after July 1 as funds become available, an amount for the ensuing fiscal year that, when combined with the total employer contribution rate of 12.56%, is sufficient to pay the DB past service liability at the consolidated actuarially required contribution (ARC) adopted by the ARM Board for the fiscal year.

Table 18 provides a 5 year history of the TRS contributions from the State under AS 14.25.085.

Table 18
TRS Contribution from the State (under AS 14.25.085)
(\$000s)

Fiscal Year	Legislative Bill	Amount Provided by State under AS 14.25.085	Total Employer Contributions to TRS DB Plan	% of Contributions made by State (1)

Source: Division of Retirement and Benefits

Pension Benefits. Tier 1 members were hired before July 1, 1990 and are eligible for normal retirement at age 55 or for early retirement at age 50, and Tier 2 members were hired after June 30, 1990 and before July 1, 2006 and are eligible for normal retirement at age 60 and for early retirement at 55, and generally with at least eight years of paid-up membership service or other qualifying service. Members may retire at any age when they have at least 20 years of paid-up membership service or 20-25 years of a combination of paid-up membership service and other types of service. TRS members are also eligible

for normal retirement if they have, for each of 20 school years, at least one-half year of membership service as a part-time teacher.

Tier 3 employees were hired after June 30, 2006 and are 100 percent vested in their own contributions from the beginning and vest in their employers' seven-percent contributions over five years: 25 percent after two years of service, 50 percent after three years of service, 75 percent after four years of service and 100 percent after five years of service. Tier 3 pension payments (the account balance plus investment income) are payable in a lump sum or over time at the employee's option.

Other Post-employment Benefits. Tier 1 members who are at least 50 or who are any age with at least 20 years of paid-up service receive healthcare benefits and Tier 2 members who are 60 or older or who have 25 years of paid-up membership service or are disabled also receive healthcare benefits with system-paid premiums. Tier 2 members may receive coverage prior to age 60 if they pay the premiums. Medical benefits are supplemental to Medicare. For both Tier 1 and Tier 2, coverage includes coverage for eligible dependents.

For Tier 3, the TRS healthcare plan is a coinsurance major medical and prescription drug plan intended to maintain over time coinsurance levels at approximately 80 percent by the plan and 20 percent by the participant, with a maximum annual coinsurance payable by the participant of \$2,500 per person and a maximum lifetime benefit payable by the plan, less any amounts paid by Medicare.

Actuarial Valuation – TRS DB. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

The fiscal year 2011 contribution requirements are determined as a percentage of payroll, and reflect the cost of benefits accruing and a fixed 25-year amortization as a level percentage of payroll of the initial unfunded accrued liability and subsequent assumption changes and gains/losses. The payroll used to determine the contribution rates is the total payroll of all active members in the System, including those hired after July 1, 2006 who are in the Defined Contribution Retirement Plan. The amortization period is set by the ARM Board. Contribution levels are recommended by the actuary and adopted by the ARM Board each year.

The Legislature has discretion to deviate from the rates recommended by the ARM Board, however they have not historically done so.

The funding objective of the plan, as adopted by the ARM Board, is to set a contribution rate that will pay the normal cost and amortize the initial UAAL and each subsequent annual change in the UAAL over a closed 25-year period as a level percentage of payroll.

The information about TRS funding status included in Table 19 reflects the status of TRS as of June 30, 2010. Information about TRS assets and liabilities allocable to State employers alone is not shown because most non-State TRS employers make these contributions primarily from funds provided by the State.

Table 19
TRS Funding Status (1)
(as of June 30)
(\$000s)

Actuarial Valuation Year	Aggregate Accrued Liability	Valuation Assets	Unfunded Liability	Funded Ratio
1999	\$3,720,954	\$3,815,633	N/A	102.5%
2000 (2) (3) (4)	4,198,868	4,184,015	\$14,853	99.6
2001	4,603,147	4,372,229	230,918	95.0
2002 (2) (3) (4)	5,411,642	3,689,036	1,722,606	68.2
2003	5,835,609	3,752,285	2,083,324	64.3
2004 (2)	6,123,600	3,845,370	2,278,230	62.8
2005	6,498,556	3,958,939	2,539,617	60.9
2006	7,229,851	4,141,700	3,088,151	57.3
2007	7,189,403	4,424,399	2,765,004	61.5
2008	7,619,178	4,936,976	2,682,202	64.8
2009	7,847,514	4,472,958	3,374,556	57.0
2010	8,847,788	4,739,128	4,108,660	53.6

Table 20 presents the schedule of contributions from employers and the State. This schedule shows the dollar amount of the annual required contribution and the percent of the ARC contributed by employers and by the State (under AS 14.25.085).

Table 20
TRS Schedule of Contributions from Employers and the State
(as of June 30)
(\$000s)

Year Ended June 30	Actuarial Valuation year ended June 30 (1)	Annual required contribution			Pension percentage contributed		Postemployment healthcare percentage contributed			Total Percentage contributed
		Pension	Postemployment healthcare	Total	By employer	By State	By employer	By State		
2005	2002	\$ 152,168	55,783	207,951	45.0%	—%	45.0%	45.0%	—%	45.0%
2006	2003	170,019	66,719	236,738	54.1	—	54.1	54.1	—	54.1
2007	2004	169,974	76,879	246,853	62.2	—	62.2	62.2	—	62.2
2008	2005	134,544	185,271	319,815	23.3	82.7	106.0	23.6	85.7	109.3
2009	2006	94,388	164,171	258,559	28.7	110.6	139.3	28.7	62.1	90.8
2010 ⁽²⁾⁽³⁾	2007	170,788	312,922	483,710	19.8	58.8	78.6	13.6	38.8	52.4

- (1) Actuarial valuation related to annual required contribution for fiscal year.
(2) In the year ended June 30, 2010, the postemployment healthcare annual required contribution and percentage contributed includes the Mercer legal settlement net of legal fees.
(3) Beginning in the year ended June 30, 2010, the postemployment healthcare annual required contribution and percentage contributed includes the Medicare Part D subsidy.

Source: PERS Financial Statement as of June 30, 2011.

Projections of benefits for financial report purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the latest actuarial valuation follows:

Valuation Date	June 30, 2010
Actuarial Cost Method	Entry Age Normal Level Percentage of Pay for Pension Level Dollar for Healthcare
Amortization Method	Level dollar, closed
Equivalent Single Amortization Period	19 years
Asset Valuation Method	5-year smoothed market
Actuarial Assumptions:	
Investment rate of return*	8.00% for pension, 8.00% for healthcare
Projected salary increases	6.11% for first 5 years of service grading down to 3.2% after 20 years
*Includes inflation at	3.12%
Cost-of-living adjustment	Postretirement Pension Adjustment.

Changes in Actuarial Assumptions Since the Prior Valuation. The ARM Board contracted for an experience analysis to be performed of the actuarial assumptions underlying the TRS actuarial valuation. As a result of the experience analysis the following changes were made as of June 30, 2010 actuarial valuation:

	June 30, 2009	June 30, 2010
Salary Scale	Based on actual experience from 2001 to 2005.	Rates adjusted on actual experience from 2005 to 2009.
Payroll Growth	4.00% per year.	3.62% per year.
Total Inflation	3.50%	3.12%
Investment Return/ Discount Rate	8.25% per year (geometric), compounded annually, net of expenses.	8.00% per year (geometric), compounded annually, net of expenses.
Pre-termination Mortality	The 1994 GAM Sex-distinct Table, 1994 Base Year adjusted 55% for males, and 60% for females.	The 1994 GAM Sex-distinct Table, 1994 Base Year projected to 2013 using Projection Scale AA, adjusted 45% for males, and 55% for females.
Post-termination Mortality	The 1994 GAM Sex-distinct Table, 1994 Base Year, setback 1 year for females and 3-year setback for males.	The 1994 GAM Sex-distinct Table, 1994 Base Year projected to 2013 using Projection Scale AA, setback 3 years for females and 4-year setback for males.
Disability Mortality	1979 PBGC Disability Mortality Table for those receiving Social Security disability benefits.	RP-2000 Disabled Retiree Mortality Table.
Turnover	Based on actual experience from 2001 to 2005.	Rates adjusted based on actual experience from 2005 to 2009.
Disability	Based on actual experience from 2001 to 2005.	Male/female rates decreased based on actual experience from 2005 to 2009 and stop rates at earliest retirement age.
Retirement	Based on actual experience from 2001 to 2005.	Rates adjusted based on actual experience from 2005 to 2009.
Part-time Service	.55 years of credited service per year.	.60 years of credited service per year.
Occupational Assumption	0% of deaths are assumed to be from occupational causes.	15% of deaths are assumed to be from occupational causes.
Deferred Vested Commencement Age	Earliest reduced age.	Earliest unreduced age.

	June 30, 2009	June 30, 2010
Healthcare Participation	100% of members and their spouses are assumed to elect healthcare benefits as soon as they are eligible.	100% of system paid members and their spouses are assumed to elect healthcare benefits as soon as they are eligible. 10% of non-system paid members and their spouses are assumed to elect healthcare benefits as soon as they are eligible.

Recent Pension Reforms

In the past several years, to mitigate expected pension costs and rising employer contribution rates, the Legislature enacted a range of statutory changes to the retirement systems and to the State's approach to managing pension and OPEB costs. In 2005, during a special session, the Legislature enacted Senate Bill 141 (Chapter 9, 2005 First Special Session Laws of Alaska) to close the PERS and TRS DB plans and to establish DC plans, each with a healthcare component, for new employees.

In 2007 the Legislature enacted Senate Bill 123, which created the Alaska Retiree Health Care Trusts (the "Retiree Healthcare Trusts"). Senate Bill 123 directed that all separately calculated employer contributions for other post-employment benefits under the DB plans and all appropriations, earnings and reserves for the payment of retiree medical obligations be credited to these separate trusts. The State has received a ruling from the Internal Revenue Service confirming that the State may reallocate a portion of the assets of PERS and TRS to the Retiree Healthcare Trusts.

In 2008 the Legislature enacted two additional reform bills: Senate Bill 125 (Chapter 13, Session Laws of Alaska 2008) and the Retirement Cost Funding Act (Chapter 35, Session Laws of Alaska 2008). The Retirement Cost Funding Act authorizes issuers, including the Alaska Pension Obligation Bond Corporation, to issue bonds and/or to enter into contracts to finance the payment by governmental employers of their share of the UAALs of the retirement systems. The State currently has no plans to issue pension obligations bonds.

Senate Bill 125 converted PERS to a cost-sharing system, similar to TRS, and shifted to the State more of the cost of funding the UAALs of PERS and TRS. Senate Bill 125 set employer contribution rates at the higher of (i) 22 percent of total payroll for PERS and 12.56 percent of payroll for TRS and (ii) in each case, the rate required to cover the actuarially determined normal cost plus amounts required to be contributed to the DC plans' Retiree Health Care Trusts.

The Other Retirement Systems

The Alaska National Guard and Alaska Naval Militia Retirement System. The Military System was established in 1973, includes members of the Alaska National Guard and members of the Alaska Naval Militia. Members receive voluntary retirement benefits, which do not include healthcare benefits. The Legislature made a supplemental appropriation of \$9.87 million to eliminate the Military System UAAL in May 2008. The total contribution for fiscal year 2011 was \$965,000.

The Judicial Retirement System. The Judicial System was established in 1963 and provides pension and other post-employment benefits to Supreme Court Justices and Superior, District and Appellate Court judges and the administrative director of the court system. In May 2008, the Legislature made a supplemental appropriation to eliminate the Judicial System UAAL that existed as of June 30, 2006. The total contributions for fiscal year 2011 were \$5.2 million for pensions and \$619,000 for postemployment benefits.

The Elected Public Officers Retirement System. The EPORS was enacted as a retirement system for elected State officials who held office between January 1, 1976 and October 14, 1976. As of June 30, 2010, the actuarial accrued liability was \$23.8 million, with an expected annual benefit payment and claims cost of approximately \$2.0 million. No assets are set aside to pay EPORS benefit costs.

State's Supplemental Benefits System

In 1979, State employees elected to withdraw from the Social Security system. The State established a benefit program, effective January 1, 1980, which supplements the existing public employee retirement plans. Participation in the supplemental benefits system is mandatory for each State employee and the 16 other employers participating in the supplemental benefits system. A combined employer/employee contribution of 12.26 percent of wages (one-half contributed by employees up to the wage limit in effect for Social Security in a current year) is deposited into each employee's annuity plan account. Separate contributions are allowed to a cafeteria style supplemental benefit plan to provide death, survivor, disability and health benefits.

As of January 31, 2010, the supplemental benefits system had approximately 38,000 participants. At January 31, 2010, net assets available for system benefits were \$2.197 billion. These assets are held in trust by the State of Alaska for the exclusive benefit of covered employees and their beneficiaries.

State's Deferred Compensation Plan

The State maintains a Deferred Compensation Plan (the "Plan") for the benefit of its employees. Participants under the Plan defer receipt of a portion of their salary until termination of State employment. As of December 31, 2010, the Plan had approximately 9,000 participants. At December 31, 2010, the net assets available for Plan benefits were \$583.3 million. These assets are held in trust by the State for the exclusive benefit of the covered employees and their beneficiaries.

State's Annual/Personal Leave and Sick Leave

The cost of annual/personal leave and sick leave for State employees is charged against agency appropriations when leave is used rather than when leave is earned, except when an employee's State service is terminated. In that instance, the accumulated annual/personal leave balance is charged to a terminal leave liability account that is funded by a charge to each agency's operating budget.

INVESTMENT POLICIES

General Fund, Constitutional Budget Reserve Fund and Other Subfunds

By statute, the Commissioner of the Department of Revenue is the fiduciary for many of the State's funds, including the Constitutional Budget Reserve Fund, General Fund and subfunds within the General Fund, such as the Statutory Budget Reserve Fund and the Alaska Capital Income Fund. The Commissioner's responsibilities for these funds include establishing investment policy, providing accounting and custody for the assets and monitoring and reporting the performance and characteristics of the funds and investment options. The Commissioner reviews capital market assumptions and sets an appropriate asset allocation for the General Fund, the Constitutional Budget Reserve Fund and the other subfunds, consistent with each fund's objectives and constraints.

As of July 1, 2011, the target asset allocation for the General Fund is 53 percent short-term fixed income and 47 percent intermediate-term fixed income investments. The Constitutional Budget Reserve Fund has two components, the main account with an intermediate time horizon and the subaccount with a moderately long time horizon. The subaccount has the ability to accept higher risk in exchange for higher expected returns due to the longer time horizon. As of July 1, 2011, the Constitutional Budget Reserve

Fund main account has a target asset allocation of 20 percent broad-market fixed income, 61 percent intermediate-term fixed income and 19 percent short-term fixed income. As of July 1, 2011, the Constitutional Budget Reserve Fund subaccount has an asset allocation of 41 percent broad-market fixed income, 27 percent domestic equity and 32 percent international equity. As of July 1, 2011, the target asset allocation for the Statutory Budget Reserve Fund is the same as the General Fund.

Annually, the Commissioner of the Department of Revenue adopts specific investment policies for each asset class. These investment policies specify asset class characteristics, monitoring requirements and risk controls. The Commissioner may revise the investment policies as market conditions warrant. The State employs industry consultants and a professional staff to assist in monitoring and evaluating investments.

The Permanent Fund

A governor-appointed Alaska Permanent Fund Corporation (the “APFC”) Board of Trustees (the “APFC Board”) sets the APFC investment policy. The policy is required to be consistent with the prudent investor rule stated in AS 37.13.120, which provides: “The prudent-investor rule as applied to investment activity of the fund means that the corporation shall exercise the judgment and care under the circumstances then prevailing that an institutional investor of ordinary prudence, discretion, and intelligence exercises in the designation and management of large investments entrusted to it, not in regard to speculation, but in regard to the permanent disposition of funds, considering preservation of the purchasing power of the fund over time while maximizing the expected total return from both income and the appreciation of capital.”

At least once each calendar year, the APFC Board reviews its asset allocation policy for the investment of fund assets for the coming year. This review is conducted under the guidance of APFC investment staff, with the assistance and advice of the APFC Board’s investment consultant. The APFC Board’s long-term investment goal is to achieve an average annual real rate of return of five percent at acceptable risk levels (measured by expected volatility).

The APFC Board has created a three-person investment advisory council to provide the APFC Board with independent advice from professionals with significant, direct experience in the management and operation of large investment funds. The role of the members of the investment advisory council is to make recommendations to the APFC Board concerning investment policies, investment strategy, and investment procedures; and provide other advice as requested by the APFC Board.

The APFC Board’s investment allocation includes multiple asset classes having varying risk and correlation assumptions. The APFC investment policy seeks to optimize expected return versus expected risk. The fund’s current target asset allocation is: 36 percent stocks, 21 percent bonds, 12 percent real estate, 6 percent private equity, 6 percent absolute return, 4 percent infrastructure investments, 2 percent cash, 2 percent public and private credit and 11 percent allocated to other investments. The APFC Board also establishes policies and guidelines for the asset classes in which fund assets are invested.

To allow for market fluctuations and to minimize transaction costs, the APFC Board has adopted ranges that permit percentage deviations from the strategic asset allocation targets in accordance with specified reporting requirements and other procedures. Generally, for each risk and asset class, the APFC’s chief investment officer has discretionary authority to permit target deviations within one specified range (referred to as the “green zone” in the investment policy), the APFC’s executive director can approve target deviations for up to 90 days within a broader range (the “yellow zone”), and the APFC Board can approve operating for longer than 30 days within a third range (the “red zone”).

LITIGATION

There is no controversy or litigation of any nature now pending or, to the knowledge of the State of Alaska, threatened to restrain or enjoin the issuance, sale, execution or delivery of the Bonds, or in any way contesting or affecting the validity of the Bonds or any proceedings of the State of Alaska taken with respect to the issuance or sale thereof, or the pledge or application of any monies or security provided for the payment of the Bonds, or the existence or powers of the State of Alaska.

Upon the delivery of the Bonds, the State will furnish a certificate, in form satisfactory to the Underwriters, to the effect that, among other things, there is no litigation pending in any court to restrain or enjoin the issuance or delivery of the Bonds or in any way contesting the validity or enforceability of the Bonds.

Oil and Gas Tax Litigation

Administrative Litigation: There are a number of disputed tax assessments against oil and gas corporations that are at the administrative level and thus confidential under AS 43.05.230(a). The assessments involve the corporate income tax (AS 43.20) or the oil and gas production tax (AS 43.55). Because the taxpayers, the tax years, and the amounts involved are confidential, a more detailed description of the cases cannot be given. Due to the confidentiality statute and because the disputed tax assessments are ongoing, the State cannot give an estimate of how much is expected to be eventually recovered through settlement, the administrative proceedings, or adjudication. Moneys recovered are required to be transferred to the Constitutional Budget Reserve Fund.

Litigation Before Alaska Supreme Court:

Corporate Income Tax Appeal: Tesoro Corporation appealed a decision from the Office of Administrative Hearings (administrative hearing agency) upholding most of the State's assessment against Tesoro for additional corporate tax liabilities and penalties for tax years 1994-1998. The superior court upheld the OAH decision and Tesoro filed an appeal with the Alaska Supreme Court. Briefing and oral argument will take place in 2012. At issue in this case is \$14.6 million in additional taxes, penalties, and interest.

Trans Alaska Pipeline System (TAPS) Property Tax Appeal: The TAPS owners (BP, ExxonMobil, Unocal, ConocoPhillips, and Koch Alaska) appealed the State Assessment Review Board's (SARB's) 2006-2011 property tax assessments of TAPS, contending that the assessments were too high. The superior court upheld the valuation methodology used by the State for tax year 2006, but increased the value from \$4.3 billion to \$9.9 billion based upon new information previously not available to SARB. The TAPS owners appealed this decision to the Alaska Supreme Court. Briefing and oral argument will be completed in 2012. A decision from the superior court regarding tax assessments for 2007-2009 was issued on December 30, 2011. That decision increased the TAPS property value to \$8.941 billion for 2007, \$9.644 billion for 2008 and \$9.249 billion for 2009. The increased assessments will result in additional property tax revenue to the State. Trial on the 2010-2011 assessments has not been scheduled yet.

Oil and Gas Royalty Litigation

In 2009, the State filed an action in superior court against BP Exploration (Alaska), Inc. to recover lost revenue and environmental assessments and penalties resulting from corrosion related oil spills and production shut-ins that occurred in 2006-2008. A three month jury trial is scheduled to begin on March 19, 2012. Any money recovered from this litigation are required to be transferred to the Constitutional Budget Reserve Fund.

TAPS Tariff Litigation

The State has filed a protest before the Regulatory Commission of Alaska and the Federal Energy Regulatory Commission regarding TAPS carriers' inclusion of expenditures related to the TAPS strategic reconfiguration project in the tariff rate base. A hearing on this matter is ongoing and scheduled to end in early 2012.

Education Adequacy/Facilities Funding Litigation

Education Adequacy: The National Education Association-Alaska, three rural school districts, an organization of school districts, and individual plaintiffs filed *Moore v. State* in 2004 for a declaration that the State's public education system is constitutionally inadequate and underfunded. Plaintiffs sought to double education funding—an additional \$1.3 billion—and for the court to adopt standards for a constitutional education, determine the cost of an adequate education, and order the Legislature to adequately fund education. The court found that rural education was adequately funded, and that the funding formula met the requirements of the Constitution. But the court also found that public education in some districts in rural Alaska, although adequately funded, did not provide children a sufficient opportunity to learn the standards. The court required the Legislature and the Department of Education and Early Development (DEED), rather than the school districts, to address this failure.

In 2008, the Legislature gave DEED more authority to intervene in poorly performing school districts. But after taking evidence in June and October 2008 on the adequacy of the State's identification and intervention in five underperforming districts, the court issued a decision in February 2009, finding that the identification was adequate but that oversight and assistance was inadequate. In March 2010, the court found continuing deficiencies in the DEED's support and oversight of underperforming school districts. The parties are currently in settlement negotiations.

Facilities Funding: In a separate 1997 education lawsuit, *Kasayulie v. State*, plaintiffs claimed that the State's method of financing school construction was unconstitutional and that the State violated its trust duties in managing public school trust land and funds and in accounting for those funds. The superior court ruled against the State in both portions of the case and ordered that school trust lands be valued before the court would address a remedy. Since that ruling, the Legislature has spent hundreds of millions of dollars on rural school construction. The 2010 Legislature created a rural education attendance area fund and adopted a formula for identifying money available for appropriation for rural school construction. The parties have reached a settlement which includes the State funding five school construction projects over the next four years. Funding would be completed during the current administration term. The parties recognize that a settlement cannot bind the State to a promise to fund schools because appropriations are always subject to the Governor's and Legislature's discretion. Therefore, the settlement reserves the right of the plaintiffs to reopen the case if the projects are not funded. If the plaintiffs reopen the litigation, the State is free to contest the merits of the court's original ruling.

Fast Ferry Litigation

Engines on the State's fast ferries FAIRWEATHER and CHENEGA, delivered in 2004 and 2005, suffered accelerated degradation and will not last their expected 100,000 hours. The State has been negotiating replacement of the engines with the manufacturer. However, the manufacturer disputes causation. The State has filed a lawsuit against the manufacturer seeking money damages or specific performance. Trial is scheduled to commence in September 2012. Because of the condition of the engines, they may need replacement before the litigation is resolved. Consequently, the State may be required to fund the replacement of these engines during the upcoming legislative session at an estimated cost of \$35 million.

Foster Care Payment Litigation

A putative class action was filed in superior court, *Mulgrew v. State, DHSS, Office of Children's Services*, claiming that the way the State funds its foster care program violates the Child Welfare Act by not covering the cost of care. The parties have filed cross motions for summary judgment. An adverse ruling in this case could increase the State's annual foster care payment obligation.

Tort Claims

The Attorney General's Office is involved in defending numerous tort claims asserted against the State and agencies. No estimate can be given as to the likelihood or financial effect on the outcome of such appeals.

Medicaid Payment Rate Appeals

The Attorney General's Office is involved in defending numerous Medicaid payment rate appeals filed by providers. No estimate can be given as to the likelihood or financial effect on the outcome of such appeals.

Employment Claims

The Attorney General's Office is involved in defending numerous employment-related claims filed by present or former employees. No estimate can be given as to the likelihood or financial effect on the outcome of such claims.

Tobacco Securitization Litigation

In 1998, Alaska was among 46 states that entered into a settlement of claims against the nation's major tobacco companies. The companies agreed to pay \$4.5 billion in 2000 with annual increases until payments reach \$9 billion in 2019 and each year thereafter. The State's share, based upon its proportionate tobacco consumption, is about .034 percent of the yearly payment. This income stream is indefinite as long as Americans continue to consume tobacco products.

The Legislature authorized the State to sell to the AHFC 80 percent of the State's annual settlement income. AHFC's purchase was financed through the issuance of revenue bonds by the Northern Tobacco Securitization Corporation (the "NTSC"), a subsidiary the AHFC established and to which the right to receive 80% of the settlement revenues was transferred. In 2006, NTSC issued additional revenue bonds to refinance its purchase of the State's annual settlement income. The NTSC is using the income stream to pay debt service on the bonds. When the bonds are paid, the settlement income reverts to the State. The State is using the bond proceeds to pay for a variety of construction and maintenance projects including rural schools, ports and harbors.

The master settlement agreement is being challenged in federal court in other jurisdictions; if there is an adverse decision as to the enforceability of the agreement, the State could experience an impairment of its right to receive the remaining 20 percent of revenue that is not pledged to the NTSC and the NTSC could suffer a revenue shortfall. Additionally, the master settlement agreement provides for a payment adjustment mechanism that, when triggered, could also result in the impairment of the State's right to receive the remaining 20 percent of revenue that is not pledged to the NTSC and the NTSC could suffer a revenue shortfall. This payment adjustment mechanism has been triggered for the years 2003, 2004, 2005, 2006, 2007 and 2008. States that have diligently enforced their qualifying statute are exempted from the application of this adjustment mechanism. In July of 2010, an arbitration commenced regarding which states "diligently enforced" their qualifying statutes in 2003. In November 2011, Alaska

and fifteen other states/territories received notice that the participating manufacturers (tobacco companies that joined the master settlement agreement) are no longer contesting their diligence, rendering the State exempt from the 2003 adjustment.

University Pension Obligation Litigation

A class action was brought by university employees who participate in the Optional Retirement System (ORP) claiming the State and the university unconstitutionally impaired their ORP benefits. The plaintiffs allege that the ORP plan required the university's contribution rate to be based on the full actuarial cost to fund TRS, not the reduced TRS contribution rate. In addition to seeking declaratory relief, plaintiffs seek damages against the State. On October 7, 2011, the parties reached an agreement to settle the case. Under the terms of the settlement the class will receive \$25 million, \$20 million to be paid as a lump sum, subject to appropriation, and the remainder to be paid over time by the university. The settlement de-coupled the ORP employer contribution rate from the TRS rate and stabilized the employer contribution rate for the ORP at 14%. Final settlement for this case is pending court approval and legislative appropriation.

Large Mining Project Litigation

On October 4, 2011, an initiative in the Lake and Peninsula Borough passed amending the Borough's development permitting code to preclude permits for large-scale development projects, such as mining. The State filed an action for declaratory and injunctive relief in Anchorage Superior Court, alleging that this ordinance unconstitutionally usurps the State's authority to develop natural resources of the State. If this ordinance is upheld, future large mining projects in Lake and Peninsula Borough, such as the Pebble Mine, will be prohibited.

CERTAIN LEGAL MATTERS

All legal matters incident to the authorization and issuance of the Bonds are subject to the approval of K&L Gates LLP, Bond Counsel to the State. The form of the Bond Counsel's opinion is attached as Appendix C hereto. The Office of the Attorney General will issue a certificate regarding no litigation affecting the issuance of the Bonds. Certain legal matters will be passed upon for the Underwriters by Underwriters' Counsel, Foster Pepper PLLC, Seattle, Washington. Any opinion of such firm will be limited in scope, will be addressed solely to the Underwriters and cannot be relied upon by investors.

TAX MATTERS

In the opinion of Bond Counsel, interest on the Bonds is excludable from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations; however, interest on the Bonds is taken into account in determining adjusted current earnings for the purpose of computing the alternative minimum tax imposed on certain corporations.

Interest on the Bonds is not included in taxable income for purposes of the Alaska income tax imposed on corporations. Interest on the Bonds may be indirectly subject to the Alaska alternative minimum tax imposed on corporations to the extent that interest on the Bonds is subject to the federal alternative minimum tax on corporations.

Federal income tax law contains a number of requirements that apply to the Bonds, including investment restrictions, periodic payments of arbitrage profits to the United States, requirements regarding the use of proceeds of the Bonds and the facilities financed or refinanced with proceeds of the Bonds and certain other matters. The State has covenanted to comply with all applicable requirements.

Bond Counsel's opinion is subject to the condition that the State comply with the above-referenced covenants and, in addition, will rely on representations by the State and its advisors with respect to matters solely within the knowledge of the State and its advisors, respectively, which Bond Counsel has not independently verified. If the State fails to comply with such covenants or if the foregoing representations are determined to be inaccurate or incomplete, interest on the Bonds could be included in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds, regardless of the date on which the event causing taxability occurs. In rendering its opinion, Bond Counsel has relied on the report of The Arbitrage Group, Inc. with respect to the accuracy of certain mathematical calculations.

Except as expressly stated above, Bond Counsel expresses no opinion regarding any other federal or state income tax consequences of acquiring, carrying, owning or disposing of the Bonds. Owners of the Bonds should consult their tax advisors regarding the applicability of any collateral tax consequences of owning the Bonds, which may include original issue discount, original issue premium, purchase at a market discount or at a premium, taxation upon sale, redemption or other disposition, and various withholding requirements.

Prospective purchasers of the Bonds should be aware that ownership of the Bonds may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, financial institutions, property and casualty insurance companies, individual recipients of Social Security or Railroad Retirement benefits, certain S corporations with "excess net passive income," foreign corporations subject to the branch profits tax, life insurance companies and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry or have paid or incurred certain expenses allocable to the Bonds. Bond Counsel expresses no opinion regarding any collateral tax consequences. Prospective purchasers of the Bonds should consult their tax advisors regarding collateral federal income tax consequences.

Payments of interest on tax-exempt obligations such as the Bonds, are in many cases required to be reported to the Internal Revenue Service (the "IRS"). Additionally, backup withholding may apply to any such payments made to any owner who is not an "exempt recipient" and who fails to provide certain identifying information. Individuals generally are not exempt recipients, whereas corporations and certain other entities generally are exempt recipients.

Bond Counsel gives no assurance that any future legislation or clarifications or amendments to the Code, if enacted into law, will not cause the interest on the Bonds to be subject, directly or indirectly, to federal income taxation, or otherwise prevent owners of the Bonds from realizing the full current benefit of the tax status of the interest on the Bonds. Prospective purchasers of the Bonds should consult their own tax advisors regarding any pending or proposed federal legislation, as to which Bond Counsel expresses no view.

Bond Counsel's opinion is not a guarantee of result and is not binding on the IRS; rather, the opinion represents Bond Counsel's legal judgment based on its review of existing law and in reliance on the representations made to Bond Counsel and the State's compliance with its covenants. The IRS has established an ongoing program to audit tax-exempt obligations to determine whether interest on such obligations is includable in gross income for federal income tax purposes. Bond Counsel cannot predict whether the IRS will commence an audit of the Bonds. Owners of the Bonds are advised that, if the IRS does audit the Bonds, under current IRS procedures, at least during the early stages of an audit, the IRS will treat the State as the taxpayer, and the owners of the Bonds may have limited rights to participate in the audit. The commencement of an audit could adversely affect the market value and liquidity of the Bonds until the audit is concluded, regardless of the ultimate outcome.

Qualified Tax-Exempt Obligations

The State has not designated the Bonds as “qualified tax-exempt obligations” within the meaning of Section 265(b)(3)(B) of the Code.

VERIFICATION OF MATHEMATICAL COMPUTATIONS

The arithmetical accuracy of certain computations included in the schedules provided by the Underwriters on behalf of the State relating to (a) computation of anticipated receipts of principal of and interest on the Escrow Obligations and the anticipated payments of principal and interest to redeem the Refunded Bonds, and (b) computation of the yields on the Bonds and the Escrow Obligations was examined by The Arbitrage Group, Inc., Tuscaloosa/Buhl, Alabama. Such computations were based solely upon assumptions and information supplied by the Underwriters on behalf of the State. The Arbitrage Group, Inc. has restricted its procedures to examining the arithmetical accuracy of certain computations and has not made any study or evaluation of the assumptions and information upon which the computations are based and, accordingly, has not expressed an opinion on the data used, the reasonableness of the assumptions, or the achievability of future events.

FORWARD-LOOKING STATEMENTS DISCLAIMER

The statements contained in this Official Statement, and in any other information provided by the State, that are not purely historical, are forward-looking statements, including statements regarding the State’s expectations, hopes, intentions, or strategies regarding the future. Readers should not place undue reliance on forward-looking statements. All forward-looking statements included in this Official Statement are based on information available to the State on the date hereof, and the State assumes no obligation to update any such forward-looking statements. The State’s actual results could differ materially from those discussed in such forward-looking statements.

The forward-looking statements included herein are necessarily based on various assumptions and estimates and are inherently subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal, and regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners and competitors, and legislative, judicial, and other governmental authorities and officials. Assumptions related to the foregoing involve judgments with respect to, among other things, future economic, competitive, and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the State. Any of such assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Official Statement will prove to be accurate.

RATINGS

Moody’s Investors Service, Inc., Fitch Ratings and Standard & Poor’s Ratings Services have assigned the Bonds ratings of “Aaa,” “AA+” and “AAA,” respectively, based on their research and investigation of the State. Moody’s, Fitch and S&P are collectively referred to as the “Rating Agencies.” The State furnished each of the Rating Agencies with certain information and materials concerning the Bonds and the State. Any desired explanation of such ratings should be obtained from the rating agency furnishing the same.

Generally, each of the Rating Agencies bases its ratings on such information and materials and also on investigations, studies, and assumptions that it may undertake independently. The ratings assigned by Moody’s, Fitch, and S&P express only the views of the Rating Agencies. An explanation of the significance of the ratings may be obtained from Moody’s, Fitch, and S&P, respectively. There is no

assurance that any rating will continue for any given period of time or that it will not be revised downward or withdrawn entirely by such rating agency, if, in the judgment of such rating agency, circumstances so warrant. Any such change in or withdrawal of such ratings may have an adverse effect on the market price of the Bonds.

FINANCIAL ADVISOR

Acacia Financial Group, Inc. of Anchorage, Alaska (the "Financial Advisor") serves as independent financial advisor to the State in connection with various matters relating to the planning, structuring, execution and delivery of the Bonds. The Financial Advisor is a financial advisory and consulting organization and is not engaged in the business of underwriting, marketing or trading municipal securities or any other negotiated instruments. The Financial Advisor has not audited, authenticated or otherwise verified the information set forth in this Official Statement, or any other related information available to the State. No guaranty, warranty or other representation is made by the Financial Advisor respecting the accuracy and completeness of this Official Statement or any other matter related to the Official Statement.

UNDERWRITING

Goldman, Sachs & Co., as representative of the underwriters identified on the cover page of this Official Statement (the "Underwriters"), has agreed to purchase the Bonds from the State subject to certain conditions precedent, and will purchase all of the Bonds, if any of such Bonds are purchased, at a purchase price of \$205,287,177.69 (being the par amount of the Bonds, plus \$30,035,178.80 original issue premium, less underwriters' discount of \$308,001.11).

The Underwriters may offer and sell the Bonds to certain dealers (including dealers depositing the Bonds into investment trusts) and others at prices lower than the public offering prices (or yields corresponding to such prices) stated on the inside cover page hereof. The initial public offering prices may be changed from time to time by the Underwriters.

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for the State, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the State. The Underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Goldman, Sachs & Co. ("Goldman Sachs"), one of the Underwriters of the Bonds, has entered into a master dealer agreement (the "Master Dealer Agreement") with Incapital LLC ("Incapital") for the distribution of certain municipal securities offerings, including the Bonds, to Incapital's retail distribution network at the initial public offering prices. Pursuant to the Master Dealer Agreement, Incapital will purchase Bonds from Goldman Sachs at the initial public offering price less a negotiated portion of the selling concession applicable to any Bonds that Incapital sells.

Morgan Stanley and Citigroup Inc., the respective parent companies of Morgan Stanley & Co. LLC and Citigroup Global Markets Inc., each an underwriter of the Bonds, have entered into a retail brokerage joint venture. As part of the joint venture, each of Morgan Stanley & Co. LLC and Citigroup Global Markets Inc. will distribute municipal securities to retail investors through the financial advisor network of a new broker-dealer, Morgan Stanley Smith Barney LLC. This distribution arrangement became effective on June 1, 2009. As part of this arrangement, each of Morgan Stanley & Co. LLC and Citigroup Global Markets Inc. will compensate Morgan Stanley Smith Barney LLC. for its selling efforts in connection with their respective allocations of Bonds.

Wells Fargo Securities is the trade name for certain capital markets and investment banking services of Wells Fargo & Company and its subsidiaries, including Wells Fargo Securities, LLC, member NYSE, FINRA, and SIPC.

CONTINUING DISCLOSURE

Annual audited financial statements of the State of Alaska will be available upon request from the State of Alaska Department of Revenue. The State has covenanted for the benefit of the holders and beneficial owners of the Bonds to provide certain financial information and operating data (the "Annual Disclosure Report") within seven months after the end of each fiscal year (the "Report Date"), commencing January 31, 2013 for the Annual Disclosure Report for the fiscal year ending June 30, 2012, and to provide notices of the occurrence of certain enumerated events. A form of document specifying the nature of the information to be contained in the Annual Disclosure Report or the notices of certain events is set forth in Appendix D hereto. These covenants have been made in order to assist the Underwriters in complying with Rule 15c2-12(b)(5) of the Securities and Exchange Commission (the "Rule").

A failure by the State to comply with the undertaking pursuant to the Rule will not constitute a default under the Resolution (although holders of the Bonds will have any available remedy at law or in equity). Nevertheless, such a failure must be reported in accordance with the Rule and must be considered by a broker-dealer or municipal securities dealer before recommending the purchase or sale of the Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Bonds or their market price.

Other than for fiscal year 2010, the State has not failed to comply with any previous undertakings pursuant to the Rule. The State's CAFR for fiscal year 2010 was filed 16 days later than required and was linked to only a limited number of bonds by CUSIP numbers. The State subsequently re-filed its CAFR for fiscal year 2010 and correctly linked it to all required bonds by CUSIP numbers.

MISCELLANEOUS

The Bonds qualify as collateral for State funds deposited by the Department of Revenue.

The purpose of this Official Statement is to supply information to prospective purchasers of the Bonds. Quotations from and summaries and explanations of the Bonds and of the statutes and documents contained herein do not purport to be complete, and reference is made to such documents and statutes for full and complete statements as to their provisions. This Official Statement is not intended to be a contract or agreement between the State and the purchasers and owners of the Bonds. This Official Statement may not be reproduced or used, in whole or in part, for any purpose other than in connection with the issuance and sale of the Bonds.

All data contained herein, including the appendices hereto, have been taken from State records unless attributed to a specific source. Insofar as any statements contained in this Official Statement involve matters of estimates, projections, forecasts or matters of opinion, whether or not expressly stated, they are set forth as such and are not to be construed as representations of fact.

The appendices are integral parts of this Official Statement and must be read together with all other parts of this Official Statement. The appendices appended to this Official Statement are entitled: "SUMMARY INFORMATION REGARDING THE ECONOMY OF THE STATE", "STATE OF ALASKA 'GENERAL PURPOSE FINANCIAL STATEMENTS' FROM THE COMPREHENSIVE ANNUAL FINANCIAL REPORT, Fiscal Year Ended June 30, 2011", "FORM OF BOND COUNSEL OPINION", "FORM OF CONTINUING DISCLOSURE UNDERTAKING" and "INFORMATION REGARDING THE DEPOSITORY TRUST COMPANY".

EXECUTION OF OFFICIAL STATEMENT

The execution and delivery of this Official Statement have been authorized by the State.

STATE OF ALASKA

Deven J. Mitchell
Debt Manager,
State of Alaska
For the State Bond Committee

APPENDIX A

SUMMARY INFORMATION REGARDING THE ECONOMY OF THE STATE

[THIS PAGE INTENTIONALLY LEFT BLANK]

THE ECONOMY

The economic and demographic information provided below has been derived from State publications and services which the State considers to be reliable. Such information is accurate as of its date; however, no assurance can be given that such information has not changed since its date.

Population

Alaska's statewide population of 710,231 (April 2010 Census) increased by 83,299, or 13 percent, from 2000 to 2010. Alaska's growth was greater than the 10 percent increase for the United States as a whole during the ten-year period. Alaska's annual rate of population growth was 1.6 percent for the period 2008-2009 and 1.7 percent for the period from 2009-2010. Alaska's recent growth was mainly due to in-migration, or people moving into the State.¹

The following table summarizes the State's population growth since 2000, as well as the growth of population in each of the State's regions. The majority of the high-growth areas were those with access to the road system. Anchorage gained the most, with 31,543 residents, followed closely by Matanuska-Susitna Borough at 29,679. The Matanuska-Susitna Borough, the fastest growing area in the State on a percentage basis, grew 42% from 59,322 in 2000 to 84,314 in 2010. The results were mixed in rural areas, with over half of the rural boroughs and census areas losing residents.

Population of Alaska by Region, 2000-2010*

Area Name	Estimate April 2000	Estimate July 2001	Estimate July 2002	Estimate July 2003	Estimate July 2004	Estimate July 2005	Estimate July 2006	Estimate July 2007	Estimate July 2008	Estimate July 2009	Census April 2010
Alaska	626,932	632,716	641,729	649,466	659,653	667,146	674,583	680,169	686,818	697,828	710,231

* Preliminary Intercensal 2000-2009, and 2010 Census. All numbers are based on 2010 Census geography.

Note: The large increase for 2010 Census North Slope Borough population numbers is primarily due to 2010 Census counts of employees at remote work sites in the borough, which were not counted in past Censuses. The Alaska Department of Labor and Workforce Development is evaluating how this issue will be addressed in future estimates.

Source: US Census Bureau and Alaska Department of Labor and Workforce Development, Research and Analysis Section

Income

In 2010, Alaska had a per capita personal income of \$44,205, an increase of 2.3 percent from the 2009 per capita personal income of \$43,233. In 2010 Alaska's per capita personal income ranked 9th in

¹ Alaska Department of Labor and Workforce Development, Research and Analysis Section. Population Data; Economic Trends, October 2011

the United States and was 111 percent of the national average of \$39,945. This compares to a per capita personal income for the United States of \$38,846 in 2009 and \$40,947 in 2008.¹

From 2009 to 2010, the inflation rate in Anchorage (the only Alaska city included in the Consumer Price Index) was 1.8 percent. The average in the United States was 1.6 percent. The average annual inflation rate in Anchorage from 2000 to 2010 was 2.5 percent, approximately equal to the average annual inflation rate for the U.S. over the same period.²

The cost of living in Alaska remains significantly higher than the national average. According to the Council for Community and Economic Research’s ACCRA Cost of Living Index for 2010, which compares the living costs for about 300 urban areas in the United States, including four Alaska cities, Anchorage, Juneau, Fairbanks and Kodiak, the cost of living in those cities is 28, 36, 37 and 29 percent, respectively, more expensive than the average city in the index.³

Employment

Data of the Alaska Department of Labor and Workforce Development shows the unemployment rate (seasonally adjusted) for Alaska for October 2011 was 7.4 percent, as compared to a national unemployment rate for the same period of 9.0 percent. As noted in the table below, historically the State’s unemployment rate has exceeded the national rate, but more recently Alaska’s unemployment rate has been lower than that of the U.S.⁴

Unemployment Rates
Alaska and U.S., January 2001 to October 2011

The largest employment sector in Alaska is government: comprised of federal, State and local government employees. Government employment in September 2011 was 85,300. The largest non-government sector of employment was Trade, Transportation and Utilities with 67,100.⁵ The table below provides a summary of the employment of the Alaska labor force by industry.

The following chart shows the employment growth by industry from 2000 to 2010.

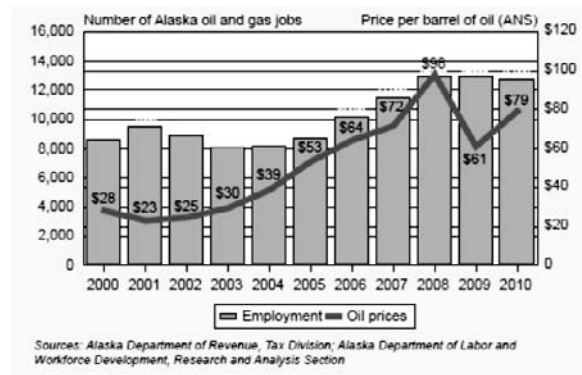

Federal Spending¹

Federal spending has a significant impact on Alaska's economy. Federal funds contribute to military and federal government employment, as well as provide support for specific in-state programs and projects. In many cases, State funds are also used to leverage federal funds in matching programs helping to improve Alaskan communities.

Federal spending in Alaska has increased since 2000. In 2009, the passage of the American Reinvestment and Recovery Act resulted in increased flows of federal funds. In federal fiscal year 2010, the most recent year for which data is available, federal spending in Alaska totaled \$12.6 billion, up from \$11.9 billion in 2009. Federal spending per capita in Alaska in federal fiscal year 2010 was \$20,472. In 2010 Alaska ranked first in total per capita federal spending and second in federal per capital spending for Salaries and Wages and fourth in Procurements.

Oil and Gas

While the oil and gas industry accounts for only about 4 percent of the direct employment in the State, the Institute of Social and Economic Research of the University of Alaska Anchorage estimated in 2007 that approximately one-third of Alaska jobs are oil-related, dependent in some way on oil production or State oil revenues. The 2007 report further estimated that 20 percent more jobs can be traced to the broad economic benefits created both by oil industry activities and by State spending of oil revenues.²

For additional information concerning the oil and gas industry in the State, see “Information Concerning the State of Alaska” in this Official Statement.

Government³

Government was responsible for 82,700 jobs in 2010, over a quarter of all nonfarm employment in the State. This sector encompasses occupations in all industries, including teachers, builders, deckhands, and scientists. Government's total share of Alaska jobs shrank from 27.3 percent to 25.6

³ Alaska Economic Trends, September 2011, Decade in Review, 2000-2010.

percent of jobs over the period 2000 - 2010 as the job growth in private industries outpaced government. Government jobs represented more than \$4.1 billion in wages in 2010.

Local government employment grew by about 2,000 jobs — or 5.4 percent — from 2000 to 2010, with local administrations and school districts representing the largest employers. Within the local government sector, school district employment gained 12 percent and other city, municipal, and borough employment grew by 1 percent.

State government employment accounted for 8 percent of total employment over the last decade. The State-run University of Alaska's employment increased by 1,358 jobs, or 22 percent, while other State agencies' employment increased by 15 percent over the decade, for an overall increase of 17 percent in State government employment.

Federal government employment added about 400 jobs, or 2.3 percent, over the decade. Growth in the civilian defense sector, Veterans' Affairs, and the National Park Service was largely offset by reduced employment by the U.S. Postal Service, health services, agriculture, and aviation, as private firms stepped in or programs were phased out.

Before September 11, 2001, the military was reducing its presence in Alaska. However, the U.S.-led War on Terror funneled additional defense funds into the State. Though the Base Realignment and Closure Act of 2005 resulted in closures, the overall presence of armed forces in the State has increased. There were 5,400 more uniformed military personnel in Alaska in 2010 than there were in 2000. Other military growth includes civilian defense employment and federal spending on base and facility upgrades, salaries, and maintenance.

Health Care¹

Health care has been the State's fastest-growing industry. It employs nearly 32,000 people, and in 2010 its payroll exceeded \$1.5 billion. Fifteen of the 100 largest private sector employers in the State are health care providers. Private sector health care employment increased from 18,600 in 2000 to 32,000 in 2010 and grew four times as fast as the average for all industries: 62 percent compared to 15 percent for total employment. As a result, health care made up over a quarter of all employment growth over the past decade in Alaska. It also grew twice as fast as the nation's health care sector.

The growing population of elderly Alaskans increased demand for services. Although only 7.7 percent of Alaskans are over 65 compared to the nation's 13 percent, the 65-plus group grew by 54 percent between 2000 and 2010, compared to 13 percent nationally. As the industry expanded and more health care choices emerged, more of Alaska's health care spending remained in-State. In 1990, health care accounted for 4 percent of Alaska's wage and salary employment versus 7 percent for the nation. By 2010, that difference narrowed to 9.3 percent for Alaska and 10.6 percent nationwide.

Fisheries²

Seafood remains an important part of Alaska's exports and local economies. In 2010, seafood made up 44 percent of Alaska's export value. Japan remains the top destination for seafood exports, though seafood exports to China are growing rapidly.

¹ Alaska Economic Trends, September 2011, The Decade in Review: 2000 – 2010.

² Alaska Economic Trends, September 2011, The Decade in Review, 2000 – 2010.

The most recent Alaska Department of Labor and Workforce Development estimates show a total harvesting workforce of 29,891 in 2009. The National Marine Fisheries Service estimate is 31,153 commercial harvesting jobs the same year.

Seafood processing employment grew by 700 jobs, or 8 percent, between 2000 and 2010. Seafood preparation and packaging is one of Alaska’s most cyclical industries, since it mostly follows the changes in fish harvesting from season to season. At the beginning of the decade, fish stocks crashed and there were low prices in key fisheries. After that, developed and emerging nations’ desire for more ocean-derived protein increased demand and boosted prices. Salmon prices were also boosted by marketing that differentiated Alaskan wild salmon from their farmed counterparts. Prices and values fell sharply in 2009, during the global recession, for cod, pollock, halibut, and crab.

In 2010, six of the country’s top ten fishing ports, ranked by value, were in Alaska -- Dutch Harbor ranked first in volume and second in value (\$163 million), Kodiak was third in volume and third in value (\$128 million), Naknek-King Salmon ranked fourth in value (\$101 million), Cordova ranked fifth in value (\$84.3 million) and Akutan ranked sixth in value (\$84.1 million). Seward was ranked tenth in value at \$69 million.¹ The following chart shows the value of the Alaskan fisheries.

Mining²

The economic picture of mining in Alaska has changed dramatically, from declining employment in the beginning of the 2000s to a growing industry by 2006. Despite a slight downturn in 2009, mining employment has grown 59 percent overall since 2000, outpacing the nationwide growth rate of just 1.4 percent. The decline in mining employment in 2009 was largely attributable to shifts in the exploration stages at several potential mines.

² Alaska Economic Trends, September 2011, The Decade in Review, 2000 - 2010

The growth in mining was supported by several large developments. Pogo Mine in the eastern interior of Alaska was commissioned in 2006, but began to create jobs in 2005. Fort Knox Mine in the Fairbanks North Star Borough built a heap-leach facility in 2009. And, after several delays, Kensington Mine opened in Southeast Alaska in June of 2010.

The value of Alaska’s primary produced metals more than quadrupled from 2001 to 2007, from \$786.6 million to \$3.22 billion. The total value of Alaska’s mineral industry in 2009 was nearly \$2.9 billion, down \$204 million from 2008’s value of \$3.2 billion, but in 2010 it recovered to \$3.1 billion. The 2009 decline in total value was primarily a result of lower metal prices, increased operating costs and a worldwide economic slowdown.¹

The recent increase in mineral prices has renewed interest in a number of mining projects around the State.

Tourism²

The tourism sector is comprised of three major categories — recreation, food and drink, and accommodations — with the food and drink category accounting for approximately two-thirds of the employment. All three categories grew over the past decade. Over that period, food and drink added 2,500 jobs; accommodations grew by 600 jobs; arts, entertainment, and recreation added 700. As with the industry as a whole, each of accommodations and food and drink lost employment during the nationwide recession when fewer visitors came to the State. The highly seasonal leisure and hospitality industry was growing around 2 percent annually until the recession affected Alaska’s tourism in 2009. The industry lost more than 2,500 jobs at the peak of that season. By the end of the decade, employment had recovered slightly, growing by just under 600 jobs from the 2009 to 2010 summer peaks. With this small recovery, leisure and hospitality ended the decade up 14 percent, or 3,800 average annual jobs, above its 2000 level but still 2,000 jobs below the 2008 peak.

Retail³

A number of new chain and homegrown retailers opened in Alaska during the past decade. Since 2000, the following retailers opened stores in Alaska: Kohl’s, new Walmarts, Best Buy, Target,

¹ 2009 Alaska Economic Performance Report

² Alaska Economic Trends, September 2011, Decade in Review, 2000-2010

³ Alaska Economic Trends, September 2011, Decade in Review, 2000-2010

Sportsman's Warehouse, Petco, Bed Bath and Beyond, and Walgreens. The retail sector provided 35,400 jobs in Alaska in 2010.

Retail trade remains Alaska's largest private sector employer. During the 1980s and 1990s, retail trade in Alaska grew more rapidly than the overall economy. However, during this most recent decade, retail employment grew half as fast as overall employment, adding just 2,400 jobs compared to the 7,500 new jobs during the 1990s. At the end of the decade, retail's share of total Statewide employment was on par with the rest of the nation at 11 percent.

According to census data, Alaska's per-capita sales run 9 percent above the national average, with higher prices accounting for much of that difference.

Transportation¹

Given the geography of the State, Alaskans rely on aviation and marine transportation to move people and goods. Although Alaska is the largest state in terms of area, it has the fifth-lowest road mileage in the United States. The primary reasons for the low road miles in Alaska are (i) the majority of people live in the urbanized areas and (ii) extreme weather, rugged terrain, vast distances, low population density and scattered islands make road construction difficult and costly compared to the number of users. Many remote communities are connected to the rest of Alaska, and the rest of the world, through waterways or airports, rather than roads.

Most goods shipped to and from Alaska move by way of intermodal transportation systems. Most food, household items and consumer goods shipped from the lower 48 states of the United States to Alaska generally arrive by container ship, barge or roll-on, roll-off vessel. Upon arriving in Alaska, freight bound for destinations connected by the highway system are transported by truck or by rail on the Alaska Railroad. Freight bound for remote destinations are flown from Anchorage or Fairbanks to the remote communities. Heavy or bulk commodities are most often moved by barge to remote communities where seasonal barge service is available.

Given the size, geography and population distribution in Alaska, air transportation is critical for Alaska's economy and the health, safety and welfare of all Alaskans. The State owns about 252 rural airports, in addition to Ted Stevens Anchorage International Airport ("ANC") and Fairbanks International Airport. ANC serves as the primary passenger airport in the State and is an important cargo airport globally. In terms of cargo levels, ANC was ranked as the number two cargo airport in North America and as the number five cargo airport in the world by Airports Council International in calendar year 2010. In fiscal year 2011, all-cargo certificated maximum gross takeoff weight (measured in 1,000 lb. units) increased to 25,214,813 from 20,307,000 in 2000. In fiscal year 2011, passenger activity at ANC (including passenger enplanements, passenger deplanements and in-transit passengers) was approximately 5.08 million, as compared to 5.03 million in 2000.²

Alaska's ports and harbors are an important element of the State's economy, providing for the import and export of goods. Port and harbor facilities provide an economic base for those communities dependent on marine resource utilization such as fishing and recreational use. They are an essential link to Alaska's resources, including fisheries, oil, natural gas, mineral resources and recreational activities.

¹ Alaska State Transportation Plan, adopted February 29, 2008

² Alaska International Airports System, Statistics. http://www.dot.alaska.gov/aias/assets/AIAS_Statistics.pdf

The Alaska Marine Highway System (“AMHS”) is a critical part of Alaska’s transportation system and the service it provides is part of the National Highway System. AMHS serves 31 Alaska ports by transporting passengers and vehicles between coastal communities on 11 operating vessels. This service helps meet the social, educational, health and economic needs of Alaskans. AMHS experienced increases in passenger and vehicle traffic in each of the years from 2005 through 2008, when AMHS carried 340,412 passengers and 109,839 vehicles. AMHS experienced a decline in 2009 when it carried approximately 317,891 passengers and 108,541 vehicles. In 2010, AMHS saw a slight recovery, carrying 326,313 passengers and 110,075 vehicles.¹

The Alaska Railroad operates a total of 656 miles of railway miles in Alaska, consisting of 467 miles of main line, 54 miles of branch line and 135 miles of yards and sidings. The Alaska Railroad plays an important economic role. In 2010, the Alaska Railroad carried 6.33 million tons of freight and 405,135 passengers. As of January 2011, the railroad employed 641 year-round employees.²

In 2010 the transportation sector represented 5.9 percent of Alaska’s wage and salary employment versus 3.2 percent for the nation. Transportation also represents a greater share of gross domestic product in Alaska than it does nationwide, at 9 percent in-State versus the nation’s 3 percent.

Transportation employment grew modestly in the last decade, with 18,900 jobs in 2010 compared to 18,700 jobs in 2000. The slowdown in Alaska’s economy in 2009 resulted in steep declines in the visitor industry and international cargo. However, employment growth in Alaska’s transportation sector was slightly positive between 2000 and 2010, in contrast to the nation’s decline of more than 6 percent.

APPENDIX B

STATE OF ALASKA “GENERAL PURPOSE FINANCIAL STATEMENTS” FROM THE COMPREHENSIVE ANNUAL FINANCIAL REPORT, Fiscal Year Ended June 30, 2011

The annual financial report for the State contained in Appendix B hereto is historical information that presents the State’s financial position as of June 30, 2011. This report reflects historical performance. The financial performance of the State reflected in such report cannot be relied upon as a reliable indicator of subsequent performance. Historical trends cannot be used to anticipate results or trends in future periods.

STATE OF ALASKA

DEPARTMENT OF ADMINISTRATION

OFFICE OF THE COMMISSIONER

SEAN PARNELL, GOVERNOR

P.O. BOX 110200
JUNEAU, ALASKA 99811-0200

PHONE: (907) 465-2200
FAX: (907) 465-2135

December 15, 2011

The Honorable Sean Parnell, Governor
Members of the Legislature
Citizens of the State of Alaska

In accordance with Alaska Statute (AS) 37.05.210, it is our pleasure to present the Comprehensive Annual Financial Report (CAFR) of the State of Alaska for the fiscal year ending June 30, 2011. This report has been prepared by the Department of Administration, Division of Finance. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the State. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the State. Statistical and demographic information are included to enable the reader to gain an understanding of the State's financial activities.

INTRODUCTION

Internal Controls

The Department of Administration, Division of Finance, is primarily responsible for the overall operation of the State's central accounting system. The State's system of internal controls over the accounting system has been designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

Some component units operate outside the State's central accounting system. Those component units are responsible for establishing and maintaining their own separate internal control structures.

Audits

The Division of Legislative Audit is the principal auditor of the State's reporting entity. The audit of the CAFR was conducted in accordance with generally accepted auditing standards (GAAS). The independent auditor's report is the first item in the financial section of the CAFR and precedes the MD&A and basic financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the State for the fiscal year ended June 30, 2011, are free of material misstatement. The audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the CAFR, assessing the accounting principles used, and evaluating the overall financial statement presentation.

In addition to the annual audit of the State's CAFR, the State is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget's Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards, the auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs will be published at a later date under separate cover by the Division of Legislative Audit.

Management's Discussion and Analysis (MD&A)

Governmental Accounting Standards Board Statement No. 34 requires that management provide a narrative introduction, overview, and analysis of the State's financial activities. This transmittal letter is intended to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

PROFILE OF THE STATE OF ALASKA

The State of Alaska was the 49th state admitted into the Union in 1959. The Alaska Constitution was adopted by the Constitutional Convention February 5, 1956, ratified by the people of Alaska April 24, 1956, and became operative with the formal proclamation of statehood January 3, 1959.

There are three branches of government: legislative, executive, and judicial. The legislative power of the State is vested in a legislature consisting of a Senate with a membership of 20 and a House of Representatives with a membership of 40. The executive power of the State is vested in the governor. The judicial power of the State is vested in a supreme court, a superior court, and the courts established by the legislature. The jurisdiction of courts and judicial districts are prescribed by law. The courts constitute a unified judicial system for operation and administration.

The State of Alaska reporting entity reflected in this CAFR, which is described more fully in Note 1 to the basic financial statements, conforms with the requirements of Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. These criteria include financial accountability, fiscal dependency, and legal standing. The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents. The financial statements should allow users to distinguish between the primary government (the State) and its component units, with the emphasis being on the primary government. Consequently, this transmittal letter, the MD&A, and the financial statements focus on the State and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

The State provides a range of services including education, health and human services, transportation, law enforcement, judicial, public safety, community and economic development, public improvements, and general administrative services.

Budgetary Control

The State maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the budget appropriated annually by the legislature. Annual operating budgets are adopted through passage of appropriation bills (session laws) by the legislature with approval by the governor. These laws also identify the source of funding for the budgeted amounts. Control is maintained at the departmental level by recording budgeted amounts, funding sources, expenditures, and

encumbrances within the appropriation structure in the State's central accounting system. Open encumbrances are reported as reservations of fund balance at the end of the fiscal year.

ECONOMIC CONDITION AND OUTLOOK

Economy

The well-being of the State of Alaska is best reflected in the operations of the General Fund. The General Fund is the State's primary operating fund and accounts for all financial resources except those required to be accounted for in another fund. The State maintains many accounts and subfunds (created by law) that are accounted for and reported within the General Fund. Four of the most notable are the Constitutional Budget Reserve Fund, the Statutory Budget Reserve Fund, the Permanent Fund Dividend Fund, and the Public Education Fund. Because of materiality and public interest in these funds, individual fund data for each is provided in the combining statements for the General Fund included in this report.

The table below shows General Fund revenues by category for the current and previous fiscal year. Clearly, the State's major source of unrestricted revenue is related to petroleum taxes, rents, and royalties. In FY 11, petroleum revenue increased \$2 billion to 61 percent of all General Fund revenues.

The largest source of nonpetroleum revenues is federal, which makes up 22 percent of revenues. During FY 09, Governor Palin signed the certification required to receive federal funding under the American Recovery and Reinvestment Act of 2009. Alaska is authorized to receive nearly \$1.3 billion in formula and competitive funding available under the Act. The amount expended, as of September 2011, is approximately \$818 million.

Not all revenues that flow into the General Fund are available to pay for unrestricted government activities. The most notable are federal revenues, which are provided for specific purposes.

(Stated in millions)	FY 11	Percent	FY 10	Percent
Petroleum Revenue				
Property Tax	\$ 184.3	1.6%	\$ 118.8	1.4%
Corporate Petroleum Income Tax	601.8	5.4%	493.7	5.6%
Severance Tax	4,131.4	36.9%	2,610.0	32.5%
Mineral Bonuses and Rents	10.3	0.1%	9.1	0.1%
Oil and Gas Royalties	1,853.5	16.6%	1,523.0	17.3%
Total Petroleum Revenue	6,781.3	60.6%	4,754.6	56.9%
Nonpetroleum Revenue				
Taxes	440.8	3.9%	356.4	1.2%
Licenses and Permits	117.3	1.1%	114.0	1.3%
Charges for Services	179.3	1.6%	163.9	1.9%
Fines and Forfeitures	11.6	0.1%	14.6	0.1%
Rents and Royalties	12.0	0.1%	15.9	0.2%
Interest and Investment Income/(Loss)	1,159.0	10.4%	925.1	10.5%
Other Revenue	77.4	0.7%	64.1	0.7%
Total Nonpetroleum Revenue	1,997.4	17.9%	1,654.0	15.9%
Federal Revenue	2,407.9	21.5%	2,394.1	27.2%
Total Revenues	\$ 11,186.6	100.0%	\$ 8,802.7	100.0%

The total expenditures charged against General Fund appropriations during FY 11 amounted to \$9.3 billion, an increase of \$887.6 million from FY 10. The majority of this increase is attributable to the Department of Commerce, Community and Economic Development increased capital grant activity. Expenditures by department are compared with the prior year in the following table:

<u>Department Expenditures (stated in millions)</u>	<u>FY 11</u>	<u>Percent</u>	<u>FY 10</u>	<u>Percent</u>
Office of the Governor	\$ 114.7	1.2%	\$ 74.5	0.9%
Administration	505.5	5.4%	452.0	5.4%
Law	70.2	0.8%	146.7	1.7%
Revenue	1,016.5	10.9%	1,010.4	12.0%
Education and Early Development	1,526.1	16.4%	1,472.5	17.5%
Health and Social Services	2,351.2	25.3%	2,181.4	25.9%
Labor and Workforce Development	148.2	1.6%	149.6	1.8%
Commerce, Community, and Economic Development	909.3	9.8%	380.7	4.5%
Military and Veterans' Affairs	105.9	1.1%	76.1	0.9%
Natural Resources	188.8	2.0%	199.7	2.4%
Fish and Game	109.8	1.2%	96.4	1.1%

Legislature	57.3	0.6%	56.1	0.7%
Debt Service	9.0	0.1%	8.0	0.1%
Alaska Court System	99.8	1.1%	94.8	1.1%
University	409.0	4.4%	381.6	4.5%
Total Expenditures	<u>\$ 9,307.1</u>	<u>100.0%</u>	<u>\$ 8,419.5</u>	<u>100.0%</u>

Major Industry

The State's major source of revenue is petroleum related. The price of oil has had its ups and downs over the years and the price increased steadily during FY 11. The Department of Revenue projected a FY 11 average price of \$91.13 per barrel for the Alaska North Slope West Coast price in its Spring 2011 forecast. Actual Alaska North Slope oil prices were \$3.36 per barrel higher than the estimate, averaging \$94.49 for the fiscal year.

With the State so dependent on petroleum revenues, the price of oil and gas is always a critical element for budgeting. After the Alaska Gasline Inducement Act was signed in June 2007, the administration initiated a competitive process to select a licensee to build the gas pipeline. On August 1, 2008, the Twenty-Fifth Legislature passed Chapter 3, 4SSLA 08 which authorizes the issuance of a license to TransCanada Alaska Company, LLC and Foothills Pipe Lines, Ltd. ExxonMobil joined the TransCanada Alaska Company AGIA project in June of 2009. TransCanada Alaska Company and Exxon completed the open season for the gas pipeline in July of 2010.

The method of calculating production tax revenue changed on April 1, 2006 with the implementation of the Petroleum Profits Tax (PPT). The tax rate structure changed again in November 2007 with the passage of the Alaska Clear and Equitable Share (ACES) legislation (Chapter 1, SSLA 07).

The increase in petroleum revenues collected in FY 11 is attributable to higher prices as discussed in the MD&A and further explained in Schedule B-2 of the statistical section of this report.

Long-term Financial Planning

With declining oil production, a poor national economy, and an unfunded pension liability, the State of Alaska has placed excess funding in our Statutory Budget Reserve Fund and the Constitutional Budget Reserve Fund, and has provided forward funding for K-12 Education and the Alaska Performance Scholarship program. These deposits will contribute towards the future fiscal health of the State of Alaska.

The State of Alaska's bond rating was upgraded in November 2010 to Aaa, the highest grade, by Moody's Investors Services. This is the first Aaa rating in the State's history, and represents the first upgrade due to a reassessment of the State's credit since 1992. According to Moody's, this upgrade is due to the State's large financial reserves, strong financial management, and conservative fiscal decisions.

During FY 11 and looking forward to FY 12, the State of Alaska has taken steps to reduce the amount of long-term debt obligations. In the first session of the 27th Legislature (2011-2012) there were three extraordinary appropriations reducing long-term debt.

- A capital lease obligation of the State was diminished through the defeasement of \$20.6 million of optionally redeemable lease revenue bonds of the Municipality of Anchorage in October 2011.
- Optionally redeemable obligations of three state certificates of participation issues totaling \$22 million par amount were defeased in November 2011.
- An FY 12 General Fund appropriation of \$150 million replaced authority to issue general obligation bonds approved in 2008, and extinguished the ability to incur this previously approved debt.

The State has never before defeased subject to appropriation lease obligations or replaced approved general obligation bonding authority with a current year General Fund appropriation. The combination of these three actions decreased existing or future anticipated long term liabilities of the State of Alaska by \$192.6 million.

Net assets at June 30, 2011 of the two largest pension funds, the Public Employees' (PERS) and Teachers' (TRS) Retirement Systems' funds, were \$11.6 billion and \$4.8 billion respectively. The funding status for PERS and TRS pensions and postemployment healthcare as of the June 30, 2010, actuarial valuations indicated the actuarial accrued liabilities were 62.0 percent pensions and 50.4 percent postemployment funded for PERS, and 54.3 percent pension and 48.1 percent postemployment funded for TRS. Further information on these and other pension funds, including the Supplemental Benefits System and Deferred Compensation plans, can be found in Notes 7, 8, and 9 to the basic financial statements.

Looking ahead at the next 10 years, a cornerstone of Alaska's fiscal plan is to diversify its revenue base. The main emphasis of the 10-year plan is to facilitate Alaska's transition from a predominantly oil revenue base to an oil and natural gas revenue base. Construction of a pipeline to monetize Alaska's natural gas resources is a key element in providing for the future fiscal and economic stability of the State. Revenue generated from a natural gas pipeline will help diversify Alaska's revenue sources and provide a substantial source of new revenue to offset declining oil revenue. In addition, the gas pipeline will provide economic opportunity through the provision of a stable, clean source of energy to fuel Alaskan businesses and homes for years to come.

Relevant Financial PoliciesSpending Limitation

Since July 1, 1981, the Alaska Constitution Article IX, Section 16, establishes the annual appropriation spending limit of \$2.5 billion plus a formula which factors in changes in population and inflation. This is further discussed in Note 2.

Investments

As discussed more fully in Note 4 to the basic financial statements, the State's cash is managed by the Treasury Division in the Department of Revenue or by other administrative bodies as determined by law. All cash deposited in the State Treasury is managed to achieve a particular target rate of return as determined by the investment objectives set for a given fund. Cash in excess of the amount needed to meet current expenditures is invested pursuant to AS 37.10.070-071, which requires that investments shall be made with the judgment and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion, and intelligence exercises in managing large investment portfolios.

Treasury has established an array of investment pools with varying investment horizons and risk profiles. Investments are managed in a pooled environment unless required by statute or bond resolution to be held separately. Commingled investment pools maximize earnings potential, provide economies-of-scale, and allow smaller funds to participate in investment opportunities that would otherwise be unavailable to them. Rather than each participant (fund) buying identical individual securities, larger quantities of securities can be purchased at one time, reducing the operating costs and number of transactions. A fund's equity ownership in a pool is based on the number of shares held by the fund.

Cash Flow and Revenue Shortfalls

After oil began flowing through the Trans-Alaska Pipeline in the late 1970s, the State enjoyed the enviable position of having sizeable sums of cash flowing into the State Treasury. This cash funded a steadily growing state operating budget, large and small annual capital budgets, and the State's permanent fund.

In more recent years, the reality of declining oil production and the corresponding decrease in available cash has become more apparent. The volatility of oil prices has a profound effect on the annual budgeting process. Also associated with this volatility, though less widely understood, is a cash flow situation that could lead to a cash deficiency for the State.

Prior to 1985, most unrestricted revenues flowed directly into the State's General Fund where they were available to pay day-to-day costs of operating State government. This is no longer the case. Over time, the legislature has established many subfunds of the General Fund to segregate cash for budgeting purposes. In 1990 the legislature appropriated the entire General Fund balance available for appropriation at the end of FY 91 to a statutory Budget Reserve Fund (SBRF). By a vote of the people in 1990, the Alaska Constitution was amended to establish a separate Constitutional Budget Reserve Fund (CBRF) into which oil tax settlement revenues are deposited. The effect of these actions diverted cash historically destined for the General Fund to other cash pools that were not available to pay day-to-day State operating costs.

Also contributing to the potential for a cash deficiency is the fact that the inflow of unrestricted revenues does not mirror the outflow of cash expenditures. Revenues and expenditures are cyclic with high and low periods, which do not necessarily coincide. The first quarter expenditures of each fiscal year are generally higher than revenues for the same period. Clearly, if the General Fund (excluding the subfunds) does not have a large cash balance at the beginning of the fiscal year or if other sources of funds are not

available, the State faces the possibility of a cash deficiency before the end of the first quarter. A memorandum of understanding outlines the steps to be taken in various scenarios involving a cash deficiency.

Borrowing from the budget reserve funds has been the solution for both cash flow shortages and revenue shortfalls. Between FY 93 and FY 05, the legislature addressed the possibility of a revenue shortfall by including language in the appropriation act permitting the executive branch to borrow cash from the statutory and constitutional budget reserve funds in the event expenditures exceeded revenues. In FY 93 and again in FY 96, funds were taken from the SBRF to balance revenues and expenditures. Cash was borrowed from the CBRF in FY 94, FY 95, FY 96, FY 98, FY 99, FY 00, FY 02, FY 03, FY 04, and FY 05 to balance revenues and expenditures. In FY 07, FY 08, FY 09, and FY 10, \$50 million, \$3 billion, \$1 billion, and \$401.6 million respectively, was appropriated from the General Fund to the CBRF to pay the remaining borrowed amount. All borrowing from the CBRF was completely repaid in FY 10 and no borrowing activity from the CBRF occurred during FY 11.

At the end of FY 11, the remaining available balance of \$385 million in the General Fund was transferred to the Statutory Budget Reserve Fund per Chapter 13, SLA 2010, section 18.

Initiatives

Over the next five years the State is implementing an Enterprise Resource Planning (ERP) solution powered by AMS-Advantage to replace disparate administrative systems. The integration of financial, Human Resource/payroll, and procurement functions into one statewide system will provide greater transparency and more efficient management of resources.

All State agencies are reporting program performance that describes the results of their service efforts and accomplishments. This information is available on the Office of Management and Budget web site at www.omb.alaska.gov.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Alaska for its CAFR as of and for the fiscal year ended June 30, 2010. This is the eighth year the State of Alaska has received this award on the CAFR. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of government financial reports. It represents a significant accomplishment by a government and its management.

To be awarded the Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR, the contents of which conform to GFOA standards and satisfy both generally accepted accounting principles and applicable legal requirements. The certificate is valid for only a one year period. We believe the CAFR for the State of Alaska as of and for the fiscal year ended June 30, 2011 conforms to the award criteria, and we are submitting it to the GFOA for review.

We wish to express our sincere appreciation to the many individuals whose dedicated efforts have made this report possible. The preparation of this report could not have been accomplished without the professionalism and dedication demonstrated by the financial and management personnel of each State agency, each component unit, and the dedicated staff within the Division of Finance.

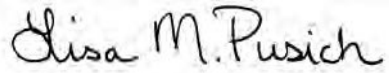

Sincerely,

Becky Hultberg
Commissioner
Department of Administration

Scot Arehart
Director
Division of Finance

Lisa M. Pusich, CPA

Division of Finance

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Alaska

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2010

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

STATE OF ALASKA ORGANIZATION CHART

As of June 30, 2011

- Elected by popular vote (includes Lieutenant Governor, elected on same ticket as Governor).
- Justices and Judges of the Courts nominated by Judicial Council, selected by Governor and thereafter subject to voter approval.
- Department heads appointed by Governor and confirmed by the Legislature.

FUNCTIONS OF STATE DEPARTMENTS

OFFICE OF THE GOVERNOR

The Governor is the Chief Executive of the State. The Office of the Governor has the overall responsibility for coordinating the activities of state agencies to ensure that all programs are consistent with the governor's policy and objectives.

ADMINISTRATION

The Department of Administration centralizes services to provide more efficient, cost-effective support to state agencies and Alaskans. Services to state agencies include: Labor Relations and Personnel, Finance (payroll, accounting, and disbursements), General Services (purchasing, surplus property, mail, managing public buildings, and leases), Risk Management, Enterprise Technology Services (telecommunications and computer services), and Retirement and Benefits (public employers, public employees and retirees).

The department also provides services to the public through the: Division of Motor Vehicles, Division of Retirement and Benefits, Office of Public Advocacy, Public Defender Agency, Alaska Public Offices Commission, Alaska Oil and Gas Conservation Commission, Alaska Public Broadcasting Commission, Office of Administrative Hearings, and Violent Crimes Compensation Board.

COMMERCE, COMMUNITY AND ECONOMIC DEVELOPMENT

The Department of Commerce, Community, and Economic Development promotes economic development, strengthens communities and provides consumer protection. To accomplish these, the department implements programs for sustainable business growth and reduced energy cost, regulates and enforces to provide a stable business climate, and provides technical and financial assistance and volunteerism outreach opportunities for communities.

The department consists of core agencies including: Division of Banking and Securities, Division of Corporations, Professional and Business Licensing, Division of Community and Regional Affairs, Division of Insurance, and the Division of Economic Development. Various corporate agencies are also part of the department, including: Alaska Aerospace Corporation, Alaska Industrial Development and Export Authority, Alaska Energy Authority, Alaska Railroad Corporation, Alaska Seafood Marketing Institute, Regulatory Commission of Alaska, and the Serve Alaska Commission.

CORRECTIONS

The Department of Corrections is responsible for public safety through the incarceration and supervision of offenders. The department operates 12 correctional facilities and jails that provide secure incarceration and appropriate rehabilitation programs for felons and misdemeanants; community residential centers; supervision and case management of probationers and parolees in the community; and oversight of 15 small community jails. Also included in the department is the Alaska Board of Parole, a quasi-judicial board that makes all parole related decisions.

EDUCATION AND EARLY DEVELOPMENT

The Department of Education and Early Development is responsible for Alaska's system of public education. The State Board of Education and Early Development is the executive board of the department. The board develops educational policy, promulgates regulations governing education, appoints the commissioner of Education and Early Development with the Governor's approval, and is the channel of communication between state government and the public for educational matters. Education policies are determined by the board and administered by the commis-

sioner through department divisions. Programs administered include: public school funding, teacher certification, and student assessment. The department also operates Mt. Edgecumbe High School, the state's secondary boarding school program. The department administers the state libraries, archives, museum services, provides grants to the arts community, and provides financial aid to post-secondary students through the Alaska Commission on Postsecondary Education.

ENVIRONMENTAL CONSERVATION

The Department of Environmental Conservation is the state's regulatory agency responsible for protection of the environment and protection of citizens from unsafe sanitary practices.

To accomplish these results, the department develops and enforces standards for protection of the environment and the abatement of pollution to air, land and water; and controls sanitary practices related to food, drinking water and solid waste. Services to communities include financial and technical assistance for upgrading water, sewage and solid waste, assistance meeting health-based standards for air quality, and positioning oil spill response equipment for preparedness and cleanup of oil and hazardous substances releases.

Through partnerships with Alaska citizens, businesses, and communities, the department works to safely manage and reduce pollution and hazards to the environment and human health.

FISH AND GAME

The Department of Fish and Game's mission is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and well-being of the people of the state, consistent with the sustained yield principle in the Alaska Constitution. The commissioner and the department conduct management and research functions necessary to support this mission.

The Boards of Fisheries and Game are responsible for adopting regulations to conserve and develop the state's fish and wildlife resources. The Commercial Fisheries Entry Commission is a quasi-judicial agency that promotes resource conservation and sustained yield management by regulating entry into Alaska's commercial fisheries. The department also includes the Exxon Valdez Oil Spill Trustee Council, which oversees restoration of the injured ecosystem through the use of the \$900 million civil settlement.

HEALTH AND SOCIAL SERVICES

The Department of Health and Social Services' mission is to promote and protect the health and well-being of Alaskans. The overriding theme for the department's future direction is "helping individuals and families create safe and healthy communities" by strategically focusing on substance abuse, health and wellness, health care reform, long-term care and vulnerable Alaskans.

The department's primary functions include: operation of the Alaska Veterans and Pioneers Homes, support services for seniors and disabled Alaskans; child protection and family preservation services; operation of youth detention facilities and assisting offenders and their families in developing skills to prevent crime; and providing basic supports and promoting self sufficiency for vulnerable individuals who are unable to provide for themselves.

The department is committed to prevention of illness, health promotion and protection; overseeing community-based mental health and substance abuse services across the continuum of care (prevention, early intervention, treatment and recovery programs), including operation of the Alaska

Psychiatric Institute; and provision of Medicaid services for low income and disabled Alaskans.

LABOR AND WORKFORCE

DEVELOPMENT

The Department of Labor and Workforce Development is responsible for advancing opportunities for employment and insuring that employers provide safe and legal working conditions. The department offers employment services, unemployment insurance, adult basic education, job training, workers' compensation adjudication and rehabilitation services, the Fishermen's and Second Injury Funds, and vocational rehabilitation for people with disabilities. In addition, the department enforces laws and regulations assuring occupational safety and health, performs mechanical inspections, and administers state wage and hour laws; serves as the labor relations agency for public employment in the state; and collects, analyzes, and releases labor market and population statistics. Also included in the department are the Alaska Workforce Investment Board, the Workers' Compensation Appeals Commission and the Alaska Vocational Technical Center.

LAW

The Department of Law is responsible for ensuring safe communities in part through the prosecution and conviction of criminal offenders. The department files both misdemeanor and felony charges; serves as legal advisor to grand juries; and represents the state in all phases of criminal trial and appellate proceedings. It provides legal assistance to state and local law enforcement, the Department of Corrections and the Division of Juvenile Justice. It also works in partnership with executive, legislative, and judicial agencies by providing legal advice and representing the state in all actions in which it is a party. Such actions include protecting Alaska's children and youth by handling child abuse, neglect, and delinquency cases expeditiously; resolving questions of state versus federal control of natural resources; ensuring that the state receives its correct share of oil and gas taxes and royalties; collecting money owed to the state by businesses and individuals for child support, fines, and other unpaid obligations; and defending the state against claims for personal injury and other damages.

MILITARY AND VETERANS AFFAIRS

The Department of Military and Veterans Affairs is responsible for the Alaska Army and Air National Guard, the Division of Homeland Security and Emergency Management, the Office of Veterans Affairs, the Alaska Military Youth Academy, and the Alaska State Defense Force and Alaska Naval Militia. The commissioner serves as the Adjutant General of the State of Alaska and exercises day to day command over the Alaska National Guard comprised of approximately 4,000 Army and Air guardsmen. The strategic mission includes the responsibility for protecting lives and property from terrorism and all other hazards, and to provide rapid recovery from all disasters through the Division of Homeland Security and Emergency Management. The department is also responsible for managing the Alaska Military Youth Academy, which is an accredited special purpose school offering the ChalleNGe program to high school dropouts. The department also provides interactive activities to elementary school students in aviation, science, technology, engineering, math, and space exploration through the STARBASE program. Lastly, the department serves as an advocate on issues affecting Alaska's veteran population.

NATURAL RESOURCES

The Department of Natural Resources manages the majority of state-owned land, water and natural resources, except fish and game. These resources include approximately 100.1 million acres of uplands; 60 million acres of tidelands, shore lands, and submerged lands; and 40,000 miles of coastline. Strategic missions include: develop, conserve, and enhance the natural resources of the State of Alaska; raise public awareness that Alaska's natural resources are the basic asset of our economy; stimulate and encourage resource-based, value-added economic activity while conserving Alaska's wild and scenic value; determine the potential for natural hazards that may impact people and facilities in Alaska; and

maintain access to and manage the state's land records. The department also plays an instrumental role in the Alaska Gasline Inducement Act (AGIA) process, a law designed to advance construction of a natural gas pipeline from the North Slope to market.

The department serves the state from offices located in 30 Alaskan communities, and encompasses the divisions of Agriculture; Coastal and Ocean Management; Forestry; Geological and Geophysical Surveys; Mining, Land and Water; Oil and Gas; Parks and Outdoor Recreation; Support Services; the AGIA Coordinator's Office; the Office of Project Management and Permitting; the Mental Health Trust Land Office; the Joint Pipeline Office; the Citizens Advisory Commission on Federal Areas, the Natural Resources Conservation and Development Board, and the Seismic Hazards Safety Commission. The department is responsible for managing the two largest oil and gas fields in North America; a park system that contains one-third of the nation's state park lands; 40% of the nation's fresh water; fire suppression management for over 134 million acres; forest resource management in three state forests totaling over 2 million acres; mineral management involving 47,412 mining claims; an agricultural program that encompasses 600-800 farms; a comprehensive archive of indigenous plant materials; and a geologic sample archive representing more than 13 million feet of oil and gas exploration and production drilling, and 450,000 feet of mineral exploration core drilling throughout the state.

PUBLIC SAFETY

The Department of Public Safety is responsible for the enforcement of state laws including criminal and fish and wildlife protection laws, fire and life safety, search and rescue, highway safety and alcoholic beverage laws; providing forensic crime laboratory services to law enforcement statewide; certifying police proficiency; providing basic police academy and specialized training to municipal and state law enforcement agencies; oversight of the Village Public Safety Officer Program; and assisting victims of domestic violence and sexual assault.

REVENUE

The Department of Revenue administers and enforces tax and charitable gaming laws; collects, invests, and manages state funds and public employee pension trust funds; administers the Permanent Fund Dividend, Shared Taxes and Child Support Services programs; administers licensing programs mandated by statute; issues state general obligation, revenue and lease debt, and authorizes certain agency debt. Other state entities associated with the department for administrative purposes are: Alaska Permanent Fund Corporation, Alaska Housing Finance Corporation, Alaska Housing Capital Corporation, Alaska Municipal Bond Bank Authority, Alaska Mental Health Trust Authority, Alaska Retirement Management Board, Alaska Natural Gas Development Authority, Alaska Gasline Development Corporation, Northern Tobacco Securitization Corporation, and the State Bond Committee.

TRANSPORTATION AND

PUBLIC FACILITIES

The Department of Transportation and Public Facilities is responsible for the planning, research, design, construction, maintenance, operation, and protection of all state transportation systems and many public facilities. This includes approximately 260 state-owned airports and seaplane bases, more than 5,000 miles of state roads, over 700 buildings ranging from maintenance shops to state office complexes, and 25 ports and harbors. In addition, the department owns and operates the Alaska Marine Highway System, serving 33 Alaskan communities with connections to Bellingham, WA and Prince Rupert, BC. The department also owns and operates the State Equipment Fleet, which provides full maintenance support and replacement activities of approximately 7,800 light- and heavy-duty vehicles and attachments for state departments, agencies and offices.

FAX (907) 465-2347
legaudit@legis.state.ak.us

Independent Auditor's Report

Citizens of the State of Alaska:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Alaska, as of and for the year ended June 30, 2011, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Alaska's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Alaska Permanent Fund, the Fiduciary Funds – Pension and Other Employee Benefit Trust Funds, and one discretely presented component unit: Alaska Mental Health Trust Authority. Those financial statements reflect total assets, net assets and revenues of the indicated opinion units:

<u>Opinion Unit</u>	<u>Percent of Assets</u>	<u>Percent of Net Assets/ Fund Balance</u>	<u>Percent of Revenues</u>
Governmental Activities	63%	62%	40%
Aggregate Discretely Presented Component Units	5%	8%	7%
Major Funds:			
Alaska Permanent Fund	100%	100%	100%
Aggregate Remaining Fund Information:			
Fiduciary Funds	86%	87%	83%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for those component units and funds, is based on the reports of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Alaska as of June 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, budgetary comparison information, and the corresponding notes as listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Alaska's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical sections are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in black ink that reads "Pat Davidson". The signature is fluid and cursive, with a long horizontal line extending to the right.

Pat Davidson, CPA
Legislative Auditor

December 9, 2011

STATE OF ALASKA MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the State of Alaska, we offer readers of the State's financial statements this narrative overview and analysis of the financial activities of the State for the fiscal year ended June 30, 2011. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the preceding pages of this report, and the financial statements that follow.

Financial Highlights

Government-wide

- The assets of the State exceeded its liabilities at the close of FY 11 by \$66.3 billion (net assets). Of this amount, \$6.4 billion is invested in capital assets, \$39.5 billion is restricted for various purposes, and unrestricted net assets are \$20.4 billion. Unrestricted net assets may be used to meet the State's ongoing obligations to citizens and creditors.
- The State's total net assets increased by \$9.8 billion as a result of this year's operations. This increase is primarily attributable to petroleum related income and interest and investment gains compared to the previous year.

Fund level

- Beginning in FY 10 the State implemented GASB Statement 54, which provides new fund balance classifications for governmental funds. The previous reserved and unreserved classifications have been replaced with nonspendable, restricted, and unrestricted balances. Additional information on the State's fund balances can be found in Note 1 in the notes to the basic financial statements.
- As of the close of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$59.6 billion, with \$20.7 billion unrestricted (includes committed, assigned, and unassigned), \$38.4 billion nonspendable, and \$540 million restricted to specific purposes such as development, debt, and education. The nonspendable fund balance includes \$37.8 billion of the Alaska Permanent Fund principal with the remaining related to nonspendable assets such as inventory, compensating balances, advances and prepaid items, and the principal of other nonmajor permanent funds.
- At the end of the current fiscal year, unrestricted fund balance for the General Fund was a surplus of \$17.5 billion. This is an increase of \$2.2 billion from FY 10. The increase is mainly attributable to petroleum related income.

Long-term debt

- As a result of this year's activity, the State's total long-term debt increased by \$241 million (10 percent). The increase in debt is primarily due to the sale of general obligation bonds. Pollution Remediation long term liability also increased based on new sites and the valuation of existing sites.

Overview of the Financial Statements

This Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the State's basic financial statements. The State's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements (reporting on the State as a whole)

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances, in a manner similar to a private-sector business. It includes all of the State's funds and component units except for fiduciary funds. However, the primary focus of the statements is clearly on the State and the presentation allows the user to address the relative relationship with the discretely presented component units.

The statement of net assets presents information on all of the State's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets should serve as a useful indicator of whether the financial position of the State is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

- **Governmental Activities** – Most of the State's basic services are reported in this category. Governmental activities are principally supported by interest and investment income, taxes, rents and royalties, and intergovernmental revenues. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- **Business-type Activities** – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. The State's International Airports Fund, the various loan funds, and the Unemployment Compensation fund are examples of business-type activities.
- **Discretely Presented Component Units** – Component units are legally separate organizations for which the State is financially accountable. The State has one university and ten corporations and authorities that are reported as discretely presented component units of the State.

The government-wide financial statements are statement numbers 1.01 and 1.02.

This report includes two statements (statement numbers 1.12 and 1.14) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (accrual accounting) on the appropriate government-wide statements. The following summarizes the impact of transitioning from modified accrual to accrual accounting.

- Capital assets (land, buildings, equipment, infrastructure, intangibles, and construction in progress) used in governmental activities are not reported in governmental fund statements.
- Internal service funds are reported as governmental activities in the government-wide financial statements, but are reported as proprietary funds in the fund financial statements.
- Certain revenues, unavailable to pay for current period expenditures, are not reported in the governmental fund statements.
- Unless due and payable in the current period, certain long-term liabilities such as capital lease obligations, compensated absences, litigation, and others only appear as liabilities in the government-wide statements.
- Capital outlay spending results in capital assets in the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond and note proceeds result in liabilities in the government-wide statements, but are recorded as other financing sources in the governmental fund statements.

Fund Financial Statements (reporting on the State's major funds)

The fund financial statements are statement numbers 1.11 through 1.42 and provide detailed information about the major individual funds. The State has three major funds, the General Fund, the Alaska Permanent Fund, which are included in the governmental fund statements, and the International Airports Fund, which is included in the proprietary fund statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State of Alaska, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the State can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. We have also included the discretely presented component units in the fund financial statements and include detailed information on the three major component units, the University of Alaska, Alaska Housing Finance Corporation, and Alaska Industrial Development and Export Authority.

Governmental funds – Most of the State's basic services are reported in the governmental funds. Governmental funds include the General Fund, special revenue funds, capital projects funds, debt service funds, and permanent funds. Governmental fund financial statement focus is on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating whether there are more or fewer financial resources that can be spent in the near future to finance the State's programs. These funds are reported using modified accrual accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund financial statements are statement numbers 1.11 through 1.14.

As mentioned earlier, the State has only two major governmental funds, the Alaska Permanent Fund and the General Fund. Together these two funds represent 96.8 percent of total government-wide cash and investments and 87.4 percent of total government-wide net assets (excluding component units). The governmental funds financial statements present detail on each of these funds, with summarized information on all other governmental funds. In addition, detail for each of the nonmajor governmental funds is available in combining statements elsewhere in this report.

The State's main operating fund is the General Fund. However, the State maintains many accounts and subfunds within the General Fund, including the Constitutional Budget Reserve Fund, the Statutory Budget Reserve Fund, the Permanent Fund Dividend Fund, and the Public Education Fund. Because of materiality and public interest in these funds, individual fund data for each of these subfunds is provided in the combining statement for the General Fund elsewhere in this report.

Proprietary funds – When the State charges customers for the services it provides, whether to outside customers or to other State agencies, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting, the same method used by private-sector businesses. Enterprise funds are used to report activities that provide supplies and services to the general public. The State uses enterprise funds to account for activities such as international airports operations, various loan funds, and the unemployment compensation fund. These activities are reported within business-type activities on the government-wide financial statements.

Internal service funds account for activities that provide supplies and services for other State programs. These include, among others, the State's equipment fleet and data processing/telecommunications. Because these services primarily benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary fund financial statements are statement numbers 1.21 through 1.23. The International Airports Fund is a major enterprise fund of the State of Alaska. The International Airports Fund is 8 percent of total government-wide liabilities (excluding component units). The proprietary funds financial statements present detail on this fund with summarized information on all other proprietary funds. In addition, detail for each of the nonmajor proprietary funds is provided in the combining statements elsewhere in this report.

Fiduciary funds – The State acts as a trustee or fiduciary for its employee pension plans. In addition, it is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in the Statement of Fiduciary Net Assets and Statement of Changes in Fiduciary Net Assets. These funds, which include pension (and other employee benefit) and agency funds, are reported using accrual accounting. Since fiduciary assets are restricted in purpose and are not available to support the State's own programs, these fiduciary assets are not presented as part of the government-wide financial statements.

The fiduciary fund financial statements are statement numbers 1.31 and 1.32.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found immediately following the component unit statement of activities (statement number 1.42).

Additional Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents a budgetary comparison schedule for the General Fund reconciling the statutory and generally accepted accounting principles (GAAP) fund balances at fiscal year-end (statement number 2.01).

Other Supplementary Information

Other supplementary information includes combining financial statements for nonmajor governmental, proprietary, and fiduciary funds, as well as nonmajor discretely presented component units. These nonmajor funds are added together by fund type and presented in single columns in the basic financial statements, but are not reported individually on the fund financial statements. Only the major funds, the General Fund, the Alaska Permanent Fund, and the International Airports Fund are presented individually on the primary government fund financial statements. Schedules of revenues, expenditures, and changes in fund balances – budget and actual are also presented for all governmental funds with annually adopted budgets.

Government-wide Financial Analysis

As noted earlier, net assets should serve over time as a useful indicator of a government's financial position. State assets exceeded liabilities by \$66.3 billion at the close of the most recent fiscal year (see table below). By far the largest portion of

the State's net assets (61 percent) reflects its investments held in the Alaska Permanent Fund. However, the majority of these assets are not available for future spending since the principal of the fund (\$37.8 billion) may not be spent.

The remainder of the State's net assets (39 percent) represents amounts invested in capital assets net of related debt (\$6.4 billion), resources that are subject to external restrictions of how they may be used (\$1.7 billion), and unrestricted net assets of \$20.4 billion, of which \$2.3 billion is within the Alaska Permanent Fund.

Net Assets						
(Stated in millions)						
	Governmental		Business-type		Total	
	Activities		Activities		Primary Government	
	FY 11	FY 10	FY 11	FY 10	FY 11	FY 10
Current and Other Noncurrent Assets	\$ 65,939	\$ 54,280	\$ 1,105	\$ 1,109	\$ 67,044	\$ 55,389
Capital Assets	6,403	6,237	1,266	1,244	7,669	7,481
Total Assets	<u>72,342</u>	<u>60,517</u>	<u>2,371</u>	<u>2,353</u>	<u>74,713</u>	<u>62,870</u>
Long-term Liabilities	2,168	1,958	604	573	2,772	2,531
Other Liabilities	5,648	3,887	20	18	5,668	3,905
Total Liabilities	<u>7,816</u>	<u>5,845</u>	<u>624</u>	<u>591</u>	<u>8,440</u>	<u>6,436</u>
Net Assets:						
Invested in Capital Assets,						
Net of Related Debt	5,619	5,430	783	766	6,402	6,196
Restricted	38,808	32,819	671	679	39,479	33,498
Unrestricted	20,099	16,423	293	317	20,392	16,740
Total Net Assets	<u>\$ 64,526</u>	<u>\$ 54,672</u>	<u>\$ 1,747</u>	<u>\$ 1,762</u>	<u>\$ 66,273</u>	<u>\$ 56,434</u>

The net assets of governmental activities increased \$9,854 million and business-type activities decreased \$15 million as a result of this year's operations. The increase for governmental activities is primarily due to petroleum related income and interest and investment gains compared to the previous year. The decreases in business-type activities is primarily due to interest and investment losses.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net assets changed during FY 11.

Changes in Net Assets						
(Stated in millions)

Financial Analysis of the State's Funds

As noted earlier, the State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the State's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the State's financing requirements. In particular, unassigned, assigned, and committed fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the State's governmental funds reported combined ending fund balances of \$59.6 billion, an increase of \$9.8 billion in comparison with the prior year. This increase is from petroleum related income and the Alaska Permanent Fund investment gains.

The General Fund unassigned and committed fund balances, which are available for spending at the government's discretion, had balances of \$13.1 billion, and \$4.4 billion, respectively. The Alaska Permanent Fund (earnings reserve account) had an assigned fund balance of \$2.3 billion, and the remaining nonmajor governmental funds had committed fund balances of \$817 million. The remainder of fund balance is restricted or nonspendable to indicate that it is not available for new spending such as the principal of the Alaska Permanent Fund (\$37.8 billion), and other items that are nonspendable, such as inventory, compensating balances, advances and prepaid items, and principal (\$576 million), and amounts restricted for a variety of other purposes (\$540 million).

The General Fund is the chief operating fund of the State. At the end of the current fiscal year, unrestricted fund balance (includes committed, assigned, and unassigned) of the General Fund was \$17.5 billion, while total fund balance reached \$17.8 billion. As a measure of the General Fund's liquidity, it may be useful to compare both unrestricted fund balance and total fund balance to total fund expenditures. Unrestricted fund balance represents 188 percent of total General Fund expenditures, while total fund balance represents 191 percent of that same amount.

The fund balance of the State's General Fund increased by \$2.2 billion during the current fiscal year. The key factor in this increase is petroleum related income.

There was no appropriated borrowing from the Constitutional Budget Reserve Fund during the fiscal year and the fund remains paid in full.

General Fund revenues for FY 11 were \$11.2 billion, an increase of \$2.4 billion compared to revenues of \$8.8 billion for FY 10. Revenues by source for FY 11 are compared to FY 10 in the following schedule (in millions):

Revenue Source	FY 11	Percent	FY 10	Percent
Taxes	\$ 5,358.3	47.9%	\$ 3,578.9	40.7%
Rents and Royalties	1,875.8	16.8%	1,548.0	17.6%
Interest and Investment Income/(Loss)	1,159.0	10.3%	925.1	10.5%
Federal	2,407.9	21.5%	2,394.1	27.2%
Miscellaneous	385.6	3.5%	356.6	4.0%
Total Revenue	\$ 11,186.6	100.0%	\$ 8,802.7	100.0%

The primary component of this revenue increase is petroleum related income compared to the previous year. These petroleum revenues include corporate income tax, severance tax, and rents and royalties.

Alaska Permanent Fund

The Alaska Permanent Fund (fund) is an asset of the State of Alaska that is managed by the Alaska Permanent Fund Corporation, an instrumentality of the State of Alaska.

In 1976 the Alaska constitution was amended to provide that: *At least twenty-five percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the State shall be placed in a permanent fund, the principal of which shall be used only for those income-producing investments specifically designated by law as eligible for permanent fund investments. All income from the permanent fund shall be deposited in the General Fund unless otherwise provided by law.*

The fund is made up of two parts.

- **Nonspendable Fund Balances:** The nonspendable fund balances, or principal, include all historical contributions and appropriations, which are the main body of the fund. At June 30, 2011, this amounted to \$33.0 billion. The sources of contributions and appropriations of the fund, since inception, were as follows: \$12.8 billion in dedicated mineral revenues; \$13.2 billion of fund realized earnings transferred to principal for inflation proofing; \$6.9 billion in additional deposits approved by special legislative appropriation, and \$153 million in settlement earnings (*State v. Amerada Hess, et al.*).

A portion of accumulated unrealized appreciation on invested assets is also part of the nonspendable fund balances. The unrealized amounts allocated to contributions and appropriations are nonspendable, unless and until they become realized, at which point they will be transferred to the assigned fund balance. The portion of the unrealized appreciation at the end of the fiscal year allocated to principal amounted to \$4.8 billion.

- **Assigned Fund Balances:** The assigned fund balances, which are available for legislative appropriation, consist of the realized earnings of the fund and a portion of accumulated unrealized appreciation. From inception through June 30, 2011, realized earnings (both gains and losses) have amounted to \$39.2 billion. Of this amount \$19.2 billion has been paid out for dividends, \$13.3 billion has been transferred to principal for inflation proofing, \$4.3 billion has been added to principal by special appropriation, \$400 million has been paid out to the General Fund, and \$2.0 billion remains in the fund at June 30, 2011 in the realized earnings account. The portion of the unrealized appreciation at the end of the fiscal year allocated to the assigned fund balance amounted to \$292.1 million.

General Fund Budgetary Highlights

The difference between the original budget and the final amended budget was a \$1.9 billion increase in appropriations (or 12 percent) and can be briefly summarized as follows:

- \$1,150.8 million allocated to education
- \$210.8 million allocated to transportation
- \$210.6 million allocated to development
- The balance is allocated across several expenditure functions.

Of this overall increase in appropriated expenditures, \$295.5 million was funded out of an increase in interagency receipts, which represent purchases between departments, and \$111.1 million was funded out of an increase in federal grants in aid, which is predominantly related to revenues received under the American Recovery and Reinvestment Act of 2009. The remaining increase was funded with money available within the General Fund.

Budgets for these program areas are difficult to predict. It is not unusual for additional budget authority to be granted when new funding sources become available. However, the increase in the final budget for education is easily identifiable. The increase in budgetary authority for the education function is mainly attributable to additional funding necessary to support the education formula-driven programs within the Public Education Fund, a subfund of the General Fund. Expenditures for public education and pupil transportation are not included in the original budget.

Capital Assets and Debt Administration

Capital assets. The State's investment (net of related debt) in capital assets for its governmental and business-type activities as of June 30, 2011, amounts to \$6.4 billion. The table below displays total capital assets, net of accumulated depreciation. Depreciation charges for FY 11 totaled \$357 million for governmental activities and \$59 million for business-type activities.

Capital Assets
(net of depreciation, in millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 11	FY 10	FY 11	FY 10	FY 11	FY 10
Land	\$ 844	\$ 823	\$ 30	\$ 30	\$ 874	\$ 853
Buildings	1,128	1,115	738	746	1,866	1,861
Equipment	439	440	31	29	470	469
Infrastructure	2,476	2,499	407	362	2,883	2,861
Construction in Progress	1,516	1,359	60	77	1,576	1,436
Total Capital Assets	\$ 6,403	\$ 6,236	\$ 1,266	\$ 1,244	\$ 7,669	\$ 7,480

In FY 11, increases were primarily in construction in progress with an increase of \$140 million. This increase is attributable to large capital budgets in recent years. Additional information on the State's capital assets can be found in Note 5 in the notes to the basic financial statements.

Long-term debt. At the end of the current fiscal year, the State had total bonded debt outstanding of \$1,672 million. Of this amount, \$656 million was general obligation bonds, and \$1,016 million of revenue bonds payable comprised of \$370 million issued by the Northern Tobacco Securitization Corporation (NTSC), \$52 million of sport fishing revenue bonds, and \$594 million issued by the International Airport Fund. The general obligation bonds are secured by the full faith, credit, and resources of the State, whereas the NTSC bonds are secured by and payable solely from Tobacco Settlement Revenues (TSRs). Neither the State of Alaska, nor the Alaska Housing Finance Corporation (of which NTSC is a subsidiary) is liable for any debt issued by NTSC. The sport fishing revenue bonds are secured by the sport fishing facilities surcharge imposed under AS 16.05.340 and related federal revenues. The remaining \$594 million are International Airports revenue bonds secured solely by specified revenue sources. The general obligation, NTSC, and sport fishing bonds are reported as governmental activities debt, and the International Airports bonds are reported as business-type activities debt.

Long-term Debt
(Stated in millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 11	FY 10	FY 11	FY 10	FY 11	FY 10
Revenue Bonds Payable	\$ 422	\$ 426	\$ 594	\$ 562	\$ 1,016	\$ 988
General Obligation Debt	656	490	-	-	656	490
Capital Leases Payable	393	410	-	-	393	410
Deferred Revenues and Advances	344	302	4	4	348	306
Certificates of Participation	40	46	-	-	40	46
Compensated Absences	161	154	5	4	166	158
Claims and Judgments	75	75	-	1	75	76
Pollution Remediation	74	53	1	2	75	55
Other Noncurrent Liabilities	1	1	-	-	1	1
Net Pension Obligation	2	1	-	-	2	1
Total	\$ 2,168	\$ 1,958	\$ 604	\$ 573	\$ 2,772	\$ 2,531

The State's total debt increased by \$241 million (10 percent) as a result of this year's operations. The increase in debt is primarily due to the sale of general obligation bonds. Pollution Remediation long term liability also increased based on new sites and the valuation of existing sites.

Additional information of the State's long-term debt can be found in Note 6 in the notes to the basic financial statements.

Significant Facts

State petroleum revenues increased materially from FY 10 to FY 11. The weighted average production tax rate was higher and was applied to a wellhead value of \$86.69 per barrel. In FY 10 \$68.89 per barrel average was realized. This resulted in an increase of General Fund tax revenue of \$2 billion from FY 10.

Another significant factor affecting revenues was an increase of \$3.5 billion in interest and investment income between FY 10 and FY 11. The majority of this amount is from investment gains in the Alaska Permanent Fund. The fund experienced a total fund return of 20.6% for FY 11. This was the third highest return in the history of the fund. The fund has recovered the losses of FY 08 and FY 09 and is again at its pre-2008 global financial crisis value of \$40 billion.

On December 7, 2010 the State sold \$200.0 million of general obligation bonds. The majority were structured under Build America bonds under ARRA.

Economic Factors and Next Year's Budgets and Rates

- The State's average unemployment rate for FY 11 was 7.7 percent, which is lower than the average unemployment rate for FY 10 of 8.1 percent. Alaska's five year average (2007 to 2011) was 7 percent. The United States unemployment rate for FY 11 was 9.3 percent.
- The State's major source of unrestricted revenue for the General Fund is petroleum related, which accounted for 61 percent of total revenue, with federal revenue making up another 22 percent, and the balance coming from other sources. As a result, the State's budget is structured around these two revenue sources. During the fiscal year the price per barrel increased, resulting in higher tax rate and an increase of \$2 billion in petroleum revenues. Federal funds are generally restricted for use in federal programs and therefore do not provide resources for balancing the State budget.
- FY 11 crude oil and natural gas liquids production for the Alaska North Slope and Cook Inlet averaged 596 thousand barrels per day. This is 52 thousand barrels per day less than in the prior year. FY 11 production, compared to peak production of 2.049 million barrels per day in FY 88, has declined by 71 percent.
- The State of Alaska FY 11 budgeted expenditures include certain items that are unique to Alaska, such as the Alaska Permanent Fund Dividend and State-operated Pioneer Homes. The Alaska Permanent Fund Dividend (\$1,281/resident) was paid to each qualifying Alaskan for a total of \$818 million.

Requests for Information

This financial report is designed to provide a general overview of the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the State of Alaska, Division of Finance, P.O. Box 110204, Juneau, AK 99811-0204.

Governmental Funds Financial Statements

MAJOR FUNDS

- **General Fund** – This fund is the State’s operating fund. It accounts for the financial resources and transactions not accounted for in other funds. A description of the General Fund accounts and subfunds are presented in the Combining Fund Statements.
- **Alaska Permanent Fund** – Alaska Constitution, Article IX, Section 15 – Administered by the Alaska Permanent Fund Corporation. The Alaska Constitution provides that at least 25 percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the State shall be placed in the Alaska Permanent Fund.

NONMAJOR FUNDS

Other nonmajor governmental funds are presented by fund type in the Combining Fund Statements.

STATE OF ALASKA
 Reconciliation of the Balance Sheet to the Statement of Net Assets
 Governmental Funds
 June 30, 2011
 (Stated in Thousands)

STATEMENT 1.12

Total Fund Balances - Governmental Funds \$ 59,574,776

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. (Note 5)
 These assets consist of:

Equipment, net of depreciation	276,820	
Buildings, net of depreciation	1,015,826	
Infrastructure, net of depreciation	2,476,048	
Land / right-of-way	844,162	
Construction in progress	<u>1,508,946</u>	6,121,802

Some of the state's assets are not current available resources and are not reported in the funds.

Net pension Asset (Note 7)	364	
Other post employment benefits asset (Note 7)	150	
Unamortized bond issuance cost	<u>6,115</u>	6,629

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets. (See Statement 1.21)

374,931

Certain revenues are not available to pay for the current period's expenditures and therefore are not reported in the funds.

284,120

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. (Note 6)

Claims and judgments, net of federal reimbursement	(74,790)	
Compensated absences	(157,803)	
Pollution remediation	(74,032)	
Capital lease obligations	(392,636)	
Pension benefit obligation	(1,541)	
Other post employment benefits	<u>(641)</u>	(701,443)

Long-term bonded debt is not due and payable in the current period and therefore is not reported in the funds. (Note 6)

Notes and bonds payable	(1,117,769)	
Accrued interest payable	<u>(16,836)</u>	(1,134,605)

Net Assets of Governmental Activities \$ 64,526,210

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

STATE OF ALASKA
Reconciliation of the Change in Fund Balances to the Statement of Activities
Governmental Funds
For the Fiscal Year Ended June 30, 2011
(Stated in Thousands)

STATEMENT 1.14

Net Change in Fund Balances - Total Governmental Funds **\$ 9,715,244**

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Primarily this is the amount by which capital outlays exceeded depreciation in the current period (Note 5).

Capital outlay	479,941	
Depreciation expense	<u>(319,260)</u>	160,681

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported in governmental activities in the Statement of Revenues, Expenses, and Changes in Fund Net Assets (Statement 1.22).

Net current year revenue		13,023
--------------------------	--	--------

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the fund.

137,861

Bond and other debt proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.

Bond proceeds	(201,837)	
Accrued interest	(1,521)	
Repayment of bond principal	41,306	
Amortization of bond issue costs	<u>504</u>	(161,548)

Some capital additions were financed through capital leases. In the governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net assets, the lease obligation is reported as a liability.

(8,212)

Certain expenditures are reported in the funds. However, they either increase or decrease long-term liabilities reported on the Statement of Net Assets and have been eliminated from the Statement of Activities.

Claims and judgments	447	
Compensated absences	(6,909)	
Pollution remediation	(20,716)	
Capital lease payments	25,661	
Pension obligation	(616)	
Other post employment benefits	<u>(723)</u>	(2,856)

Change in Net Assets of Governmental Activities **\$ 9,854,193**

The notes to the financial statements are an integral part of this statement.

This page intentionally left blank.

Proprietary Funds Financial Statements

Proprietary funds are used to account for the State's business-type activities. The two fund types classified as proprietary funds are enterprise funds and internal service funds.

MAJOR ENTERPRISE FUNDS

Enterprise funds account for business-like state activities that provide goods and/or services to the public and are financed primarily through user charges. The following are the State's major enterprise funds.

- **International Airports Fund (Fund 21602)** – AS 37.15.410-550 – Administered by the Department of Transportation and Public Facilities. This fund consists of all revenues, fees, charges, and rentals derived by the State from the ownership, lease, use, and operation of the airports.

NONMAJOR FUNDS

Nonmajor proprietary funds are presented by fund type in the Combining Fund Statements.

Component Units

Financial Statements

Component units are legally separate entities for which the primary government is financially accountable or such that their exclusion would cause the State's financial statements to be misleading or incomplete.

MAJOR COMPONENT UNITS

- **University of Alaska (U of A)** – AS 14.40.040 – is established as a corporation and is an instrumentality of the State. The university is created and acts for the benefit of the State and the public in providing education in accordance with an express mandate of the constitution.
- **Alaska Housing Finance Corporation (AHFC)** – AS 18.56.020 – is a public corporation and government instrumentality within the Department of Revenue, but having a legal existence independent of and separate from the State. The purpose of AHFC is to assist in providing decent, safe, and sanitary housing by financing mortgage loans.
- **Alaska Industrial Development and Export Authority (AIDEA)** – AS 44.88.020 – is a public corporation of the State and a political subdivision within the Department of Commerce, Community, and Economic Development. The purpose of AIDEA is to promote, develop, and advance the general prosperity and economic welfare of the people of Alaska; to relieve problems of unemployment; to create additional employment by providing various means of financing; and to facilitate the financing of industrial, manufacturing, export, and business enterprises within the State.

NONMAJOR COMPONENT UNITS

Nonmajor component units are presented in the Combining Fund Statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the State of Alaska have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles, which are primarily set forth in GASB's Codification of Governmental Accounting and Financial Reporting Standards.

A. THE FINANCIAL REPORTING ENTITY

The State of Alaska (State) was admitted to the Union in 1959 and is governed by an elected governor and a sixty-member elected legislature. As required by GAAP, these financial statements present all the fund types of the State which includes all agencies, boards, commissions, authorities, courts, and colleges and universities that are legally part of the State (primary government) and its component units discussed below. Component units are legally separate entities for which the primary government is financially accountable or such that their exclusion would cause the State's financial statements to be misleading or incomplete.

The following component units are included in the accompanying financial statements. Blended component units, although legally separate entities, are, in substance, part of the State's operations and provide services entirely or almost entirely to the State. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the State. Individual component unit financial reports may also be obtained from these organizations as indicated.

BLENDED COMPONENT UNITS

The **Alaska Gasline Development Corporation (AGDC)** is a public corporation and governmental instrumentality of, but having a legal existence independent and separate from, the State. AGDC is a subsidiary of, but separate and apart from, the Alaska Housing Finance Corporation (AHFC). The commissioners of the departments of Revenue; Commerce, Community, and Economic Development; Health and Social Services; and four independent public members appointed by the Governor comprise the AGDC board of directors. The Legislature appropriates the budget for AGDC for the purpose of funding future in-state natural gas pipeline projects for the State. The corporation has the power to borrow money and issue bonds on its own behalf. AGDC is reported within the governmental funds as a special revenue fund. AGDC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Alaska Housing Capital Corporation (AHCC)** is a public corporation and government instrumentality of, but having a legal existence independent and separate from, the State. AHCC is a subsidiary of, but separate and apart from, the Alaska Housing Finance Corporation (AHFC). The commissioners of the departments of Revenue; Commerce, Community, and Economic Development; Health and Social Services; and four independent public members appointed by the Governor comprise the AHCC board of directors. The Legislature appropriates the budget for AHCC for the purpose of funding future capital projects for the State. The corporation has the power to borrow money and issue bonds on its own behalf. AHCC is reported within the governmental funds as a special revenue fund. AHCC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Alaska Permanent Fund Corporation (APFC)** is a public corporation and government instrumentality in the Department of Revenue (AS 37.13.040). A governor-appointed six-member board manages APFC. The Legislature approves APFC's budget. The purpose of APFC is to manage and invest the assets of the Alaska Permanent Fund (Fund) and other funds designated by law. The Fund is a savings device, restricted as to usage, which belongs to all the people of Alaska. It was created in 1976 when the voters approved an amendment to the State Constitution. The beneficiaries of the Fund are all present and future generations of Alaskans. The Fund represents 68 percent of the total cash and investments and 61 percent of total government-wide net assets excluding discretely presented component units. The Fund is reported as a permanent fund (a governmental fund type), and APFC operations are included in the fund statements. Separately issued financial statements may be obtained from the Alaska Permanent Fund Corporation, P.O. Box 115500, Juneau, AK 99811-5500, or from their web site at www.apfc.org.

The **Knik Arm Bridge and Toll Authority (KABTA)** is a public corporation and government instrumentality in the Department of Transportation and Public Facilities (AS 19.75.021). The authority has a separate and independent legal existence from the State. It is governed by a board of directors, including the commissioner of the Department of Transportation and Public Facilities, the commissioner of the Department of Revenue, three public members appointed by the

Governor, and two non-voting members: a member of the House of Representatives appointed by the Speaker; and a member of the Senate appointed by the President. The purpose of the authority is to develop public transportation systems in the vicinity of Upper Cook Inlet with construction of a bridge to span Knik Arm and connect the Municipality of Anchorage with the Matanuska-Susitna Borough. KABTA financial statements are included in the Combining Fund section of this Comprehensive Annual Financial Report (CAFR) with the Nonmajor Enterprise Funds. Separately issued financial statements may be obtained from Knik Arm Bridge and Toll Authority, 550 W. 7th Avenue, Suite 1850, Anchorage, AK 99501.

The **Northern Tobacco Securitization Corporation** (NTSC) is a public corporation and government instrumentality of, but having a legal existence independent and separate from, the State. NTSC is a subsidiary of, but separate and apart from, the Alaska Housing Finance Corporation (AHFC). The commissioners of the departments of Revenue; Health and Social Services; and Commerce, Community and Economic Development; and two independent public members appointed by the Governor comprise the NTSC board of directors.

The purpose of NTSC is to purchase future rights, title, and interest in Tobacco Settlement Revenues (TSRs) from the State under the Master Settlement Agreement and Final Judgment (MSA). The MSA resolved cigarette smoking-related litigation between the settling states and the participating manufacturers, released the manufacturers from past and present smoking-related claims, and provides for a continuing release of future smoking-related claims, in exchange for certain payments to be made to the settling states, as well as certain tobacco advertising and marketing restrictions among other things.

NTSC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose. When NTSC's obligations with the bonds have been fulfilled, the TSRs revert back to the State under the residual certificate. Consideration paid by NTSC through AHFC to the State for TSRs consisted of a cash amount sent to the State's custodial trust accounts and a residual certificate assigned to the State.

The bonds of NTSC are asset-backed instruments secured solely by the TSRs and NTSC's right to receive TSRs is expected to produce funding for its obligations. The TSR payments are dependent on a variety of factors, some of which are: the financial capability of the participating manufacturers to pay TSRs; future cigarette consumption that impacts the TSR payment; and future legal and legislative challenges against the tobacco manufacturers and the MSA providing for the TSRs. Pursuant to bond indentures, these adjustments could affect the amount of funds available to pay scheduled debt service payments.

NTSC is reported in the governmental fund types as special revenue and debt service funds. The revenue bond debt is reported in the government-wide statement of net assets in the governmental fund activities column. NTSC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Public Employees' Retirement System** (PERS) was established by Alaska Statute (AS) 39.35.095 (defined benefit) and AS 39.35.700 (defined contribution). The Commissioner of the Department of Administration or the commissioner's designee is the administrator of PERS. The administrator is responsible for the administration of PERS in accordance with State statutes. The Commissioner of the Department of Administration adopts regulations to govern the operation of the PERS. Hearings and rulings on the appeal of the decision of the administrator are in the jurisdiction of the Office of Administrative Hearings (OAH). The Alaska Retirement Management Board (ARMB) approves employers' rates. PERS costs, based upon actuarial valuations, are funded by the State, participating governmental employers, and participants. PERS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. The ARMB is the fiduciary of PERS. The Governor appoints the majority of the ARMB.

The **Teachers' Retirement System** (TRS) was established by AS 14.25.009 (defined benefit) and AS 14.25.310 (defined contribution). The Commissioner of the Department of Administration or the commissioner's designee is the administrator of the system. The administrator is responsible for the administration of TRS in accordance with State statutes. The Commissioner of the Department of Administration adopts regulations to govern the operation of the TRS. Hearings and rulings on the appeal of the decision of the administrator are in the jurisdiction of the OAH. The ARMB approves employers' rates. TRS costs, based upon actuarial valuations, are funded by the State, participating governmental employers, and participants. TRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. The ARMB is the fiduciary of TRS. The Governor appoints the majority of the ARMB.

The **Judicial Retirement System** (JRS) was established by AS 22.25.048. The Commissioner of the Department of Administration is responsible for the administration of JRS. JRS costs, based upon actuarial valuations, are funded by the

State and participants. JRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. The ARMB is the fiduciary of JRS. The Governor appoints the majority of the ARMB.

The **Alaska National Guard and Alaska Naval Militia Retirement System** (NGNMRS) was established by AS 26.05.222. The Commissioner of the Department of Administration is responsible for the administration of NGNMRS. NGNMRS costs, based upon actuarial valuations, are funded by the State. NGNMRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. The ARMB is the fiduciary of NGNMRS. The Governor appoints the majority of the ARMB.

The **Supplemental Benefits System** (SBS) was established by AS 39.30.150. The Commissioner of the Department of Administration is responsible for the administration of SBS. SBS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ARMB is the fiduciary of SBS. The Governor appoints the majority of the ARMB.

The **Deferred Compensation Plan** (DCP) was established by AS 39.45.010. The Commissioner of the Department of Administration is responsible for the administration of DCP. DCP is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ARMB is the fiduciary of the DCP. The Governor appoints the majority of the ARMB.

Copies of the audited financial statements for the retirement systems, and for SBS and DCP, may be obtained from the Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

DISCRETELY PRESENTED COMPONENT UNITS

The **Alaska Aerospace Corporation** (AAC) is a public corporation of the State located for administrative purposes within the Department of Commerce, Community and Economic Development (AS 14.40.821). The Governor appoints the voting members of the AAC board of directors and the Legislature approves AAC's budget. AAC is also affiliated with the University of Alaska but with a separate and independent legal existence. The purpose of AAC is to allow the State to take a lead role in the exploration and development of space, to enhance human and economic development, to provide a unified direction for space-related economic growth, education and research development, and tourism related activities. AAC is also to promote the continued utilization of the Poker Flat Research Range as a launch site for launch vehicles and for scientific research. Additionally, AAC is to promote and encourage the continued utilization of Poker Flat Research Range for the University of Alaska's polar research efforts. AAC financial statements may be obtained from the Alaska Aerospace Corporation, 4300 B Street, Suite 101, Anchorage, AK 99503.

The **Alaska Energy Authority** (AEA) is a public corporation of the State in the Department of Commerce, Community and Economic Development but with a separate and independent legal existence (AS 44.83.020). The purpose of AEA was to promote, develop, and advance the general prosperity and economic welfare of the people of the State by providing a means of constructing, acquiring, financing, and operating power projects and facilities that recover and use waste energy.

However, Chapters 18 and 19, Session Laws of Alaska (SLA) 1993, which became effective August 11, 1993, eliminated the ability of AEA to construct, own, and acquire energy projects, and the programs operated by AEA were transferred to the Department of Community and Regional Affairs. The corporate structure of AEA was retained but the board of directors of the Alaska Industrial Development and Export Authority (AIDEA) is now the board of directors of AEA and the Executive Director of AIDEA is also the Executive Director of AEA. It is the intent of the legislation that ongoing operation of the operating assets be assumed by the electric utility companies that use or purchase power from AEA with oversight responsibility retained by AEA. The Governor appoints all members of the AEA board of directors and the Legislature approves AEA's budget.

Pursuant to legislation effective July 1, 1999, rural energy programs previously administered by the former Department of Community and Regional Affairs were transferred to AEA for administration as part of a larger reorganization of State agencies. Rural energy programs were originally part of AEA prior to the reorganization that occurred in 1993. AEA financial statements may be obtained from the Alaska Industrial Development and Export Authority, 813 W. Northern Lights Blvd., Anchorage, AK 99503.

The **Alaska Housing Finance Corporation** (AHFC) is a public corporation and government instrumentality within the Department of Revenue, but having a legal existence independent of and separate from the State (AS 18.56.020). The Governor appoints the board of directors of AHFC. The Legislature approves AHFC's budget. AHFC assists in providing decent, safe, and sanitary housing by financing mortgage loans. AHFC acts as the principal source of residential financing in

the State and functions as a secondary mortgage market. AHFC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Alaska Industrial Development and Export Authority** (AIDEA) is a public corporation of the State and a political subdivision within the Department of Commerce, Community and Economic Development (AS 44.88.020). The Governor appoints all members of the AIDEA board of directors and the Legislature approves AIDEA's budget. The purpose of AIDEA is to promote, develop, and advance the general prosperity and economic welfare of the people of Alaska; to relieve problems of unemployment; to create additional employment by providing various means of financing; and to facilitate the financing of industrial, manufacturing, export, and business enterprises within the State. AIDEA financial statements may be obtained from the Alaska Industrial Development and Export Authority, 813 W. Northern Lights Blvd., Anchorage, AK 99503.

The **Alaska Mental Health Trust Authority** (AMHTA) is established as a public corporation of the State within the Department of Revenue (AS 47.30.011). The Governor appoints the AMHTA board of trustees. The Legislature approves AMHTA's budget. The purpose of AMHTA is to ensure an integrated comprehensive mental health program. As provided in AS 37.14.009, AMHTA is to administer the trust established under the Alaska Mental Health Enabling Act of 1956. AMHTA financial statements may be obtained from the Alaska Mental Health Trust Authority, 3745 Community Park Loop, Suite 200, Anchorage, AK 99508.

The **Alaska Municipal Bond Bank Authority** (AMBBA) is a public corporation and an instrumentality of the State within the Department of Revenue, but with a legal existence independent of and separate from the State (AS 44.85.020). The Governor appoints members of the AMBBA board of directors. The Legislature approves AMBBA's budget. AMBBA was created for the purpose of making available to municipalities within the State, monies to finance their capital projects or for other authorized purposes by means of issuance of bonds by AMBBA and use of proceeds from such bonds to purchase from the municipalities their general obligation and revenue bonds. AMBBA commenced operations in August 1975. AMBBA financial statements may be obtained from the Alaska Municipal Bond Bank Authority, P.O. Box 110405, Juneau, AK 99811-0405.

The **Alaska Natural Gas Development Authority** (ANGDA) is a public corporation and government instrumentality in the Department of Revenue (AS 41.41.010). The authority has a legal existence independent of and separate from the State. The authority is governed by a seven member board of directors appointed by the Governor and confirmed by the Legislature. The budget is submitted and approved by the Governor and Legislature. The purpose of the authority is to bring natural gas from the North Slope to market. ANGDA financial statements may be obtained from the Alaska Gas Development Authority, 411 West 4th Avenue, 1st Floor, Anchorage, AK 99501.

The **Alaska Railroad Corporation** (ARRC) is a public corporation and instrumentality of the State within the Department of Commerce, Community and Economic Development (AS 42.40.010). ARRC has a legal existence independent of and separate from the State. The powers of ARRC are vested in the board of directors. All members of the board of directors of ARRC are appointed by and serve at the pleasure of the Governor. ARRC was created by the State Legislature to own and operate the railroad and manage its rail, industrial, port, and other properties. The ARRC commenced operations on January 6, 1985. ARRC financial statements may be obtained from the Alaska Railroad Corporation, P.O. Box 107500, Anchorage, AK 99510-7500.

The **Alaska Student Loan Corporation** (ASLC) is a public corporation and government instrumentality within the Department of Education and Early Development but having a legal existence independent of and separate from the State (AS 14.42.100). ASLC is governed by a board of directors appointed by the Governor. The Legislature approves ASLC's budget. The purpose of ASLC is to improve higher educational opportunities for residents of the State. ASLC financial statements may be obtained from the Alaska Commission on Postsecondary Education, 3030 Vintage Blvd., Juneau, AK 99801-7100.

The **University of Alaska** is established as a corporation and is an instrumentality of the State (AS 14.40.040). A board of regents appointed by the Governor and confirmed by the Legislature governs the university. The Legislature approves the university's budget. The university is created and acts for the benefit of the State and the public in providing education in accordance with an express mandate of the constitution. The financial statements of the university include the assets, liabilities, and related activity of the University of Alaska Foundation, a legally separate nonprofit component unit. The university is not accountable for, nor has ownership of, the foundation's resources. The university's financial statements may

be obtained from the University of Alaska, Statewide Fund Accounting, 209 Butrovich Building, P.O. Box 756540, Fairbanks, AK 99775-6540.

The **Alaska Seafood Marketing Institute** (ASMI) is a public corporation of the State (AS 16.51.010). It is an instrumentality of the State with a legal existence independent of and separate from the State. ASMI is governed by a board of directors appointed by the Governor, and its budget is approved by the Legislature. The purpose of ASMI is to promote all species of seafood and their by-products harvested in Alaska for sale, and to develop market-oriented quality specifications. Exercise of the powers conferred by statute to ASMI is an essential governmental function. ASMI financial statements are included in the Combining Fund section of this CAFR with the Nonmajor Component Units. In addition, fund financial statements are included as other supplementary information, since there are no separately issued financial statements for ASMI.

B. BASIC FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements (as well as these notes to the financial statements). The previous financial reporting model emphasized fund types (the total of all funds of a particular type), while the new financial reporting model focus is on either the State as a whole (government-wide statements), or on major individual funds (fund financial statements). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type.

The government-wide financial statements (Statement of Net Assets and Statement of Activities) report information of all nonfiduciary activities of the State and its component units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from the component units for which the primary government is financially accountable.

The Statement of Net Assets presents the reporting entity's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

- **Invested in capital assets, net of related debt** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- **Restricted net assets** result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net assets** consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often are designated to indicate that management does not consider them available for general operations (see note 1.F.). Unrestricted net assets often have constraints on resources that are imposed by management, but can be modified or removed.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, segment, or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide statements. The fund financial statements focus on major funds, of which the State has three: the General Fund and the Alaska Permanent Fund, both of which are governmental funds; and the International Airports Fund, which is an enterprise fund. All nonmajor funds are summarized into a single column on the respective fund statements: governmental; proprietary, which includes enterprise and internal service fund types; and fiduciary, which includes pension (and other employee benefit) trust funds, and agency funds.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resource management focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements; however, agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available to finance operations during the current year or to liquidate liabilities existing at the end of the year (collectible within 60 days of fiscal year end). Major revenues that are determined to be susceptible to accrual include federal, charges for services, investment income, and petroleum related taxes and royalties.

Expenditures are recognized when a liability is incurred. However, expenditures related to debt service, compensated absences, and claims and judgments are recorded only when payment is due and payable.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The State has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are reported as nonoperating.

When both restricted and unrestricted resources are available for use, it is the State's policy to use restricted resources first, then unrestricted resources as they are needed.

D. FINANCIAL STATEMENT PRESENTATION

The State reports three major funds, the General Fund, and the Alaska Permanent Fund, both of which are governmental funds, and the International Airports Fund, which is a proprietary enterprise fund. The General Fund is the State's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund. The Alaska Permanent Fund was created in 1976 to save a portion of the State's one-time oil wealth to produce income to benefit current and future generations. The International Airports Fund was created in 1961 to equip, finance, maintain, and operate two international airports located in Anchorage and Fairbanks. In addition, the State reports the following fund types:

GOVERNMENTAL FUND TYPES

Special revenue funds are used to account for the proceeds of specific revenue sources that are generally legally restricted to expenditure for specified purposes.

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital project funds account for the acquisition or construction of major capital facilities financed by bond proceeds.

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry. In addition to the Alaska Permanent Fund (major fund), the State has two other permanent funds, the Public School Trust Fund and the Alaska Mental Health Trust Authority (a discretely presented component unit).

PROPRIETARY FUND TYPES

Enterprise funds are used to report any activity for which a fee is charged to external users for goods and services.

Internal service funds are used to report any activity that provides goods or services primarily to other funds or agencies of the State, rather than to the general public. Internal service fund activities of the State include facilities management of State-owned buildings, self-insurance health care for State employees, vehicle and equipment maintenance and supplies, and computing and telecommunication services.

FIDUCIARY FUND TYPES

Pension (and other employee benefits) trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, and other postemployment benefit plans. These funds account for the Alaska National Guard and Alaska Naval Militia Retirement System, Deferred Compensation, Judicial Retirement System, Public Employees' Retirement System, Retiree Health, Supplemental Benefits System, and Teachers' Retirement System.

Agency funds are used to report resources held by the State purely in a custodial capacity (assets equal liabilities). These funds include resources from unclaimed property, wage and hour, deposits/bonds held, offender trust accounts, advocacy/guardianship trusts, and damage recoveries arising out of the Exxon Valdez oil spill.

E. FISCAL YEAR ENDS

All funds and discretely presented component units of the State are reported using fiscal years, which end on June 30, except the Alaska Railroad Corporation and Deferred Compensation Fund fiscal years end on December 31, and the Alaska Supplemental Benefits System fiscal year ends on January 31.

F. ASSETS, LIABILITIES, AND NET ASSETS / FUND BALANCE

CASH AND INVESTMENTS, CASH AND CASH EQUIVALENTS

The amounts shown on the statements of net assets and the balance sheets as Cash and Investments represent cash on deposit in banks, petty cash, cash invested in various short-term instruments, and other investments of the State and its component units. Investments are stated at fair value, which approximates market value. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Investment purchases and sales are recorded on a trade-date basis.

Marketable debt securities are valued each business day using prices obtained from a pricing service when such prices are available; otherwise, such securities are valued at the most current sale price or based on a valuation provided by investment managers. The noninterest bearing deposits are reported at cost, which approximates fair value.

Domestic and international equity securities are valued each business day using prices obtained from a pricing service or prices quoted by one or more independent brokers.

Emerging markets securities are valued at their current market or fair values on the last business day of each month by the Trustee.

Private equity securities are valued periodically by the general partners. Underlying private equity investments that are listed on a national exchange are valued using quoted market prices. Securities for which there are not market quotations available are initially carried at original cost and subsequently valued at fair value as determined by the general partners. In determining fair value, the financial condition, operating results and projected operating cash flow of the underlying portfolio companies, prices paid in private sales of such securities, the nature and duration of restrictions on disposition of the securities, the expenses and delay that would be involved in registration, the price and extent of public trading in similar securities, the existence of merger proposals or tender offers affecting securities, reports prepared by analysts are considered as appropriate. Because of the inherent uncertainty of valuations, however, these estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and these differences could be material.

Absolute return investments are carried at fair value as determined by the pro-rata interest in the net assets of the underlying investment funds. These investment funds are valued periodically by the general partners and the managers of the underlying

investments. The net asset value represents the amount that would be expected to be received if it were to liquidate its interests subject to liquidity or redemption restrictions. Because of the inherent uncertainty of valuations, however, these estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and these differences could be material.

The energy related investments consist primarily of loans and preferred stock that are valued at fair value.

Real estate, farmland, farmland waterway, and timber investments are valued quarterly by investment managers and are appraised annually by independent appraisers.

Real estate investment trust holdings are valued each business day using prices obtained from a pricing service.

Securities expressed in terms of foreign currencies are translated into U.S. dollars at the prevailing exchange rates. Forward currency contracts are valued at the mid-point of representative quoted bid and asked prices.

The Statement of Cash Flows for the enterprise funds shows changes in cash and cash equivalents. For the purpose of the Statement of Cash Flows, all highly liquid debt instruments with original maturities of three months or less are considered cash and cash equivalents. In addition, because the State's General Fund and Other Non-segregated Investment (GeFONSI) pool and the Short-term Fixed Income Pool operates as demand deposit accounts, amounts invested in the pools are classified as cash and cash equivalents. At June 30, 2011, the assets of the GeFONSI pool were comprised of shares in the Short-term Fixed Income Pool and shares in the Intermediate-term Fixed Income Pool.

RECEIVABLES

Receivables have been established and offset with proper provisions for estimated uncollectible accounts where applicable. The amount of noncurrent receivables is included in the fund balance reserve, which indicates they do not constitute expendable available financial resources and therefore are not available for appropriation.

Practically all accounts receivable of governmental funds are due from oil companies and governmental entities, primarily the federal government, and are considered collectible. Accounts receivable in other funds have arisen in the ordinary course of business.

INTER/INTRAFUND TRANSACTIONS

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/from other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

INVENTORIES

Inventories reported for the internal service funds and the General Fund consist mainly of consumable materials and supplies. Inventories are carried at cost (average cost for Highway Equipment Working Capital; first in first out (FIFO) for the General Fund), and are accounted for on the consumption method. However, the majority of materials and supplies for State agencies are accounted for as expenditures at the time of purchase. Inventory of the Alaska Aerospace Corporation and the University of Alaska are carried at the lower of cost or market. The Alaska Railroad Corporation carries their inventories at the lower of average cost or market.

CAPITAL ASSETS

Capital assets are reported in the Statement of Net Assets at cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the time of donation including Statehood entitlement land that is carried at an estimated value of \$1 per acre.

Capital assets are depreciated on the straight-line method over the estimated useful lives of the related assets. All public domain infrastructure acquired by the State, such as highways, bridges, harbors, and rural airports, is capitalized.

The State possesses certain capital assets that have not been capitalized and depreciated because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. These assets include the State's art collections, library

reserve collections, and museum and historical collections. These assets are: held for public exhibition, education, or research rather than financial gain; protected, kept unencumbered, cared for, and preserved; and proceeds from the sale of collection items are used to acquire other items for collections.

Additional disclosures related to capital assets are provided in Note 5.

COMPENSATED ABSENCES

Regulations governing annual/personal leave (vacation pay) provide that State employees will receive time off, or pay, for hours accumulated. Consequently, a liability exists with respect to accumulated annual/personal leave at any given time. As of June 30, 2011, this liability is recognized and reported in the government-wide and proprietary fund financial statements. The State's estimated liability for compensated absences, as reported in the government-wide Statement of Net Assets, is \$161.2 million. There is no liability in the accompanying financial statements for unpaid accumulated sick leave. Accumulated sick leave may be used only for actual illness. When an employee separates from state service, any sick leave balance to their credit is reduced to zero without additional compensation to the employee. See Note 12 for disclosure of the amount of the sick leave contingency.

The cost of compensated absences (annual/personal leave and sick leave) for State employees is charged against agency appropriations when leave is used rather than when leave is earned, except for the payment of the accumulated annual/personal leave balance for an employee terminating from state service. That amount is charged to a terminal leave liability account rather than the individual agency appropriation. This liability account is funded by a charge to each agency's operating budget.

NET ASSETS / FUND BALANCE

The difference between fund assets and liabilities is "net assets" on the government-wide, proprietary, and fiduciary fund statements, and is "fund balance" on the governmental fund statements.

FUND BALANCE COMPONENTS

The fund balance amounts for governmental funds have been reclassified in accordance with GASB Statement No. 54. As a result, amounts previously reported as reserved and unreserved are now reported as nonspendable, restricted, committed, assigned, or unassigned.

- Nonspendable fund balance includes items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless the proceeds are restricted, committed or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.
- Restricted fund balance have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Alaska Legislature, the State's highest level of decision-making authority. This formal action is the passage of law by the legislature, creating, modifying, or rescinding an appropriation.
- Assigned fund balance includes amounts that are constrained by the State's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the General Fund, this is the residual amount within the fund that is not restricted or committed.
- Unassigned fund balance is the residual amount of the General Fund not included in the four categories described above. Also, any deficit fund balances within the other governmental fund types are reported as unassigned.

Each fund has been analyzed to classify the fund balance in accordance with GASB Statement No. 54. Funds are created by the Legislature and money is authorized to be transferred to the fund for a particular purpose. At this point, balances in these funds are at least committed, and may be further restricted depending on whether there is an external party, constitutional provision, or enabling legislation constraint involved.

The appropriated balance in the General Fund (fund 11100) is committed, and the remaining balance is unassigned. All other governmental funds, including subfunds of the General Fund are presented as restricted or committed, with the exception of the three subfunds of the General Fund, which are unassigned. The spendable portion of the Alaska Permanent Fund is classified as assigned.

The State of Alaska Constitution, Article 9, Section 13, states that “No money shall be withdrawn from the treasury except in accordance with appropriations made by law. No obligation for the payment of money shall be incurred except as authorized by law. Unobligated appropriations outstanding at the end of the period of time specified by law shall be void.”

Appropriations formally approved by the Legislature are then forwarded to the Governor for action which either become law or vetoed.

Appropriations specify the funding source, and therefore the order in which restricted, committed, assigned, or unassigned fund balance gets spent.

Article 9, Section 17(d) of the Alaska Constitution, requires annual repayment from the General Fund and the subfunds of the General Fund for amounts borrowed from the Constitutional Budget Reserve Fund. To implement this provision, unassigned balances are used first, then committed balances. There are no assigned balances within the General Fund or subfunds.

The following shows the composition of the fund balance of the governmental funds for the fiscal year ended June 30, 2011 (in thousands):

	General	Permanent	Special Revenue	Debt Service	Capital Projects

RESTRICTED NET ASSETS

Permanent Funds

Restricted net assets for permanent funds are required to be identified as expendable or nonexpendable. All of the Alaska Permanent Fund restricted net assets (\$37,832 million), \$429 million of the Public School Trust Fund restricted net assets, and \$391 million of the Alaska Mental Health Trust Authority (a discretely presented component unit) restricted net assets are nonexpendable. The remaining \$11 million (three percent) of the Public School Trust Fund restricted net assets, and \$97 million (20 percent) of the Alaska Mental Health Trust Authority restricted net assets are expendable.

Net Assets Restricted by Enabling Legislation

The government-wide statement of net assets reports \$39.5 billion of restricted net assets for the primary government, of which \$23.3 million is restricted by enabling legislation.

NOTE 2 – BUDGETING, BUDGETARY CONTROL, AND LEGAL COMPLIANCE

Once money received is deposited in the state treasury, it may not be withdrawn from the treasury except in accordance with an appropriation made by law. Those amounts received by component units are disbursed in accordance with their particular statutory authority.

The budgetary process is used to establish a balancing of estimated revenues coming into a fund with requested appropriations for that fund. Except for capital project funds, which prepare only project-length budgets, annual operating (and project-length) budgets are prepared for practically every fund and are submitted to the legislature for the enactment of appropriations. An appropriation is an authorization to spend money and to incur obligations. Each appropriation is limited as to purpose, time, and amount, and each of these limitations is legally binding. The legal level of budgetary control is maintained at the appropriation level as specified in the enabling legislation, which is generally at the program level within a department.

Appropriations, as enacted by the legislature and signed by the governor, are entered into the accounting records. The balance of an appropriation is reduced when funds are expended or encumbered. Appropriations are encumbered for anticipated expenditures in the form of purchase orders, contracts, and other obligations. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities. Unencumbered balances of annual appropriations lapse at the end of the fiscal year.

Expenditures of funds are made only upon properly approved requests for payment. The total of expenditures and encumbrances (obligations) may not exceed the appropriations to which they pertain. Transfers between appropriations are not authorized. Agencies faced with potential over expenditure of appropriations must (1) reduce the rate of expenditures, (2) seek relief through supplemental appropriations, or (3) request necessary approvals to receive and expend additional funds. In order to provide sufficient funding for several programs during FY 11, supplemental appropriations within the operating and capital budgets were enacted. The total supplemental appropriations for the FY 11 operating budget of \$179.0 million were enacted, of which \$88.8 was appropriated from the General Fund, \$19.0 million was appropriated from other funds, and \$71.2 million was appropriated from federal funds. In addition, the total supplemental appropriations for the FY 11 capital budget of \$115.3 million were enacted, of which \$63.8 million was appropriated from the General Fund, \$51.5 million was appropriated from federal funds.

Governmental funds with annually approved budgets include the General Fund, Special Revenue Funds (with the exception of the Alaska Housing Capital Corporation, Northern Tobacco Securitization Corporation, and Reclamation Bonding Pool), and all Permanent Funds.

SPENDING LIMITS

In 1982, the voters of Alaska approved an amendment to the Alaska Constitution to control state spending. Article IX, section 16, establishes an annual appropriation limit of \$2.5 billion plus adjustments for changes in population and inflation since July 1, 1981. Within this limit, one-third is reserved for capital projects and loan appropriations. For FY 11, the Office of Management and Budget estimated the limit to be approximately \$9.0 billion. The FY 11 budget passed by the legislature

and after vetoes was \$7.6 billion (unrestricted General Fund revenues only), or \$1.4 billion less than the constitutional spending limit.

CONSTITUTIONAL BUDGET RESERVE FUND

In 1990, the voters of Alaska approved an amendment to the Alaska Constitution to establish a budget reserve fund (CBRF). Article IX, section 17, states, in part, "...Except for money deposited into the permanent fund under Section 15 of this article, all money received by the State after July 1, 1990, as a result of the termination, through settlement or otherwise, of an administrative proceeding or of litigation in a state or federal court involving mineral lease bonuses, rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments or bonuses, or involving taxes imposed on mineral income, production, or property, shall be deposited in the budget reserve fund. ..."

The fund was established to enhance budget stability by depositing certain monies into the CBRF (where they could not be easily spent) rather than into the General Fund (where they would be readily available for appropriation for expenditure). Money may be appropriated from the fund in accordance with the provisions of section 17(b) and (c).

The constitution further provides that all money appropriated from the fund must be repaid to the fund. Section 17(d) states "If an appropriation is made from the budget reserve fund, until the amount appropriated is repaid, the amount of money in the General Fund available for appropriation at the end of each succeeding fiscal year shall be deposited in the budget reserve fund. The legislature shall implement this subsection by law." All borrowing from the CBRF was completely repaid in FY 10 and no borrowing activity from the CBRF occurred during FY 11.

NOTE 3 – PRIOR PERIOD ADJUSTMENTS

ALASKA NATURAL GAS DEVELOPMENT AUTHORITY

During FY 11 Alaska Natural Gas Development Authority (ANGDA) consulted with an outside party in order to develop criteria to determine which expenditures should be capitalized as well as determining their useful lives. Using the established criteria, ANGDA reevaluated the capital expenditures from FY 04 through FY 10 and capitalized an additional \$1,272 thousand. Below is the result of the right-of-way asset restatement:

	Beginning Balance	Prior Year Adjustment	Restated Beginning Balance	Additions	Deletions	Ending Balance
Land/Right-of-Way	\$ 6,514	\$ 1,272	\$ 7,786	\$ 688	\$ 810	\$ 7,664

NOTE 4 – DEPOSIT AND INVESTMENT RISK

Deposits and investments may be exposed to various types of risks. These risks are interest rate risk, credit risk, custodial credit risk, concentration of credit risk, and foreign currency risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Custodial credit risk is the risk that deposits may not be returned in the event of a bank failure. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment.

A. DEPOSITS AND INVESTMENTS UNDER THE FIDUCIARY RESPONSIBILITY OF THE COMMISSIONER OF REVENUE

By law, all deposits and investments are under the fiduciary responsibility of the Commissioner of the Department of Revenue (Commissioner) except where the legislature has delegated that responsibility to other entities or boards responsible for separate subdivisions or component units of the State. Those agencies and component units that manage their own cash and investments are: Alaska Permanent Fund Corporation, Alaska Energy Authority, Alaska Housing Finance Corporation, Alaska Industrial Development and Export Authority, Alaska Municipal Bond Bank Authority, Alaska Railroad Corporation,

Alaska Mental Health Trust Authority, Alaska Student Loan Corporation, Alaska Retirement Management Board, Exxon Valdez Oil Spill Trustee Council, and the University of Alaska

Invested assets under the fiduciary responsibility of the Commissioner are comprised of the General Fund and Other Non-segregated Investments, Constitutional Budget Reserve Fund, International Airports Fund, Retiree Health Insurance Fund, Power Cost Equalization Endowment Fund, General Obligation Bond Fund, Mine Reclamation Trust Fund, Alaska Sport Fish Construction Fund as well as the Public School, Alaska Children's, and Investment Loss trust funds (all collectively, Funds).

As the fiduciary, the Commissioner has the statutory authority (AS 37.10.070 - 37.10.071) to invest the assets under the Prudent Investor Rule which requires that investments shall be made with the judgment and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion, and intelligence exercises in managing large investment portfolios.

The Department of Revenue, Treasury Division (Treasury) has created a pooled environment by which it manages the investments the Commissioner has fiduciary responsibility for. Actual investing is performed by investment officers in Treasury or by contracted external investment managers. Specifically, the Tobacco Revenue Fixed Income, Domestic Equity, International Equity and the Emerging Income Plus Debt Pools are managed externally. Treasury manages the Short-term Fixed Income Pool, Non-interest Bearing Deposits, Intermediate-term Fixed Income Pool, U.S. Treasury Fixed Income Pool, and the Broad Market Fixed Income Pool, in addition to acting as oversight manager for all externally managed investments.

Additional information related to the various pools and investments is disclosed in the financial schedules issued by the Department of Revenue, Treasury Division. These financial schedules are available through the Department of Revenue, Treasury Division, P.O. Box 110405, Juneau, AK 99811-0405 or at <http://dor.alaska.gov/treasury/>.

Deposits and investments at June 30, 2011, are as follows:

Interest Rate Risk

Short-term Fixed Income Pool

As a means of limiting its exposure to fair value losses arising from increasing interest rates, Treasury’s investment policy limits individual fixed rate securities to fourteen months to maturity or fourteen months expected average life upon purchase. Floating rate securities are limited to three years to maturity or three years expected average life upon purchase. Treasury utilizes the actual maturity date for commercial paper and twelve-month prepay speeds for other securities. At June 30, 2011, the expected average life of individual fixed rate securities ranged from one day to one year and the expected average life of floating rate securities ranged from eight days to fourteen years.

Intermediate-term and Broad Market and Conservative Broad Market Fixed Income Pools

Duration is a measure of interest rate risk. It measures a security’s sensitivity to a 100-basis point change in interest rates. The duration of a pool is the average fair value weighted duration of each security in the pool taking into account all related cash flows.

Treasury uses industry-standard analytical software developed by The Yield Book Inc. to calculate effective duration. The software takes into account various possible future interest rates, historical and estimated prepayment rates, call options and other variable cash flows for purposes of the effective duration calculation.

Through its investment policy, Treasury manages its exposure to fair value losses arising from increasing interest rates by limiting the effective duration of its other fixed income pool portfolios to the following:

Intermediate-term Fixed Income Pool - ± 20% of the Merrill Lynch 1-5 year Government Bond Index. The effective duration for the Merrill Lynch 1-5 year Government Bond Index at June 30, 2011 was 2.54 years.

Broad Market Fixed Income Pool - ± 20% of the Barclays Capital U.S. Aggregate Bond Index. The effective duration for the Barclays Capital U.S. Aggregate Bond Index at June 30, 2011 was 5.19 years.

U.S. Treasury Fixed Income Pool - ± 20% of the Barclays Capital U.S. Intermediate Aggregate Treasury Index. The effective duration for the Barclays Capital U.S. Intermediate Aggregate Treasury Index at June 30, 2011, was 3.94 years.

At June 30, 2011, the effective duration by investment type was as follows:

	Effective Duration (in years)		
	Intermediate-term Fixed Income Pool	Broad Market Fixed Income Pool	U.S. Treasury Fixed Income Pool
Commercial Paper	0.05	-	-
Corporate Bonds	2.01	5.93	-
Mortgage-backed	1.52	3.25	-

Yankees:			
Corporate	2.28	-	-
Government	1.92	6.38	-
Portfolio Effective Duration	2.53	4.46	3.89

Other Fixed Income

The Tobacco Revenue Fixed Income securities are invested according to the terms of the related bond indentures. The respective bond indentures do not establish policy with regard to interest rate risk.

Credit Risk

Treasury's investment policy has the following limitations with regard to credit risk:

Short-term Fixed Income Pool investments are limited to instruments with a long-term credit rating of at least A3 or equivalent and instruments with a short-term credit rating of at least P-1 or equivalent. Asset-backed and non-agency mortgage securities must be rated A3 or equivalent. The A3 rating is defined as the median rating of the following three rating agencies: Standard & Poor's Corporation, Moody's, and Fitch. Asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA.

Intermediate-term and Broad Market Fixed Income Pool investments are limited to securities with a long-term credit rating of at least Baa3 or equivalent and securities with a short-term credit rating of at least P-1 or equivalent. Asset-backed and non-agency mortgage securities must be rated investment grade. The investment grade rating is defined as the median rating of the following three rating agencies: Standard & Poor's Corporation, Moody's, and Fitch. Asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA.

In the U.S. Treasury Fixed Income Pool commercial paper must be rated at least P-1 by Moody's and A-1 by Standard and Poor's Corporation. In addition, corporate, asset-backed and non-agency mortgage securities must be rated investment grade. The investment grade rating is defined as the median rating of the following three rating agencies: Standard & Poor's Corporation, Moody's, and Fitch. In addition, asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA. Corporate bonds may be purchased if rated by two of these agencies.

The Commissioner does not have policies with regard to credit risk in the SSgA Russell 3000 and SSgA MSCI EAFE Index Common Trust Funds (Trusts).

The bond indentures governing the investment of tobacco revenue related bond proceeds limit the investment in commercial paper to only those securities rated A-1 or equivalent. At June 30, 2011, the Tobacco Revenue Fixed Income Securities consisted of commercial paper rated A-1.

At June 30, 2011, the State's internally managed Pools consisted of investments with credit quality ratings issued by nationally recognized statistical rating organizations as follows (using Standard and Poor's Corporation rating scale):

Investment Type	Rating	Short-term Fixed Income Pool	Intermediate- term Fixed Income Pool	Broad Market Fixed Income Pool	U.S. Treasury Pool
Commercial Paper	A-1	6.95%	-	-	-
Commercial Paper	Not Rated	0.75%	0.31%	-	-
Corporate Bonds	AAA	23.65%	10.25%	1.88%	-

Custodial Credit Risk – Deposits

The Commissioner does not have a policy in relation to custodial credit risk for deposits; however, any uninvested U.S. cash held in accounts is fully insured by the Federal Deposit Insurance Corporation (FDIC) under section 343 of the Dodd-Frank Wall Street Reform and Consumer Protection Act effective December 31, 2010. This section of the Act provides temporary unlimited deposit insurance coverage for noninterest-bearing transaction accounts through December 31, 2012, at all FDIC insured depository institutions thereby limiting custodial credit risk.

For interest-bearing accounts, Treasury’s policy with regard to custodial credit risk is to collateralize state deposits to the extent possible. The bond indentures governing the investment of tobacco revenue related bond proceeds, do not establish policy with regard to custodial credit risk. At June 30, 2011, the State had the following uncollateralized and uninsured deposits:

	Amount (in thousands)
International Equity Pool	\$ 351

Concentration of Credit Risk

Treasury’s policy with regard to concentration of credit risk is to prohibit the purchase of more than five percent of a pool’s holdings in corporate bonds backed by any one company or affiliated group.

At June 30, 2011, the funds invested in the Broad Market Fixed Income Pool had more than five percent of their investments in Federal National Mortgage Association as follows:

	Fair Value (in thousands)	Percent of Total Pool Investments
Broad Market Fixed Income Pool		
Federal National Mortgage Association	\$ 888,961	27%

Federal National Mortgage Association securities are not classified as corporate bonds, are backed by the full faith and credit of the U.S. Government and therefore may be held in higher concentration.

Foreign Currency Risk

The Commissioner of Revenue formally adopts asset allocation policies for each fund at the beginning of each fiscal year which places policy limitations on the amount of international securities each fund is allowed to hold. The following policies were in place during FY 11 and invested assets included the following holdings at June 30, 2011, for the funds invested in the International Equity Pool:

	Policy	Actual
Alaska Children’s Trust Fund	11% ± 5%	15%
Constitutional Budget Reserve Fund, Subaccount	9% ± 5%	14%
Exxon Valdez Settlement Investments	23% ± 5%	23%
Mental Health Trust Reserve	21% ± 5%	21%
Power Cost Equalization Endowment Fund	10% ± 5%	15%
Retiree Health Insurance Fund, Long Term Care	9% ± 5%	9%

At June 30, 2011, the funds invested in the International Equity Pool had exposure to foreign currency risk as follows:

Currency	Fair Value (in thousands)
Deposits:	
Danish Krone	\$ 11
Euro Currency	38
Japanese Yen	301
	350
Investments - International Equity:	
Australian Dollar	7,142
Canadian Dollar	3,592
Euro Currency	52,037
Hong Kong Dollar	2,237
Japanese Yen	37,885
New Zeland Dollar	2,520
Norwegian Krone	1,556
Pound Sterling	53,478
Swedish Krona	4,142
Swiss Franc	11,093
	175,682
Total	\$ 176,032

Foreign Exchange, Foreign Exchange Contracts, Off-Balance Sheet Risk and Derivative Exposure

The Commissioner is exposed to credit risk on investment derivative instruments that are in asset positions. The Commissioner has no policy of requiring collateral or other security to support derivative instruments subject to credit risk. Additionally, the Commissioner has no policy regarding entering into netting arrangements when it enters into derivative instrument transactions with a counterparty, nor does the Commissioner have a policy for contingencies. The International Equity Pool investment includes the following income from derivative investments at June 30, 2011 (in thousands):

	Changes in Fair Value		Fair Value		
	Classification	Amount	Classification	Amount	Notional
FX Forwards	Investment Revenue	\$ (54)	Long-term Instruments	\$ -	\$ -
Rights	Investment Revenue	46	Common Stock	-	-

Additionally the International Equity Pool had the following income from foreign exchange transactions at June 20, 2011 (in thousands):

Net Realized Gain on Foreign Currency	\$ 3,714
---------------------------------------	----------

The International Equity Pool includes foreign currency forward contracts to buy and sell specified amounts of foreign currencies at specified rates on specified future dates for the purpose of hedging existing security positions. The counterparties to the foreign currency forward contracts consist of a diversified group of financial institutions. Credit risk exposure exists to the extent of non-performance by these counterparties; however, the risk of default is considered to be remote. The market risk is limited to the difference between contractual rates and forward rates at the balance sheet date. At June 30, 2011, the International Equity Pool had no outstanding contracts.

B. DEPOSITS AND INVESTMENTS UNDER CONTROL OF THE ALASKA RETIREMENT MANAGEMENT BOARD

Invested assets of the pension (and other employee benefit) trust funds (Public Employees', Teachers', Judicial, and the Alaska National Guard and Naval Militia Retirement Systems) as well as the Supplemental Benefits System and Deferred Compensation Plans are under the fiduciary responsibility of the Alaska Retirement Management Board (ARMB).

PENSION FUNDS

The ARMB has statutory responsibility (AS 37.10.210-390) for the pension (and other employee benefit) trust funds' investments (Pension Funds). Alaska Statute 37.10.071 provides that investments shall be made with the judgment and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion and intelligence exercises in managing large investment portfolios.

The Department of Revenue, Treasury Division (Treasury) provides staff for the ARMB. Treasury has created a pooled environment by which it manages investments of the ARMB. Additionally, Treasury manages a mix of Pooled Investment Funds and Collective Investment Funds for the Defined Contribution Retirement Participant Directed Pension Plan under the ARMB's fiduciary responsibility.

Actual investing is performed by investment officers in Treasury or by contracted external investment managers. The ARMB has developed investment guidelines, policies and procedures for Treasury staff and external investment managers to adhere to when managing investments. Specifically, the High Yield Fixed Income Pool, International Fixed Income Pool, Emerging Markets Debt Pool, Large Cap Domestic Equity Pool, Small Cap Domestic Equity Pool, Convertible Bond Domestic Equity Pool, International Equity Large Cap Pool, International Equity Small Cap Pool, Emerging Markets Equity Pool, Private Equity Pool, Absolute Return Pool, Real Estate Pool, Energy Pool, Farmland Pool, Farmland Water Pool, Timber Pool, Pooled Participant Directed Investment Funds, and Collective Investment Funds are managed by external management companies. Treasury manages the Alaska Retirement Fixed Income Pool, U.S. Treasury Fixed Income Pool, Real Estate Investment Trust Pool, Treasury Inflation Protected Securities Pool and cash holdings of certain external managers in addition to acting as oversight manager for all externally managed investments.

The Short-term Fixed Income Pool is a State pool managed by Treasury that holds investments on behalf of the ARMB as well as other state funds.

Additional information related to the various pools and investments is disclosed in the financial schedules issued by the ARMB. These financial schedules are available through the Department of Revenue, Treasury Division, P.O. Box 110405, Juneau, AK 99811-0405 or at <http://dor.alaska.gov/treasury/>.

Interest Rate Risk

Short-term Fixed Income Pool

As a means of limiting its exposure to fair value losses arising from increasing interest rates, Treasury's investment policy limits individual fixed rate securities to fourteen months to maturity or fourteen months expected average life upon purchase. Floating rate securities are limited to three years to maturity or three years expected average life upon purchase. Treasury utilizes the actual maturity date for commercial paper and twelve-month prepay speeds for other securities. At June 30, 2011, the expected average life of individual fixed rate securities ranged from one day to one year and the expected average life of floating rate securities ranged from eight days to fourteen years.

Other Defined Benefit Fixed Income Pools

Duration is a measure of interest rate risk. It measures a security's sensitivity to a 100-basis point change in interest rates. The duration of a pool is the average fair value weighted duration of each security in the pool taking into account all related cash flows. Treasury uses industry standard analytical software developed by The Yield Book Inc. to calculate effective duration. The software takes into account various possible future interest rates, historical and estimated prepayment rates, options, and other variable cash flows to calculate effective duration.

Through the ARMB's investment policy, Treasury manages the exposure to fair value losses arising from increasing interest rates by limiting the effective duration of the Retirement Fixed Income portfolio to ± 20 percent of the Barclays Capital U.S. Aggregate Bond Index. The effective duration for the Barclays Capital U.S. Aggregate Bond Index at June 30, 2011 was 5.19 years.

Through the ARMB's investment policy, Treasury manages the exposure to fair value losses arising from increasing interest rates by limiting the effective duration of the Intermediate U.S. Treasury Fixed Income to ± 20 percent of the Barclays Capital U.S. Treasury Intermediate Index. The effective duration for the Barclays Capital U.S. Treasury Intermediate Index at June 30, 2011 was 3.94 years.

Through the ARMB's investment policy, Treasury manages the exposure to fair value losses arising from increasing interest rates by limiting the effective duration of the High Yield Fixed Income portfolio to ± 20 percent of the Merrill Lynch U.S. High Yield Master II Constrained Index. The effective duration for the Merrill Lynch U.S. High Yield Master II Index Constrained Index at June 30, 2011 was 4.52 years.

Through the ARMB's investment policy, Treasury manages the exposure to fair value losses arising from increasing interest rates by limiting the effective duration of the International Fixed Income portfolio to ± 25 percent of the Citigroup Non-USD World Government Bond Index. The effective duration for the Citigroup Non-USD World Government Bond Index at June 30, 2011 was 6.97 years.

Through the ARMB's investment policy, Treasury manages the exposure to fair value losses arising from increasing interest rates by limiting the effective duration of the TIPS portfolio to ± 20 percent of the Barclays Capital U.S. Treasury Inflation-Protected (U.S. TIPS) Index, or a reasonable proxy thereof. The average life of the proxy index at June 30, 2011 was 5.31 years.

The ARMB does not have a policy to limit interest rate risk for the Emerging Debt or Convertible Bond portfolios.

At June 30, 2011, the effective duration of the ARMB's fixed income pools, by investment type, was as follows:

	Effective Duration (in years)				
	Retirement	U.S. Treasury	High Yield	International	TIPS
Corporate Bonds	-	4.18	4.66	-	-
Convertible Bonds	-	-	0.30	-	-

Portfolio Effective Duration	1.43	3.86	4.37	3.40	5.18

Defined Contribution Pooled Investment Funds

The ARMB contracts with an external investment manager who is given the authority to invest funds in a wholly-owned pooled environment to accommodate thirteen participant directed funds. Through the ARMB's investment policy, exposure to fair value losses arising from increasing interest rates is managed by limiting the duration as follows:

Under normal conditions, for government debt, corporate debt, and mortgage-backed securities, duration is limited to ± 0.2 years of the Barclays Capital U.S. Aggregate Bond Index. Further deviations are acceptable if they do not contribute significantly to the overall risk of the portfolio. In no event, at time of purchase shall effective duration exceed ± 0.4 years relative to the index.

At June 30, 2011, the duration of the government corporate debt, and mortgage-backed securities was 5.12 years and the duration of the Barclays Capital Aggregate Bond Index was 5.19 years.

Under normal conditions, the Trust will invest in cash equivalent instruments with maturities of less than one year.

Defined Contribution Collective Investment Funds

The ARMB does not have a policy to limit interest rate risk for its collective investment funds. At June 30, 2011, the modified duration of collective investment funds that consisted solely of debt securities were as follows – SSgA Money Market Trust: 0.05 years, SSgA World Government Bond Ex-US Index: 6.76 years, SSgA Long US Treasury Bond Index: 14.46 years, SSgA TIPS Index: 4.69 years, Barclays Gov/Corp Bond Fund: 7.73 years, and the Barclays Intermediate Bond Fund: 3.98 years.

Credit Risk

Treasury's investment policy has the following limitations with regard to credit risk:

Short-term Fixed Income Pool investments are limited to instruments with a long-term credit rating of at least A3 or equivalent and instruments with a short-term credit rating of at least P1 or equivalent. Asset-backed and non-agency mortgage securities must be rated A3 or equivalent. The A3 rating is defined as the median rating of the following three rating agencies: Standard & Poor's Corporation, Moody's, and Fitch. Asset-backed and non-agency mortgage securities may be purchased if rated by only one of these agencies if they are rated AAA.

The ARMB's investment policy has the following limitations with regard to credit risk:

Retirement Fixed Income:

- Commercial paper must carry a rating of at least P-1 by Moody's and A-1 by Standard & Poor's.
- Corporate debt securities must be investment grade.
- Corporate, asset-backed and non-agency mortgage securities must be investment grade. Investment grade is defined as the median rating of Standard & Poor's, Moody's, and Fitch. Asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA. Corporate bonds may be purchased if rated by two of these agencies.
- No more than 40 percent of the portfolio's assets may be invested in investment grade corporate debt.
 - No more than 15 percent of the portfolio's assets may be invested in BBB+ to BBB- rated debt by Standard & Poor's Corporation or the equivalent by Moody's or Fitch.

U.S. Treasury Fixed Income:

- No more than 10 percent of the portfolio's assets may be invested in securities that are not nominal, United States Treasury obligations or the internally managed short term or substantially similar portfolio at the time of purchase.
- Corporate, asset-backed, and non-agency mortgage securities must be investment grade. Investment grade is defined as the median rating of Standard & Poor's, Moody's, and Fitch. Asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA. Corporate bonds may be purchased if rated by two of these agencies.

High Yield Fixed Income:

- No more than 10 percent of the portfolio's assets may be invested in securities rated A3 or higher.
- No more than 25 percent of the portfolio's assets may be invested in securities rated below B3.
- No more than 5 percent of the portfolio's assets may be invested in unrated securities.
- No more than 10 percent of the portfolio's assets may be invested in countries not rated investment grade, including emerging markets.

The lower of any Standard & Poor's, Moody's or Fitch rating will be used for limits on securities rated below B3 and the higher rating will be used for limits on securities rated A3 or higher.

International Fixed Income:

- Corporate and asset-backed obligations must be rated investment grade or better by a recognized credit rating agency.
- Commercial paper and Euro commercial paper must be rated A-1 by Standard & Poor's or P-1 by Moody's or the equivalent of a comparable rating agency.

Convertible Bond:

- Non-rated convertible securities are permitted provided the manager is able to assign an appropriate credit rating consistent with the criteria used by Standard & Poor's, Moody's, or Fitch. Non-rated securities are limited to 35 percent of the total market value of the portfolio.
- The weighted-average rating of the portfolio shall not fall below the Standard & Poor's equivalent of B.
- Investments are limited to instruments with a credit rating above CCC- by Standard & Poor's and Caa3 by Moody's.
 - However, the manager may continue to hold securities downgraded below CCC- by Standard & Poor's and Caa3 by Moody's if such an investment is considered appropriate given the ARMB's investment objective.
- In the case of a split rating by two or more of the rating agencies, the lower rating shall apply.

TIPS:

- Commercial paper must be rated at least P-1 by Moody's and A-1 by Standard & Poor's.
- No more than five percent of the portfolio's assets may be invested in investment grade corporate debt.
- No more than five percent of the portfolio's assets may be invested in BBB+ to BBB- rated debt by Standard & Poor's or the equivalents by Moody's or Fitch.
- Corporate, asset-backed and non-agency mortgage securities must be rated investment grade. The investment grade rating is defined as the median rating of the following three rating agencies: Standard & Poor's, Moody's, and

Fitch. Asset-backed and non-agency mortgage securities may be purchased if only rated by one of these agencies if they are rated AAA. Corporate bonds may be purchased if rated by two of these agencies.

Domestic Equity (Large Cap and Small Cap) and Broad International Equity:

Corporate debt obligations must carry a rating of at least A or better by Moody's, Standard & Poor's, or Fitch rating services.

Commercial paper must bear the highest rating assigned by Moody's, Standard & Poor's, or Fitch rating services.

The ARMB does not have a policy to limit the concentration of credit risk for the Emerging Markets Debt Pool or the Collective Investment Funds.

At June 30, 2011, ARMB's invested assets consisted of securities with credit quality ratings issued by nationally recognized statistical rating organizations as follows (using Standard & Poor's Corporation rating scale):

	Rating	Fixed Income Pools						TIPS
		Short-term	Retirement	U.S. Treasury	High Yield	International	Convertible

Custodial Credit Risk – Deposits

The ARMB does not have a policy in relation to custodial credit risk for deposits; however, any uninvested U.S. Cash held in accounts is fully insured by the Federal Deposit Insurance Corporation (FDIC) under section 343 of the Dodd-Frank Wall Street Reform and Consumer Protection Act effective December 31, 2010. This section of the Act provides temporary unlimited deposit insurance coverage for noninterest-bearing transaction accounts through December 31, 2012, at all FDIC insured depository institutions thereby limiting custodial credit risk.

At June 30, 2011, the ARMB’s invested assets had the following uncollateralized and uninsured deposits (in thousands):

International Equity Pool	\$ 34,528
International Fixed Income Pool	<u>1,712</u>
	<u>\$ 36,240</u>

Concentration of Credit Risk

Treasury’s policy with regard to concentration of credit risk for the Short-term Fixed Income Pool is to prohibit the purchase of more than five percent of the portfolio’s assets in corporate bonds of any one company or affiliated group. This provision does not apply to securities backed by the full faith and credit of the United States Government.

The ARMB’s policy with regard to concentration of credit risk for the Retirement Fixed Income, U.S. Treasury Fixed Income, High Yield Fixed Income, International Fixed Income and Convertible Bond Pools is to prohibit the purchase of more than five percent of the portfolio’s assets in corporate bonds of any one company or affiliated group. The ARMB does not have a policy with regard to concentration of credit risk for the Emerging Markets Debt or TIPS Pools.

At June 30, 2011, the ARMB’s invested assets did not have exposure to any one issuer greater than five percent of total invested assets.

Foreign Currency Risk

The ARMB’s policy with regard to foreign currency risk in the International Fixed Income Pool is to restrict obligations to those issued in the currencies of countries: Argentina, Australia, Brazil, Canada, Chile, China, Columbia, Czech Republic, Denmark, Egypt, Eurozone sovereign issuers in the aggregate, Hungary, India, Indonesia, Israel, Japan, Malaysia, Mexico, New Zealand, Norway, Peru, Poland, Russia, Singapore, South Africa, South Korea, Sweden, Switzerland, Thailand, Turkey, United Kingdom, and United States. The ARMB has no specific policy with regard to foreign currency risk relating to international or private equity. However, through its asset allocation policy, the ARMB limits total investments in international fixed income, global equity ex-U.S. and private equity to the following:

<u>Pension Fund</u>	<u>Fixed - Income</u>	<u>Global Equity Ex- U.S.</u>	<u>Private Equity Pool</u>
Public Employees' Retirement System	22%	27%	12%
Teachers' Retirement System	22%	27%	12%
Judicial Retirement System	22%	27%	12%
Alaska National Guard and Naval Militia System	-	20%	-

The ARMB has no policy regarding foreign currency risk in the Defined Contribution Pooled Investment Funds and Collective Investment Funds.

At June 30, 2011, the ARMB had exposure to foreign currency risk with the following deposits:

Currency	Amount (in thousands)	
	International Fixed Income Pool	International Equity Pool
Australian Dollar	\$ -	\$ 446
Brazilian Real	-	5

	<u>\$ 275,635</u>	<u>\$ 79,536</u>	<u>\$ 2,520,975</u>	<u>\$ 200,230</u>

At June 30, 2011, the ARMB also had exposure to foreign currency risk in the Emerging Markets Equity Pool. This pool consists of investments in commingled investment funds; therefore, no disclosure of specific currencies is made.

Foreign Exchange, Derivative, and Counterparty Credit Risk

The ARMB is exposed to credit risk on investment derivative instruments that are in asset positions. The ARMB has no policy of requiring collateral or other security to support derivative instruments subject to credit risk. Additionally, the ARMB has no policy regarding entering into netting arrangements when it enters into derivative instrument transactions with a counterparty, nor does the ARMB have a policy for contingencies.

On June 30, 2011, the ARMB had the following derivative instruments outstanding (in thousands):

Type	Change in Fair Value		Fair Value at June 30, 2011		
	Classification	Amount	Classification	Amount	Notional
Equity Options Written	Investment Revenue	\$ 2,323	Options	\$ (29,291)	\$ (4,998)
FX Forwards	Investment Revenue	(1,773)	Long Term Instruments	(74)	14,181
Index Futures Long	Investment Revenue	14,372	Futures	-	63
Index Options Written	Investment Revenue	305	Options	(26)	(6)
Rights	Investment Revenue	500	Common Stock	23	108
Warrants	Investment Revenue	(27)	Common Stock	35	39
		<u>\$ 15,700</u>		<u>\$ (29,333)</u>	<u>\$ 9,387</u>

The International Equity Pool includes foreign currency forward contracts to buy and sell specified amounts of foreign currencies at specified rates on specified future dates for the purpose of hedging existing security positions. The counterparties to the foreign currency forward contracts consist of a diversified group of financial institutions. Credit risk exposure exists to the extent of non-performance by these counterparties; however, the risk of default is considered to be remote. The market risk is limited to the difference between contractual rates and forward rates at the balance sheet date.

At June 30, 2011 the ARMB had the following counterparty credit and counterparty concentration risk associated with its investment derivative positions:

Counterparty Name	Percent of Net Exposure	S&P Rating	Fitch Rating	Moody's Rating
UBS AG	0%	A+	A+	Aa3
				Amount (in thousands)
Maximum Amount of Loss ARMB Would Face in Case of Default of All Counterparties, i.e. Aggregated (Positive) Fair Value of OTC positions as of June 30, 2011				\$ 25
Effect of Collateral Reducing Maximum Exposure				-
Liabilities Subject to Netting Arrangements Reducing Exposure				-
Resulting Net Exposure				<u>\$ 25</u>

DEFERRED COMPENSATION

The State's Internal Revenue Code Section 457 Deferred Compensation Plan holds investments in several collective investment funds and an Interest Income Fund. At December 31, 2010, Deferred Compensation Plan investments totaled \$580 million.

Additional investment information is disclosed in the financial statements issued by the Department of Administration, Division of Retirement and Benefits. These financial statements are available through the Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or at <http://doa.alaska.gov/dr/b/>.

Interest Rate Risk

Collective Investment and Money Market Funds

The ARMB contracts with external investment managers who maintain collective investment funds. Managers selected to manage investments for the Deferred Compensation Plan are subject to the provisions of the collective investment funds the ARMB has selected. In addition, the Deferred Compensation Plan maintains a balance in a commingled money market portfolio.

The ARMB does not have a policy to limit interest rate risk for the Collective Investment Funds or the commingled money market portfolio. These investments with their related weighted average maturities at December 31, 2010, are as follows:

	Fair Value (in thousands)	Weighted Average Maturity
Bond Fund	\$ 122	4.43 years
Government/Credit Bond Index Fund	30,445	7.53 years
Institutional Treasury Money Market Fund	5,622	45 days
Intermediate Bond Fund	16,768	4.04 years
Long U.S. Treasury Bond Index Fund	1,708	13.97 years
U.S. TIPS Index Fund	6,157	7.91 years
World Government Bond ex-U.S. Index Fund	1,227	6.83 years

Interest Income Fund

ARMB contracts with an external investment manager who is given the authority to invest in synthetic investment contracts and a reserve. This external manager also manages the securities underlying the synthetic investment contracts.

Through the ARMB's investment policy, exposure to fair value losses arising from increasing interest rates is managed by limiting the duration on synthetic investment contracts as follows:

For constant duration synthetic investment contracts, duration cannot exceed the longer of six years or the duration of the Barclays Capital Intermediate Aggregate Index plus one-half year. The aggregate duration of the constant duration synthetic investment contracts was 3.58 years at December 31, 2010. The duration of the Barclays Capital Intermediate Aggregate Index was 4.0 years at December 31, 2010.

Duration is a measure of interest rate risk. In the case of the Deferred Compensation Plan's constant duration synthetic investment contracts, duration is the fair value weighted average term to maturity using all fixed income securities underlying the contracts and their related cash flows.

The ARMB does not have a policy to limit interest rate risk for the reserve. The balance in the reserve is invested in the custodian's Institutional Treasury Money Market Fund, which has a weighted average maturity of 45 days at December 31, 2010.

Pooled Investment Funds

Duration is a measure of a security's sensitivity to a 100-basis point change in interest rates. Duration, for the securities in the pooled investment funds, is the fair value weighted average term to maturity for each security taking into account all related cash flows.

The ARMB contracts with an external investment manager who is given the authority to invest funds in a wholly-owned pooled environment to accommodate 13 participant directed funds. Through the ARMB's investment policy, exposure to fair value losses arising from increasing interest rates is managed by limiting the duration as follows:

For government and corporate debt securities, duration is limited to ± 0.2 years of the Barclays Aggregate Bond Index. At December 31, 2010, the duration of the Barclays Aggregate Bond Index was 4.98 years, and the duration of the Aggregate Bond Trust was 4.89 years.

The weighted average maturity of the money market portfolio was 12.52 days at December 31, 2010.

The ARMB does not have a policy to limit interest rate risk for funds held in foreign currency, the custodian's short-term investment fund or commercial paper.

Credit Risk

The ARMB does not have a policy to limit credit risk for the Deferred Compensation Plan's Collective Investment Funds and the commingled money market portfolio. These investments are not rated.

The ARMB's investment policy has the following limitations with regard to credit risk for synthetic investment contracts, investments underlying the synthetic investment contracts and the reserve:

- Synthetic Investment contract issuers must have an investment grade rating,
- Supranational Agency and Foreign Government entity investments must have a minimum rating of A- or equivalent,
- Corporate debt securities must have a minimum rating of BBB- or equivalent,
- Asset-backed securities must have a minimum rating of AAA or equivalent,
- The ratings assigned to issuers of money market instruments must have the highest rating of any nationally recognized statistical rating organization. This limitation does not apply to the investment funds maintained by the custodian.

The ARMB's investment policy has the following limitations with regard to credit risk for wholly-owned pooled investments:

- All government and corporate fixed income securities must be rated BBB- or better at time of purchase,
- Government National Mortgage Association, Federal National Mortgage Association, and Federal Home Loan Mortgage Corporation mortgage-backed securities may be purchased even if they are not rated by all or any of these rating agencies as long as they are rated investment grade by T. Rowe's internal credit evaluation, and
- Commercial paper and other short-term debt obligations must be rated A-1 or equivalent.

At December 31, 2010, Deferred Compensation Plan's investments consisted of securities with credit quality ratings issued by a nationally recognized statistical rating organization as follows (using the Standard & Poor's rating scale):

Investment type	Rating	Fair Value (in thousands)		
		Underlying Synthetic Investment Contracts	Other	Total

Total		\$ 163,769	\$ 406,692	\$ 570,461

Custodial Credit Risk

The ARMB does not have a policy for custodial credit risk. At December 31, 2010, the Deferred Compensation Plan's deposits were uncollateralized and uninsured.

Concentration of Credit Risk

The ARMB does not have a policy to limit concentration of credit risk in the collective investment and money market funds.

The ARMB's policy with regard to concentration of credit risk for synthetic investment contracts, investments underlying the synthetic investment contracts, and the reserve is as follows:

No investment will be made if, at the time of purchase, total investment in any single issuer of investment contracts would exceed 35 percent of the Interest Income Fund's total value.

No investment will be made if, at the time of the purchase, total investment in any single issuer or in all issuers of the securities held as supporting investments under synthetic investment contracts in the table below would exceed the respective percentages of all investments underlying the synthetic investment contracts.

Investment Type	Issuer	All Issuers
U.S. Treasury and Agencies	100%	100%
U.S. Agencies Securities	100%	100%
Agency Mortgage-Backed Securities	50%	50%
Non-Agency Mortgage-Backed Securities	5%	50%
Asset-backed Securities	5%	50%
Domestic and Foreign Corporate Debt Securities	5%	50%
Supranational Agency and Foreign Government Entity Securities	5%	50%
Money Market Instruments – Nongovernmental/Agency	5%	100%
Custodian Short-term Investment Fund	100%	100%

The maximum exposure to securities rated BBB is limited to 20 percent of the total value underlying synthetic investment contracts.

For the reserve, the total investment of any single issuer of money market instruments may not exceed five percent of the total value underlying synthetic investment contracts. This limitation does not apply to the investment funds maintained by the custodian.

The ARMB policy with regard to concentration of credit risk for wholly-owned pooled investments is as follows:

Equity holdings will be limited to five percent per issuer of the equity portfolio at the time of purchase,

With the exception of the U.S. Government or its agencies, fixed income holdings of any single issuer is limited to two percent of the total portfolio at the time of purchase,

With the exception of the U.S. Government or its agencies, money market holdings of any single issuer are limited to no more than five percent of the portfolio at the time of purchase. This limitation does not apply to the investment funds maintained by the custodian.

At December 31, 2010, the Deferred Compensation Plan invested assets included \$45.4 million in Federal National Mortgage Association (FNMA) securities, which represented 7.99 percent of the Deferred Compensation Plan’s total invested assets. FNMA is a U.S. Government Agency.

Foreign Currency Risk

The ARMB does not have a policy to limit foreign currency risk associated with collective investment funds. The Deferred Compensation Plan has exposure to foreign currency risk in the International Equity and Global Balanced collective investment funds.

The ARMB’s policy with regard to the Interest Income Fund is to require that all investments underlying a synthetic investment contract be denominated in U.S. dollars.

The ARMB’s policy with regard to pooled investments requires that all money market holdings be made in entities domiciled in the U.S. The ARMB has no policy with regard to other pooled investments.

SUPPLEMENTAL BENEFITS SYSTEM

The State’s Supplemental Benefits System (SBS) holds investments in several collective investment funds, the State’s internally managed Short-term Fixed Income Pool (under the fiduciary responsibility of the Commissioner of Revenue), a Stable Value Fund and wholly-owned Pooled Investment Funds. At January 31, 2011, SBS investments totaled \$2.487 billion.

Additional investment information is disclosed in the financial statements issued by the Department of Administration, Division of Retirement and Benefits. These financial statements are available through the Department of Administration, Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203 or at <http://doa.alaska.gov/dr/b/>.

Interest Rate Risk

Collective Investment and Money Market Funds

The ARMB contracts with external investment managers who maintain collective investment funds. Managers selected to manage investments for SBS are subject to the provisions of the collective investment funds the ARMB has selected. In addition, SBS maintains a balance in a commingled money market portfolio.

The ARMB does not have a policy to limit interest rate risk for these investments. These investments with their related weighted average maturities at January 31, 2011 are as follows:

	Fair Value (in thousands)	Weighted Average Maturity
Government/Credit Bond Index Fund	\$ 44,302	7.51 years
Institutional Treasury Money Market Fund	12,675	49 days
Intermediate Bond Fund	13,608	4.02 years
Long U.S. Treasury Bond Index Fund	5,356	13.81 years
U.S. TIPS Index Fund	12,578	7.93 years
World Government Bond ex-U.S. Index Fund	3,406	6.91 years

Short-term Fixed Income Pool

The Investment Loss Trust Fund and the SBS's cash and cash equivalents are invested in the State's internally managed Short-term Fixed Income Pool. As a means of limiting its exposure to fair value losses arising from increasing interest rates, Treasury's investment policy limits individual fixed rate securities to 14 months in maturity or 14 months expected average life upon purchase. Floating rate securities are limited to three years in maturity or three years expected average life upon purchase. Treasury utilizes the actual maturity date for commercial paper and 12 month prepay speeds for other securities. At January 31, 2011, the expected average life of individual fixed rate securities ranged from one day to ten months and the expected average life of floating rate securities ranged from one day to nine years.

Stable Value Fund

The ARMB contracts with an external investment manager who is given the authority to invest in synthetic investment contracts and a reserve. This external manager also manages the securities underlying the synthetic investment contracts.

Through the ARMB's investment policy, exposure to fair value losses arising from increasing interest rates is managed by limiting the duration on synthetic investment contracts as follows:

For constant duration synthetic investment contracts, duration cannot exceed the longer of six years or the duration of the Barclays Capital Intermediate Aggregate Index plus one-half year. The aggregate duration of the constant duration synthetic investment contracts was 3.55 years at January 31, 2011. The duration of the Barclays Capital Intermediate Aggregate Index was 4.09 years at January 31, 2011.

Duration is a measure of interest rate risk. In the case of the SBS's constant duration synthetic investment contracts, duration is the fair value weighted average term to maturity of all fixed income securities underlying the contracts and their related cash flows. Duration of the SBS's structured payout synthetic investment contracts is the weighted average maturity of the contract payments.

The ARMB does not have a policy to limit interest rate risk for the reserve. The balance in the reserve is invested in the custodian's Institutional Treasury Money Market Fund which had a weighted average maturity of 49 days at January 31, 2011.

Pooled Investment Funds

Duration is a measure of security's sensitivity to a 100-basis point change in interest rates. Duration, for the securities in the pooled investment funds, is the fair value weighted average term to maturity for each security taking into account all related cash flows.

The ARMB contracts with an external investment manager who is given the authority to invest funds in a wholly-owned pooled environment to accommodate 13 participant directed funds. Through the ARMB's investment policy, exposure to fair value losses arising from increasing interest rates is managed by limiting the duration as follows:

For government and corporate debt securities, duration is limited to ± 0.20 years of the Barclays Aggregate Bond Index. At January 31, 2011, the duration of the Barclays Aggregate Bond Index was 5.04 years and the duration of the Aggregate Bond Trust was 4.94 years.

The weighted average maturity of the money market portfolio was 11.69 days at January 31, 2011.

The ARMB does not have a policy to limit interest rate risk for funds held in foreign currency, the custodian's short-term investment fund or commercial paper.

Credit Risk

The ARMB does not have a policy to limit credit risk for SBS's Collective Investment Funds and commingled money market portfolio. These investments are not rated.

Treasury's investment policy limits credit risk in the Short-term Fixed Income Pool by limiting investments to instruments with a long-term credit rating of at least A3 or equivalent and instruments with a short-term credit rating of at least P-1 or equivalent. Treasury's investment policy further limits investments in institutional money market funds to those rated AAA. Treasury does not have a policy to limit credit risk associated with deposit accounts or investment funds maintained by the custodian.

The ARMB's investment policy has the following limitations with regard to credit risk for synthetic investment contracts, investments underlying the synthetic investment contracts and the reserve:

Synthetic investment contract issuers must have an investment grade rating,
Supranational Agency and Foreign Government entity investments must have a minimum rating of A- or equivalent;
Corporate debt securities must have a minimum rating of BBB- or equivalent,
Asset-backed securities must have a minimum rating of AAA or equivalent, and
The ratings assigned to issuers of money market instruments must have the highest rating of any nationally recognized statistical rating organization. This limitation does not apply to the investment funds maintained by the custodian.

The ARMB's investment policy has the following limitations with regard to credit risk for wholly-owned pooled investments:

All government and corporate fixed income securities must be rated BBB- or better at time of purchase,
Government National Mortgage Association, Federal National Mortgage Association, and Federal Home Loan
Mortgage Corporation mortgage-backed securities may be purchased even if they are not rated by all or any
of these rating agencies as long as they are rated investment grade by T. Rowe's internal credit
evaluation, and
Commercial paper and other short-term debt obligations must be rated A-1 or equivalent.

At January 31, 2011, SBS investments consisted of securities with credit quality ratings issued by a nationally recognized statistical rating organization as follows (using the Standard & Poor's rating scale):

Investment type	Rating	Fair Value (in thousands)					Total
		Short-term Fixed Income Pool	Underlying		Investment Loss Trust	Other	
			Investment Contracts	Synthetic

Custodial Credit Risk

The ARMB does not have a policy for custodial credit risk. At January 31, 2011, the SBS Plan’s deposits were uncollateralized and uninsured.

Concentration of Credit Risk

The ARMB does not have a policy to limit concentration of credit risk in the collective investment and money market funds.

Treasury’s policy with regard to the Short-term Fixed Income Pool is to prohibit the purchase of more than five percent of the portfolio’s assets in corporate bonds of any one company or affiliated group, unless explicitly backed by the U.S. Government.

The ARMB’s policy with regard to concentration of credit risk for synthetic investment contracts, investments underlying the synthetic investment contracts, and the reserve is as follows:

No investment will be made if, at the time of purchase, total investment in any single issuer of investment contracts would exceed 35 percent of the Stable Value Fund’s total value.

No investment will be made if, at the time of the purchase, total investment in any single issuer or in all issuers of the securities held as supporting investments under synthetic investment contracts in the table below would exceed the respective percentages of all investments underlying the synthetic investment contracts.

Investment Type	Issuer	All Issuers
U.S. Treasury and Agencies	100%	100%
U.S. Agency Securities	100%	100%
Agency Mortgage-backed Securities	50%	50%
Nonagency Mortgage-backed Securities	5%	50%
Asset-backed Securities	5%	50%
Domestic and Foreign Corporate Debt Securities	5%	50%
Supranational Agency and Foreign Government Entity Securities	5%	50%
Money Market Instruments – Nongovernmental Agency	5%	100%
Custodian Short-term Investment Fund	100%	100%

The maximum exposure to securities rated BBB is limited to 20 percent of the total value underlying synthetic investment contracts.

For the reserve, the total investment of any single issuer of money market instruments may not exceed five percent of the total value underlying synthetic investment contracts. This limitation does not apply to the investment funds maintained by the custodian.

The ARMB’s policy with regard to concentration of credit risk for wholly-owned pooled investments is as follows:

Equity holdings will be limited to five percent per issuer of the equity portfolio at the time of purchase,

With the exception of the U.S. Government or its agencies, fixed income holdings of any single issuer are limited to two percent of the total portfolio at the time of purchase, and

With the exception of the U.S. Government or its agencies, money market holdings of any single issuer are limited to no more than five percent of the portfolio at the time of purchase. This limitation does not apply to the investment funds maintained by the custodian.

At January 31, 2011, SBS had no exposure to a single issuer in excess of five percent of total invested assets.

Foreign Currency Risk

The ARMB does not have a policy to limit foreign currency risk associated with collective investment funds. SBS has exposure to foreign currency risk in the International Equity and the Global Balanced collective investment funds.

The ARMB's policy with regard to the Stable Value Fund is to require that all investments underlying a synthetic investment contract be denominated in U.S. dollars.

The ARMB's policy with regard to pooled investments requires that all money market holdings be made in entities domiciled in the U.S. The ARMB has no policy with regard to other pooled investments.

C. DEPOSITS AND INVESTMENTS MAINTAINED BY COMPONENT UNITS WHOSE ACCOUNTS ARE OUTSIDE OF THE STATE TREASURY

There are many component units of the State that maintained their accounts outside of the State treasury. However, the overwhelming majority of the activity is within the Alaska Permanent Fund Corporation (APFC). Information on deposits and investments maintained by the other component units are available within their separately issued audit reports.

ALASKA PERMANENT FUND CORPORATION

APFC is managed by a six member board of trustees (the "Trustees" or "Board") consisting of the Department of Revenue Commissioner, one other head of a principal State department, and four governor-appointed public members with recognized competence and experience in finance, investments, or other business management-related fields. The Alaska Permanent Fund (the "Fund") assets are diversified across a wide variety of investments, in accordance with statutes, regulations, and APFC investment policies.

Investments and Related Policies

Carrying value of investments

The Fund's investments are reported at fair value in the financial statements. Securities transactions are recorded on the trade date that securities are purchased or sold. Unrealized gains and losses are reported as components of net change in fund balance. For marketable debt and equity securities, including real estate investment trusts, fair values are obtained from independent sources using published market prices, quotations from national security exchanges, and security pricing services. Fair values of investments that have no readily ascertainable fair value are determined by management using the fair value capital account balances nearest to the balance sheet date, adjusted for subsequent contributions and distributions. Direct investments in real estate are subject to annual appraisals and audits. All alternative investments undergo annual independent financial statement audits.

At June 30, 2011, the APFC’s strategic asset allocation targets were as follows:

<u>Risk Class</u>	<u>Asset Class</u>	<u>Risk Class Target</u>	<u>Asset Class Target</u>
Cash		2%	2%
Interest Rates		6%	
	U.S. Government Bonds		4%
	International Developed Government Bonds (currency hedged)		2%
Company Exposure		53%	
	Global Credit		11%
	Global Equity		36%
	Private Equity		6%
Real Assets		18%	
	Real Estate		12%
	Infrastructure		3%
	U.S. Treasury Inflation Protection Securities		3%
Special Opportunities		21%	
	Absolute Return Mandate		6%
	Real Return Mandate		7%
	Distressed Debt		1%
	Mezzanine Debt		1%
	Structured Credit		1%
	Other (future opportunities)		5%

Capital that is not invested in the special opportunities risk class resides in the company exposure risk class. To allow for market fluctuations and to minimize transaction costs, the Trustees have adopted ranges that permit percentage deviations from the strategic asset allocation targets in accordance with specified reporting requirements and other procedures. Generally, for each risk and asset class, the APFC’s chief investment officer has discretionary authority to permit target deviations within one specified range (referred to as the “green zone” in the investment policy), the APFC’s executive director can approve target deviations for up to 90 days within a broader range (the “yellow zone”), and the Board can approve operating for longer than 30 days within a third range (the “red zone”). For example, the target allocation for the interest rate risk class is six percent, with the green zone range set at 6 to 12 percent, yellow zone ranges set at five to six percent and 12 to 20 percent, and red zone ranges set at allocations of less than five percent or greater than 20 percent. In a similar manner, the APFC investment policy also requires the APFC to monitor relative risk (the expected investment portfolio’s risk and return relative to the risk benchmark using standard industry risk measures), active budget risk (risk due to active management decisions made by managers), and limits on private investments and future commitments.

In accordance with Alaska Statute 37.13.120(a), the Trustees have adopted regulations designating the types of eligible investments for Fund assets. The regulations follow the prudent investor rule, requiring the exercise of judgment and care under the circumstances then prevailing that an institutional investor of ordinary prudence, discretion, and intelligence exercises in the designation and management of large investments entrusted to it, not in regard to speculation, but in regard to the permanent disposition of funds, considering preservation of the purchasing power of the Fund over time while maximizing the expected total return from both income and the appreciation of capital.

Interest Rate Risk

The APFC manages the Fund's exposure to interest rate risk in part through tracking error guidelines set forth in the APFC's investment policy. Duration is an indicator of a portfolio's market sensitivity to changes in interest rates. In general, the major factors affecting duration are, in order of importance, maturity, prepayment frequency, level of market interest rates, size of coupon, and frequency of coupon payments. Rising interest rates generally translate into the value of fixed income investments declining, while falling interest rates are generally associated with increasing value. Effective duration attempts to account for the price sensitivity of a bond to changes in prevailing interest rates, including the effect of embedded options. As an example, for a bond portfolio with a duration of 5.0, a one percentage point parallel decline in interest rates would result in an approximate price increase on that bond portfolio of 5.0 percent.

At June 30, 2011, the Fund held fixed income investments with floating, variable, and step interest rates, valued at \$346,583 thousand. These fixed income investments were both domestic and non-domestic, and had current annual interest rates ranging from zero percent to 10.5 percent.

Credit Risk

The APFC requires that its investment grade fixed income managers invest in domestic and non-domestic bonds that have an explicit or implied investment grade rating. Should the required ratings on an existing fixed income security fall below the minimum standards, the security must be sold within seven months. Certain high yield investment managers are allowed to invest a specified amount of funds in bonds rated below investment grade.

Custodial Credit Risk

The APFC generally requires that all investment securities at custodian banks be held in the name of the Fund or the APFC (on behalf of the Fund). For the Fund's non-domestic securities held by most sub-custodians, the APFC's primary custodian provides contractual indemnities against sub-custodial credit risk. Excess cash in custodial accounts is swept daily to a money market fund managed by Invesco Aim Advisors, Inc. Late deposits of cash, which miss the money market sweep deadline, are deposited to an interest bearing account at the custodian.

Concentration of Credit Risk

The APFC manages the Fund's concentration of credit risk by following its strategic asset allocation policy, diversifying investments among managers with varying investment styles and mandates, and monitoring tracking error. Tracking error is a measure of how closely a portfolio follows the index to which it is benchmarked. The APFC's policy for mitigating this risk of loss for fixed income and equity investments is to ensure compliance with APFC investment policy and investment manager contracts. There is no single-issuer exposure within the APFC portfolio that comprises five percent or more of the overall portfolio. Therefore, no concentration of credit risk is reported in the notes to the financial statements.

Foreign Currency Risk

Foreign currency risk is managed through foreign currency forward contracts and by diversifying assets into various countries and currencies.

Forward Exchange Contracts

Fund managers enter into a variety of forward currency contracts in their trading activities and management of foreign currency exchange rate risk exposure. These contracts are typically intended to neutralize the effect of foreign currency fluctuations, and the contract amounts do not appear on the balance sheet. Realized gains and losses are included in the net increase in the fair value of investments at the time the contract is settled and determined based on the difference between the contract rate and the market rate at the time of maturity or closing. Unrealized gains and losses are also included in the net increase in the fair value of investments, and are calculated based on the difference between the contract rate and a forward market rate determined as of the balance sheet date.

A portion of forward exchange contracts is intended to manage, rather than neutralize, foreign currency fluctuations. Certain managers seek to control the effect of fluctuations in foreign exchange rates within their overall portfolio strategy rather than

on a security by security basis. They attempt to optimize their foreign currency exposure in a market rather than accept the natural geographical exposure to the market's currency.

Equity Index Futures

Certain equity managers for the Fund are permitted to buy and sell equity index futures. The gross fair value of equity index futures does not appear in the balance sheets. The net unrealized gain or loss on open futures trades is included in investments on the balance sheets, based on the difference between the future's purchase price and the current value of such index futures. Realized gains and losses on futures are included in the net increase in the fair value of investments at the time the futures contract expires. The net change in unrealized gains and losses is included in the net increase in the fair value of investments, based on the difference between the contract purchase price and the current value of the futures index as of the balance sheet date.

Cash and Temporary Investments

The amounts shown on the balance sheets as cash and temporary investments include cash on deposit at the custodian bank, cash swept to overnight investment funds, cash held at futures brokers, petty cash, U.S. Treasury bills, and the net fair value of foreign exchange forward contracts. The APFC's asset allocation includes two percent to cash. APFC's investment policy specifies that funds dedicated to this portion of the asset allocation will be invested in money market funds or fixed income securities with weighted-average maturities of no greater than 24 months.

Cash and temporary investments, which include the market values of foreign currency (FX) and FX forward exchange contracts, are summarized as follows at June 30, 2011 (in thousands):

Cash and Pooled Funds	\$ 1,656,603
U.S. Treasury Bills	<u>3,275</u>
Total Cash and Temporary Investments	<u>\$ 1,659,878</u>

U.S. Treasury bills are explicitly guaranteed by the U.S. government. At June 30, 2011, uninvested cash of \$72,663 thousand was held at the custodian, sub-custodian, or futures broker banks, primarily in interest-bearing accounts. All remaining cash balances were invested in a money market fund managed by Invesco Aim Advisors, Inc.

Marketable Debt Securities

Marketable debt securities at June 30, 2011, are summarized as follows (in thousands), categorized by debt instrument type and by country of registration:

	Cost	Fair Value	Unrealized Gains/(Losses)
Treasury and Government Notes/Bonds	\$ 1,820,263	\$ 1,931,332	\$ 111,069
Mortgage-backed Securities	580,397	594,595	14,198
Corporate Bonds	2,551,947	2,640,400	88,453
Commercial Mortgage/Asset-backed Securities	337,182	359,146	21,964
Non-U.S. Treasury and Government Bonds	1,295,129	1,393,253	98,124
Non-U.S. Corporate Bonds	465,289	489,502	24,213
Total Marketable Debt Securities	<u>\$ 7,050,207</u>	<u>\$ 7,408,228</u>	<u>\$ 358,021</u>

Marketable Debt Credit Ratings

To manage credit risk for marketable debt securities, the APFC monitors fair values of all securities daily and routinely reviews its investment holdings' credit ratings. For accounts with an investment grade mandate (approximately 87 percent of bond mandates at June 30, 2011), issues falling below the minimum standards are required to be sold within seven months of the downgrade date. Managers with high yield mandates (approximately 13 percent of bond mandates at June 30, 2011) are

allowed to hold positions in assets with below investment grade ratings (high yield bonds) based on the terms of their contracts. For purposes of this note, if credit ratings differ among the Nationally Recognized Statistical Rating Organizations (NRSRO) used, the rating with the highest degree of risk (the lowest rating) is reported.

At June 30, 2011, the Fund's credit ratings for its marketable debt securities are as follows (in thousands):

NRSRO Quality Rating	Domestic	Non-domestic	Total Fair Value	Percent of Holdings
AAA	\$ 406,345	\$ 588,915	\$ 995,260	13.44%
AA	188,566	505,170	693,736	9.36%
A	1,039,723	259,995	1,299,718	17.54%
BBB	794,776	318,956	1,113,732	15.03%
BB	77,187	131,522	208,709	2.82%
B	59,493	62,056	121,549	1.64%
CCC	41,927	1,198	43,125	0.58%
CC	4,154	-	4,154	0.06%
C	4,312	718	5,030	0.07%
Total fair value of rated debt securities	2,616,483	1,868,530	4,485,013	60.54%
Commingled Bond Funds	353,509	-	353,509	4.77%
Not rated	8,985	14,226	23,211	0.31%
U.S. government explicitly backed by the U.S. government	2,047,332	-	2,047,332	27.64%
U.S. government implicitly backed by the U.S. government	499,163	-	499,163	6.74%
Total fair value debt securities	\$ 5,525,472	\$ 1,882,756	\$ 7,408,228	100.00%

Marketable Debt Duration

To manage its interest rate risk on marketable debt securities, the APFC monitors fair values daily and routinely reviews portfolio effective duration in comparison to established benchmarks. At June 30, 2011, the effective duration by investment type, based on fair value, is as follows:

	Percent of bond holdings	Duration
Domestic Bonds		
Treasuries and Government Notes/Bonds	34.95%	6.71
Mortgage-backed Securities	10.76%	4.23
Corporate Bonds	47.79%	6.31
Commercial Mortgage and Asset-backed Securities	6.50%	3.04
Total Domestic Bonds	100.00%	6.00
Non-domestic Bonds		
Non-U.S. Treasury and Government Bonds	74.00%	5.98
Non-U.S. Corporate Bonds	26.00%	5.94
Total Non-domestic Bonds	100.00%	5.97

Preferred and Common Stock

Direct investments in preferred and common stock are held by the APFC's custodian bank on behalf of the Fund.

The Fund invests in commingled stock funds, which are held by the custodian bank of the fund manager on behalf of fund investors. The commingled stock funds held as of June 30, 2011 were: the Emerging Markets Growth Fund (EMGF)

managed by Capital International, Inc.; the International Small Company Portfolio (DFISX) managed by Dimensional Fund Advisors, LP; and, the DFA International Small Cap Value Portfolio (DISVX) managed by Dimensional Fund Advisors, LP.

The fair values of the Fund's shares in the EMGF were \$1,316,974 thousand as of June 30, 2011, and are included in the non-domestic values shown below. The value of the Fund's investment in the commingled fund represented approximately 7.9 percent of the total EMGF value at June 30, 2011.

The fair values of the Fund's shares in the DFISX funds were \$251,872 thousand as of June 30, 2011, and are included in the non-domestic values shown below. The fair values of the Fund's shares in the DISVX funds were \$243,072 thousand as of June 30, 2011, and are included in the non-domestic values shown below. The value of the Fund's investment in the DFISX fund represented approximately 4 percent of the total DFISX value at June 30, 2011. The value of the Fund's investment in the DISVX fund represented approximately 3 percent of the total DISVX value at June 30, 2011.

Preferred and common stocks at June 30, 2011, are summarized as follows (in thousands), and include the net fair value of equity index futures:

	<u>Cost</u>	<u>Fair Value</u>	<u>Unrealized Gains/(Losses)</u>
Domestic	\$ 8,945,123	\$ 10,897,167	\$ 1,952,044
Non-domestic	6,891,512	8,167,105	1,275,593
Total Preferred and Common Stock	<u>\$ 15,836,635</u>	<u>\$ 19,064,272</u>	<u>\$ 3,227,637</u>

Foreign Currency Exposure

Foreign currency risk is managed by the international investment managers in part through their decisions to enter into foreign currency forward contracts. Foreign currency risk is also managed through the diversification of assets into various countries and currencies.

At June 30, 2011, the Fund's cash holdings, non-domestic public and private equity, and debt securities had exposure to foreign currency risk as follows, shown in U.S. dollar equivalent at fair value and based on the currency in which the securities are held and traded (in thousands):

Foreign Currency	Cash	Public Equity	Debt	Private Equity	Total Foreign Currency Exposure
Argentine Peso	\$ (19)	\$ -	\$ 3,459	\$ -	\$ 3,440
Australian Dollar	11,655	421,115	-	6,957	439,727

New Zealand Dollar	307	15,159	-	-	15,466
Norwegian Krone	(204)	46,480	-	-	46,276
Philippine Peso	44	965	19,113	-	20,122
Polish Zloty	9	27,448	12,432	-	39,889
Russian Ruble	-	-	12,267	-	12,267
Singapore Dollar	3,820	88,478	-	-	92,298
South African Rand	(516)	62,357	8,342	-	70,183
South Korean Won	(460)	166,680	37,573	-	203,793
Swedish Krona	1,698	193,031	32,352	23	227,104
Swiss Franc	9,791	477,379	-	-	487,170
Taiwan Dollar	1,221	134,940	-	-	136,161
Thai Baht	(1,562)	49,964	1,887	-	50,289
Turkish Lira	-	30,099	36,226	-	66,325
Uruguayan Peso	-	-	15,558	-	15,558
Total foreign currency exposure	\$ 33,957	\$ 8,166,074	\$ 1,099,642	\$ 211,142	\$ 9,510,815

Cash amounts in the schedule above include receivables, payables, and cash balances in each related currency. If payables exceed receivables and cash balances in a currency, then the total cash balance for that currency will appear as a negative value.

Real Estate

The Fund holds a variety of real estate interests, including directly owned real estate, real estate investment trusts, a real estate operating company, and other entities whose assets consist primarily of real property. The Fund invests in real estate directly through ownership of interests in corporations, limited liability companies, and partnerships that hold title to the real estate. External institutional real estate management firms administer the Fund’s directly owned real estate investments.

Real estate investments at June 30, 2011, are summarized as follows (in thousands):

	Cost	Fair Value	Unrealized Gains/(Losses)
Real Estate Investment Trusts	\$ 225,939	\$ 292,888	\$ 66,949
Alaska Residential Mortgage	21	21	-
Directly Owned Real Estate:			
Earnest Money - Pending Purchase	2,771	2,771	-
Retail	673,070	1,192,533	519,463
Office	1,056,142	958,096	(98,046)
Industrial	248,006	248,743	737
Multifamily	978,110	1,028,302	50,192
Total Real Estate	<u>\$ 3,184,059</u>	<u>\$ 3,723,354</u>	<u>\$ 539,295</u>

Subsequent to fiscal year end 2011, one real estate property was sold. The industrial building, located in California, was sold for \$22.2 million (which approximated the carrying value of the property at June 30, 2011), incurring a realized loss of \$5.3 million.

Alternative Investments

Alternative investments include the Fund’s investments in or through real return mandates, absolute return strategies, private equity, infrastructure, distressed debt, and mezzanine debt.

The objective for the real return mandate is to produce a five percent real return (in excess of inflation) over the longer of one business cycle or five years. Each manager’s contract specifies permitted investments and liquidity guidelines. Investments are generally in commingled proprietary funds structured as limited partnerships.

Absolute return strategies are investments in specialized funds with low market correlation. The Fund’s absolute return strategies are managed through three limited partnerships, in which the Fund is the only limited partner (“fund-of-one”). External investment management services are provided by institutional investment managers who have acknowledged their status as fiduciaries with respect to the Fund. Absolute return strategies invest in a diversified portfolio of underlying limited partnership interests or similar limited liability entities. Each fund-of-one provides the Fund with fair value estimates of partnership interests and undergoes an annual independent audit. Many absolute return investments do not have readily ascertainable fair values and may be subject to withdrawal restrictions and/or additional expenses upon early withdrawal of invested funds.

The Fund holds private equity through investments in limited liability companies and limited partnerships that typically invest in unlisted, illiquid common and preferred stock, and, to a lesser degree, subordinated and senior debt of companies that are in most instances privately held. The APFC has hired external advisors to select private equity holdings diversified by geography and strategy. Private equity is funded slowly over time as opportunities are identified by the external advisors and the underlying fund managers. The underlying private equity funds provide the Fund with fair value estimates of the investments utilizing the most current information available. In addition, the external advisors review the fair value estimates, and the underlying private equity funds undergo annual independent audits. Private equity investments by their nature generally have no readily ascertainable market prices, and the estimated fair values may differ significantly from values that would be obtained in a market transaction for the assets.

Infrastructure investments involve ownership or operating agreements in essential long-term service assets with high barriers to entry. Examples of infrastructure assets include: toll roads; airports; deep water ports; communication towers; and energy

generation, storage and transmission facilities. Investments in this asset class are expected to have inflation protection attributes and exhibit low correlations with other major asset classes in the Fund’s investment strategy. The Fund holds infrastructure investments through commingled funds organized as limited partnerships whose investment managers provide periodic fair value estimates. The limited partnerships undergo annual independent audits. Infrastructure investments by their nature generally have no readily ascertainable market prices, and the estimated fair values may differ significantly from values that would be obtained in a market transaction for the assets.

The Fund invests in distressed debt through limited partnerships that invest either directly in distressed debt or in commingled limited liability funds with a distressed debt focus. The Fund invests in mezzanine debt through limited partnerships that invest directly in mezzanine debt. These investments are funded over time, as opportunities arise. The limited partnerships undergo annual independent audits. Distressed debt and mezzanine investments, by their nature, generally have no readily ascertainable market prices, and the estimated fair values may differ significantly from values that would be obtained in a market transaction for the assets.

Alternative investments at June 30, 2011, are summarized as follows (in thousands):

	Cost	Fair Value	Unrealized Gains/(Losses)
Real return	\$ 2,864,271	\$ 3,164,561	\$ 300,290
Absolute return	2,200,847	2,530,937	330,090
Private equity	1,247,827	1,378,117	130,290
Infrastructure	656,198	786,916	130,718
Distressed and mezzanine debt	456,735	531,116	74,381
Total alternative investments	<u>\$ 7,425,878</u>	<u>\$ 8,391,647</u>	<u>\$ 965,769</u>

As of June 30, 2011, the APFC, on behalf of the Fund, had outstanding future funding commitments of: \$1.6 billion for private equity; \$636 million for infrastructure; and \$775 million for distressed and mezzanine debt investments combined.

Alaska Certificates of Deposit

State regulations and APFC investment policy authorize the APFC to invest Fund assets in certificates of deposit or the equivalent instruments of banks, savings and loan associations, mutual savings banks and credit unions doing business in Alaska. The certificates of deposit are secured by collateral consisting of letters of credit from the Federal Home Loan Bank or pooled mortgage securities issued by U.S. government sponsored enterprises.

Securities Lending

State regulations at 15 AAC 137.510 and APFC investment policy authorize the APFC to enter into securities lending transactions on behalf of the Fund. Through a contract with the Bank of New York Mellon (the Bank), the Fund lends marketable debt and equity securities to borrowers who are banks and broker-dealers. The loans are collateralized with cash or marketable securities guaranteed by the U.S. government or a U.S. government agency. Under APFC’s contract with the Bank, the Bank must mark the loaned securities and collateral to the market daily, and the loan agreements require the borrowers to maintain the collateral at not less than 102 percent of the fair value of the loaned securities for domestic securities (and non-domestic loaned securities denominated in U.S. Dollars) and not less than 105 percent of the fair value for other non-domestic loaned securities. The APFC can sell securities that are on loan. If a borrower fails to return the loaned securities (borrower default), the Bank can use cash collateral (and the proceeds on the sale of any non-cash collateral) to purchase replacement securities. Generally, the APFC is protected from credit risk associated with the lending transactions through indemnification by the Bank against losses resulting from counterparty failure, the reinvestment of cash collateral, default on collateral investments, or a borrower’s failure to return loaned securities.

Cash collateral received for loaned securities is reported on the Fund's balance sheets and invested by the Bank on behalf of the Fund. As of June 30, 2011, such investments were in overnight repurchase agreements that had a weighted-average-maturity of one day. The average term of the loans was also one day. At June 30, 2011 the value of securities on loan is as follows (in thousands):

Fair Value of Securities on Loan	\$ 3,426,988
Cash Collateral	3,617,520

The Fund receives 80 percent of earnings derived from securities lending transactions and the Bank retains 20 percent. During the year ended June 30, 2011, the Fund incurred no losses from securities lending transactions. The Fund received income of \$8,957 thousand from securities lending for the year ended June 30, 2011, which is recorded in real estate and other income on the statements of revenues, expenditures, and changes in fund balances.

Investment Income by Source

Investment income during the year ended June 30, 2011, is summarized as follows (in thousands):

Interest	
Domestic Marketable Debt Securities	\$ 244,176
Non-domestic Marketable Debt Securities	35,531
Alaska Certificates of Deposit	1,890
Short-term Domestic and Other	2,123
Total Interest	<u>\$ 283,720</u>
Dividends	
Domestic Stocks	\$ 107,030
Non-domestic Stocks	352,823
Total Dividends	<u>\$ 459,853</u>
Real Estate and Other Income	
Directly Owned Real Estate Interest	\$ 1
Directly Owned Real Estate Net Rental Income	127,306
Real Estate Investment Trust Dividends	12,552
Real Return Interest and Dividends	30,038
Absolute Return Management Expenses, Net of Dividend and Interest Income	(17,138)
Distressed and Mezzanine Debt Interest Income, Net of Fees	1,040
Infrastructure Fees, Net of Interest and Dividend Income	(3,291)
Private Equity Dividend Income, Net of Management Expenses	5,335
Class Action Litigation Income	3,393
Loaned Securities, Commission Recapture and Other Income	9,590
Total Real Estate and Other Income	<u>\$ 168,826</u>

Foreign Exchange Contracts and Off-Balance Sheet Risk

Certain APFC external investment managers enter into foreign currency forward exchange contracts (FX forward contracts) to buy and sell specified amounts of foreign currencies for the Fund at specified rates and future dates for the purpose of managing or optimizing foreign currency exposure. The maturity periods for outstanding contracts at June 30, 2011 ranged between one and 154 days.

The counterparties to the FX forward contracts consisted of a diversified group of financial institutions. The Fund is exposed to credit risk to the extent of non-performance by these counterparties. The Fund's market risk as of June 30, 2011 is limited to the difference between contractual rates and forward market rates determined at the end of the fiscal year.

Activity and balances related to FX forward contracts for fiscal year 2011 are summarized as follows (in thousands):

Face Value of FX Forward Contracts	\$ 2,528,767
Net Unrealized Holding Losses on FX Forward Contracts	<u>(5,195)</u>
Fair Value of FX Forward Contracts	<u>\$ 2,523,572</u>
Change in Unrealized Holding Losses	\$ (3,634)
Realized Losses	<u>(122,114)</u>
Net Decrease in Fair Value of FX Forward Contracts	<u>\$ (125,748)</u>

Certain APFC equity investment managers are permitted to trade in equity index futures for the Fund's account. Equity index futures are traded in both domestic and non-domestic markets based on an underlying stock exchange value. Equity index futures are settled with cash for the net difference between the trade price and the settle price.

Activity and balances related to equity index futures for fiscal year 2011 is summarized as follows (in thousands):

Face Value of Equity Index Futures	\$ 149,868
Net Unrealized Holding Gains on Futures	<u>5,083</u>
Fair Value of Equity Index Futures	<u>\$ 154,951</u>
Change in Unrealized Holding Gains	\$ 10,279
Realized Gains	<u>22,895</u>
Net Increase in Fair Value of Futures	<u>\$ 33,174</u>

The face value of FX forward contracts and futures shown in these schedules is not required to be included in the Fund's balance sheets. All other balance and activity amounts shown above are included in the Fund's financial statements.

NOTE 5 – CAPITAL ASSETS

PRIMARY GOVERNMENT

Capital assets, which include property, plant, equipment, and infrastructure items (highways, bridges, and similar items) are reported in the applicable governmental and business-type activity columns of the government-wide financial statements.

Capitalization policy and useful lives for capital assets are as follows:

<u>Capital Asset</u>	<u>Governmental Activities</u>		<u>Business-type Activities</u>	
	<u>Capitalize at Value</u>	<u>Useful Life</u>	<u>Capitalize at Value</u>	<u>Useful Life</u>
Land	All	Indefinite	All	Indefinite
Infrastructure	\$ 1,000,000	15-75	\$ 100,000	5-40
Buildings	1,000,000	50	100,000	10-40
Intangible Assets and				
Computer Software	500,000	3-7		
Building Improvements	100,000	1-50	All	5-40
Machinery/equipment	100,000	3-60	5,000	5-10
Construction in Progress				

State of Alaska art, library reserve, and museum collections that are considered inexhaustible, in that their value does not diminish over time, are not capitalized. These assets are held for public exhibition, education, or research rather than financial gain, and are protected, kept unencumbered, cared for, and preserved. Proceeds from the sale of collection items are used to acquire other items for collections.

Capital asset activities for the fiscal year ended June 30, 2011, are as follows (in millions):

Governmental Activities	Beginning Balance	Additions	Deletions	Ending Balance
Capital assets not being depreciated:				
Intangible - Easements and Right-of-Way	\$ 504	\$ 18	\$ -	\$ 522
Land	319	3	-	322
Construction in progress	1,359	539	(382)	1,516
Total capital assets not being depreciated	<u>2,182</u>	<u>560</u>	<u>(382)</u>	<u>2,360</u>

Total capital assets being depreciated	<u>8,459</u>	<u>395</u>	<u>(64)</u>	<u>8,790</u>
Less accumulated depreciation for:				
Buildings	(492)	(30)	7	(515)
Intangible - Software	(37)	(6)	-	(43)
Equipment	(390)	(36)	3	(423)
Infrastructure	(3,486)	(285)	5	(3,766)
Total accumulated depreciation	<u>(4,405)</u>	<u>(357)</u>	<u>15</u>	<u>(4,747)</u>
Total capital assets being depreciated, net	<u>4,054</u>	<u>38</u>	<u>(49)</u>	<u>4,043</u>
Capital assets, net	<u>\$ 6,236</u>	<u>\$ 598</u>	<u>\$ (431)</u>	<u>\$ 6,403</u>

Internal service funds predominantly serve the governmental funds. Accordingly, capital assets for internal funds are included as part of the above schedule for governmental activities.

Business-type Activities	Beginning Balance	Additions	Deletions	Ending Balance
Capital assets not being depreciated:				
Land	\$ 30	\$ -	\$ -	\$ 30
Construction in progress	77	86	(103)	60
Total capital assets not being depreciated	<u>107</u>	<u>86</u>	<u>(103)</u>	<u>90</u>
Capital assets being depreciated:				
Buildings	973	21	-	994
Equipment	76	7	(1)	82
Infrastructure	670	70	-	740
Total capital assets being depreciated	<u>1,719</u>	<u>98</u>	<u>(1)</u>	<u>1,816</u>
Less accumulated depreciation for:				
Buildings	(227)	(29)	-	(256)
Equipment	(47)	(5)	1	(51)
Infrastructure	(308)	(25)	-	(333)
Total accumulated depreciation	<u>(582)</u>	<u>(59)</u>	<u>1</u>	<u>(640)</u>
Total capital assets being depreciated, net	<u>1,137</u>	<u>39</u>	<u>-</u>	<u>1,176</u>
Capital assets, net	<u>\$ 1,244</u>	<u>\$ 125</u>	<u>\$ (103)</u>	<u>\$ 1,266</u>

The following relates to the land owned by the State:

The total state entitlement amounts to approximately 105.7 million acres, 102.5 million of which was received through the Statehood Act. In accordance with the Alaska Statehood Act section 6(g), Alaska Native Claims Settlement Act, and the Alaska National Interest Lands Conservation Act, section 906(c), 100.3 million acres have been patented or “tentatively approved.”

The State disposes of various land parcels through several programs. However, the State generally retains the subsurface rights of the land upon disposal.

Depreciation expense was charged to the functions of the primary government as follows (in millions):

	<u>Amount</u>
Governmental Activities	
General Government	\$ 3
Education	9
Health and Human Services	5
Law and Justice	3
Natural Resources	3
Public Protection	7
Transportation	302
Depreciation on capital assets held by the state's internal service funds is charged to the various functions based on their use of the assets.	<u>25</u>
 Total Depreciation Expense – Governmental Activities	 <u><u>\$ 357</u></u>
 Business-type Activities	
Enterprise	<u><u>\$ 59</u></u>

DISCRETELY PRESENTED COMPONENT UNITS

The estimated useful lives of capital assets range from 4 to 50 years. The following table summarizes net capital assets reported by the discretely presented component units at June 30, 2011 (in millions):

	Beginning Balance (restated)	Additions	Deletions	Ending Balance
Capital assets not being depreciated:				
Intangible - Easements and Right-of-Way	\$ 8	\$ 1	\$ (1)	\$ 8
Land	73	13	-	86

Infrastructure	(466)	(49)	1	(514)
Total accumulated depreciation/depletion	<u>(1,468)</u>	<u>(136)</u>	<u>11</u>	<u>(1,593)</u>
Total capital assets being depreciated/depletion, net	<u>1,831</u>	<u>76</u>	<u>(2)</u>	<u>1,905</u>
Capital assets, net	<u>\$ 2,133</u>	<u>\$ 321</u>	<u>\$ (196)</u>	<u>\$ 2,258</u>

University of Alaska art, library, and museum collections, which are capitalized but not depreciated, are reported in the statement of net assets as equipment. These assets are held for public exhibition, education, or research rather than financial gain, and are protected, kept unencumbered, cared for, and preserved. Proceeds from the sale of collection items are used to acquire other items for collections.

Two component units have restated beginning balances for capital assets displayed in the table above. The Alaska Natural Gas Development Authority identified additional capitalization from prior years which resulted in an adjustment to the FY 11 beginning balance for intangibles – easements and right-of-way. See Note 3 for further information on this restatement. The Alaska Industrial Development and Export Authority capital asset beginning balances are restated above in order to include development projects, which were not previously reported within this note.

NOTE 6 – SHORT-TERM DEBT, BONDS PAYABLE AND OTHER LONG-TERM OBLIGATIONS

A. SUMMARY OF CHANGES

SHORT-TERM DEBT

Two enterprise funds, the Alaska Clean Water Fund and the Alaska Drinking Water Fund issued bond anticipation notes during FY 11 totaling \$2,439 thousand and \$2,714 thousand respectively. The proceeds were used to fund the State share of loan distributions and administration costs. In accordance with the Environmental Protection Agency regulations, interest and investment earnings were used to retire the bond anticipation notes. No balance was outstanding at year end.

Short-term debt activity for the primary government for the fiscal year ended June 30, 2011 is as follows (in thousands):

	Beginning Balance	Increases	Decreases	Ending Balance
Bond Anticipation Notes	\$ -	\$ 5,153	\$ 5,153	\$ -

LONG-TERM LIABILITIES

The following table summarizes changes in long-term liabilities for the fiscal year ended June 30, 2011 (in thousands):

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Revenue bonds payable	\$ 425,753	\$ 965	\$ 4,182	\$ 422,536	\$ 2,699
General obligation debt	489,517	201,837	35,721	655,633	55,301
Capital leases payable	410,085	8,212	25,661	392,636	21,305
Unearned & deferred revenue	302,187	44,292	1,993	344,486	37,826
Certificates of participation	45,605	-	6,005	39,600	6,215
Compensated absences	154,051	150,716	143,569	161,198	132,764
Claims and judgments	75,087	599	896	74,790	33,698
Pollution Remediation	53,316	44,319	23,603	74,032	8,771
Other noncurrent liabilities	1,304	104	325	1,083	726
Net pension obligation	751	1,431	-	2,182	-
Total	\$ 1,957,656	\$ 452,475	\$ 241,955	\$ 2,168,176	\$ 299,305

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for internal service funds are included as part of the above totals for governmental activities.

The General Fund and special revenue funds in which the leases are recorded typically liquidate the capital lease obligations. The compensated absence obligations are typically liquidated by the funds incurring the related salaries and wages. Claims and judgments attributable to governmental activities will generally be liquidated by the General Fund, except for the payments by Capital Project Funds for the rebate of arbitrage. Certain claims and judgment liquidations will receive proportional federal reimbursement. Other non-current liabilities due within one year will be liquidated by the General Fund and those due after one year will be liquidated by the Reclamation Bonding Pool, a special revenue fund.

The Internal Revenue Code and arbitrage regulations issued by the Internal Revenue Service require rebate to the federal government of excess investment earnings on bond proceeds if the yield on those earnings exceeds the effective yield on the related tax-exempt bonds issued. Arbitrage rebates payable are reported under claims and judgments.

Business-type Activities				Ending Balance	Amounts
	Beginning Balance	Increases	Decreases		Due Within One Year
Revenue bonds payable	\$ 562,006	\$ 171,060	\$ 139,469	\$ 593,597	\$ 13,150
Unearned & deferred revenue	4,175	74	-	4,249	4,249
Compensated absences	4,353	3,833	3,687	4,499	3,392
Claims and judgements	910	-	650	260	260
Pollution Remediation	1,429	-	116	1,313	125
Other noncurrent liabilities	155	172	-	327	-
Total	\$ 573,028	\$ 175,139	\$ 143,922	\$ 604,245	\$ 21,176

B. GENERAL OBLIGATION BONDS AND REVENUE BONDS

GENERAL OBLIGATION BONDS

Under Article IX, Section 8 of the State Constitution and AS 37.15, the State Bonding Act, general obligation bonds must be authorized by law and ratified by voters and generally must be issued for capital improvements. There is no statutory limit on the amount of State general obligation bonds that may be authorized.

The full faith, credit, and resources of the state are pledged to secure payment of general obligation bonds. As of June 30, 2011, the following were the general obligation bond debt outstanding (in millions):

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	\$ 52.1	\$ 32.1	\$ 84.2
2013	55.2	28.0	83.2
2014	38.1	25.8	63.9
2015	27.1	24.3	51.4
2016	28.2	23.0	51.2
2017-2021	137.2	94.3	231.5
2022-2026	95.8	66.6	162.4
2027-2031	143.6	37.5	181.1
2032-3036	66.5	5.8	72.3
Total debt service requirements	643.8	\$ 337.4	\$ 981.2
Unamortized bond premium	11.8		
Total principal outstanding	\$ 655.6		

The General Obligation Bonds Series 2003A were issued for the purpose of paying \$235,215,500 of the cost of design, construction and major maintenance of educational and museum facilities and for the purpose of paying \$123,914,500 of the costs of State transportation projects. The Series 2003B Bonds were issued for the purpose of paying \$102,805,000 of the costs of State transportation projects. The Series 2009A Bonds were issued for the purpose of paying \$165,000,000 of the costs of State transportation projects. The Series 2010 A, B, and C Bonds were issued for the purpose of paying \$200,000,000 of the costs of State education projects.

REVENUE BONDS

As of June 30, 2011, the following were the revenue bonds outstanding (in millions):

Year Ending June 30	Governmental Activities		Business-Type Activities	
	Principal	Interest	Principal	Interest
2012	\$ 2.7	\$ 20.2	\$ 13.2	\$ 28.0
2013	9.8	20.1	13.7	27.5
2014	12.6	19.7	14.3	26.9
2015	13.4	19.2	20.6	26.1
2016	14.2	18.5	21.7	25.1
2017-2021	44.9	84.9	141.5	106.6
2022-2026	53.7	73.9	187.9	65.3
2027-2031	41.2	62.0	135.1	20.7
2032-2036	54.2	50.4	32.1	5.0
2037-2041	71.2	35.3	-	-
2042-2046	108.8	140.3	-	-
Total debt service requirements	426.7	\$ 544.5	580.1	\$ 331.2
Unamortized bond (discounts)/premiums	(8.3)		13.5	
Plus accreted value	4.2		-	
Total principal outstanding	\$ 422.6		\$ 593.6	

There are two types of revenue bonds within governmental activities reported above, the Northern Tobacco Securitization Corporation revenue bonds and the State of Alaska Sport Fishing Revenue bonds. This debt is reported in the Governmental Activities column of the Government-wide Statement of Net Assets.

Northern Tobacco Securitization Corporation Revenue Bonds

The Northern Tobacco Securitization Corporation (NTSC) bonds were issued to purchase the right to a share of Tobacco Settlement Revenues (TSRs) received by the State of Alaska. These revenue bonds are secured by and payable solely from the TSRs and investment earnings pledged under the respective bond indentures and amounts established and held in accordance with those bonds indentures. Neither Alaska Housing Finance Corporation nor the State of Alaska is liable for any debt issued by NTSC. NTSC revenue bond total at June 30, 2011 includes \$374.9 million in principal, \$522.2 million in interest, \$8.4 million in unamortized discount, and \$4.2 million in accreted value on the Series 2006B and Series 2006C Bonds.

Alaska Sport Fishing Revenue Bonds

The State of Alaska Sport Fishing (SF) Revenue Bonds Series 2006 were issued under Article 5A of Chapter 15 of Title 37 of the Alaska Statutes. The bonds were issued to provide a portion of the funds necessary to finance the construction and renovation of fisheries rehabilitation, enhancement and development projects that benefit sport fishing. These revenue bonds are special, limited obligations of the State secured by and payable from the sport fishing facilities surcharge imposed under AS 16.05.340 and from funds received from the federal government which by their terms are not restricted in use and legally available for the payment for debt service on Parity Bonds. The bonds are not general obligations of the State, and the State does not pledge its full faith and credit to the payment of the bonds. Sport Fishing revenue bond total at year end includes \$51.8 million in principal, \$22.3 million in interest, and \$.1 million in unamortized premium.

International Airports Revenue Bonds

The business activities revenue bonds include bond issuances by the International Airports Fund (IAF). Gross revenues derived from the operation of the international airports at Anchorage and Fairbanks are pledged to secure the payment of principal and interest on International Airports revenue bonds. There are \$23.2 million of bonds authorized by the Alaska Legislature that have not been issued. This debt is reported in the Business-type Activities column of the Government-wide Statement of Net Assets. During FY 11, \$145.1 million in International Airports Revenue Bonds were refunded. Total bond

interest arbitrage rebate liability was \$327.9 thousand at June 30, 2011. Federal subsidies related to the interest payments made during the year on Build American Bonds were \$217 thousand.

C. CAPITAL AND OPERATING LEASES

A summary of noncancelable operating and capital lease commitments to maturity are (in millions):

<u>Governmental Activities</u> Year Ending June 30	Operating Leases	Capital Leases		
		Principal	Interest	Total
2012	\$ 35.8	\$ 21.3	\$ 20.4	\$ 41.7
2013	26.6	21.4	19.4	40.8
2014	21.5	21.8	18.4	40.2
2015	14.3	22.1	17.3	39.4
2016	10.8	21.9	16.3	38.2
2017-2021	22.0	102.4	64.6	167.0
2022-2026	3.3	72.5	41.8	114.3
2027-2031	1.6	74.4	21.3	95.7
2032-2036	1.0	33.6	2.3	35.9
2037-2041	0.2	-	0.3	0.3
2042-2046	0.2	-	0.3	0.3
2047-2051	0.2	-	0.3	0.3
2052-2056	0.2	0.1	0.2	0.3
2057-2061	1.8	1.1	1.5	2.6
Total	<u>\$ 139.5</u>	<u>\$ 392.6</u>	<u>\$ 224.4</u>	<u>\$ 617.0</u>

Leases at June 30, 2011 are reported by the State of Alaska within Governmental Activities and Business-Type Activities, as applicable.

The State leases office facilities, office and computer equipment, and other assets under a variety of agreements. Although lease terms vary, most leases are subject to appropriation from the State Legislature to continue the obligation. If the possibility of receiving no funding from the Legislature is remote, leases are considered noncancelable for financial reporting purposes. Leases that represent acquisitions are classified as capital leases, and the related assets and liabilities are recorded in the financial records at the inception of the lease. Other leases are classified as operating leases with the lease payments recorded as expenditures or expenses during the life of the lease. Certain operating leases are renewable for specified periods. In most cases, management expects that the leases will be renewed or replaced by other leases.

Buildings and equipment under capital leases as of June 30, 2011 include the following (in thousands):

	<u>Governmental</u> <u>Activities</u>	<u>Business-Type</u> <u>Activities</u>
Buildings	\$ 408,401	\$ -
Equipment	9,895	-
Less: Accumulated Depreciation	(25,660)	-
	<u>\$ 392,636</u>	<u>\$ -</u>

D. CERTIFICATES OF PARTICIPATION

The State has lease purchase agreements funded through certificates of participation (COPs). These leases are for the purchase of buildings. Third-party leasing companies assigned their interest in the lease to underwriters, which issued certificates for the funding of these obligations. The COPs represent an ownership interest of the certificate holder in a lease purchase agreement. While the State is liable for lease payments to the underwriters, the State is not liable for payments to holders of the certificates.

The following schedule presents future minimum payments as of June 30, 2011 (in millions):

<u>Governmental Activities</u> Year Ending June 30	<u>Certificates of Participation</u>		
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	\$ 6.2	\$ 1.7	\$ 7.9
2013	6.5	1.5	8.0
2014	3.9	1.1	5.0
2015	4.1	1.0	5.1
2016	4.3	0.8	5.1
2017-2021	14.6	1.6	16.2
Total	<u>\$ 39.6</u>	<u>\$ 7.7</u>	<u>\$ 47.3</u>

E. DISCRETELY PRESENTED COMPONENT UNITS

Debt service requirements are (in millions):

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	\$ 322.0	\$ 184.8	\$ 506.8
2013	196.0	176.7	372.7
2014	268.3	168.2	436.5
2015	157.3	160.3	317.6
2016	161.9	153.5	315.4
2017-2021	803.2	658.5	1,461.7
2022-2026	685.8	482.0	1,167.8
2027-2031	697.9	317.8	1,015.7
2032-2036	553.1	169.3	722.4
2037-2041	526.6	44.9	571.5
2042-2046	84.0	1.4	85.4
Total debt service requirements	4,456.1	<u>\$ 2,517.4</u>	<u>\$ 6,973.5</u>
Unamortized (discounts)/premiums	23.5		
Unamortized swap termination penalty	(19.8)		
Deferred amount on refunding	(21.0)		
Total principal outstanding	<u>\$ 4,438.8</u>		

The preceding table does not include \$494 thousand of Alaska Energy Authority arbitrage interest payable.

F. ALASKA HOUSING FINANCE CORPORATION DERIVATIVES

The Alaska Housing Finance Corporations (AHFC) entered into derivatives to reduce the overall cost of borrowing long-term capital and protect against the risk of rising interest rates. AHFC's derivatives consist of interest rate swap agreements entered into in connection with its long-term variable bonds. The interest rate swaps are pay-fixed, receive-variable agreements, and were entered into at a cost less than what AHFC would have paid to issue conventional fixed-rate debt.

The swaps are recorded and disclosed as either hedging derivatives or investment derivatives. The synthetic instrument method was used to determine whether the derivative was hedgeable or not. The fair values of the hedgeable derivatives and investment derivatives are presented in the Statement of Net Assets, either as a derivative liability (negative fair value amount) or as a derivative asset (positive fair value amount). If a swap changes from a hedgeable derivative to an investment derivative, the hedge is considered terminated and the accumulated change in fair value is no longer deferred but recognized as a revenue item.

The fair value amounts, obtained from mark to market statements from the respective counterparties and reconciled to present value calculations done by AHFC, represent mid-market valuations that approximate the current economic value using market averages, reference rates, and/or mathematical models. Actual trade prices may vary significantly from these estimates as a result of various factors, which may include (but are not limited to) portfolio composition, current trading

intentions, prevailing credit spreads, market liquidity, hedging costs and risk, position size, transaction and financing costs, and use of capital profit. The fair value represents the current price to settle swap asset or liabilities in the marketplace if a swap were to be terminated.

AHFC's interest rate swaps require that if the ratings on the associated bonds fall to BBB+/Baa1, AHFC would have to post collateral of up to 100 percent of the swap's fair value. As of June 30, 2011, AHFC has not posted any collateral and is not required to post any collateral.

HEDGING DERIVATIVES

The significant terms and credit ratings of AHFC's hedging derivatives as of June 30, 2011, are shown below:

Related Bond Issue	Effective Dates	Fixed Rate Paid	Variable Rate Received	SWAP Termination Date	Counterparty Credit Rating ⁷

2032-3036	171,565	5,708	45,682	222,955
2037-2041	152,510	351	15,803	168,664
2042	8,240	3	147	8,390
	<u>\$ 841,250</u>	<u>\$ 85,049</u>	<u>\$ 509,116</u>	<u>\$ 1,435,415</u>

Interest Rate Risk

AHFC is exposed to interest rate risk on all of its interest rate swaps. As LIBOR or the SIFMA index decreases, AHFC's net payment on the swaps increases.

Credit Risk

As of June 30, 2011, AHFC is not exposed to credit risk on any swaps because the swaps all have negative fair values. If interest rates rise and the fair values of swaps become positive, AHFC would be exposed to credit risk in the amount of the swaps' fair value. The swap agreements contain varying collateral agreements with the counterparties and require full collateralization of the fair value amount of the swap should the counterparty's rating fall to BBB+/Baa1. AHFC currently has swap agreements with five separate counterparties. Approximately 31 percent of the total notional amount of the swaps

is held with one counterparty rated AAA/Aa1. Another 30 percent of the total notional amount of the swaps is held with one counterparty rated AA-/Aa1. Of the remaining swaps, one counterparty is rated A/A2, another counterparty is rated A+/A1, and the remaining counterparty is rated A+/Aa3, approximating 23 percent, 9 percent, and 7 percent respectively, of the total notional amount of the swaps.

Basis Risk

All of AHFC’s variable-rate bond interest payments are based on the tax exempt SIFMA index. Therefore, AHFC is exposed to basis risk on swaps where the variable payment received on the swaps is based on a taxable LIBOR index and does not fully offset the variable rate paid on the bonds, which is based on the SIFMA index. The SC02C swap is based on the SIFMA index and thus is not exposed to any basis risk. As of June 30, 2011, SIFMA was 0.09 percent and 1 month LIBOR was 0.1856 percent, resulting in a SIFMA/LIBOR ratio of 48.5 percent. The 3 month LIBOR was 0.2458 percent resulting in a SIFMA/LIBOR ratio of 36.6 percent. The SIFMA/LIBOR ratios have fluctuated since the agreements became effective but the anticipated cost savings from the swaps increases as the ratios decrease.

Termination Risk

Termination risk is the risk of an unscheduled termination of a swap prior to its planned maturity. If any of the swaps are terminated, the associated floating rate bonds would no longer carry synthetic fixed interest rates and, AHFC would be exposed to interest rate risk on the bond. This risk is mitigated by the fact that the termination payment could be used to enter into an identical swap at the termination date of the existing swap. Further, if any of the swaps have a negative fair value at termination, AHFC would be liable to the counterparty for payments equal to the swaps’ fair value. AHFC or the counterparty may terminate any of the swaps if the other party fails to perform under the terms of the agreement, including downgrades and events of default.

In fiscal year 2009, three swaps were terminated because of bankruptcy events with the counterparties, resulting in AHFC making termination payments totaling \$22,181 thousand to the counterparties. AHFC replaced the swaps with new swaps with new swaps that had provisions that resulted in a lower cost overall on the underlying debt. The termination payments were deferred and are being amortized to interest expense over the life of the bonds related to those terminated swaps.

Rollover Risk

Rollover risk occurs when there is a mismatch in the amortization of the swap versus the amortization of the floating rate bonds. AHFC has structured the swaps to amortize at the same rate as scheduled or anticipated reductions in the associated floating rate bonds outstanding. The E021A swaps were set up in several tranches of various sizes that can be cancelled to parallel the redemption of debt from mortgage prepayments. In addition, the GP01A and GP01B swaps cover only a portion of the total debt issuance, allowing any increase in the speed of mortgage prepayments to be directed to the unswapped portion of the debt.

INVESTMENT DERIVATIVES

The State Capital Project Bonds, 2002 Series B, were fully redeemed in fiscal year 2009, so the associated interest rate swap was no longer a hedging derivative and is accounted for as an investment derivative.

The significant terms and credit ratings of AHFC’s investment derivatives as of June 30, 2011, are shown below:

Related Bond Issue	Effective Dates	Fixed Rate Paid	Variable Rate Received	SWAP Termination Date	Counterparty Credit Rating
SC02B	12/5/2002	3.77%	70% of 1M LIBOR	7/1/2024	AA-/Aa1

The change in fair value of the investment derivatives as of June 30, 2011, is shown below (in thousands) and is presented as a net change of hedge termination line in the Statement of Revenues, Expenses, and Changes in Net Assets.

Related Bond Issue	Notional Amounts	Present Values	Fair Values June 30, 2011	Fair Values June 30, 2010	Change in Fair Values
SC02B	\$ 14,555	\$ 16,513	\$ (1,958)	\$ (2,368)	\$ 410

Credit Risk

As of June 30, 2011, AHFC is not exposed to credit risk on this outstanding swap because the swap has a negative fair value. If interest rates rise and the fair values of the swap becomes positive, AHFC would be exposed to credit risk in the amount of the swaps' fair value. The swap agreements requires the counterparty to fully collateralize the fair value amount of the swap should the counterparty's rating fall to BBB+/Baa1. The counterparty on this swap is rated AA-/Aa1.

NOTE 7 – DEFINED BENEFIT PENSION PLANS

A. STATE ADMINISTERED PLANS

DESCRIPTION OF PLANS

The Public Employees' Retirement System – Defined Benefit (PERS-DB)

PERS-DB is a defined benefit, cost-sharing, multiple-employer public employee retirement plan established and administered by the State to provide pension and postemployment healthcare benefits for eligible State and local government employees. Benefit and contribution provisions are established by Chapter 35 of Alaska Statute Title 39, and may be amended only by the state legislature. PERS-DB provides for normal pension benefits and postemployment healthcare benefits. The 24th Alaska State Legislature enacted into law Senate Bill 141, which closed the PERS-DB to new members effective July 1, 2006 and created a Public Employees' Retirement System Defined Contribution Retirement Plan (PERS-DCR). Information regarding PERS-DCR is disclosed in Note 8.

Prior to July 1, 2008, PERS was a defined benefit, agent, multiple-employer public employee retirement plan. The Alaska Legislature passed Senate Bill 125, which was signed by the Governor on April 2, 2008. This law converted the PERS to a cost-sharing plan under which the unfunded liability will be shared among all employers. This legislation also established a uniform contribution rate of 22 percent of participating employees' covered payroll.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the Retiree Health Fund (RHF), a pension trust fund of the State, was established. The RHF is self-funded and originally provided major medical, dental, vision, audio, and long-term care coverage to retirees of the PERS-DB, TRS-DB, JRS and EPORS Plans. Due to the establishment of the Alaska Retiree Healthcare Trust (ARHCT) effective July 1, 2007, the RHF now provides major medical coverage to those retirees not eligible to participate in the ARHCT, along with optional dental, vision, audio, and long-term care coverage to all retirees in these plans. The plan retains the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

The PERS-DB Plan is a plan within the Public Employees' Retirement System (PERS). PERS is a component unit of the State of Alaska financial reporting entity. PERS includes the PERS-DB and Alaska Retiree Healthcare Trust Fund. Senate Bill 123 was passed during the 2007 legislative session and created the ARHCT. ARHCT is self-funded and provides major medical coverage to retirees of PERS. PERS retains the risk of loss of allowable claims for eligible members. ARHCT began paying member healthcare claims on March 1, 2008. Prior to that time, healthcare claims were paid for by the RHF.

The PERS component unit is comprised of the PERS-DB, PERS-DCR Plans, and the ARHCT. PERS issues a separate stand-alone financial report that includes financial statements and required supplementary information. PERS is also reported as a pension (and other employee benefit) trust fund by the State. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

At June 30, 2011 the number of PERS participating employers was:

State of Alaska	3
Municipalities	77
School Districts	53
Other	27
Total Employers	<u>160</u>

PERS-DB employee contribution rates are 6.75 percent of compensation (7.5 percent for peace officers and firefighters and 9.6 percent for some school district employees). The employee contributions are deducted before federal income tax is withheld.

The PERS-DB funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, are sufficient to accumulate assets to pay both pension and postemployment healthcare benefits when due. Employer contributions are accumulated in both the pension and the healthcare funds based on the approved contribution rate for the fiscal year. The employer rate for the State of Alaska for the year ended June 30, 2011 was capped at 22 percent of compensation.

The state's contributions to PERS-DB for the fiscal years ended June 30, 2011, 2010 and 2009 were \$237.7, \$233.1, and \$224.6 million respectively for the year. For the FY 11 contributions, \$82.5 million was for pensions and \$155.2 million was for postemployment benefits. The contributions were equal to the required contributions in FY 11.

Alaska Statute 39.35.280 requires that additional state contributions are required each July 1 or as soon after July 1 as funds become available for the ensuing fiscal year that when combined with the total employer contributions is sufficient to pay the PERS-DB past service liability at the contribution rate adopted by the Alaska Retirement Management Board (ARMB) for that fiscal year.

Chapter 41 SLA 2010 appropriated \$165.8 million from the General Fund to the PERS-DB as an additional state contribution for FY 11. The portion of this payment attributable to State of Alaska employers is \$97,412 thousand, of which \$38,289 thousand is for pensions and \$59,123 thousand is for postemployment benefits.

Postemployment healthcare benefits are provided to retirees without cost for all employees first hired before July 1, 1986, and employees who are disabled or age 60 or older, regardless of initial hire dates. Employees first hired on or after July 1, 1986, with five years of credited service (or ten years of credited service for those first hired after July 1, 1996) may pay the full monthly premium if they are under age 60, and receive benefits at no premium cost if they are over age 60 or are receiving disability benefits. Police and fire employees with 25 years of membership and all other employees with 30 years of membership service also receive benefits at no premium cost.

The Teachers' Retirement System – Defined Benefit (TRS-DB)

TRS-DB is a defined benefit, cost-sharing, multiple-employer public employee retirement plan established and administered by the State to provide pension and postemployment healthcare benefits for teachers and other eligible participants. Benefit and contribution provisions are established by Chapter 25 of Alaska Statute Title 14 and may be amended only by the state legislature. TRS-DB provides for normal pension benefits, as well as death, disability, and postemployment healthcare benefits. The 24th Alaska State Legislature enacted into law Senate Bill 141, which closed the TRS-DB to new members effective July 1, 2006 and created a Teachers' Retirement System Defined Contribution Retirement Plan (TRS-DCR). Information regarding TRS-DCR is disclosed in Note 8.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the Retiree Health Fund (RHF), a pension trust fund of the State, was established. The RHF is self-funded and originally provided major medical, dental, vision, audio, and long-term care coverage to retirees of the PERS-DB, TRS-DB, JRS and EPORS Plans. Due to the establishment of the Alaska Retiree Health Care Trust effective July 1, 2007, the RHF now provides major medical coverage to those retirees not eligible to participate in the ARHCT, along with optional dental, vision, audio, and long-term care coverage to all retirees in these plans. The plan retains the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

The TRS-DB Plan is a plan within the Teachers' Retirement System (TRS). TRS is a component unit of the State of Alaska financial reporting entity. TRS includes the TRS-DB and Alaska Retiree Healthcare Trust Fund. Senate Bill 123 was passed during the 2007 legislative session and created the Alaska Retiree Healthcare Trust (ARHCT). ARHCT is self-funded and provides major medical coverage to retirees of TRS. TRS retains the risk of loss of allowable claims for eligible members. ARHCT began paying member healthcare claims on March 1, 2008. Prior to that time, healthcare claims were paid for by the RHF.

The TRS component unit is comprised of the TRS-DB, TRS-DCR Plans, and ARHCT. TRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. TRS is also reported as a pension (and other employee benefit) trust fund by the State. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

At June 30, 2011 the number of participating employers was:

State of Alaska	2
School Districts	53
Other	3
Total Employers	<u>58</u>

TRS-DB Plan members contribute 8.65 percent of their base salary, as required by statute. The employee contributions are deducted before federal income tax is withheld. Eligible employees contribute an additional one percent of their salary under the supplemental contribution provision.

The TRS funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as a percent of annual-covered payroll, are sufficient to accumulate assets to pay benefits when due. The employer rate for the State of Alaska for the year ended June 30, 2011 was 12.56 percent of compensation. Employer contributions are accumulated in both the pension and healthcare funds based on the approved contribution rate for the fiscal year.

The state's contributions to TRS-DB for the fiscal years ended June 30, 2011, 2010, and 2009 were \$6.0, \$6.1, and \$6.3, million respectively, equal to the required contributions for each year. For the FY 11 contributions, \$2.6 million was for pensions and \$3.4 million was for postemployment benefits. The contributions were equal to the required contributions in FY 11.

Alaska Statute 14.25.085 requires that additional state contributions are required each July 1 or as soon after July 1 as funds become available for the ensuing fiscal year that when combined with the total employer contributions is sufficient to pay the TRS-DB past service liability at the contribution rate adopted by the Alaska Retirement Management Board (ARMB) for that fiscal year.

Chapter 41 SLA 2010 appropriated \$190.9 million from the General Fund to the TRS-DB as an additional state contribution for FY 11. The portion of this payment attributable to State of Alaska employers is \$12,754 thousand, of which \$7,306 thousand is for pensions and \$5,448 thousand is for postemployment benefits.

Postemployment healthcare benefits are provided without cost to all employees first hired before July 1, 1990, employees hired after July 1, 1990 with 25 years of membership service, and employees who are disabled or age 60 or older, regardless of initial hire dates. Employees first hired after June 30, 1990, may receive postemployment healthcare benefits prior to age 60 by paying premiums.

The Judicial Retirement System (JRS)

JRS is a defined benefit, single-employer retirement system established and administered by the State to provide pension and postemployment healthcare benefits for eligible state judges and justices.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the Retiree Health Fund (RHF), a pension trust fund of the State, was established. The RHF is self-funded and originally provided major medical, dental, vision, audio, and long-term care coverage to retirees of the PERS-DB, TRS-DB, JRS and EPORS Plans. Due to the establishment of the Alaska Retiree Health Care Trust effective

July 1, 2007, the RHF now provides major medical coverage to those retirees not eligible to participate in the ARHCT, along with optional dental, vision, audio, and long-term care coverage to all retirees in these plans. The plan retains the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Senate Bill 123 was passed during the 2007 legislative session and which created the Alaska Retiree Healthcare Trust (ARHCT) beginning July 1, 2007. The ARHCT is self-funded and provides major medical coverage to retirees of the JRS. JRS retains the risk of loss of allowable claims for eligible members. ARHCT began paying member healthcare claims on March 1, 2008. Prior to that time, healthcare claims were paid for by the RHF.

JRS is considered a component unit of the State of Alaska financial reporting entity. JRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. JRS is also reported as a pension (and other employee benefit) trust fund by the State. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Benefit and contribution provisions are established by Chapter 25 of Alaska Statute Title 22 and may be amended only by the state legislature. JRS provides for normal pension benefits, as well as death, disability, and postemployment healthcare benefits.

Members contribute seven percent of their compensation to JRS. The contributions are deducted before federal income tax is withheld. Contributions are not required after members have made contributions for 15 years, or from members first appointed before July 1, 1978.

The JRS funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, are sufficient to accumulate assets to pay benefits when due. The employer rate for the State of Alaska for the year ended June 30, 2011, was 36.2 percent of compensation. Total contributions for FY 11 were \$4.5 million for pensions, and \$.7 million for postemployment benefits.

Included in these amounts is \$789 thousand appropriated in Chapter 41 SLA 2010 from the General Fund to JRS as an additional state contribution for FY 11.

The Schedule of Funding Progress for pension benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Funding Excess (FE)/(Unfunded Actuarial Accrued Liabilities) (UAAL)	Funded Ratio	Covered Payroll	FE/(UAAL) as a Percentage of Covered Payroll
2006	\$ 77,311	\$ 111,820	\$ (34,509)	69.1%	\$ 7,131	(484.0%)
2008	122,883	130,596	(7,713)	94.1%	10,462	(73.7%)
2010	115,000	164,524	(49,524)	69.9%	11,846	(418.1%)

Postemployment healthcare benefits are provided without cost to retired JRS members. The Schedule of Funding Progress for postemployment healthcare benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Funding Excess (FE)/(Unfunded Actuarial Accrued Liabilities) (UAAL)	Funded Ratio	Covered Payroll	FE/(UAAL) as a Percentage of Covered Payroll
2006	\$ 2,399	\$ 17,794	\$ (15,395)	13.5%	\$ 7,131	(215.9%)
2008	18,353	19,941	(1,588)	92.0%	10,462	(15.2%)
2010	19,694	22,346	(2,652)	88.1%	11,846	(22.4%)

The actuarial valuation as of June 30, 2010 set the contribution rates for the year ended June 30, 2011. The State of Alaska's net pension obligation for FY 11 follows (in thousands):

	<u>Pension</u>	<u>OPEB</u>
Annual Required Contribution	\$ 5,237	\$ 1,433
Interest on net pension asset	62	(7)
Adjustment to annual required contribution	<u>(53)</u>	<u>6</u>
Annual Pension Cost (APC)/OPEB Cost (AOC)	5,246	1,432
Contributions Made	<u>(4,456)</u>	<u>(708)</u>
Increase in Obligation	790	724
Net Pension Obligation/(Asset) Beginning of Year	<u>751</u>	<u>(82)</u>
Net Pension Obligation/(Asset) End of the Year	<u>\$ 1,541</u>	<u>\$ 642</u>

Three year trend information for these obligations follows (in thousands):

Pension	<u>Year Ended June 30</u>	<u>APC</u>	Percentage	Net
			of APC Contributed	Pension Obligation /(Asset)
	2009	\$ 4,952	95.5%	\$ (772)
	2010	5,248	71.0%	751
	2011	5,246	85.0%	1,541

OPEB	<u>Year Ended June 30</u>	<u>AOC</u>	Percentage	Net OPEB
			of AOC Contributed	Obligation /(Asset)
	2009	\$ 1,422	99.2%	\$ (725)
	2010	1,443	55.4%	(82)
	2011	1,432	49.4%	642

The Alaska National Guard and Alaska Naval Militia Retirement System (NGNMRS)

NGNMRS is a defined benefit, single-employer retirement system established and administered by the State to provide pension benefits for eligible members of the Alaska National Guard and Alaska Naval Militia.

NGNMRS is considered a component unit of the State of Alaska financial reporting entity. NGNMRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. The plan is also reported as a pension (and other employee benefit) trust fund by the State. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Benefit and contribution provisions are established by Chapter 5 of Alaska Statute Title 26 and may be amended only by the state legislature. NGNMRS provides for normal pension benefits and death benefits. Postemployment healthcare benefits are not provided.

No contributions are required from plan members. NGNMRS's funding policy provides for periodic contributions by Alaska Department of Military and Veterans' Affairs at actuarially determined amounts that are sufficient to accumulate assets to pay benefits when due. State contributions are determined using the entry age normal actuarial funding method.

Chapter 41 SLA 2010 appropriated \$84 thousand from the General Fund to the NGNMRS's as an additional state contribution for FY 11.

The Schedule of Funding Progress for pension benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded Actuarial Accrued Liabilities (UAAL)	Funded Ratio
2006	\$ 15,588	\$ 25,458	\$ (9,870)	61.2%
2008	28,371	28,905	(534)	98.2%
2010	32,001	30,034	(1,966)	106.5%

The actuarial valuation as of June 30, 2010 set the contribution rates for the year ended June 30, 2011. The State of Alaska's net pension obligation for FY 11 follows:

Annual Required Contribution	\$ 2,415,077
Interest on net pension asset	(15,669)
Adjustment to annual required contribution	29,944
Annual Pension Cost (APC)	2,429,352
Contributions Made	(2,603,300)
Decrease in Net Pension Asset	(173,948)
Net Pension Obligation/(Asset) Beginning of Year	(189,923)
Net Pension Obligation/(Asset) End of the Year	\$ (363,871)

Three year trend information for pension obligations follows (in thousands):

Year Ended June 30	APC	Percentage of APC Contributed	Net Pension Obligation /(Asset)
2009	\$ 2,473	100.0%	(2)
2010	2,415	107.8%	(190)
2011	2,415	107.2%	(364)

The Elected Public Officers Retirement System (EPORS)

EPORS is a defined benefit single-employer retirement plan administered by the State to provide pension and post-employment healthcare benefits to the governor, the lieutenant governor, and all legislators that participated in the System between January 1, 1976, and October 14, 1976. EPORS is funded by both employee contributions and an annual appropriation from the state General Fund. Retirement benefits are based on the member's years of service and the current salary for the position from which they retired or an average of the three highest consecutive years' salaries. The pension benefit is equal to five percent for each year of service as governor, lieutenant governor, or a legislator, plus two percent for other covered service, not to exceed 75 percent (AS 39.37.050). The plan also provides death and disability benefits.

Plan members contribute seven percent of their compensation to EPORS. Employee contributions earn interest at 4.5 percent per annum, compounded semiannually. The remaining amount required to pay EPORS benefits is funded by legislative appropriation. The cost to the State for EPORS for the fiscal years ended June 30, 2011, 2010, and 2009 was \$2.0 million, \$2.1 million, and \$1.8 million. In FY 11 there was no covered payroll. EPORS is a closed plan and no separate financial statement is issued for EPORS. However, an actuarial valuation on EPORS was performed as of June 30, 2010.

The Schedule of Funding Progress for pension benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded Actuarial Accrued Liabilities (UAAL)	Funded Ratio
2006	\$0	\$16,265	\$(16,265)	0.0%
2008	0	22,194	(22,194)	0.0%
2010	0	19,551	(19,551)	0.0%

The Schedule of Funding Progress for postemployment healthcare benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded Actuarial Accrued Liabilities (UAAL)	Funded Ratio
2006	\$0	\$2,983	\$(2,983)	0.0%
2008	0	5,168	(5,168)	0.0%
2010	0	4,707	(4,707)	0.0%

Plan benefits for EPORS are not prefunded, but are paid when due. Enough money has been appropriated each year to pay the benefits as they come due; therefore, there is no net pension obligation at the end of the year.

Three year trend information for these obligations follows (in thousands):

Pension	Year Ended June 30	APC	Percentage	Net
			of APC Contributed	Pension Obligation /(Asset)
	2009	\$ 1,408	100.0%	\$ -
	2010	1,617	100.0%	-
	2011	1,510	100.0%	-

OPEB	Year Ended June 30	AOC	Percentage	OPEB
			of AOC Contributed	Obligation /(Asset)
	2009	\$ 424	100.0%	\$ -
	2010	463	100.0%	-
	2011	483	100.0%	-

ASSET VALUATION

See Note 4 for information on pension funds' deposits and investments risk categories. The table below discloses the fair value of each pension plan's cash and investments. All amounts are in thousands.

<u>Systems</u>	<u>Fair Value</u>
Public Employees' Retirement System	\$11,398,716
Teachers' Retirement System	4,733,277
Judicial Retirement System	130,975
Alaska National Guard and Alaska Naval Militia Retirement System	32,995

PLAN MEMBERSHIPS

The table below includes the plan membership counts. For PERS, TRS and JRS, the counts are from the notes to the separately issued financial statements for the various plans. NGNMRS and EPORS are as of the most recent valuation report date.

	<u>PERS</u>	<u>TRS</u>	<u>JRS</u>	<u>NGNMRS</u>	<u>EPORS</u>
	6/30/10	6/30/10	6/30/10	6/30/10	6/30/10
Retirees & beneficiaries receiving benefits & Terminated members with future benefits	32,490	11,438	103	1,798	37
Current active employees:					
Vested	21,477	5,959	45	*	-
Nonvested	4,965	1,873	27	4,085	-
Total	<u>58,932</u>	<u>19,270</u>	<u>175</u>	<u>5,883</u>	<u>37</u>

* A breakdown of active employees between vested and nonvested was not available for NGNMRS.

FUNDING STATUS AND PROGRESS

Actuarial Method and Assumptions

The objective under the entry age normal actuarial funding method is to fund each participant's benefits under the Plan as a level percentage of covered compensation, starting at original participation date, and continuing until the assumed retirement, disability, termination, or death. On introduction, this method produces a liability which represents the contributions which would have been accumulated had this method always been in effect. This liability is generally funded over a period of years as a level percentage of compensation. This component is known as the Amortization Cost Percentage. The total employer appropriation cost of the system is the total of the Normal Cost Percentage and the Amortization Cost Percentage.

The following main assumptions were used in the actuarial valuation.

System	Investment Rate of Return	Actuarial Cost Method	Amortization Method	Equivalent Single Amorization Period	Salary Scale Increase	Valuation Date
PERS	8% Includes Inflation at 3.12%	Entry age normal; level percentage of pay for pension; level dollar for healthcare	Level dollar, closed	19 years	Peace Officer/Firefighter: Merit –2.75% per year for the first 4 years of employment, grading down to 0.5% at 7 years and thereafter. Productivity – 0.5% per year. Others: Merit – 6.00% per year grading down to 2.00% after 5 years; for more than 6 years of services, 1.50% grading down to 0% Productivity – 0.5% per year.	6/30/2010
TRS	8% Includes Inflation at 3.12%	Entry age normal; level percentage of pay for pension; level dollar for healthcare	Level dollar, closed	19 years	6.11% for first 5 years of service grading down to 3.2% after 20 years	6/30/2010
JRS	8% Includes Inflation at 3.12%	Entry age normal; level percentage of pay for pension; level dollar for healthcare	Level dollar, closed	21 years	4.12%	6/30/2010
NGNMRS	7% Includes Inflation at 3.12%	Entry age normal	Level dollar, open	20 years less average military service of active members	None	6/30/2010
EPORS	4.75% Includes Inflation at 3.12%	Entry age	Level dollar basis	25 years	None	6/30/2010
Health Care Inflation						
			<u>Medical</u>	<u>Rx</u>		
For all systems above:		FY11	6.90%	8.30%		
		FY12	6.40%	7.10%		

For PERS, TRS, and JRS assets are at market value, with 20 percent of the investment gains or losses recognized in each of the current and preceding four years. Valuation assets cannot be outside a range of 80 to 120 percent of the fair value of assets. NGNMRS and JRS assets valuation was changed from using the market value of assets without smoothing of gains and losses to a five year smoothing asset valuation method. This method is being phased in over five years with the first phase-in recognized during FY 07.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial report purposes are based on the substantive plan and included in the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

B. NON-STATE ADMINISTERED PLANS

THE MARINE ENGINEERS' BENEFICIAL ASSOCIATION (MEBA) PENSION PLAN

The MEBA plan is a defined benefit pension plan administered by MEBA for its members. Engineer Officers of the Alaska Marine Highway System participate in this program and the State contributes an amount (set by union contract) for each employee. The State assumes no liability for this pension plan or its participants other than the payment of required contributions. The State contributed \$844.9 thousand in FY 11.

NOTE 8 – DEFINED CONTRIBUTION PENSION PLANS

A. STATE ADMINISTERED PLANS

DESCRIPTION OF PLANS

The Public Employees' Retirement System – Defined Contribution Retirement Plan (PERS-DCR)

PERS-DCR is a defined contribution, cost-sharing, multiple-employer public employee retirement plan established by the State to provide pension and postemployment healthcare benefits for eligible state and local government employees. Benefit and contribution provisions are established by state law and may be amended only by the State Legislature. The 24th Alaska Legislature enacted into law Senate Bill 141, which created PERS-DCR effective July 1, 2006. The PERS-DCR Plan savings are accumulated in an individual retirement account for exclusive benefit of the members or beneficiaries.

The PERS-DCR Plan is a plan within the Public Employees' Retirement System (PERS). PERS is a component unit of the State of Alaska financial reporting entity. The PERS component unit is comprised of the PERS-DB (see note 7), PERS-DCR Plans, and the PERS Retiree Major Medical Insurance Plan and Health Reimbursement Arrangement Plan, and Occupational Death and Disability. PERS is reported as a pension (and other employee benefit) trust fund by the State. PERS separately issued financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements and required supplementary information may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

As of June 30, 2011, there were 160 employers participating in PERS-DCR. There were no retirees or beneficiaries currently receiving benefits, 554 terminated plan members entitled to future benefits, and 11,182 active members, of which 10,409 are general employees and 773 are peace officers and firefighters.

PERS-DCR pension contribution rates are eight percent for PERS-DCR members, as required by statute. The employer shall deduct the contribution from the member's compensation at the end of each payroll period, and the contribution shall be credited by the plan to the member's individual account. The contributions shall be deducted from the member's compensation before the computation of applicable federal taxes. An employer shall contribute to each member's individual pension account an amount equal to five percent of the member's compensation. Participant accounts under the PERS-DCR Plan are self-directed with respect to investment options.

On July 1, 2006, three pension trust sub-funds were created within PERS, the Retiree Major Medical Insurance (RMP), Health Reimbursement Arrangement (HRA), and Occupation Death and Disability (OD&D). RMP allows eligible members who retire directly from the plan to obtain medical benefits. The HRA allows medical care expenses to be reimbursed from individual savings accounts established for eligible persons. OD&D provides employees with benefits as a result of death or disability on the job. PERS-DCR participants are eligible members of RMP and HRA and their postemployment healthcare benefits are paid out of these funds. The employer RMP contribution rate for FY 11 for each member's compensation was 0.55 percent for medical coverage and 0.31 percent for death and disability (1.18 percent for peace officers and firefighters). HRA is \$143.40 per month for full time employees and \$1.10 per hour for part time employees.

The PERS pension contributions for the year ended June 30, 2011 by the employees were \$20,018 thousand and the State of Alaska employers were \$12,507 thousand. The PERS other postemployment contributions for the year ended June 30, 2011 were \$10,333 thousand.

See note 4 for information on pension funds' deposit and investment risk categories. The fair value of the PERS-DCR cash and investments as of June 30, 2011 is \$256,101 thousand. PERS-DCR investments in collective investment funds, held in trust, are stated at fair value based on the unit value as reported by the Trustees multiplied by the number of units held by PERS-DCR. The unit value is determined by the Trustees based on the fair value of the underlying assets. Purchases and sales of securities are recorded on a trade-date basis.

The Teachers' Retirement System – Defined Contribution Retirement Plan (TRS-DCR)

TRS-DCR is a defined contribution, cost-sharing, multiple-employer public employee retirement plan established by the State to provide pension and postemployment healthcare benefits for teachers and other eligible members. Benefit and contribution provisions are established by state law and may be amended only by the State Legislature. The 24th Alaska Legislature enacted into law Senate Bill 141, which created TRS-DCR effective July 1, 2006. TRS-DCR Plan savings are accumulated by an individual retirement account for exclusive benefit of the members or beneficiaries.

The TRS-DCR Plan is a plan within the Teachers' Retirement System (TRS). TRS is a component unit of the State of Alaska financial reporting entity. The TRS component unit is comprised of the TRS-DB (see note 7), TRS-DCR Plans, TRS Retiree Major Medical Insurance Plan and Health Reimbursement Arrangement Plan, and Occupation Death and Disability. TRS is reported as a pension (and other employee benefit) trust fund by the State. TRS separately issued financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Participants should refer to the plan agreement for more complete information. Copies of the audited financial statements and required supplementary information may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

As of June 30, 2011, there were 58 employers participating in TRS-DCR. There were no retirees or beneficiaries currently receiving benefits, 502 terminated plan members entitled to future benefits, and 2,738 active members.

TRS-DCR pension contribution rates are eight percent for TRS-DCR members, as required by statute. The employer shall deduct the contribution from the member's compensation at the end of each payroll period, and the contribution shall be credited by the plan to the member's individual account. The contributions shall be deducted from the member's compensation before the computation of applicable federal taxes. An employer shall contribute to each member's individual pension account an amount equal to seven percent of the member's compensation. Participant accounts under the TRS-DCR Plan are self-directed with respect to investment options.

On July 1, 2006, two pension trust sub-funds were created in TRS, the Retiree Major Medical Insurance (RMP) and Health Reimbursement Arrangement (HRA). The TRS Occupational Death and Disability (OD&D) trust sub-fund was created on July 1, 2007. RMP allows eligible members who retire directly from the plan to obtain medical benefits. The HRA allows medical care expenses to be reimbursed from individual savings accounts established for eligible persons. OD&D provides employees with benefits as a result of death or disability on the job. TRS-DCR participants are eligible members of RMP and HRA and their postemployment healthcare benefits are paid out of these funds. The employer RMP contribution rate for FY 11 for each member's compensation was 0.68 percent for medical coverage, 0.28 percent for death and disability. HRA is \$143.40 per month for full-time employees and \$1.10 per hour for part-time employees.

The TRS pension contributions for the year ended June 30, 2011 by the employees were \$309 thousand and the State of Alaska employers were \$270 thousand. The TRS other postemployment contributions for the year ended June 30, 2011 were \$130 thousand.

See note 4 for information on pension funds' deposit and investment risk categories. The fair value of the TRS-DCR cash and investments as of June 30, 2011 is \$107,951 thousand. TRS-DCR investments in collective investment funds, held in trust, are stated at fair value based on the unit value as reported by the Trustees multiplied by the number of units held by TRS-DCR. The unit value is determined by the Trustees based on the fair value of the underlying assets. Purchases and sales of securities are recorded on a trade-date basis.

Supplemental Benefits System

In addition to the pension plans (note 7) and deferred compensation plan (note 9), all state employees, as well as employees of political subdivisions which have elected to participate in the program, are covered under the Alaska Supplemental Benefits System (SBS). SBS is comprised of the Supplemental Annuity Plan and the Supplemental Benefits Plan. The Supplemental Annuity Plan is a defined contribution plan that was created under Alaska statutes effective January 1, 1980, to provide benefits in lieu of those provided by the federal Social Security System (Social Security). All State employees, who would have participated in Social Security if the State had not withdrawn, participate in SBS. Other employers whose employees participate in the State Public Employees' Retirement System and meet other requirements are eligible to have their employees participate in SBS as provided by Alaska Statute. As of January 31, 2011, there were nineteen other employers participating in SBS. There were approximately 39,000 participants in the Plan.

The Division of Retirement and Benefits is responsible for administration and record keeping. Through September 30, 2005, the Alaska State Pension Investment Board (ASPIB) was responsible for the specific investment of monies in SBS. Effective October 1, 2005, ASPIB was disbanded and their duties were assumed by the Alaska Retirement Management Board.

SBS is considered a component unit of the State financial reporting entity. SBS issues a separate stand-alone financial report that includes financial statements and required supplementary information, and SBS is also reported as a pension (and other employee benefit) trust fund by the State. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Mandatory contributions are made to the Supplemental Annuity Plan and voluntary contributions to the Supplemental Benefits Plan. Participating employees are vested at all times. Supplemental Annuity Plan contributions are made in lieu of contributions to Social Security. The State is required to contribute 12.26 percent of an employee's wages up to the taxable wage base in effect under Social Security regulations. Each employee is considered to have agreed to a wage reduction equal to one-half the contribution made on the employee's behalf. The State's mandatory contributions for the year ending January 31, 2011, were \$144,555 thousand. The State's covered payroll was approximately \$1,179,079 thousand.

Supplemental Benefit Plan contributions are voluntary based upon the optional benefits elected by each employee enrolled in SBS. Each employee agrees to a wage reduction based upon the benefit options selected. The benefit amounts are deducted from each employee's wages and remitted by the employer to SBS on the employee's behalf. State employee voluntary contributions for the year ending January 31, 2011, were \$3,944 thousand.

Employees are eligible to withdraw from the Supplemental Annuity Plan 60 days after termination. Benefits are payable in the form of a lump sum annuity or one of various continuing annuities purchased from an insurance carrier, which are excluded from Plan assets. The SBS administrator issues lump-sum payments through its contracted record keeper.

Benefits available under the Supplemental Benefits Plan include death, disability, survivor benefits, and dependent care reimbursement. Selection of these benefits is at the discretion of the employee, with certain restrictions, and may be amended and/or changed on an annual basis or in conjunction with an employee change in status. All other supplemental benefits, except dependent care reimbursement, are provided through insurance policies. The State administers the Dependent Care Assistance Program.

Supplemental annuity contributions were deposited with investment managers under contract with SBS for the year ended January 31, 2011. Participant accounts under the Supplemental Annuity Plan are self-directed with respect to investment options. Each participant designates how contributions are allocated among the investment options. Each participant's account is credited with the contributions, the increase or decrease in unit value for the investment funds, and reduced for administrative fees.

B. NON-STATE ADMINISTERED PLANS

THE NORTHWEST MARINE RETIREMENT TRUST (NMRT)

NMRT is an agent multiple-employer pension plan with defined contributions and is administered by the Pacific Northwest Marine Retirement Trust. The State assumes no liability for this pension plan or its participants other than the payment of required contributions. The State contributed \$998 thousand in FY 11.

NOTE 9 – DEFERRED COMPENSATION PLAN

The State of Alaska Deferred Compensation Plan was created by Alaska statutes. It is a deferred compensation plan under Section 457 of the Internal Revenue Code. It is available to all permanent and long-term non-permanent employees, and elected officials of the State (and with the March 1, 2006 amendment, members of State of Alaska boards and commissions) who have completed a pay period of employment. Participants authorize the State to reduce their current salary so that they can receive the amount deferred at a later date. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency, within the definition allowed by the applicable Internal Revenue Code. As of December 31, 2010 the Deferred Compensation Plan had approximately 9,000 participants.

As a result of the passage of The Small Business Job Protection Act of 1996 (SBJPA), all amounts deferred, including amounts deferred before the effective date of the law, under an eligible 457 plan must be held in a trust for the exclusive benefit of employees and beneficiaries. This law repealed the requirement that a Section 457 plan sponsored by a government be solely the property of the employer, subject only to the claims of the employer's general creditors. The trust requirement generally applies to assets and income held by a plan on and after the date of enactment of the SBJPA. The Plan Document for the State of Alaska Deferred Compensation Plan was amended to recognize and establish the trust requirement for the Deferred Compensation Plan.

The Division of Retirement and Benefits is responsible for Deferred Compensation Plan administration and recordkeeping. The Alaska Retirement Management Board is responsible for the specific investment of monies in the Deferred Compensation Plan.

Participant accounts are self-directed with respect to investment options. Each participant designates how his or her contribution is to be allocated among the investment options. Each participant's account is credited with the participant's contributions and the increase or decrease in unit value for the investment funds and deductions for administrative fees.

Deferred Compensation Plan net assets as of December 31, 2010 were \$583,348 thousand. The Deferred Compensation Plan is reported in the accompanying financial statements as a pension (and other employee benefit) trust fund.

NOTE 10 – INTERFUND TRANSACTIONS

The following schedules summarize individual interfund receivable and payable balances at June 30, 2011, and interfund transfers for the year then ended (in thousands):

INTERFUND RECEIVABLE / PAYABLE BALANCES

Due to Other Funds	Due from Other Funds					Total
	General Fund	Nonmajor Governmental Funds	Nonmajor Enterprise Funds	Internal Service Funds	Fiduciary Funds	
General Fund	\$ -	\$ 401,739	\$ 51	\$ 4,862	\$ 24,549	\$ 431,201

Other	20,165	3,719	42	(193)	(5)	23,728
Total	<u>\$ 930,289</u>	<u>\$ 405,458</u>	<u>\$ 93</u>	<u>\$ 4,669</u>	<u>\$ 24,544</u>	<u>\$ 1,365,053</u>

The \$813 million balance due from the Alaska Permanent Fund to the General Fund includes \$758.4 million for payment of 2011 Permanent Fund dividends to qualified residents of the State and \$12.8 million to be transferred to the Alaska Capital Income Fund. The balance is for administrative and associated costs of the 2011 Permanent Fund Dividend Program.

The majority of the “Other” due from Other Funds and due to Other Funds balances are attributable to FY 11 activity during the reappropriation period in July and August 2011 that caused the movement of cash balances between funds after June 30, 2011. The amounts reported as “Other” are reconciling amounts resulting from reporting differences for certain funds included in the fund financial statements at June 30, 2011.

INTERFUND TRANSFERS

Transfers From	Transfers to						Total
	General Fund	Nonmajor Governmental Funds	International Airports	Nonmajor Enterprise Funds	Internal Service Funds	Other	
General Fund	\$ -	\$ 444,491	\$ 2,243	\$ 39	\$ 12,975	\$ 77	\$ 459,825
Alaska Permanent Fund	813,404	-	-	-	-	-	813,404
Nonmajor							
Governmental Funds	-	14,873	-	-	-	-	14,873
International Airports	14	-	-	-	-	(14)	-
Nonmajor Enterprise Funds	921	-	-	-	-	51	972
Fiduciary Funds	3,738	-	-	-	-	(3,738)	-
Total	<u>\$ 818,077</u>	<u>\$ 459,364</u>	<u>\$ 2,243</u>	<u>\$ 39</u>	<u>\$ 12,975</u>	<u>\$ (3,624)</u>	<u>\$ 1,289,074</u>

The general purpose for transfers is to move monies from funds required by statute to collect them to the funds required by statute or budget to expend them, to move receipts restricted to debt service from the funds collecting the receipts to the Debt Service Fund as debt service payments come due, and transfer accumulated surpluses from “Other” funds to the General Fund.

The transfer from Alaska Permanent Fund to the General Fund includes an \$800.6 million transfer for payment of the Permanent Fund dividends and for administrative and associated costs of the dividend program and a \$12.8 million transfer to the Alaska Capital Income Fund.

The transfer from International Airports to “Other” represents an amount for the Art in Public Places Fund not reported as a transfer out in the International Airports Fund.

The transfer from the fiduciary funds to “Other” represents the activity to the General Fund not reported in the financial statements.

The transfer from a Nonmajor Enterprise, the Unemployment Compensation Fund, to “Other” represents the difference between the General fund and the Nonmajor Enterprise Fund.

The transfer from General Fund to “Other” represents transfers to Knik Arm Bridge and Toll Authority and the Group Health and Life Benefits fund for employer relief not recorded as a transfer in on the financial statements of those funds.

The transfer from the General Fund to Nonmajor Governmental Funds includes \$400 million to the Alaska Housing Capital Corporation.

NOTE 11 – RELATED PARTY ACTIVITY

Pursuant to understanding and agreements between the Alaska Industrial Development and Export Authority (AIDEA) and Alaska Energy Authority (AEA), AIDEA provides administrative, treasury, personnel, data processing, communications and other services to AEA. During FY 11, AEA expensed \$5.7 million for such services. During FY 11, AEA capitalized \$14 thousand for such services. AEA has a borrowing arrangement with AIDEA to provide working capital funds. At June 30, 2011 AEA had \$1.7 million payable to AIDEA for services and borrowings.

On September 30, 2010, pursuant to legislation and an agreement, AIDEA purchased 37 loans from AEA with an outstanding balance of \$24,254 thousand, plus accrued interest, for \$20,631 thousand. Under the agreement, at AIDEA’s request, AEA is required to repurchase any loan upon a payment default.

On July 17, 2009, the Alaska Student Loan Corporation (ASLC) entered into a Trust and Loan Agreement with the State of Alaska Department of Revenue. The Loan Agreement provides up to \$100 million to ASLC for the purposes of financing education loans. The loan is a four-year bullet loan accruing interest on the outstanding principal balance using a variable rate of interest equal to the most current rolling five-year average return on the State’s General Fund. The interest rate is reset annually and was 4.4 percent for FY 11. Interest is payable semi-annually in January and July. The loan is a limited obligation secured by pledged assets. ASLC has the right to prepay the loan, in whole or in part, at any time, without penalty or premium. The Trust Agreement was entered into to secure payment of the loan. Loan proceeds drawn are deposited in the trust until education loans are originated. Education loans originated with loan proceeds, payments received on those loans, and earnings on pledged assets are all pledged to the trust. The loan payable was \$67.5 thousand at June 30, 2011.

Northern Tobacco Securitization Corporation (NTSC) entered into a Memorandum of Agreement with Alaska Housing Finance Corporation (AHFC) that retains AHFC as administrator with respect to the preparation of all reports and other instruments and documents that are required by NTSC to prepare, execute, file or deliver pursuant to the bond indentures and the related agreements for a monthly fee. NTSC also entered into a Sub-Lease Agreement with AHFC for office space, overhead and operating services from AHFC for a monthly fee. The cost to NTSC for these services provided by AHFC for the year ended June 30, 2011 was approximately \$9 thousand.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

A. SICK LEAVE

The cost of state employee sick leave is charged against agency appropriations when leave is used rather than when leave is earned. There is no recorded liability for sick leave in the financial records of the State. Accordingly, the statements in this report do not include an estimate of this obligation as either a liability or a reserve.

The estimated amount of unused accumulated sick leave as of June 30, 2011, is \$23,480 thousand. This amount was calculated using the base pay on file for each employee as of June 30, 2011. It does not include an estimate of the cost of fringe benefits (supplemental benefits, retirement, group insurance, etc.) which can vary depending on the status of the employee when leave is taken.

B. SCHOOL DEBT

Under a program enacted in 1970 (AS 14.11.100), the State may reimburse municipalities up to 60, 70, 80, 90, or 100 percent of debt service on bonds issued to finance school construction. The percentage depends on the year in which the costs are incurred. The 60 percent limitation, enacted in 2002, applies to fiscal years after June 30, 1999. The higher percentages apply to earlier years.

Although the statute provides that the State may reimburse school districts 60, 70, 80, 90, or 100 percent of construction costs, the actual funding for the program is dependent on annual legislative appropriations to the school construction account. When amounts in the account are insufficient, the available funds are allocated pro rata among the eligible school districts. There is no contractual commitment by the State to make these payments. The amount for FY 11 expended for school debt was \$99,461 thousand, which was 100 percent of the entitlement. The total debt requirement, assuming the State makes full payment of its share of school debt service, would be approximately \$1,172,799 thousand. The State has in the past and may in the future appropriate less than the full amount to which the municipalities are entitled under statute.

C. RISK MANAGEMENT AND SELF-INSURANCE

The state maintains a risk management program that is administered by the Department of Administration, Division of Risk Management. The Division of Risk Management's objective is to protect the financial assets and operations of the State of Alaska from accidental loss through a comprehensive self-insurance program for normal and expected property and casualty claims of high frequency and low severity, combined with high-limit, broad-form excess insurance protection for catastrophic loss exposures.

Risk Management acts as the insurance carrier for each state agency, funding all sudden and accidental property and casualty claims. The annual premiums allocated by Risk Management are the maximum each agency is called upon to pay. This planning for known and catastrophic losses forestalls the need for the affected agency to request a supplemental appropriation or disrupt vital state services after a major property loss, adverse civil jury award, or significant workers' compensation claim.

By effectively managing the state's property and liability exposures through a comprehensive self-insurance program, Risk Management expends less public funds than would be paid to private insurance companies, while at the same time providing streamlined claims services utilizing professional adjusting firms located throughout Alaska.

Property insurance with all-risk (including earthquake and flood) coverage is provided on a replacement cost basis for all state-owned or leased property; buildings (including contents, museum fine arts, etc.), aircraft, watercraft (Alaska Marine Highway System ferries and other agency vessels), and large highway bridges.

Casualty coverages protect each state agency and their personnel from third-party civil (tort) liability claims alleged to have arisen from combined liability - general (premises/operations), automobile, professional (errors and omissions), medical malpractice, aviation (aircraft and airport), or marine (crew and passenger injuries).

Additional specialty coverage include blanket public employee faithful performance and custom bonding, accidental death and disability (including medical expenses) for volunteers, computer fraud and foreign liability, etc. These insurance programs continually evolve, responding to new activities and special projects undertaken by each state agency. The state has not incurred a loss in excess of its insurance program.

In FY 11, the state completely self-insured all statutory workers' compensation claims, general (premises and operations) and professional liability, and automobile liability. The State had Self-Insured Retention (SIR) levels of \$1 million per claim for property, \$750 thousand for marine risks, and \$250 thousand per incident for airport and aviation liability exposures. Limits of excess insurance vary by risk: \$500 million per occurrence for marine, \$200 million for property, and \$500 million for aviation.

Both domestic and international insurance companies and various Lloyd’s of London underwriting syndicates participate in the State of Alaska’s excess insurance program. Independent brokers provide marketing. The state obtains an annual independent actuarial assessment of the state insurance program as required by AS 37.05.287(b) which calculates unfunded claims and allocated loss adjustment expenses (ALAE).

An unconstrained audit of the State of Alaska’s overall property and casualty insurance program performed by an independent risk management consultant found the retention levels and excess insurance coverage purchased are appropriate.

Risk Management’s budget is funded entirely through interagency receipts annually billed to each agency through a “Cost of Risk” premium allocation system. The Risk Management information system generates the annual cost of risk allocation to each agency, reflecting their proportionate share of the state’s overall cost of risk. Designed to achieve equitable distribution of the self-insurance program costs, it factors exposure values subject to loss and considers the past five years actual claims experience incurred by each department.

For most cost of risk allocations, 80 percent of the premium billing is based on the average of the past five years actual claims experience. This provides a direct fiscal incentive to each agency to reduce or control their claim costs.

The program compiles a property inventory schedule of all owned or leased buildings used or occupied by state agencies, listing age and type of building construction, occupancy, fire protection services and sprinkler systems, and projected replacement cost value. Individual premiums are then determined and, in cases of multiple occupancy, allocated to each department on the basis of their square foot use.

The “Cost of Risk” premium is collected through two methods from individual state agency operating budgets. Reimbursable Services Agreements (RSAs) are used for all categories of insurance other than Workers’ Compensation and Combined Liability (general, auto, and professional), which are assessed on a rate per \$100 payroll applied monthly to each agency’s actual payroll until the allocated premium is paid.

The table below presents changes in policy claim liabilities for the fiscal years ending June 30, 2010 and June 30, 2011. The state records its related liability using discounted amounts provided by actuaries. The amount of unpaid claim liabilities for Risk Management is presented at their present value using a 3.0 percent discount interest rate for FY 10 and a 3.0 percent discount interest rate for FY 11. Claims payment amounts include allocated loss adjustment expenses (legal and adjusting).

Fiscal Year	Beginning Balance	Current Year Claims and Changes in Estimates	Claim Payments	Ending Balance
2010	\$ 63,158,406	\$ 41,560,102	\$ (32,517,581)	\$ 72,200,927
2011	72,200,927	35,340,735	(35,074,642)	72,467,020

D. LITIGATION

The State is involved in a number of legal actions. The Department of Law estimates the probable maximum liability for the cases associated with the governmental fund types to be approximately \$1,990 thousand, with an additional possible liability of \$5,669 thousand. The probable loss amount has been reported as long-term debt obligations.

The amount of revenue recognized by the Northern Tobacco Securitization Corporation could be adversely impacted by certain third party litigation involving tobacco companies and others.

E. FEDERAL GRANTS

The State has received federal grants for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowance under terms of the grants, it is believed that any required reimbursements will not be material.

F. DISASTER RELIEF FUND

The State may be liable to reimburse communities for expenditures related to disasters in excess of the amount allocated by the State.

G. FUTURE LOAN COMMITMENTS

As of June 30, 2011, the Alaska Clean Water and the Alaska Drinking Water Funds are committed to funding loans for which they have entered into agreements for communities but funds have not yet been disbursed. The total amounts to be disbursed under these agreements is uncertain as not all of the loans are expected to be fully drawn and some loans may increase with changes in scope of the underlying projects; accordingly, they are not included in the financial statements for these funds. As of June 30, 2011, the Alaska Clean Water and the Alaska Drinking Water Funds have entered into binding commitments, as evidenced by signed loan agreements, for which funds remain to be disbursed totaling \$72,550 thousand and \$31,277 thousand respectively.

At June 30, 2011, the Alaska Energy Authority had open loan commitments of \$23,516 thousand.

At June 30, 2011, the Alaska Industrial Development and Export Authority (AIDEA) had extended loan participation purchase commitments of \$19,328 thousand and loan guarantees of \$614 thousand. Under an agreement dated August 2009, AIDEA agreed to sell the Healy Project to Tri-VEC for \$50 million, finance the sale, and loan up to an additional \$45 million to refurbish, put into operation, and integrate the Healy Project into Golden Valley Electric Association's system.

In addition, AIDEA has legislative authorization to guarantee loans made to the Alaska Insurance Guarantee Association (AIGA). The AIGA pays, from assessments to member insurers, the claims of insurance companies put into liquidation by insurance regulators. Any guarantee is limited to loans necessary to make the AIGA financially able to meet cash flow needs up to a maximum outstanding principal balance at anytime of \$30 million. No loans have been made pursuant to this authorization.

During 2011 the State legislature appropriated \$2,450 thousand to the Alaska Municipal Bond Bank Authority to issue a 15 year, one percent interest loan to the City of Galena to retire existing debt obligations and make certain utility improvements.

H. INVESTMENT COMMITMENTS

The Alaska Retirement Management Board (ARMB) has entered into agreements with external investment managers to provide funding for future investments.

I. POLLUTION REMEDIATION

Governmental Accounting Standards Board Statement (GASBS) 49 provides guidance for state and local governments in estimating and reporting the potential costs of pollution remediation. While GASBS 49 does not require the state to search for pollution, it does require the state to reasonably estimate and report a remediation liability when an obligating event occurs.

The State has the knowledge and expertise to estimate the remediation obligations presented in the statements based on prior experience in identifying and funding similar remediation activities. The standard requires the State to calculate pollution remediation liabilities using the expected cash flow technique. Where the State cannot reasonably estimate a pollution remediation obligation, it does not report a liability. This has occurred within two funds.

The Alaska Mental Health Trust Authority (AMHTA) has been notified by State agencies of possible obligations for pollution remediation activities on specifically identified parcels of AMHTA lands. There are several sites used by previous parties that require environmental review, subsequent remedial investigations and feasibility study and remediation and restoration of the sites. AMHTA intends to seek reimbursement of pollution remediation costs from responsible parties and any remaining costs will be recognized by the Trust. While an obligating event, as defined by GASBS 49 has occurred, no liability has been recognized by AMHTA because the amounts are not material to the financial statements.

The University of Alaska received a potentially responsible party letter from the Alaska Department of Environmental Conservation in August of 2006. The letter identified the University of Alaska as one of the potential parties that may be responsible for cleanup of costs of soil contamination found during a water line improvement project next to Northwest Campus property. The extent of the contamination source, the number of potentially responsible parties, and remediation costs are being assessed but the outcome is unknown.

The remediation obligation estimates that appear in this report are subject to change over time. Cost may vary due to price fluctuations, changes in technology, changes in potential responsible parties, results of environmental studies, changes to statutes or regulations or other factors. Prospective recoveries from responsible parties may reduce the State's obligation.

At July 1, 2010, the General Fund had pollution remediation obligations of \$53,316 thousand. As of June 30, 2011, the state had an increase to the obligation of \$44,319 thousand and recognized a decrease of \$23,603 thousand, for an ending balance of \$74,032 thousand in pollution remediation obligation related activities. The state has an estimated potential recovery of \$19,707 thousand from other responsible parties.

At July 1, 2010, the International Airports Fund (IAF) reported pollution remediation liabilities of \$1,429 thousand for which IAF is in whole or in part a responsible party. As of June 30, 2011 IAF had recognized a decrease of \$116 thousand, including an estimate of \$30 thousand expected to be collected from third parties, for an ending balance of \$1,313 thousand. The estimated liabilities were measured using the estimated mean of the future cash flows of costs and recovery associated with those sites, measured at current value. This accrual includes the estimated obligation for five sites. IAF has also identified 22 other sites for which it is in whole or in part a responsible party, but for which no obligating event has occurred.

At December 31, 2009, the Alaska Railroad Corporation had pollution remediation obligations of \$2,353 thousand. As of December 31, 2010, the Alaska Railroad Corporation had additional obligations of \$1,500 thousand and reductions in obligations of \$1,537 thousand, for an ending liability of \$2,316 thousand. The Alaska Railroad Corporation estimated the liability for pollution remediation by estimating a reasonable range of potential outlays and multiplying those outlays by the probability of occurrence, reduced by the allocation of liability to other potentially responsible parties where applicable. The liabilities associated with these sites could change over time due to changes in costs of goods and services, changes in remediation technology, or changes in laws and regulations governing the remediation efforts.

J. ENCUMBRANCES

The State of Alaska utilizes encumbrance accounting to identify fund obligations.

The following shows encumbrances within the restricted and committed fund balances of the governmental funds for the fiscal year ended June 30, 2011 (in thousands):

	Amount (in thousands)
General Fund	\$ 1,114,507
Alaska Permanent Fund	-
NonMajor Governmental Funds	218,008
Total Encumbrances	<u>\$ 1,332,515</u>

NOTE 13 – SUBSEQUENT EVENTS

A. ALASKA MUNICIPAL BOND BANK AUTHORITY

Subsequent to June 30, 2011, the Alaska Municipal Bond Bank Authority (AMBBA) issued a preliminary statement for the potential upcoming 2011-Series Three Bond issuance. The 2011-Series Three Bond will be approximately \$80 million in size and will require a reserve deposit of an estimated \$7.2 million. This bond will be used to cover various capital improvements and will be loaned to the City of Cordova, City of Hoonah, Kenai Peninsula Borough, Kodiak Island Borough, City of Seward and the Municipality of Skagway. A portion of the 2011-Series Three Bond proceeds will be used to refund and redeem certain outstanding bonds of the Bond Bank.

On August 17, 2011 AMBBA entered into a Memorandum of Understanding (MOU) with the State of Alaska regarding a loan in the amount of \$7 million to potentially cover the reserve requirements for the 2011-Series Three Bond issuance. The executed MOU would be effective September 1, 2011, with a five year term, bearing interest at a rate earned by the General Fund over the term of the loan. There would be no prepayment penalty, and it may be paid in periodic installments or in full at the end of the term of the loan.

B. ALASKA CLEAN WATER FUND

Pursuant to legislative authorization obtained during the 2011 session of the Alaska Legislature, plans are in place to issue Series A Revenue Bond Anticipation Notes for fiscal year 2012 in an amount not to exceed \$2,439 thousand. Although this transaction has not yet been finalized, the issuance of the bonds will occur in mid-fiscal year 2012. The borrowing is to be secured by interest earnings of the Alaska Clean Water Fund.

C. ALASKA DRINKING WATER FUND

Pursuant to legislative authorization obtained during the 2011 session of the Alaska Legislature, plans are in place to issue Series A Revenue Bond Anticipation Notes for fiscal year 2012 in an amount not to exceed \$2,715 thousand. Although this transaction has not yet been finalized, the issuance of the bonds is expected to occur in mid-fiscal year 2012. The borrowing is to be secured by interest earnings of the Alaska Drinking Water Fund.

D. UNIVERSITY OF ALASKA

On October 5, 2011 the University sold competitively general revenue bonds with a par amount of \$48,870 thousand and a 20 year term. The bonds fund a portion of the Fairbanks campus Life Sciences Facility, numerous deferred maintenance projects and a food service project on the Juneau campus. Bond closing is scheduled for October 25, 2011.

E. U.S. CREDIT RATING

On August 5, 2011, Standard & Poor's downgraded its long-term sovereign credit rating on U.S. issued and U.S. backed securities from AAA to AA+. If this event had occurred prior to fiscal year end, then the U.S. securities shown in Note 4 would have been reported with a rating of AA.

F. GOVERNMENTAL ACTIVITIES - LONG-TERM LIABILITIES

The State of Alaska defeased \$20.6 million of the Anchorage Jail capital lease obligations in October 2011.

Certificates of Participation totaling \$22 million for the Alaska Psychiatric Institute, the Seafood Safety Lab, and the Virology Lab were defeased in November 2011.

G. ALASKA INDUSTRIAL DEVELOPMENT AND EXPORT AUTHORITY

As of November 2011, the Alaska Industrial Development and Export Authority finalized an agreement to have a partial ownership position in a limited liability company that will own an oil and gas drilling rig. AIDEA signed an agreement to invest up to \$30,000,000 in a joint project formed to acquire, modify, and mobilize a specifically identified drilling rig to be used in the Cook Inlet and other Alaska waters if certain conditions are met. Approximately \$600,000 at June 30, 2011 had been spent by the Authority in transaction related costs. The conditions precedent were met subsequent to June 30, 2011 and AIDEA closed the deal on November, 14 2011, funding \$17.6 million of a total investment of what will be nearly \$24 million.

NOTE 14 – SPECIAL ITEMS

A. ALASKA HOUSING FINANCE CORPORATION

On June 17, 2011 the Alaska Housing Finance Corporation sold its land on 34th Avenue, with a cost of \$1,459 thousand for \$4,547 thousand resulting in a special item gain of \$3,088 thousand.

B. ALASKA STUDENT LOAN CORPORATION

The Alaska Student Loan Corporation purchased \$35,600 thousand of its outstanding auction rate securities on September 20, 2010, for \$30,866 thousand. On September 20, 2010, the Alaska Student Loan Corporation cancelled the bonds purchased resulting in a gain on the cancellation of \$4,734 thousand.

C. ALASKA NATURAL GAS DEVELOPMENT AUTHORITY

The Alaska Natural Gas Development Authority (ANGDA) has determined that the leg of the B2F pipeline between Delta Junction and Fairbanks (North Pole) should be removed from the spurline project definition. Therefore, a mileage-based percentage of the B2F capital expenditures were determined to be impaired. As a result a total of \$810 thousand was written off as an impairment expense in FY 11.

**Note to Required Supplementary Information – Budgetary Reporting
For the Fiscal Year Ended June 30, 2011**

The Budgetary Comparison Schedule – General Fund presents comparisons of the original and final adopted budget with actual data on a budgetary basis. The State issues a separate legal basis budgetary report, which demonstrates legal compliance with the budget. A copy of this report may be obtained by contacting the State of Alaska, Department of Administration, Division of Finance, P.O. Box 110204, Juneau, AK 99811-0204, or may be viewed online at <http://doa.alaska.gov/dof/reports/cafr.html>.

The legislature's legal authorization (appropriations) to incur obligations is enacted on a basis inconsistent with Generally Accepted Accounting Principles (GAAP). The reconciliation of the budgetary basis to GAAP is shown directly on the Budgetary Comparison Schedule – General Fund. Both the annual operating budget and the net continuing total budget are included.

The types of differences are as follows:

- Encumbrances are included for total authorized expenditures, although for GAAP purposes they are excluded.
- There was financial activity related to reimbursable services agreements (RSA) and interfund transactions that were recorded in the general fund and in other funds. For budgetary purposes, that activity was left in the general fund, but for GAAP purposes it was eliminated from the general fund.
- Basis differences arise when the budgetary basis of accounting differs from the basis of accounting applicable to fund type when reporting on operations in accordance with GAAP. This difference is comprised of the following in the general fund (in thousands):

Petroleum Severance Taxes and Royalties	\$ 351,007
Medical Assistance Program	3,920
Working Reserve	(6,650)
Tobacco Tax	510
Alcohol Tax	125
Tire Tax	(5)
Vehicle Rental Tax	137
Commercial Passenger Vessel Excise Tax	(4,866)
Total General Fund Basis Difference	\$ 344,178

General Fund

The General Fund is the State's primary operating fund. All public monies and revenues coming into the state treasury not specifically authorized by statute to be placed in a special fund constitute the General Fund. Unlike other funds held in the name of the State, the General Fund has become a fundamental component of our fund structure without benefit of formal creation by the Constitution or the Alaska Statutes.

There are several accounts and funds that have been created by law which are considered a part of the General Fund. These are treated as subfunds of the General Fund and are accounted for as individual funds for accounting purposes but they are included in the General Fund for annual financial reporting purposes. The following lists those funds and accounts.

- **Abandoned Motor Vehicles Fund (Fund 11211)** – AS 28.11.110 – Administered by the Department of Administration. This fund consists of money appropriated to the fund by the legislature and proceeds from the sale of abandoned motor vehicles. This fund was created to reimburse payment of services associated with impounding, advertising, and selling abandoned vehicles.
- **Adak Airport Operations Fund (Fund 11181)** – PL 101-510 – The Alaska Department of Transportation and Public Facilities and the United States Department of Defense entered into a cooperative agreement under which the State will undertake operation and maintenance of a portion of the former Naval Air Facility known as the Adak Airport. In accordance with the agreement, the Navy paid the State \$10,000,000 to operate and maintain the airport.
- **Alaska Capital Income Fund (Fund 11185)** – AS 37.05.565 – Administered by the Department of Revenue. This fund consists of money deposited to the fund from income earned on money awarded in or received as a result of State v. Amerada Hess and of appropriations to the fund. Money may be appropriated from this fund for any public purpose, including covering annual debt service and reserves for debt service on bonds authorized by state law.
- **Alaska Children's Trust Fund (Fund 34050)** – AS 37.14.200 – Administered by the Department of Health and Social Services and the Alaska Children's Trust Board established in the Office of the Governor. The income from this endowment is used to provide a continuing source of revenue for grants to community-based programs for the prevention of child abuse and neglect.
- **Alaska Debt Retirement Fund (Fund 11138)** – AS 37.15.011 – The fund consists of all money appropriated to it. The fund was established to help meet the General Fund debt obligations of the State and its political subdivisions, to fund lease-purchases, and to finance capital projects with money remaining after debt obligations are paid.
- **Alaska Gasline Inducement Act Reimbursement (Fund 11188)** – AS 43.90.400 – Administered by the Office of the Governor. This fund consists of money appropriated to it by the legislature for reimbursing a percentage of qualified expenditures as authorized under AS 43.90.110. These state matching contributions serve as an inducement to aid in the construction of a natural gas pipeline.
- **Alaska Historical Commission Receipts Account (Fund 11111)** – AS 41.35.380 – Administered by the Department of Natural Resources. Consists of all monetary gifts, grants, bequests, royalties, and other income received by the Alaska Historical Commission and is used for commission projects.
- **Alaska Marine Highway System Fund (Fund 12149)** – AS 19.65.060 – Administered by the Department of Transportation and Public Facilities, Alaska Marine Highway System. Gross revenues of the Alaska Marine Highway System are deposited into the fund. The fund also consists of legislative appropriations of amounts necessary to provide stable services to the public, after consideration of gross revenue.
- **Alaska Marine Highway System Vessel Replacement Fund (Fund 11137)** – AS 37.05.550 – Managed by the Department of Revenue. The fund consists of money appropriated to it by the legislature. The legislature may appropriate money from the fund for refurbishment of existing state ferry vessels, acquisition of additional state ferry vessels, or replacement of retired or outmoded state ferry vessels.

- **Alaska Senior Care Fund (Fund 11182)** – AS 47.45.360 – Administered by the Department of Health and Social Services. The fund is used to pay for the costs incurred in the provision of senior services under the senior care program. The department shall provide cash assistance and prescription drug benefits as authorized under AS 47.45.300 – 47.45.390.
- **Alaska Technical and Vocational Education Program Fund (Fund 11166)** – AS 23.15.830 – Administered by the Department of Labor and Workforce Development. The fund consists of amounts collected under AS 23.15.835. The legislature may appropriate the annual estimated balance in the fund to the Alaska Workforce Investment Board to implement AS 23.15.820 – 23.15.850. The legislature may appropriate the lapsing balance of the fund to the Unemployment Compensation Fund established in AS 23.20.130.
- **Alaska Transportation Infrastructure Bank (Fund 21653)** – Section 350 of the National Highway System Designation Act of 1995 Federal Law – Managed by the Department of Transportation and Public Facilities. This fund was established as a pilot program with the U.S. Department of Transportation to increase infrastructure investment in the private sector. The fund has the ability to make loans and provide other forms of credit assistance to public and private entities to carry out highway construction and transit capital projects.
- **Alaska Veterans’ Memorial Endowment (Fund 36010)** – AS 37.14.700(a) – Administered by the Department of Military and Veterans’ Affairs. The fund is used to maintain and develop veteran or military memorials. The fund consists of appropriations to the fund, donations to the fund, and income earned on investments of fund assets.
- **Alcohol and Other Drug Abuse Treatment and Prevention Fund (Fund 11178)** – AS 43.60.050 – Administered by the Department of Health and Social Services. The fund is used to establish and maintain programs for the prevention and treatment of alcoholism, drug abuse, and misuse of hazardous volatile materials and substances by inhalant abusers under AS 47.37.030.
- **Anatomical Gift Awareness Fund (Fund 11183)** – AS 13.50.160(a) – Administered by the Department of Administration. This fund was established to promote gifts under AS 13.50 the Health Care Decisions Act and to administer the donation program established under AS 13.50.130. The fund consists of donations and fees collected to support the Donor Registry Program.
- **Art in Public Places Fund (Fund 11124)** – AS 44.27.060 – Administered by the Alaska State Council on the Arts. This fund consists of one percent of the construction cost of buildings exempt from AS 35.27. The money is used to commission or purchase art for public state-owned or leased buildings or facilities.
- **Assistive Technology Loan Guarantee Fund (Fund 11154)** – AS 23.15.125 – Administered by the Department of Labor and Workforce Development, Division of Vocational Rehabilitation (DVR). The fund consists of money appropriated to it. DVR may solicit and accept available public and private money for distribution from the fund. Money in the fund may be used to guarantee 90 percent of the principal amount of a loan or to subsidize the interest rate of a loan guaranteed by DVR for appropriate assistive technology.
- **Building Safety Account (Fund 11177)** – AS 44.31.025 – Administered by the Department of Labor and Workforce Development. The collection of fees associated with building inspection and the issuance of certificates of fitness will be deposited in the Building Safety Account. The legislature may appropriate money from the account for necessary costs incurred by the Department of Labor and Workforce Development in the administration of AS 18.60.180 – 18.60.395, 18.60.800 – 18.60.620 and AS 18.62 relating to building safety and certificates of fitness.
- **Civil Legal Services Fund (Fund 12154)** – AS 37.05.590 – The fund consists of appropriations made to it. Annually, the legislature may only appropriate to the fund amounts deposited into the general fund of the state under AS 09.17.020(j). The legislature may make appropriations from the fund to organizations that provide civil legal services to low-income individuals.
- **Commercial Passenger Vessel Environmental Compliance Fund (Fund 11174)** – AS 46.03.482 – Administered by the Department of Environmental Conservation. Sources of income for this fund include: (1) money received by the department in payment of fees under AS 46.03.480; (2) money received as a result of a violation; (3) money appropriated to the fund by the legislature; (4) earnings on the fund. The legislature may make appropriations from this fund to the department to pay for the department’s operational costs necessary to prepare reports that assess the information received by the department for the cruise ship seasons of 2000, 2001, 2002, and 2003 and for the department’s operational costs necessary to carry out activities under AS 46.03.460 – 46.03.490 relating to commercial passenger vessels.
- **Commercial Vessel Taxes Fund (Fund 11203)** – AS 43.35.220, AS 43.52.230(a) – Administered by the Department of Revenue. The fund consists of proceeds from the tax on travel on commercial passenger vessels providing overnight accommodations in the state’s marine water, and proceeds on gambling activities on large

passenger vessels in the state. Money appropriated from this fund can be used for state-owned harbor facilities, other services to properly provide for vessel or watercraft visits, to enhance the safety and efficiency of interstate and foreign commerce, and such other lawful purposes as determined by the legislature.

- **Community Revenue Sharing Fund (Fund 11200)** – AS 29.60.850 - Administered by the Department of Commerce, Community and Economic Development. The Fund provides community revenue sharing payments to municipalities, reserves, and communities for any public purpose. The fund consists of appropriations. Income earned on money in the fund may be appropriated to the fund. The legislature may appropriate 20 percent of the money received by the State during the previous calendar year under AS 43.55.011(g).
- **Constitutional Budget Reserve Fund (Fund 33041)** – Alaska Constitution, Article IX, Section 17; AS 37.13 – Administered by the Department of Revenue. All money received by the State as a result of the termination of administrative proceedings or litigation in a state or federal court involving mineral lease bonuses, rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments or bonuses, or involving taxes imposed on mineral income, production, or property are deposited in the fund, except for the share of those proceeds that are deposited into the Alaska Permanent Fund.
- **Crime Victims Compensation Fund (Fund 1207)** – AS 18.67.162 – Administered by the Department of Public Safety, Crime Victims Compensation Board. This fund consists of all money appropriated to it, including donations, recoveries of or reimbursements of awards made from the fund and investment income. The purpose of the fund is to facilitate and permit the payment of compensation to innocent persons as a result of certain serious crimes.
- **Disaster Relief Fund (Fund 12120)** – AS 26.23.300 – Administered by the Office of the Governor and the Department of Military and Veterans Affairs. This fund provides resources to alleviate the effects of disasters wherever and whenever they may occur in the State.
- **Donated Commodity Fee Fund (Fund 11120)** – USC 7 CFR, Part 250 – Administered by the Department of Education and Early Development. This fund consists of monies from federal agencies and recipients of goods. It is intended to cover the cost of the distribution of federal surplus food to schools, childcare institutions, nonprofit camps for children, charitable institutions for minors, nutrition programs for the elderly, and assistance to needy persons.
- **Educational Facilities Maintenance and Construction Fund (Fund 11142)** – AS 37.05.560 – Administered by the Department of Education and Early Development. Money in the fund may be appropriated to finance the design, construction, and maintenance of public school facilities and for maintenance of the University of Alaska facilities.
- **Election Fund (Fund 11179)** – Federal H.R. 3295, “The Help America Vote Act” – Administered by the Office of the Lieutenant Governor, Division of Elections. Funds will be used for election administration improvements, for replacement of voting equipment, to improve accessibility for individuals with disabilities, and to provide alternative language accessibility.
- **Employment Assistance and Training Program Account (Fund 11134)** – AS 23.15.625 – Administered by the Department of Labor and Workforce Development. The account consists of amounts collected under the provision of AS 23.15.630. The annual estimated balance in the account may be appropriated by the legislature to the department to implement AS 23.15.620 – 23.15.660. The legislature may appropriate the lapsing balance of the account to the Unemployment Compensation Fund established in AS 23.20.130.
- **Exxon Valdez Oil Spill Unincorporated Rural Community Grant Fund (Fund 11161)** – AS 44.33.115 – Administered by the Department of Commerce, Community, and Economic Development. The department may use the fund to make grants to unincorporated rural communities in the area affected by the Exxon Valdez oil spill for capital projects for purposes of restoring, replacing, or enhancing subsistence resources or services or other services damaged or lost as a result of the Exxon Valdez oil spill.
- **FHWA - Airspace Leases Fund (Fund 11126)** – Section 156 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 requires that the State shall charge fair market value for the sale, use, or lease rentals of right-of-way airspace and that the federal share of these net incomes be used by the State for highway projects. This fund accounts for those revenues. The revenues are available for appropriation by the legislature for highway projects.
- **FICA Administration Fund (Fund 11110)** – AS 39.30.050 – Administered by the Department of Administration. The fund consists of the pro rata share of expenses incurred in the administration of 39.30.010 – 39.30.080 and collected from participating political subdivisions and from the State.

- **Fisheries Disaster Fund (Fund 11180)** – PL 108-7, SEC 2, Division N, Title V – Fisheries Disasters, Sec. 501(a) – Administered by the Office of the Governor. \$35,000,000 shall be made available as a direct lump sum payment to the State of Alaska to make payments to persons or entities that have experienced significant economic hardship. Funds in Alaska shall be used to provide personal assistance; assistance for small businesses including fishermen, fish processors, and related business serving the fishing industry; assistance for local borough governments adversely affected by reductions in fish landing fees and other fishing-related revenue; and product development and marketing.
- **Fuel Emergency Fund (Fund 11125)** – AS 26.23.400 – Administered by the Office of the Governor. This fund is used when the governor determines that a shortage of fuel is sufficiently severe to justify state assistance to make grants to a city or borough, or to a village or unincorporated community to purchase emergency supplies of fuel.
- **Fund for the Improvement of School Performance (Fund 11145)** – AS 14.03.125 – Administered by the Department of Education and Early Development. It is used to make grants to a district located in the State for the purpose of improving school performance.
- **Major Maintenance Grant Fund (Fund 11144)** – AS 14.11.007 – Administered by the Department of Education and Early Development. The fund is used to make grants for the cost of school major maintenance.
- **Memorial Education Revolving Loan Fund (Fund 21611)** – AS 14.43.255 – Administered by the Department of Education and Early Development. The fund was created to pay tribute to the memory of Alaskans who, by example of their lives, or by their distinguished contribution and service to the State, their community, or their profession, exemplified the best that is the challenge of “The Great Land.” The funds shall be used to provide education loans to students selected under AS 14.43.250-325.
- **Municipal Capital Project Matching Grant Fund (Fund 11146)** – AS 37.06.010 – Administered by the Department of Commerce, Community, and Economic Development. The money in the fund is held by the department in custody for each municipality. Each fiscal year the department allocates individual grants for each municipality.
- **Municipal Harbor Facility Grant Fund (Fund 11187)** – AS 29.60.800 – Administered by the Department of Transportation and Public Facilities. The money appropriated to the fund may be expended by the department for municipal harbor grants.
- **Oil and Gas Tax Credit Fund (Fund 11189)** – AS 43.55.028 – Administered by the Department of Revenue. The purpose of this fund is to purchase certain transferable tax credit certificates issued under AS 43.55.023 and certain production tax credit certificates issued under AS 43.55.025. The fund consists of money appropriated to it, including any appropriation of the percentage provided under (c) of this section of all revenue from taxes levied by AS 43.55.011 that is not required to be deposited in the constitutional budget reserve fund established in art. IX, sec. 17 (a), Constitution of the State of Alaska; and earnings on the fund.
- **Oil and Hazardous Substance Release Prevention and Response (Fund 11128)** – AS 46.08.010 – Administered by the Department of Environmental Conservation. This fund is composed of two accounts: (1) the prevention account and (2) the response account. The fund consists of appropriations by the legislature of money from private donors, money recovered from parties responsible for cleanup of oil or a hazardous substance, and fines, penalties, or damages recovered under Chapter 46. This money is for the containment and cleanup of oil or a hazardous substance; monitoring, assessing, investigating, and evaluating the release or threatened release of oil or a hazardous substance; and recovery of the cost to the State of the containment and cleanup of oil or a hazardous substance.
- **Oil and Hazardous Substance Release Prevention Mitigation Account (Fund 11139)** – AS 46.08.020(b) – Administered by the Department of Environmental Conservation. This account consists of money received from other state sources, from federal or other sources, or from a private donor; money recovered or otherwise received from parties responsible for the containment and cleanup of oil or a hazardous substance; and fines, penalties, or damages recovered under AS 46.08.005–46.08.080. The legislature may appropriate the amount received in this account (during the preceding calendar year) to the prevention account in the Oil and Hazardous Substance Release Prevention and Response Fund.
- **Oil and Hazardous Substance Release Response Mitigation Account (Fund 11153)** – AS 46.08.025(b) – Administered by the Department of Environmental Conservation. This account consists of money received from other state sources, from federal or other sources, or from a private donor; money recovered or otherwise received from parties responsible for the containment and cleanup of oil or a hazardous substance at a specific site for which the State expended money from the former oil and hazardous substance release response fund before October 2, 1994, or for which the State expended money from the response account. The legislature may

appropriate the amount received in this account (during the preceding calendar year) to the response account in the Oil and Hazardous Substance Release Prevention and Response Fund.

- **Originator Surety Fund (Fund 11202)** – AS 06.60.500 – Administered by the Department of Commerce Community and Economic Development. This fund consists of payments made by originator licensees under AS 06.60.550, filing fees retained under AS 06.60.620, income earned on the investment of the money in the fund, and money deposited in the fund by the department under AS 06.60.740.
- **Permanent Fund Dividend Fund (Fund 33020)** – AS 43.23.045 – Administered by the Department of Revenue. This fund consists of 50 percent of the income earned by the Alaska Permanent Fund during the fiscal year ending on June 30 that is paid out to eligible Alaska residents.
- **Public Education Fund (Fund 11184)** – AS 14.17.300 – Administered by the Department of Education and Early Development. This account may be expended only in aid of public schools and for centralized correspondence study programs under Chapter 17 – Financing of Public Schools, and for transportation of pupils under AS 14.09.010.
- **Railbelt Energy Fund (Fund 11123)** – AS 37.05.520 – Managed by the Department of Revenue. The legislature may appropriate money from the fund for programs, projects, and other expenditures to assist in meeting Railbelt energy needs, including projects for retrofitting state-owned buildings and facilities for energy conservation.
- **Randolph-Sheppard Small Business Fund (Fund 11118)** – AS 23.15.130, 20 USC 107-107(f) – Administered by the Department of Labor and Workforce Development. This fund consists of receipts from vending facilities on federal properties and is used to aid only blind licensees in operating vending machine facilities.
- **Real Estate Recovery Fund (Fund 11121)** – AS 08.88.450 – Administered by the Department of Commerce, Community, and Economic Development. This fund is composed of payments made by real estate licensees under AS 08.88.455 and filing fees under AS 08.88.460, income earned on investment of the money in the fund, and money deposited in the fund under AS 08.88.450(c). Amounts in the fund may be appropriated for claims against the fund, for hearing and legal expenses directly related to fund operations and claims, and real estate educational purposes.
- **Regional Cruise Ship Impact Fund (Fund 11205)** – AS 43.52.230(c) – Administered by the Department of Revenue. The fund consists of proceeds from the tax on travel on commercial passenger vessels providing overnight accommodations in the state’s marine water. Money appropriated from this fund can be used for state-owned harbor facilities, other services to properly provide for vessel or watercraft visits, to enhance the safety and efficiency of interstate and foreign, commerce, and such other lawful purposes as determined by the legislature.
- **School Construction Grant Fund (Fund 11143)** – AS 14.11.005 – Administered by the Department of Education and Early Development. The fund shall be used to make grants for the costs of school construction. Legislative appropriations for school construction shall be deposited in the fund and the proceeds from the sale of general obligation bonds for school construction may be deposited in the fund.
- **School Trust Land Sales (Fund 11162)** – Established per attorney general memo regarding Public School Trust Litigation. Used to separately account for income from former public school trust land, the status of which is in litigation.
- **State Insurance Catastrophe Reserve Account (Fund 11133)** – AS 37.05.289 – Administered by the Department of Administration. Assets of the account may be used to obtain insurance, to establish reserves for the self-insurance program, and to satisfy claims or judgments arising under the program.
- **State Land Disposal Income Fund (Fund 11164)** – AS 38.04.022(a) – Administered by the Department of Natural Resources. The fund consists of revenue from the state land disposal program.
- **State Land Reforestation Fund (Fund 12130)** – AS 41.17.300 – Administered by the Department of Natural Resources. The money in the state land reforestation fund may be used only for the reforestation of state land, including site preparation; seed and seedling acquisition and cultivation; planting and other reforestation measures; timber stand improvement; and the development of materials and techniques for the reforestation of state land.
- **Statutory Budget Reserve Fund (Fund 11115)** – AS 37.05.540 – Administered by the Department of Revenue. This fund consists of appropriations to the fund. Money received by the State that is subject to the appropriation limit under AS 37.05.540(b) and that exceeds that limit may be appropriated to the budget reserve fund.

- **Surplus Property Revolving Fund (Fund 11112)** – AS 37.05.500(a)(2), AS 44.68.130 – Administered by the Department of Administration. This fund is to account for revenues from the users or purchasers of excess federal property that the State has acquired and is used to pay the administrative expenses incurred in managing this property.
- **Tobacco Use Education and Cessation Fund (Fund 11175)** – AS 37.05.580 – Administered by the Department of Health and Social Services. This fund consists of 20 percent of the annual revenue derived from the settlement of State of Alaska v. Philip Morris, Incorporated, et al, No. 1JU-97-915 CI (Alaska Super. 1997). The purpose of this fund is to provide a source to finance the comprehensive smoking education, tobacco use prevention, and tobacco control program authorized by AS 44.29.020(a)(15).
- **TAPS Rebate Fund (Fund 11163)** – Federal PL 101-380, sec. 8102(a)(B)(I) – The federal government has rebated the pro rata share of the federal Trans-Alaska Pipeline Liability (TAPS) Fund to the State of Alaska for its contributions as an owner of oil. The funds are to be used for the remediation of above-ground storage tanks.
- **Training and Building Fund (Fund 12121)** – AS 23.20.130(d) – Administered by the Department of Labor and Workforce Development. This fund consists of interest and penalties for failure to file timely reports and pay contributions to the Unemployment Compensation Fund. It may be used for the administration of the Employment Security Act when federal funds are not available and for the acquisition of land and buildings for the purpose of providing office space for the department.
- **Trauma Care Fund (Fund 11208)** – AS 18.08.085 – Administered by the Department of Health and Social Services. This fund consists of money appropriated to it by the legislature including donations, recoveries or reimbursements for awards made from the fund and investment income. The purpose of this fund is to compensate certified trauma centers in the state that receive a special designation under AS 18.08.082(c) and that achieve or maintain the highest appropriate level of trauma care designation.
- **Unincorporated Community Capital Project Matching Grant Fund (Fund 11147)** – AS 37.06.020 – Administered by the Department of Commerce, Community, and Economic Development. This fund was created for unincorporated communities to acquire or improve an asset with an anticipated life exceeding one year and includes land acquisition, construction, repair or structural improvement of a facility, engineering and design for a facility, and acquisition or repair of equipment.
- **Vocational Rehabilitation Small Business Enterprise Revolving Fund (Fund 11116)** – AS 23.15.130 – Administered by the Department of Labor and Workforce Development, Division of Vocational Rehabilitation. This fund consists of receipts from the net proceeds of vending facilities on public property. The annual estimated receipts of the fund may be used by the legislature to make appropriations to the department to aid licensees in operating vending machine facilities.
- **Workers' Compensation Benefits Guaranty Fund (Fund 11186)** – AS 23.30.082 – Administered by the Department of Labor and Workforce Development. This fund is composed of civil penalty payments made by employers under AS 23.30.080, income earned on investment of the money in the fund, money deposited in the fund, and appropriations to the fund. The fund may be appropriated for claims against the fund, for expenses directly related to fund operations and claims, and for legal expenses.
- **Workers' Safety and Compensation Administration Account (Fund 11173)** – AS 23.05.067 – Administered by the Department of Labor and Workforce Development. This fund is used to account for the annual service fees collected from employers for the administrative expenses of the State for workers' safety programs under AS 18.60 and the workers' compensation program under AS 23.30.

Permanent Funds

Permanent funds account for permanent endowments created when the principal amount of a contribution must be invested and preserved but earnings on amounts invested can be used for public purpose. Following are the State's permanent funds.

- **Alaska Mental Health Trust Authority (Fund 34040)** – AS 47.30.011 – This is a Discretely Presented Component Unit. The fund description is contained in the Notes to the Basic Financial Statements, Note 1A. Statements are included in the Nonmajor Component Units section.
- **Alaska Permanent Fund (Fund 34030)** – Alaska Constitution, Article IX, Section 15 – Administered by the Alaska Permanent Fund Corporation. The Alaska Constitution provides that at least 25 percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the State shall be placed in the Alaska Permanent Fund. This is a major fund and included in Statements 1.11, 1.13, and 3.23.
- **Public School Trust Fund (Fund 34010)** – AS 37.14.110 – Administered by the Department of Revenue. The principal consists of the balance of the public school permanent fund on July 1, 1978, and one-half of one percent of the receipts derived from the management of state land (AS 34.14.150). The net income of the fund may be appropriated only for the support of the state public school program. This is a non-major fund and is included in Statements 3.11, 3.12, and 3.23.

Nonmajor Special Revenue Funds

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. Additionally, special revenue funds account for the General Fund of legally separate entities (component units) that are blended with the government. The following are the State's special revenue funds.

- **Alaska Gasline Development Corporation (AGDC) (Fund 34077)** – AS 18.56.086 – Subsidiary of Alaska Housing Finance Corporation (AHFC). The purpose of this fund is for planning, constructing, and financing in-state natural gas pipeline projects or aiding in such projects. AGDC is authorized to issue bonds necessary to provide sufficient funds for carrying out this purpose.
- **Alaska Housing Capital Corporation (AHCC) (Fund 34076)** – AS 18.56.086 – Subsidiary of AHFC. The purpose of this fund is to fund capital projects, including financing expenses. AHCC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose.
- **Alyeska Settlement Trust Fund (Fund 12138)** – Consent Decree between the United States, the State of Alaska, and Alyeska Pipeline Service Company – Administered by the Department of Revenue. The fund was created for the purpose of receiving, holding, and disbursing settlement proceeds from Alyeska under the Consent Decree. The funds are to be used to clean up oil spills and for other projects specified in the Consent Decree.
- **Clean Air Protection Fund (Fund 12133)** – AS 46.14.260 and Federal Clean Air Act – Administered by the Department of Environmental Conservation. The fund was established to collect and account for permit fees under the Federal Clean Air Act. Monies collected may only be used to cover reasonable costs required to support the permit program.
- **Exxon Valdez Oil Spill Restoration Fund (Fund 12136)** – United States District Court judgement in the criminal case U.S. v. Exxon Shipping Company and Exxon Corporation resulted in \$50 million restitution being received by the State to be used exclusively for restoration projects related to the Exxon Valdez oil spill. Administered by the Department of Revenue.
- **Exxon Valdez Settlement Trust Fund (Fund 12160)** – AS 37.14.400 – Memorandum of Agreement and Consent Decree between the United States (U.S.) and the State of Alaska to maximize the funds available for restoration of natural resources and to resolve the governments' claims against one another relating to the Exxon Valdez Oil Spill, which occurred on the night of March 23-24, 1989, in Prince William Sound, Alaska. The funds are administered by the trustee council which consists of the Secretaries of the U.S. Departments of the Interior and Agriculture and the Administrator of the National Oceanic and Atmospheric Administration (the federal trustees) and the Commissioners of the Departments of Environmental Conservation and Fish and Game and the Attorney General of the State of Alaska (State trustees). The trustee council determines which projects shall be financed by monies from the trust. The Exxon Valdez Settlement Trust Fund established in the state accounting system accounts for those monies transferred to the State for projects approved by the trustee council. These projects are for the purpose of restoring, replacing, enhancing, rehabilitating, or acquiring the equivalent of natural resources injured, lost, or destroyed as a result of the oil spill.
- **Fish and Game Fund (Fund 12122)** – AS 16.05.100 – Administered by the Department of Fish and Game. Statutory revenue in this fund can only be used for the purpose of protection, propagation, investigation, and restoration of sport fish and game resources and the expenses of administering the sport fish and wildlife divisions of the Department of Fish and Game. These monies are received from the sale of state sport fishing and hunting licenses and special permits; sale of furs, skins, and specimens taken by predator hunters; money received in settlement of a claim or loss caused by damage to fish and game purposes; and donations. In

addition to the statutory revenues, federal revenues, crewmember license fees, and other sources are appropriated to the fund for purposes related to fish and wildlife.

- **Fishermen's Fund (Fund 11119)** – AS 23.35.060 – Administered by the Department of Labor and Workforce Development. This fund is composed of 39 percent of the money derived by the State from all commercial fishermen's licenses and money appropriated by the legislature to pay for emergency treatment, transportation, medical care, and hospitalization of injured or disabled commercial fishermen.
- **Mine Reclamation Trust Fund (Fund 12140)** – AS 37.14.800(a) – Administered by the Department of Natural Resources. The principal and earnings of the fund shall be held by the State for the purpose of protecting the public interest in reclaiming mine sites in the State. The fund is composed of the mine reclamation trust fund income account and the mine reclamation trust fund operating account. The fund's income account consists of payments and deposits made by miners to satisfy the miners' reclamation bonding or financial assurance obligation under AS 27.19.040 or AS 27.21.160 and earnings on the income account. The mine reclamation trust fund operating account consists of appropriations by the legislature of the annual balance of the mine reclamation trust fund income account and any earnings on those appropriations while in the operating account.
- **National Petroleum Reserve (NPR) Fund (Fund 12131)** – AS 37.05.530 – The commissioner of the Department of Revenue is responsible for the management of the NPR fund. The Department of Commerce, Community, and Economic Development administers the NPR grant program within the fund. This fund consists of all money disbursed to the State by the federal government under 42 USC 6508 since December 12, 1980, less the amount deposited in the General Fund and expended by the State by General Fund appropriations before June 9, 1984. The monies are spent by municipalities to alleviate the impact from oil and gas development within the National Petroleum Reserve.
- **Northern Tobacco Securitization Corporation (NTSC) Fund (Fund 21664)** – AS 18.56.086 – Subsidiary of AHFC. The purpose of this fund is to purchase Tobacco Settlement Revenues from the State in order to provide financing of construction of public school facilities, facilities for the University of Alaska, public housing facilities of AHFC and facilities for ports and harbors. NTSC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose.
- **Reclamation Bonding Pool Fund (Fund 12132)** – AS 27.19.040 – Administered by the Department of Natural Resources. The fund is a statewide bonding pool for mining operations as an alternative to individual financial assurance. A miner participating in the bonding pool contributes a nonrefundable annual fee and an initial deposit that is refunded upon satisfactory completion of the approved reclamation plan. If a miner violates the reclamation plan, the financial assurance is forfeited and deposited in the fund. Income and other earnings on the bonding pool are also added to the fund. The reclamation and administrative costs and forfeited financial assurances are used for reclamation of the mining sites subject to forfeiture.
- **School Fund (Fund 12123)** – AS 43.50.140 – Administered by the Department of Revenue and the Department of Education and Early Development. This fund receives the revenue from the payment of cigarette taxes, fees, and penalties. It can only be used to rehabilitate, construct, and repair the State's school facilities, and for costs of insurance on buildings comprising school facilities.
- **Second Injury Fund (Fund 11117)** – AS 23.30.040 – Administered by the Department of Labor and Workforce Development. The fund consists of contributions from employers collected under AS 23.30.040(b) and (c), and civil penalties collected under AS 23.30.155(c). Money in the fund may only be paid for the benefit of those persons entitled to payment of benefits from the second injury fund under AS 23.30.

Nonmajor Capital Projects Funds

The capital projects funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). The following are the State's capital projects funds.

- **2008 Transportation Project Fund (GO Bonds) (Fund 13113)** – Chapter 30, SLA 2008 – This fund consists of the proceeds from the sale of \$165,000,000 of general obligation bonds, and is to be used for the purpose of paying the cost of state transportation projects.
- **2010 Education Project Fund (GO Bonds) (Fund 13225)** – Chapter 95, SLA 2010 – This fund consists of the proceeds from the sale of \$200,000,000 of general obligation bonds, and is to be used for the purpose of paying the cost of state education projects.
- **Accelerated Alaska Transportation Projects Fund (Fund 13110)** – Chapter 114, SLA 2002 – This fund consists of the proceeds from the sale of \$102,805,000 of general obligation bonds, and is to be used for the purpose of paying the cost of State transportation projects that qualify for federal highway aid.
- **Alaska Sport Fishing Construction Account (Fund 13220)** – AS 16.05.130(f) – This fund consists of the proceeds from the sale of \$58,060,000 of Sport Fishing Revenue Bonds and General Fund money appropriated by the legislature. The purpose of the fund is to finance the construction and renovation of fisheries rehabilitation, enhancement, and development projects that benefit sport fishing.
- **Educational and Museum Facility Design, Construction, and Major Maintenance Fund (GO Bonds) (Fund 13112)** – Chapter 2, SSSLA 2002 – This fund consists of the proceeds from the sale of \$235,215,500 of general obligation bonds, and is to be used for the purpose of paying the cost of design, construction, and major maintenance of educational and museum facilities.
- **Transportation Projects Fund (GO Bonds) (Fund 13111)** – Chapter 114, SLA 2002 – This fund consists of the proceeds from the sale of \$123,914,500 of general obligation bonds, and is to be used for the purpose of paying the cost of state transportation projects.

Nonmajor Enterprise Funds

Enterprise funds account for business-like state activities that provide goods and/or services to the public and are financed primarily through user charges. The following are the State's nonmajor enterprise funds.

COMMERCIAL ASSISTANCE ENTERPRISE FUNDS

- **Alaska Capstone Avionics Revolving Loan Fund (Fund 21628)** – AS 44.33.655 – Administered by the Department of Commerce, Community, and Economic Development (DCCED). The purpose of this fund is to provide low interest loans to qualified applicants for the purpose of purchasing and installing capstone avionics equipment, to increase the safety of air carrier, air taxi and general aviation intrastate air transportation.
- **Alaska World War II Veterans' Revolving Loan Fund (Fund 21605)** – AS 26.15.090 – Administered by DCCED. The fund was created for the purpose of making home, education, or personal loans to eligible veterans. However, no loans are currently being made from the fund.
- **Commercial Fishing Revolving Loan Fund (Fund 21608)** – AS 16.10.340 – Administered by DCCED. The purpose of this fund is to promote the development and continued maintenance of commercial fishing gear and vessels by means of long-term, low interest loans.
- **Fisheries Enhancement Revolving Loan Fund (Fund 21615)** – AS 16.10.505 – Administered by DCCED. The purpose of this fund is to promote the enhancement of the State's fisheries by means of long-term, low interest loans for hatchery planning, construction, and operation.
- **Historical District Revolving Loan Fund (Fund 21614)** – AS 45.98.010 – Administered by DCCED. The purpose of this fund is to make loans for the restoration or rehabilitation of structures within the boundaries of a historical district. These structures are identified as important to state or national history and are suitable for superficial modification to conform to the period or motif of the surrounding area.
- **Mining Revolving Loan Fund (Fund 21625)** – AS 27.09.010 – Administered by DCCED. This fund consists of money appropriated by the legislature for loans to underwrite advanced mineral exploration, development, or mining.
- **Small Business Revolving Loan Fund (Fund 21607)** – AS 45.81.240 – Administered by DCCED. The purpose of this fund is to make small business loans. Loans may be used to acquire, finance, refinance or equip businesses, including mining, fishing, and farming equipment.

ENERGY ASSISTANCE ENTERPRISE FUNDS

- **Alternative Energy Conservation Revolving Loan Fund (Fund 21619)** – AS 45.88.010 – Administered by DCCED. This fund consists of monies appropriated by the legislature for the purpose of developing energy production utilizing one or more alternative energy systems and to purchase, construct, and install energy conservation improvements in commercial buildings.
- **Bulk Fuel Bridge Loan Fund (Fund 21627)** – AS 29.60.660 – Administered by DCCED. The purpose of this fund is to assist communities, utilities providing power in communities, fuel retailers, and other persons in communities in purchasing bulk fuel to generate power or supply the public with fuel for use in communities, if no other funding source exists for the purchase.

- **Residential Energy Conservation Fund (Fund 21623)** – AS 45.89.010 – Administered by DCCED. This fund consists of money appropriated by the legislature for grants and loans to purchase, construct, or install energy conservation improvements.

OTHER AGENCIES ENTERPRISE FUNDS

- **Agricultural Revolving Loan Fund (Fund 21606)** – AS 03.10.040 – Administered by the Department of Natural Resources. The purpose of this fund is to promote the development of agriculture as an industry throughout the State by means of long-term, low interest loans.
- **Alaska Clean Water Fund (Fund 21658)** – AS 46.03.032-035 & 37.15.565 – Administered by the Department of Environmental Conservation. The fund consists of money appropriated by the legislature to meet federal matching requirements for public water and sewage treatment facilities and to provide financial assistance for this purpose.
- **Alaska Drinking Water Fund (Fund 21659)** – AS 46.03.036-039 & 37.15.565 – Administered by the Department of Environmental Conservation. The fund consists of federal capitalization grants. The capitalization grants are divided between two purposes: (1) part of each capitalization grant is to be deposited into the fund for providing loans for drinking water infrastructure projects; (2) the other part is to be used or set aside for non-project activities.
- **Alcoholism and Drug Abuse Revolving Loan Fund (Fund 21642)** – AS 44.29.210 – Administered by the Department of Health and Social Services. This fund is required under 42 U.S.C. 300x-25 to qualify the State to receive block grant money from the United States Department of Health and Human Services under 42 U.S.C. 300x-21. Money in the fund may be used to make loans to private nonprofit organizations for the cost of establishing programs to help pay the living expenses of individuals recovering from alcohol or drug abuse who may reside in group homes.
- **Knik Arm Bridge and Toll Authority (Fund 21680)** – AS 19.75.021 – Administered by the Department of Transportation and Public Facilities. This fund is to be used for the purpose of developing public transportation systems in the vicinity of Upper Cook Inlet with the construction of a bridge to span Knik Arm and connect the Municipality of Anchorage with the Matanuska-Susitna Borough. These monies may be used to own, acquire, construct, develop, create, reconstruct, equip, operate, maintain, extend, and improve the Knik Arm Bridge and its appurtenant facilities. The authority can fix and collect fees, rents, tolls, rates or other charges for the use of the bridge and its facilities which would become revenue to the fund.
- **Unemployment Compensation Fund (Fund 33030)** – AS 23.20.130 – Administered by the Department of Labor and Workforce Development. This federal trust fund is established and maintained in the United States Treasury. It is used to account for unemployment contributions from employers and unemployment benefits paid to eligible claimants.

Internal Service Funds

Internal service funds account for the operations of state agencies that render services to other state agencies, institutions, or other governmental units on a cost-reimbursement basis. The following are the State's internal service funds.

- **Alaska Public Building Fund (Fund 11165)** – AS 37.05.570 – Administered by the Department of Administration. Effective July 1, 2000, the Department of Administration began to manage the maintenance and operations of ten state owned buildings and two parking facilities. The goals are to manage these buildings, in good order and a functional state, while providing cost effective and efficient space for state agencies and private tenants (until private tenant leases expire and space is converted to state agency use), to retain maximum value of these state assets, and to maximize revenue from non-general fund sources.
- **Group Health and Life Benefits Fund (Fund 11135)** – AS 39.30.095 – Administered by the Department of Administration. Effective July 1, 1997, the State began a self-insurance program to provide health care coverage for state employees covered by the retirement programs administered by the State. This fund consists of accumulated assets held for the purpose of paying health care claims for employees and accounts for transactions pertaining to the self-insurance program.
- **Highways Equipment Working Capital Fund (Fund 22652)** – AS 44.68.210 – Administered by the Department of Transportation and Public Facilities. This fund is used for necessary expenses resulting from the centralization of equipment maintenance and for the operation of supply depots.
- **Information Services Fund (Fund 22500)** – AS 44.21.045 – During the 1990 Legislative Session, the Legislature established the Information Services Fund (ISF) in the Department of Administration and classified it as an internal service fund. The ISF is used to account for the operation and financing of computing and telecommunication services for the State of Alaska. Included in these services is operation of the State's mainframe computer; the statewide consolidated data network; the telephone system in Juneau, Anchorage, and Fairbanks; and the microwave communications infrastructure.

Fiduciary Funds

Trust and agency funds are fiduciary in nature and are maintained to account for assets held by the State acting in the capacity as a trustee or agent. The following are the State's trust and agency funds.

PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

- **Alaska National Guard and Alaska Naval Militia Retirement System (Fund 35030)** – AS 26.05.222 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Alaska National Guard and Alaska Naval Militia Retirement System.
- **Deferred Compensation (Fund 32014)** – AS 39.45.010 – Administered by the Department of Administration. This fund consists of compensation deferred by employees under the State's deferred compensation plan allowed under Section 457 of the Internal Revenue Code.
- **Judicial Retirement System (Fund 35003)** – AS 22.25.048 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Judicial Retirement System.
- **Public Employees' Retirement System (Fund 35006)** – AS 39.35.095-680, AS 39.35.700-990 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Public Employees' Retirement System.
- **Retiree Health (Fund 11159)** – AS 39.37.010, AS 22.25.048, AS 39.35.003, AS 14.25.010 – Administered by the Department of Administration. The State began a self-insurance program to provide health care coverage for retirees covered by the retirement programs administered by the State. This fund consists of accumulated assets held for the purpose of paying health care claims for retirees and accounts for transactions pertaining to the self-insurance program.
- **Supplemental Benefits System (Fund 35043)** – AS 39.30.150 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Supplemental Benefits System.
- **Teachers' Retirement System (Fund 35015)** – AS 14.25.009-220, AS 14.25.310-590 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Teachers' Retirement System.

AGENCY FUNDS

- **Deposits, Suspense, and Miscellaneous (Fund 32005)** – Administered by the Department of Administration. This fund is used to account for refundable deposits and other receipts held in trust until the State has the right to transfer them to operating funds, or until there is a proper authorization to disburse them directly to others.
- **Exxon Valdez Oil Spill Investment Trust Fund (Fund 32025)** – PL 106-113 – Administered by the Exxon Valdez Oil Spill (EVOS) Trustee Council. Consists of assets of a joint federal/state trust fund established to receive, hold, disburse and manage all natural resource damage recoveries obtained by the United States government and the State of Alaska under the Clean Water Act, arising out of the Exxon Valdez oil spill.
- **Impact Aid (Fund 32017)** – PL 103-382 – Administered by the Department of Education and Early Development. These monies are received from the federal government and are distributed to the local school districts. The funds provide financial assistance to local school districts where enrollment or availability of revenue is adversely affected by federal activities.

- **Public Advocacy Trust Fund (Fund 32012)** – AS 44.21.410 – Administered by the Department of Administration. The Public Advocacy Trust Fund holds in trust funds for individuals under the guardianship of the Office of Public Advocacy.
- **Wage and Hour (Fund 32011)** – AS 23.05.220 - Administered by the Department of Labor and Workforce Development. This fund was established to account for receipts and disbursements for wage and hour violations.

Nonmajor Component Units

The nonmajor component units listed are significant separate legal entities that are discretely presented in the State's financial statements. The inclusion of component units in the State's financial statements reflects the State's financial accountability for these entities.

- **Alaska Aerospace Corporation (AAC)** – AS 14.40.821 – is a public corporation of the State located for administrative purposes within the Department of Commerce, Community, and Economic Development. The purpose of AAC is to allow the State to take a lead role in the exploration and development of space, to enhance human and economic development, and to provide a unified direction for space-related economic growth, education and research development, and tourism related activities.
- **Alaska Energy Authority (AEA)** – AS 44.83.020 – is a public corporation of the State within the Department of Commerce, Community, and Economic Development, but with a separate and independent legal existence. The purpose of AEA is to promote, develop, and advance the general prosperity and economic welfare of the people of the State by providing a means of constructing, acquiring, financing, and operating power projects and facilities that recover and use waste energy.
- **Alaska Mental Health Trust Authority (AMHTA)** – AS 47.30.011 – is established as a public corporation of the State within the Department of Revenue. The purpose of AMHTA is to ensure an integrated comprehensive mental health program, by administering the trust established under the Alaska Mental Health Enabling Act of 1956.
- **Alaska Municipal Bond Bank Authority (AMBBA)** – AS 44.85.020 – is a public corporation and an instrumentality of the State within the Department of Revenue, but with a legal existence independent of and separate from the State. AMBBA was created for the purpose of making available to municipalities within the State, monies to finance their capital projects or for other authorized purposes by means of issuance of bonds by AMBBA and use of proceeds from such bonds to purchase from the municipalities their general obligation and revenue bonds.
- **Alaska Natural Gas Development Authority (ANGDA)** – AS 41.41.010 – is a public corporation and government instrumentality of the State within the Department of Revenue, but having a legal existence independent of and separate from the State. The purpose of ANGDA is to bring natural gas from the North Slope to market.
- **Alaska Railroad Corporation (ARRC)** – AS 42.40.010 – is a public corporation and an instrumentality of the State within the Department of Commerce, Community, and Economic Development, but with a legal existence independent of and separate from the State. ARRC was created to own and operate the railroad and manage its rail, industrial, port, and other properties.
- **Alaska Seafood Marketing Institute (ASMI)** – AS 16.51.010 – is a public corporation and an instrumentality of the State within the Department of Commerce, Community, and Economic Development, but with a legal existence independent of and separate from the State. The purpose of ASMI is to promote all species of seafood and their by-products harvested in Alaska for sale, and develop market-oriented quality specifications.
- **Alaska Student Loan Corporation (ASLC)** – AS 14.42.100 – is a public corporation and government instrumentality within the Department of Education and Early Development, but having a legal existence independent of and separate from the State. The purpose of ASLC is to improve higher educational opportunities for residents of the State.

STATE OF ALASKA
COMPREHENSIVE ANNUAL FINANCIAL REPORT
For the Fiscal Year Ended June 30, 2011

STATISTICAL SECTION

This part of the State of Alaska's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the state's overall financial health.

	<u>Page</u>
Financial Trends (Schedules A-1 through A-5) <i>These schedules contain trend information to help the reader understand how the state's financial performance and well-being have changed over time.</i>	242
Revenue Capacity (Schedules B-1 through B-3) <i>These schedules contain information to help the reader assess the state's most significant revenue sources: investment income, oil severance taxes, and oil</i>	252
Debt Capacity (Schedules C-1 and C-2) <i>These schedules present information to help the reader assess the affordability of the state's current levels of outstanding debt and the state's ability to issue additional debt in the future. The state has no statutory limit on the amount of general obligation debt that may be authorized.</i>	256
Demographic and Economic Information (Schedules D-1 and D-2) <i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the state's financial activities take place.</i>	259
Operating Information (Schedules E-1 through E-3) <i>These schedules contain service and infrastructure data to help the reader understand how the information in the state's financial report relates to the services the state provides and the activities it performs.</i>	262

SOURCES:

Unless otherwise noted, the information in these schedules is derived from the financial statements presented in the comprehensive annual financial reports for the relevant years.

NOTES:

The State of Alaska implemented GASB Statement No. 34 in FY 02 and GASB Statement No. 54 in FY 10; therefore, some schedules only include financial data beginning in those years.

NOTES:

This schedule is presented on the accrual basis of accounting.

^a The permanent fund dividend function represents the portion of the income earned by the Alaska Permanent Fund that is paid out to eligible Alaska residents.

^b In 2009 the Alaska Permanent Fund Dividend expenses includes a one time energy rebate in the amount of \$738,767 (in thousands) that was paid to Alaska citizens to offset the cost of energy.

Unreserved, reported in:				
Permanent funds	-	-	426,318	4,984,371
Special revenue funds	-	-	420,993	397,895
Capital projects funds	-	-	207,550	113,515
Total All Other Governmental Funds	<u>\$ 41,792,704</u>	<u>\$ 34,323,396</u>	<u>\$ 31,038,057</u>	<u>\$ 36,884,623</u>

NOTES:

This schedule is presented on the modified accrual basis of accounting.

In 2002, funds were reclassified in conjunction with implementing GASB Statement No. 34.

In 2010, funds were reclassified in conjunction with implementing GASB Statement No. 54.

^a Prior to 2010 and the implementation of GASB statement No. 54, fund balances were classified as Reserved or Unreserved.

Under GASB statement No. 54, fund balances are classified as Nonspendable, Reserved, Committed, Assigned, or Unassigned.

^b The majority of the amount reported as reserved for the General Fund from 2002 through 2007 represents the Constitutional Budget Reserve Fund. Further discussion of this fund is included in the Notes to the Basic Financial Statements.

Beginning 2008 the majority represents reserved for encumbrances within the General Fund.

^c The majority of the amount reported as reserved for all other governmental funds since 2002 represents the Alaska Permanent Fund. Further discussion of this fund is included in Management's Discussion and Analysis.

SOURCE:

Alaska Permanent Fund Corporation

NOTES:

- ^a The Alaska Permanent Fund is made up of two parts: nonspendable and assigned assets. The nonspendable portion of the fund is invested in perpetuity and cannot be spent without amending the state constitution through a majority vote of the people.
- ^b Assigned fund assets are defined in Alaska statute as the accumulation of cash flow and net realized gains from investments and are subject to appropriation by the Legislature. Historically, the assigned fund assets have primarily been used to distribute a portion of realized earnings to the citizens of Alaska and to protect the nonspendable fund assets from inflation. The assigned fund assets are where all income available for appropriation is recorded, retained and reinvested until distributed in accordance with State of Alaska law. The assigned fund assets shown above have already been reduced by the annual dividend and inflation proofing transfer each year. The nonspendable and assigned fund assets are commingled for investment purposes.
- ^c NA = The fund held no investments in this asset type.
- ^d Returns are shown by major asset class only and are unaudited. For the year 2007 global equity returns are for six months only.

REVENUE BASE (Last Ten Fiscal Years)

Fiscal Year	Well-Head Value	Oil Severance Taxes	
		Weighted Average Severance Tax Rate	Weighted Average Economic Limit Factor (ELF)
2002	\$16.80 per barrel	14.44%	59.75%
2003	\$23.27 per barrel	14.16%	55.19%
2004	\$26.78 per barrel	14.23%	53.22%
2005	\$38.92 per barrel	14.20%	52.99%
2006	\$55.31 per barrel	14.62%	58.26%
2007	\$55.79 per barrel	16.90%	Not Applicable
2008	\$84.45 per barrel	39.99%	Not Applicable
2009	\$62.02 per barrel	20.20%	Not Applicable
2010	\$68.89 per barrel	18.04%	Not Applicable
2011	\$86.69 per barrel	24.21%	Not Applicable

REVENUE RATE: The method of determining the revenue rate changed on April 1, 2006 with the implementation of the Petroleum Profits Tax (PPT)^a. On July 1, 2007 Alaska Clear and Equitable Share (ACES) was implemented.

Production tax revenue under the Alaska Clear and Equitable Share (ACES) and Petroleum Profits Tax (PPT) is calculated as follows, with the difference between ACES and PPT shown in the notes:

$$[(\text{Petroleum Value}^1 \text{ minus Costs}^2) \text{ times Tax Rate}^3] \text{ minus Credits}^4$$

¹Petroleum Value = (Total number of barrels^a produced minus royalty barrels^b) multiplied by the wellhead value^c

^aThe total number of barrels of oil equivalent produced

See the Royalty Revenue Capacity Schedule B-3 for number of barrels produced.

^bMinus the number of royalty barrels

Barrels that are charged royalties are not taxed, therefore these barrels are subtracted from the total.

^cMultiplied by the wellhead value

Destination value minus allowable marine and transportation costs of each barrel.

²Costs = Lease expenditures, including qualified operating and capital expenses

³Tax Rate = **ACES:** The production tax rate is 25% of the petroleum value minus costs ("net income"). A progressive surcharge of .4% is added for every dollar that this "net income" per barrel exceeds \$30 and is less than \$92.50. At \$92.50, the progressive surcharge changes to .1% for every additional dollar in net value. Total maximum tax rate is 75%.

PPT: The production tax rate is 22.5% of the petroleum value minus costs ("net income"). A progressive surcharge of .25% is added for every dollar that this "net income" per barrel exceed \$40. Total maximum tax rate is 47.5%.

⁴Credits = **ACES:** Includes a 20% credit for all qualified capital expenditures, and a standard deduction of up to \$12 million per year for qualified companies.

PPT: Includes a 20% credit for all qualified capital expenditures, 20% credit for eligible transition expenditures, and a standard deduction of up to \$12 million per year for qualified companies.

Prior to April 1, 2006 the Revenue Rate was calculated using the Economic Limit Factor (ELF).

The effective severance tax rate was computed as: (Number of barrels produced less the number of royalty barrels) × the wellhead value × the severance tax rate × ELF.

Production tax rate is applied to net production value beginning in FY 2007. Prior to FY 2007, production tax rate was applied to gross value at point of production.

REVENUE PAYERS (Current Reporting Period and Period Ten Years Prior)

	2011	2002
Alaska Statute 43.05.230 prohibits naming individual tax payers.	Five oil companies account for more than 99.94% of severance tax.	Five oil companies account for more than 99.19% of severance tax.
Amount of Revenue Base	Five oil companies account for 219,948 thousands of barrels of oil production.	Five oil companies account for 359,131 thousands of barrels of oil production.
Percent of top payers to total oil production	98.00%	99.00%
Percent of top payers to total severance tax revenue	99.94%	99.19%

SOURCE:

Alaska Department of Revenue, Tax Division

NOTES:

^aThe Petroleum Profits Tax (PPT) became effective on April 1, 2006, replacing the previous production tax system based on the Economic Limit Factor (ELF). Production taxpayers paid under the ELF system through the end of December 2006, with a 'true-up' of tax liability under the PPT system due in April 2007. All revenues received at that time that were attributable to the PPT system were considered FY 2007 revenues.

REVENUE BASE (Last Ten Fiscal Years)

Fiscal Year	Gross Number of Barrels	Number of Barrels for Which Royalties are Charged	Weighted Average Royalty Rate
2002	387,190,479	48,415,456	12.50%
2003	376,494,188	49,296,600	13.09%
2004	370,732,200	48,080,646	12.97%
2005	340,267,626	44,669,897	13.13%
2006	315,713,921	39,953,892	12.65%
2007	276,283,804	35,287,199	12.77%
2008	269,773,057	34,158,311	12.66%
2009	257,812,862	31,877,658	12.36%
2010	232,152,553	29,674,841	12.78%
2011	219,360,412	27,863,774	12.70%

REVENUE RATE: The method of determining the revenue rate changed on April 1, 2006 with the implementation of the Petroleum Profits Tax (PPT)^a On July 1, 2007 Alaska Clear and Equitable Share (ACES) was implemented.

The royalty rate ranges from 5.00% to 33.33%, depending on lease terms. However, the majority of fields are charged at 12.50%.

REVENUE PAYERS (Current Reporting Period and Period Nine Years Prior)

	2011	2002
Top Payers	Royalties from British Petroleum, ConocoPhillips, and Flint Hills corporations comprise about 88% of oil royalty barrels this fiscal year.	Royalties from British Petroleum, ConocoPhillips, Tesoro, and Williams corporations comprise about 84% of oil royalty barrels this fiscal year.
Amount of Revenue Base	British Petroleum, ConocoPhillips, and Flint Hills corporations paid royalties on about 24.6 million barrels of oil this fiscal year.	British Petroleum, ConocoPhillips, Tesoro, and Williams corporations paid royalties on about 40 million barrels of oil this fiscal year.
Percent of top payers to number of royalty barrels:	88.16%	84.10%
Percent of top payers to total royalty revenue:	86.81%	80.34%

SOURCE:

Alaska Department of Natural Resources, Division of Oil and Gas

NOTE:

Per Article IX, Section 15 of the Alaska Constitution, "At least 25 percent of all mineral . . . royalties . . . received by the State shall be placed in a permanent fund..."

NOTES:

Details regarding the state's outstanding debt can be found in the Notes to the Basic Financial Statements.

^a See Schedule D-1, Demographic and Economic Information - Statistics, for personal income and population data.

These ratios are calculated using personal income and population for the prior calendar year.

^b For fiscal years 2002-2004, Certificates of Participation (COPs) related to facilities under construction were reported as COPs, and completed projects were reported as capital leases.

Beginning in 2005, all COPs are reported as Certificates of Participation.

^c For 2006 and 2007 the capital leases have been corrected to include internal service funds data.

NOTES:

Details regarding the state's outstanding debt can be found in the Notes to the Basic Financial Statements. Gross revenues include nonoperating interest and investment income. Operating expenses do not include interest, depreciation or amortization expenses. Additional details regarding revenues and expenses can be found in the combining fund statements of this CAFR.

^a The principal revenues of the International Airports are charges to customers for airfield operations, concession fees, rent, and user fees.

^b Tobacco Revenue Bonds are debt of the Northern Tobacco Securitization Corporation (NTSC), which was incorporated on September 29, 2000. NTSC revenues include Tobacco Settlement Revenues (TSRs) and investment earnings, both of which are pledged as security under the revenue bond indentures.

^c Sport Fishing Revenue Bonds were sold April 11, 2006. Revenues consist primarily of a sport fishing facility surcharge collected on the sale of sport fishing licenses.

NOTES:

^a For the purpose of a relevant principal employers indicator, with the exception of the University of Alaska, component unit employees are included in State of Alaska figures. The number of component unit employees is immaterial and inclusion does not change the ranking of the State of Alaska as an employer.

^b Ranges were given on these average monthly employment numbers for 2010. The highest average monthly employment range number was used.

SOURCES:

Various state departments and the University of Alaska.

NOTES:

Indicators are not available for the general government function.

^a Data is only provided on a calendar year basis.

^b A change was made to the methodology of gathering this statistic, starting in 2005, to bring it into compliance with federal requirements.

^c Consists of data for the Anchorage and Fairbanks International Airports.

^d Prior to state fiscal year 2005, this statistical data was provided based on a calendar year. Beginning with 2005 this quarterly data is available for state fiscal year reporting purposes.

^e Includes both on shore and off shore acres.

^f Data was corrected for 2007.

^g Data was corrected for 2008.

Re: State of Alaska General Obligation Refunding Bonds, Series 2012A - \$175,560,000

Ladies and Gentlemen:

We have acted as bond counsel to the State of Alaska (the "State") and have examined a certified transcript of the proceedings taken in the matter of the issuance by the State of its General Obligation Refunding Bonds, Series 2012A, dated February 8, 2012, in the aggregate principal amount of \$175,560,000 (the "Bonds"). The Bonds are issued pursuant to Resolution No. 2012-01 of the State (the "Bond Resolution"), and other proceedings duly had and taken in conformity therewith. The Bonds are issued for the purpose of refunding outstanding general obligation bonds of the State and paying costs of issuance of the Bonds. Capitalized terms used in this opinion and not otherwise defined herein shall have the meanings given such terms in the Bond Resolution.

The Bonds are subject to redemption prior to maturity as provided in the purchase agreement dated January 18, 2012, for the Bonds.

Regarding questions of fact material to our opinion, we have relied on representations of the State in the Bond Resolution and in the certified proceedings and on other certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

Based on the foregoing, we are of the opinion that, under existing law:

1. The Bonds are lawfully authorized and issued pursuant to and in full compliance with the Constitution and statutes of the State.

2. The Bonds are legal, valid and binding general obligations of the State, enforceable in accordance with their terms; subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights to the exercise of judicial discretion in accordance with the general principles of equity.

3. The State has unconditionally pledged its full faith, credit and resources to pay principal of and interest on the Bonds.

4. Interest on the Bonds is excludable from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations; however, interest on the Bonds is taken into account in determining adjusted current earnings for the purpose of computing the alternative minimum tax imposed on certain corporations. The opinion set forth in the preceding sentence is subject to the condition that the State comply with all requirements of the Internal Revenue Code of 1986, as amended (the “Code”), that must be satisfied subsequent to the issuance of the Bonds in order that the interest thereon be, and continue to be, excludable from gross income for federal income tax purposes. The State has covenanted to comply with all applicable requirements. Failure to comply with certain of such covenants may cause interest on the Bonds to be included in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds.

5. Interest on the Bonds is not included in taxable income for purposes of the Alaska income tax imposed on corporations. Interest on the Bonds may be indirectly subject to the Alaska alternative minimum tax imposed on corporations to the extent that interest on the Bonds is subject to the federal alternative minimum tax on corporations

The Bonds are not “qualified tax-exempt obligations” within the meaning of Section 265(b)(3) of the Code.

Except as expressly stated above, we express no opinion regarding any other federal or state income tax consequences of acquiring, carrying, owning or disposing of the Bonds. Owners of the Bonds should consult their tax advisors regarding the applicability of any collateral tax consequences of owning the Bonds, which may include original issue discount, original issue premium, purchase at a market discount or at a premium, taxation upon sale, redemption or other disposition, and various withholding requirements.

We have not been engaged nor have we undertaken to review the accuracy, completeness or sufficiency of the official statement or other offering material related to the Bonds (except to the extent, if any, stated in the official statement), and we express no opinion relating thereto, or relating to the undertaking by the State to provide ongoing disclosure pursuant to Securities and Exchange Commission Rule 15c2-12.

This opinion is given as of the date hereof, and we assume no obligation to update, revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Very truly yours,

K&L GATES LLP

APPENDIX D

FORM OF CONTINUING DISCLOSURE UNDERTAKING

[THIS PAGE INTENTIONALLY LEFT BLANK]

CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the “Disclosure Certificate”) constitutes the written undertaking of the State of Alaska (the “State”), for the benefit of the holders of the State’s \$175,560,000 General Obligation Refunding Bonds, Series 2012A (the “Bonds”), required by Section (b)(5)(i) of Securities and Exchange Commission Rule 15c2-12 under the Securities Exchange Act of 1934, as amended (17 CFR Part 240, § 240.15c2-12) (the “Rule”), for the benefit of the beneficial owners or holders of the Bonds. The State is an “obligated person” with respect to the Bonds within the meaning of the Rule.

SECTION 1. Definitions: The following capitalized terms shall have the following meanings:

Annual Financial Information means the financial information (which shall be based on financial statements prepared in accordance with generally accepted accounting principles (“GAAP”)) and operating and demographic data contained in the “Comprehensive Annual Financial Report” (“CAFR”) of the State of Alaska, provided at least annually, and the annual “Alaska Public Debt Report” which together contain the type of financial and debt information included in the final official statement with respect to the Bonds described in Exhibit B hereto; which Annual Financial Information shall include Audited Financial Statements.

Audited Financial Statements means the State’s annual financial statements, prepared in accordance with GAAP, which financial statements shall have been audited by a firm of independent certified public accountants or the Legislative Auditor of the State.

Disclosure Representative means the Chairman of the State Bond Committee or his or her designee or such other officer or employee as the State shall designate in writing from time to time.

Fiscal Year means the period commencing on the first day of July of any year and ending on the last day of June of the following year or such other period of twelve consecutive calendar months as shall be specified by the State.

Material Event means any of the following events with respect to the Bonds:

- (i) Principal and interest payment delinquencies;
- (ii) Non-payment related defaults, if material;
- (iii) Unscheduled draws on debt service reserves, if any, reflecting financial difficulties;
- (iv) Unscheduled draws on credit enhancements reflecting financial difficulties;
- (v) Substitution of credit or liquidity providers, or their failure to perform;
- (vi) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the security, or other material or events affecting the tax-exempt status of the Bonds;
- (vii) Modifications to rights of the owners of the Bonds if material;

- (viii) Optional, contingent or unscheduled Bond calls other than scheduled sinking fund redemptions for which notice is given pursuant to Exchange Act Release 34-23856, if material, and tender offers;
- (ix) Defeasances;
- (x) Release, substitution or sale of property, if any, securing the repayment of the Bonds if material;
- (xi) Rating changes;
- (xii) Bankruptcy, insolvency, receivership or similar event of the State;
- (xiii) The consummation of a merger, consolidation, or acquisition of the State or the sale of all or substantially all of the assets of the State, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement to undertake such an action, other than pursuant to its terms, if material; and
- (xiv) Appointment of a successor or additional trustee or the change of name of the trustee, if material.

MSRB means the Municipal Securities Rulemaking Board or any successors to its functions.

Notice of Material Events shall mean the Notice required to be given in accordance with Section 4 hereof.

Participating Underwriter shall mean any of the original underwriters of the Bonds required to comply with the Rule in connection with offering of the Bonds.

Resolution shall mean the resolution of the State Bond Committee of the State authorizing the issuance of the Bonds.

Rule shall mean Rule 15c2-12(b)(5)(i) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

SECTION 2. Provision of Annual Financial Information.

(a) The State shall, while any Bonds are outstanding, provide the Annual Financial Information to the MSRB on or before January 31 of each year (the "Report Date"), commencing January 31, 2013. The State may adjust the Report Date if the State changes its Fiscal Year by providing written notice of the change of Fiscal Year and the new Report Date to the MSRB; provided that the new Report Date shall be 210 days after the end of the new Fiscal Year, and provided further that the period between the final Report Date relating to the former Fiscal Year and the initial Report Date relating to the new Fiscal Year shall not exceed one year in duration.

(b) If the State is unable to provide to the MSRB the Annual Financial Information by the Report Date, the State shall send a notice to the MSRB in substantially the form attached hereto as Exhibit A.

(c) If the State is unable to provide the Audited Financial Statements to the MSRB by the Report Date, the State shall provide to the MSRB unaudited financial statements of the State,

and, as required by the Rule, Audited Financial Statements, when and if available, must thereafter be provided to the MSRB.

SECTION 3. Content of Annual Financial Information. The State's Annual Financial Information shall contain or incorporate by reference the information described in Exhibit B attached hereto, as well as the following:

- (i) The Audited Financial Statements,
- (ii) the accounting principles pursuant to which the Audited Financial Statements were prepared, and
- (iii) that the above-described information has been provided directly by the State.

The State reserves the right to modify from time to time the specific types of information provided or the format of the presentation of such information, to the extent necessary or appropriate in the judgment of the State; provided that the State agrees that any such modification will be done in a manner consistent with the Rule as provided in Section 6 hereof.

The Annual Financial Information may be included by specific reference to documents available to the public on the Internet Website of the MSRB or filed with the Securities and Exchange Commission.

SECTION 4. Reporting of Material Events.

(a) If a Material Event occurs while any Bonds are outstanding, the State shall provide a Material Event Notice to the MSRB not in excess of ten business days after the occurrence of the event. Each Material Event Notice shall be so captioned and shall prominently state the date, title and CUSIP numbers of the Bonds.

(b) The State shall provide, in a timely manner to the MSRB, notice of any failure while any Bonds are Outstanding by the State to provide to the MSRB Annual Financial Information on or before the Report Date.

(c) The State may from time to time choose to provide notice of the occurrence of certain other events, in addition to Material Events, if, in the judgment of the State, such other event is material with respect to the Bonds, but the State does not undertake to commit to provide any such notice of the occurrence of any material event except Material Events.

SECTION 5. Termination of Reporting Obligation. The State's obligations under this Disclosure Certificate shall terminate upon the legal defeasance, prior redemption in whole or payment in full of all of the Bonds. In addition, any provision hereof and any provision relating to the Rule as set forth in the Resolution shall be null and void in the event that the State delivers to the Bond Registrar, an opinion of counsel expert in federal securities laws to the effect that those portions of the Rule which require this Disclosure Certificate, or any such provision, are invalid, have been repealed retroactively or otherwise do not apply to the Bonds; provided that the State shall have provided notice of such delivery and the cancellation of this Disclosure Certificate and that portion of the Resolution relating to the Rule to the MSRB.

SECTION 6. Amendment; Waiver. Notwithstanding any provision of this Disclosure Certificate, the State may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, if such amendment or waiver is supported by an opinion of counsel expert in federal securities laws to the effect that such amendment or waiver would not in and of itself cause the undertakings herein to violate, or adversely affect compliance with the Rule if such amendment or waiver had been effective on the date hereof, but taking into account any subsequent change in or official interpretation of the Rule.

Provided, however, that the following conditions must be satisfied prior to such amendment:

- (a) The amendment may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the State, or type of business conducted;
- (b) The undertaking hereunder, as amended, would have complied with the requirements of the Rule at the time of the primary offering, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and
- (c) The amendment does not materially impair the interests of the holders and the beneficial owners of the Bonds, as determined either by parties unaffiliated with the State (such as bond counsel), or by approving vote of such holders in accordance with the terms of the Resolution at the time of the amendment.

Further, the Annual Financial Information containing the amended operating data or financial information shall explain in narrative form, the reasons for the amendment and the impact of the change in the type of operating data or financial information being provided.

Further provided, if an amendment is made to an undertaking hereunder specifying the accounting principles to be followed in preparing the Audited Financial Statements, the Annual Financial Information for the year in which the change is made shall present a comparison between the Audited Financial Statements or information prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles. The comparison shall include a qualitative discussion of the differences in the accounting principles and the impact of the change in the accounting principles on the presentation of the Audited Financial Statements, in order to provide information to investors to enable them to reevaluate the ability of the State to meet its obligations. To the extent reasonably feasible, the comparison also shall be quantitative. A notice of the change in the accounting principles shall be sent to the MSRB.

SECTION 7. EMMA; Format for Filing with the MSRB. Until otherwise designated by the MSRB or the Securities and Exchange Commission, any filing required to be made with the MSRB under the undertaking are to be submitted through the MSRB’s Electronic Municipal Market Access system (“EMMA”), currently located at www.emma.msrb.org. All notices, financial information and operating data required by the undertaking to be provided to the MSRB must be in an electronic format as prescribed by the MSRB. All documents provided to the MSRB pursuant to the undertaking must be accompanied by identifying information as prescribed by the MSRB.

SECTION 8. Additional information. Nothing in this Disclosure Certificate shall be deemed to prevent the State from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or Notice of Material Event, in addition to that which is required by this Disclosure Certificate. If the State chooses to include any information in any Annual Financial Information or Notice of Material Event in addition to that which is specifically required by this Disclosure Certificate, the State shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Financial Information or Notice of Material Event.

SECTION 9. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the State, the Participating Underwriters, the holders and the beneficial owners of the Bonds, and shall create no rights in any other person or entity.

Debt Manager, State of Alaska
For the State Bond Committee

EXHIBIT B

- (A) Names of the entities, enterprises, funds, accounts and other persons with respect to whom information will be provided:

Entity:

1. STATE OF ALASKA

- (B) Types of information to be provided: (e.g., specific types of financial statements and general descriptions of operating, economic, statistical, utilization and trend data)

1. Audited Financial Statements
2. Comprehensive Annual Financial Report _____, 20____.

- (C) The accounting principles pursuant to which financial statements will be prepared:

Generally accepted accounting principles

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX E

INFORMATION REGARDING THE DEPOSITORY TRUST COMPANY

[THIS PAGE INTENTIONALLY LEFT BLANK]

INFORMATION REGARDING THE DEPOSITORY TRUST COMPANY

1. The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

2. DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has Standard & Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

3. Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

4. To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial

Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

6. Redemption notices shall be sent to DTC. If less than all of the Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the State as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the State or the Bond Registrar, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Bond Registrar or the State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) are the responsibility of the State or the Bond Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

9. DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the State or the Bond Registrar. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

10. The State may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the State believes to be reliable, but the State takes no responsibility for the accuracy thereof.
