- VI. Adjournment**

State Investment Review Meeting

THE STATE
of **ALASKA**
GOVERNOR MIKE DUNLEAVY

State Investments and

Fiscal Year 2023

Asset Allocation Discussion

May 2022

Zachary Hanna, CFA
Chief Investment Officer
State of Alaska, Department of Revenue

Economic and Market Update

The Economy, Geopolitics, and Inflation

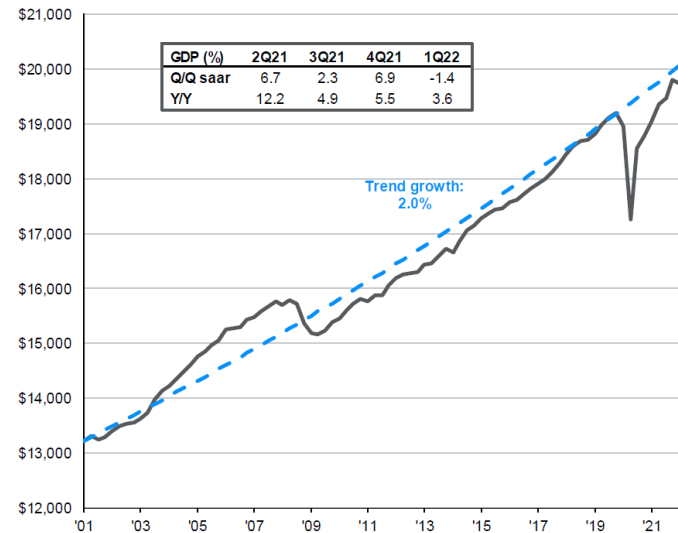

- The Economic recovery was proceeding well despite growing concerns about persistent inflation.
- Since February, the Russia/Ukraine crisis has dominated headlines and capital markets. The direct impact to equity markets was muted, but the impact on energy inflation and European growth has been more pronounced.
- U.S. Real GDP is still expected to be on trend at 2% despite negative GDP growth in the 1st quarter.
- Unemployment is almost back to the pre-pandemic low of 3.5%, but job openings are ~50% higher leading to wage pressure.
- CPI reached 8.5% annualized in March, well in excess of the Fed's inflation target driven by energy/commodity prices, wage pressure, and remaining supply chain issues.

Economic growth and the composition of GDP

GTM U.S. 18

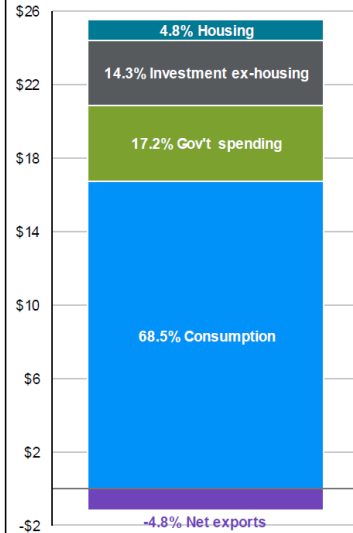

Real GDP

Billions of chained (2012) dollars, seasonally adjusted at annual rates

Components of GDP

1Q22 nominal GDP, USD trillions

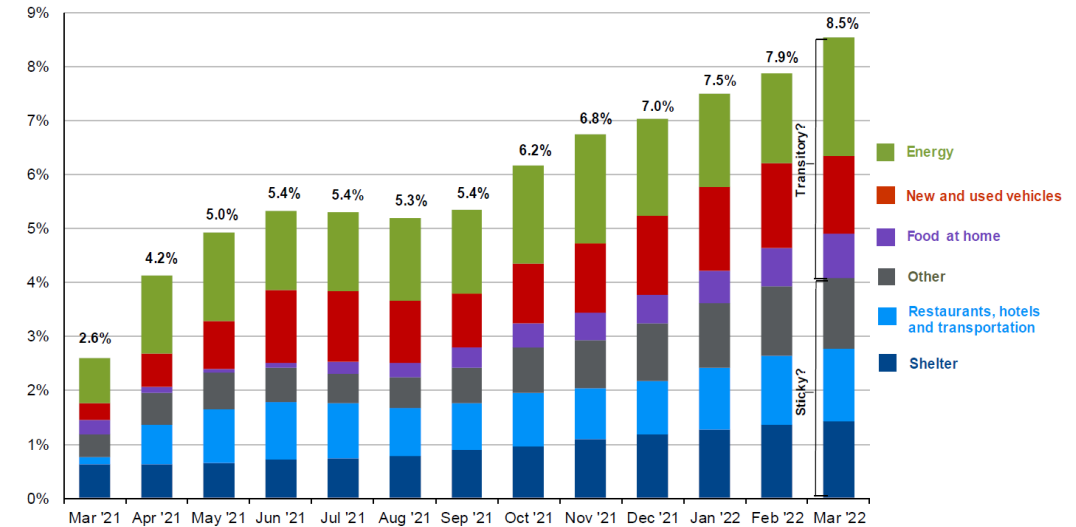

Source: BEA, FactSet, J.P. Morgan Asset Management. Values may not sum to 100% due to rounding. Trend growth is measured as the average annual growth rate from business cycle peak 1Q01 to business cycle peak 4Q19. Guide to the Markets – U.S. Data are as of April 30, 2022.

Inflation components

GTM U.S. 27

Contributors to headline inflation

Contribution to y/y % change in CPI, non seasonally adjusted

Source: BLS, J.P. Morgan Asset Management. Contributions mirror the BLS methodology on Table 7 of the CPI report. Values may not sum to headline CPI figures due to rounding and underlying calculations. "Shelter" includes owners equivalent rent and rent of primary residence. "Other" primarily reflects household furnishings, apparel and medical care services. Guide to the Markets – U.S. Data are as of April 30, 2022.

Interest Rates and the Federal Reserve

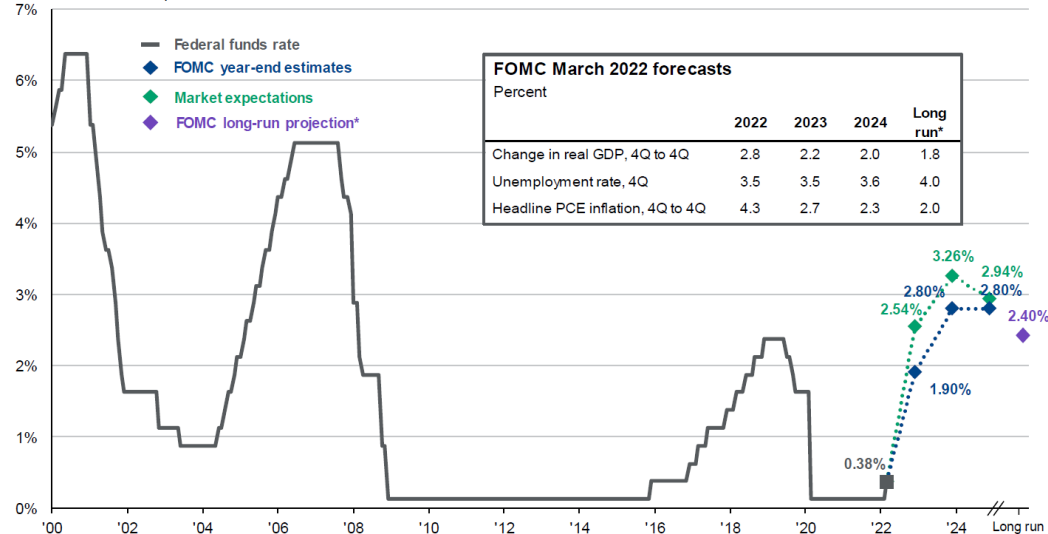

- Energy price increases along with other pressures have catalyzed the Federal Reserve into action to control inflation.
- The Fed has started raising interest rates and is expected to increase them 7+ more times this year alone.
- The Fed also plans to decrease the size of their balance sheet, which doubled through the pandemic.
- These actions have a direct impact on fixed income markets and will also affect other capital markets.

The Fed and interest rates

GTM U.S. 32

Federal funds rate expectations

FOMC and market expectations for the federal funds rate

Source: Bloomberg, FactSet, Federal Reserve, J.P. Morgan Asset Management.

Market expectations are based off of the respective Federal Funds Futures contracts for December expiry. *Long-run projections are the rates of growth, unemployment and inflation to which a policymaker expects the economy to converge over the next five to six years in absence of further shocks and under appropriate monetary policy. Forecasts are not a reliable indicator of future performance. Forecasts, projections and other forward-looking statements are based upon current beliefs and expectations. They are for illustrative purposes only and serve as an indication of what may occur. Given the inherent uncertainties and risks associated with forecasts, projections or other forward-looking statements, actual events, results or performance may differ materially from those reflected or contemplated.

Guide to the Markets - U.S. Data are as of April 30, 2022.

ASSET MANAGEMENT

The Federal Reserve balance sheet

GTM U.S. 33

The Federal Reserve balance sheet

USD trillions

Source: FactSet, Federal Reserve, J.P. Morgan Investment Bank, J.P. Morgan Asset Management.

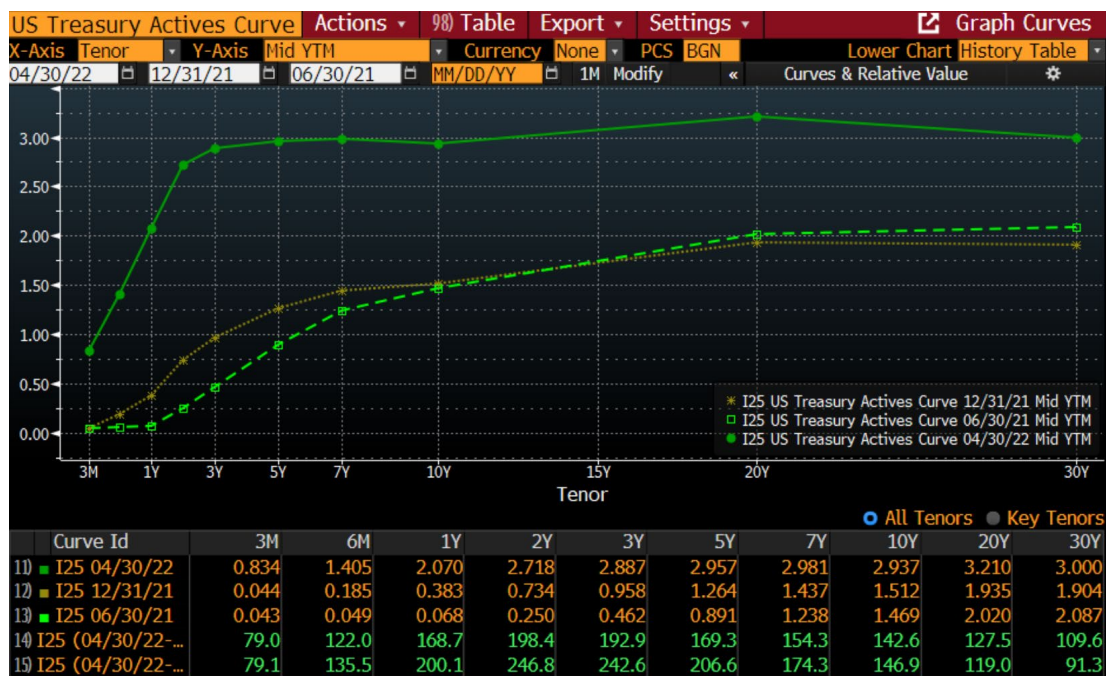

At its peak, the balance sheet contained \$5.8tn in Treasuries and \$2.7tn in MBS. *The forecast assumes the Federal Reserve begins balance sheet runoff in mid-May and gradually increases the monthly cap on maturing Treasury and MBS securities per meeting until a max cap of \$100bn/month. The forecast does not include the active selling of securities from the committee. **Loans include liquidity and credit extended through corporate credit facilities established in March 2020. Other includes primary, secondary and seasonal loans, repurchase agreements, foreign currency reserves and maiden lane securities. Forecasts are not a reliable indicator of future performance. Forecasts, projections and other forward-looking statements are based upon current beliefs and expectations. They are for illustrative purposes only and serve as an indication of what may occur. Given the inherent uncertainties and risks associated with forecasts, projections or other forward-looking statements, actual events, results or performance may differ materially from those reflected or contemplated.

Guide to the Markets - U.S. Data are as of April 30, 2022.

ASSET MANAGEMENT

Fixed Income

- Yields have increased dramatically in reaction of the Fed's rate increase plans.
- Valuations remain relatively tight for fixed income sectors as measured by historical spread levels.
- Fixed income investments remain exposed to further rate increases but are cushioned by higher starting yields.

Sectors shown above are provided by Bloomberg unless otherwise noted and are represented by - U.S. Aggregate; MBS: U.S. Aggregate Securitized - MBS; ABS: J.P. Morgan ABS Index; Corporates: U.S. Corporates; Municipals: Muni Bond; High Yield: Corporate High Yield; Leveraged Loans: J.P. Morgan Leveraged Loan Index; TIPS: Treasury Inflation-Protected Securities; Convertibles: U.S. Convertibles Composite. Convertibles yield is as of most recent month end and is based on U.S. portion of Bloomberg Global Convertibles Index. Yield and return information based on bellwethers for Treasury securities. Sector yields reflect yield-to-worst. Convertibles yield is based on U.S. portion of Bloomberg Global Convertibles. Correlations are based on 15-years of monthly returns for all sectors. Past performance is not indicative of future results. Guide to the Markets - U.S. Data as of April 30, 2022.

Equity Markets

- With the recent stock market correction, U.S. equities are back to more normal valuations.
- U.S. corporate fundamentals remain robust, supported by strong profit margins and healthy balance sheets.
- International equity valuations are close to all time lows relative to the U.S. with high dividend yields.

S&P 500 valuation measures

GTM U.S. 5

S&P 500 Index: Forward P/E ratio

Source: FactSet, FRB, Refinitiv Datastream, Robert Shiller, Standard & Poor's, Thomson Reuters, J.P. Morgan Asset Management.
 Price-to-earnings is price divided by consensus analyst estimates of earnings per share for the next 12 months as provided by IBES since April 1997 and by FactSet since January 2022. Current next 12-months consensus earnings estimates are \$236. Average P/E and standard deviations are calculated using 25 years of history. Shiller's P/E uses trailing 10-years of inflation-adjusted earnings as reported by companies. Dividend yield is calculated as the next 12-months consensus dividend divided by most recent price. Price-to-book ratio is the price divided by book value per share. Price-to-cash flow is price divided by NTM cash flow. EY minus Baa yield is the forward earnings yield (consensus analyst estimates of EPS over the next 12 months divided by price) minus the Moody's Baa seasoned corporate bond yield. Std. dev. over-/under-valued is calculated using the average and standard deviation over 25 years for each measure. *P/CF is a 20-year average due to cash flow availability.

Sum of 5 Largest GeFONSI I and II Funds		\$1,842,678,020.60

Non-Routine Investments

Non-Routine Investments

- The Department of Revenue is presented periodically with non-routine investment opportunities that fall outside the scope of its existing investment opportunity set.
- The state does not currently have any non-routine investments, and none are presently contemplated by investment staff.
- Non-routine investment process summary:
 - Document the investment opportunity and determine if it merits further diligence and/or if it is more suitable for other funding sources.
 - Seek legal advice on DOR eligibility.
 - Seek guidance from external auditors.
 - Use an impartial external expert to evaluate the opportunity and to provide an opinion on the investment.
 - Seek advice from the Investment Advisory Council.
 - Notify the Office of Management and Budget.
 - Complete diligence and investment documentation.
 - Inform the Chairs of the Senate and House Finance Committees of any decision to move forward with an investment.

Asset Allocation Process

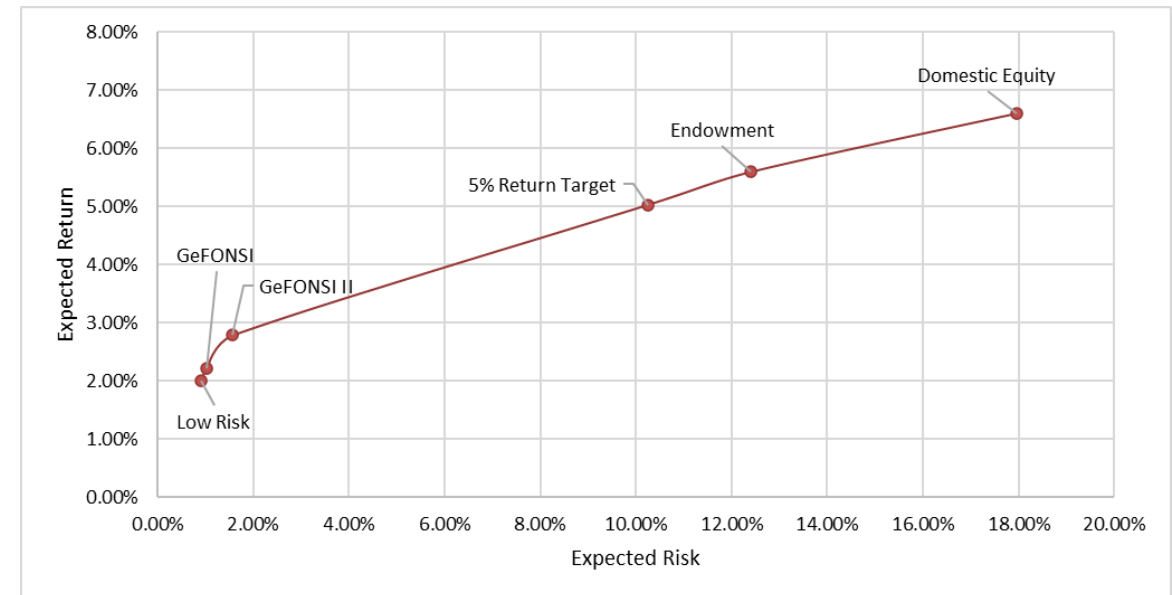

and

2022 Capital Market Assumptions

State Asset Allocation Process

- The Commissioner of Revenue is the fiduciary for over \$7 billion in state assets across 100+ accounts pooled into 24 funds with similar assets or mandates.
- Setting investment policies and asset allocations are key fiduciary duties for these funds.
- Staff reviews and makes recommendations on the investment policy and asset allocation of each fund at least annually.
- Each investment program is designed to balance fund investment objectives, risk tolerance, and other attributes:
 - Time horizon
 - Nominal or real return objectives
 - Cashflows, liquidity, and income needs
 - Capacity for loss or volatility over short, medium, and longer time horizons

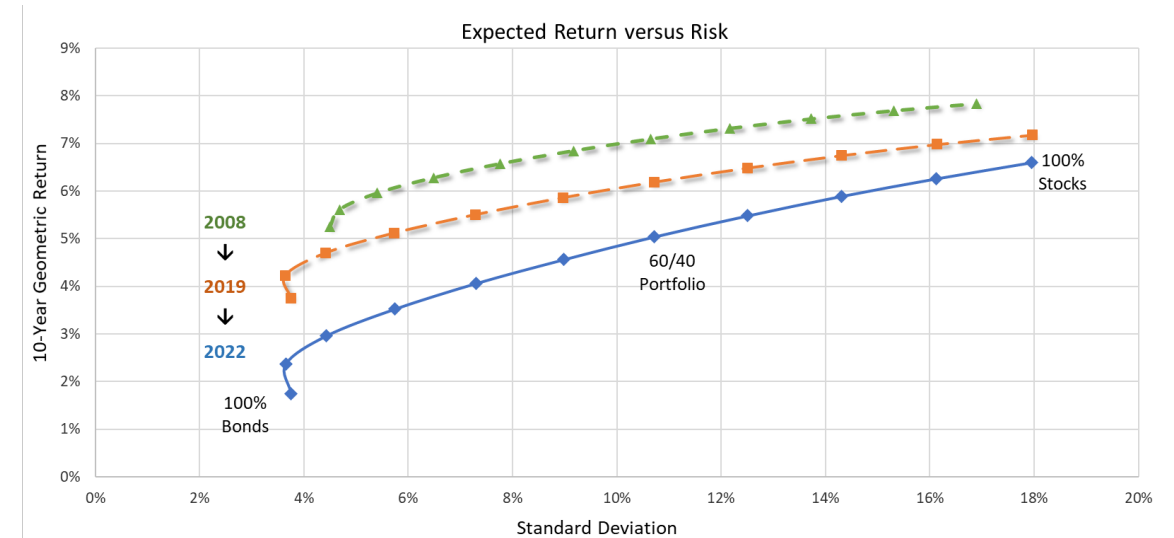

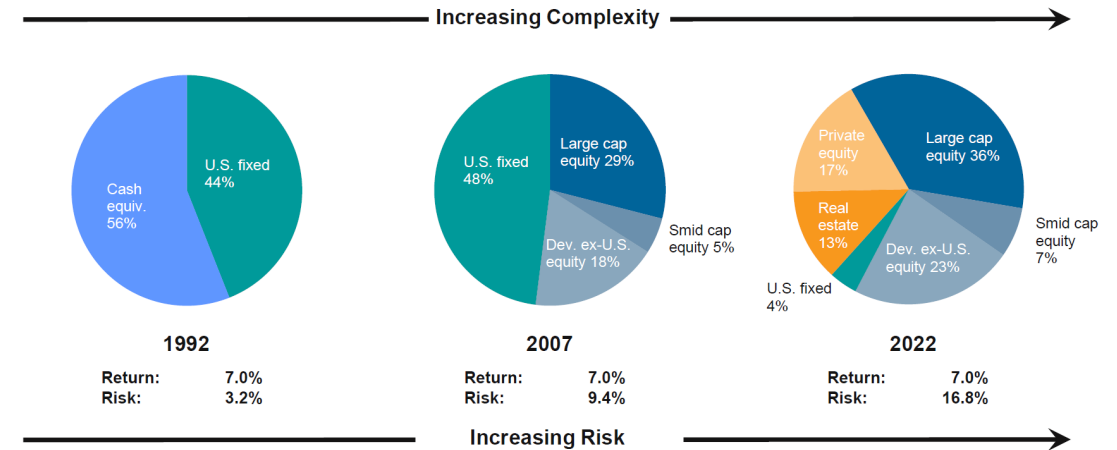

Fund - Account	Assets (3/31/22)	Risk Tolerance	Policy 1yr Risk/Loss	Loss Magnitude

Total	\$7,273,054,148			

Asset Allocation

- Callan LLC, annually develops 10-year capital market assumptions for risk, return, and correlations using a building block approach.
- Return expectations have steadily declined over time due to lower rates, growth and inflation expectations due largely to global trade, technology, and the transition toward a service economy.
- Staff evaluates Callan's capital market assumptions, other provider's assumptions, and current market conditions to develop an asset allocation approach for each state fund.
- The goal is generally to maximize return or minimize risk consistent with investment objectives and risk tolerance using a combination of Modern Portfolio Theory and investment judgment.

7% Expected Returns Over Past 30 Years

2022 Capital Market Assumptions

- In January, Callan released their 10-year capital market assumptions (CMAs) for 2022. Risk and correlation assumptions were largely unchanged from 2021. Long-term inflation expectations did increase which impacts real return forecasts.
- Staff selects a subset of these asset classes for use in state funds based on risk, return, diversification, complexity, and cost.
- For FY23, staff recommends continuing with the use of Broad U.S. Equities, International Equities, Core U.S. Fixed Income U.S. REITs, and Cash Equivalents for state funds.
- In Fiscal Year 2022, staff incorporated up to 20% of the fixed income allocation in a tactical bond portfolio that can opportunistically invest in high yield, TIPS, and other fixed income asset classes in a risk-managed fashion. For FY23, staff recommends targeting 20% to this strategy with a 25% maximum.
- Staff is also evaluating additional improvements to both fixed income and equities.

Asset Classes	2022 1-Year Arithmetic Return	2022 10-Year Geometric Return	Return Change	2022 Standard Deviation	2022 Correlation to Domestic Equity	2022 Real Return

Risk Tolerance Assessment

General Risk Tolerance Assessment	Time Horizon	Probability of Loss (1yr)	Magnitude of Potential Loss	Discussion
Low	Short - Less than 1 year	>1%	0 - 0.4%	Unwilling to risk material short-term volatility because of the immediate need for the invested funds. Minimizing exposure of principal to loss is very important.
Moderate	Short to Intermediate - 1 to 2 years	1 - 5%	0 - 1.5%	Willing to assume an average amount of market risk and volatility to achieve higher returns.
Moderate-High	Intermediate - 2 to 6 years	5 - 10%	1.5 - 5%	Willing to assume an above average amount of risk, volatility and loss of principal to achieve higher returns.
High - 5% Return Target	Long - Greater than 6 years	>10%	5 - 20%	Willing to tolerate an amount of risk, volatility and loss of principal to achieve stated return target over long time periods.
High - Endowment	Long - Greater than 6 years	>10%	5 - 20%	Willing to assume a material amount of risk, volatility and loss of principal to take advantage of higher return opportunities.

2022 Asset Allocation Summary

Current Asset Allocation Process:

- Evaluate the current attributes of each fund to identify the best balance of risk and return.
- Use Callan's capital market assumptions and Modern Portfolio Theory to arrive at asset allocations.
- Evaluate short-term return expectations for fixed income and cash equivalents using current yields and adjust cash risk and return if necessary.
- Emphasize diversification.

FY2022 Short-Term Funds Investment Policy

The Department manages several funds that have high liquidity requirements necessitating investment entirely in short-term fixed income. The following funds are covered by this policy:

AY03 - Retiree Health Insurance Fund	AY3B - International Airports 2010-B
AY05 - International Airport Repair and Replacement Fund	AY3V - 2010-C GO Bonds
AY28 - Investment Loss Trust Fund	AY3Y - 2013-C GO Bonds
AY2E - 2002 Series Reserve Account	AY3Z - 2013-B GO Bonds
AY2G - Permanent Fund Dividend Holding Account	AY9X - 2006B Non-AMT Construction Fund
AY2Q - 2008 Transportation Project GO Bonds	AY9Y - 2006 Series Variable Rate
AY2U - 2003 Series Reserve Account	AY3Q - FY 2017 2016B - 2012 Transportation Bond
AY3A - International Airports 2010-A	

Investment Topic	Proposed Policy	Current Policy
Investment Objective	Very low exposure to principal loss. Modest current income requirement. Little inflation protection needed. High liquidity requirement.	No Change
Risk Tolerance	Low	No Change
Policy Risk/Loss Range	<1%	No Change
Time Horizon	Short	No Change
Asset Allocation	Broad U.S. Equity International Equity U.S. REITs Core U.S. Fixed Income Cash Equivalents 100%	100%
Expected Return - Short-Term	0.05%	0.17%
Risk - Standard Deviation	0.05%	
Probability of Loss - 1 Year	15.9%	
10% Probability of Annual Loss (10% cVaR)	0.0%

CBRF – \$1.1 Billion

AY19: FY2022 CBRF Investment Policy

The investment policies for the Constitutional Budget Reserve Fund (CBRF) have changed over the years as the balance and the expected uses of the CBRF have changed. Declining production of Alaska North Slope crude oil and the inconsistency of future prices are still a concern. The CBRF is the state's "savings account" and as such is responsible for covering fluctuations in the general fund.

Financial planning by the administration and the legislature is highly dependent upon the CBRF balance maintaining stability and high liquidity. Given the short-term expected requirement for these funds, a cash equivalent investment program is warranted.

Investment Topic	Proposed Policy	Current Policy
Investment Objective	Very low exposure to principal loss. Little inflation protection needed. High liquidity requirement.	No Change
Risk Tolerance	Low	No Change

GeFONSI - \$1.6 Billion

AY01: FY2022 GeFONSI Investment Policy

The General Fund constitutes the largest element of the General Fund and Other Non-Segregated Investments (GeFONSI) fund. Much of the money in the fund has been appropriated and a material loss could affect the state's ability to fulfill its obligations. Treasury expects much of the money in the pool to be spent in less than one year. Accordingly, the allocation should allow minimal exposure to principal loss. Equities are not recommended for the GeFONSI.

Investment Topic	Proposed Policy	Current Policy
Investment Objective	Minimal exposure to principal loss. Maximize current income within moderate risk tolerance. Minimal inflation protection needed. High liquidity requirement.	No Change
Risk Tolerance	Moderate	No Change
Policy Risk/Loss Range	1 - 5%	No Change
Time Horizon	Short to Intermediate	No Change
Asset Allocation	Broad U.S. Equity International Equity U.S. REITs Core U.S. Fixed Income 15% ±10% Cash Equivalents 85% ±10%	23% ±10% 77% ±10%
Expected Return - Short-Term	0.27%	0.44%
Risk - Standard Deviation	0.57%	
Probability of Loss - 1 Year	32.0%	
10% Probability of Annual Loss (10% cVaR)	0.7%

International Airport Revenue Fund - \$165 Million

AY04: FY2022 International Airport Revenue Fund Investment Policy

The Revenue Fund maintains a significant balance and the investment earnings on that balance are a revenue source for the airport system. Airport management and airline representatives want to keep fees as stable and low as practical. Relatively stable investment earnings assist the airport system and the airlines in meeting that goal.

Beginning October 2000, the Revenue Fund contained receipts from passenger facility charges collected at the Anchorage and Fairbanks International Airports. All the airport systems' revenue and expenses flow through the Revenue Fund. This includes normal operating transactions and most repair and maintenance projects. This subjects the Revenue Fund to the possibility of relatively significant cash inflows and outflows.

GeFONSI II - \$1.2 Billion

AY3F: FY2022 GeFONSI II Investment Policy

GeFONSI II is comprised of funds that do not benefit from positive investment returns, nor bear the risk of loss in the event of negative returns. The General Fund benefits, or is harmed, by these returns. GeFONSI II is invested more aggressively than is the GeFONSI. The premise for the higher risk posture is that over the course of several years the General Fund will generate more total return, despite having a higher risk of loss in any given year.

Investment Topic	Proposed Policy	Current Policy																									
Investment Objective	Tolerate moderate exposure to principal loss to target modestly higher returns.	No Change

High Risk/Endowment Profile Funds

AY08: FY2022 Public School Trust Fund Investment Policy

The Public School Trust Fund is a fund dedicated to the benefit of Alaska's public schools. The central objective is to provide "increasing returns from capital appreciation and net income over long-term periods to the fund's current beneficiaries." The fund may be invested "on the basis of probable total rate of return to promote the long-term generation of capital appreciate and income."

On July 1 of each year, the commissioner shall determine the monthly average market value of the fund for the previous five fiscal years preceding the previous fiscal year. The legislature may appropriate not more than five percent of the amount determined by the commissioner. Pending signature by the governor, the appropriated amount may be expended the following fiscal year.

High Risk/Endowment Profile Funds - Continued

AY08: FY2022 Public School Trust Fund Investment Policy

The Public School Trust Fund is a fund dedicated to the benefit of Alaska’s public schools. The central objective is to provide “increasing returns from capital appreciation and net income over long-term periods to the fund’s current beneficiaries.” The fund may be invested “on the basis of probable total rate of return to promote the long-term generation of capital appreciate and income.”

On July 1 of each year, the commissioner shall determine the monthly average market value of the fund for the previous five fiscal years preceding the previous fiscal year. The legislature may appropriate not more than five percent of the amount determined by the commissioner. Pending signature by the governor, the appropriated amount may be expended the following fiscal year.

Investment Topic	Proposed Policy	Current Policy
Investment Objective	High exposure of principal to loss in return for higher expected Longer-term returns. Limited current income requirement. Limited inflation protection needed. Moderate liquidity requirement.	No Change

AY9J: FY2022 Illinois Creek Mine Reclamation Investment Policy

The Illinois Creek Gold Mine is a remote gold mine located on state land approximately 51 miles south of Galena, Alaska. Construction of the gold mine began in June, 1996. The companies responsible for the mine dissolved, the financier abandoned its ownership rights, and the State of Alaska inherited operating responsibility for the mine in July 1999. Following reclamation of the mine by American Reclamation Group, the State now assumes responsibility to monitor the site and to fix unexpected post-reclamation problems. To fund the post-closure monitoring and any potential maintenance, this trust fund was created. The Department of Revenue will manage the fund and Department of Natural Resources will withdraw funds for monitoring and reclamation obligations.

Investment Topic	Proposed Policy	Current Policy
Investment Objective	Maximize return while still being able to fund uncertain maintenance expenditures (amount and size)	No Change

AY3G: FY2022 Education Endowment Investment Policy

AS 43.23.063(b)(2) directs the commissioner to invest in a manner likely to achieve at least a four percent nominal return over a five-year period.

On July 1 of each year, the “commissioner shall determine the fund balance for the previously closed fiscal year, including the earnings of the fund” and “when the average market value for the fiscal year exceeds \$1,000,000,000, transfer 4.5% of the average fiscal-year-end market value of the balance of the fund for the last five fiscal years, including the fiscal year just ended, and including any unrealized gains and losses.”

Investment Topic	Proposed Policy	Current Policy
Investment Objective	High exposure of principal to loss in return for higher expected Longer-term returns. Limited current income requirement. Limited inflation protection needed. Moderate liquidity requirement.	No Change

Retiree LTC Insurance - \$755 Million

AY11: FY2022 Retiree LTC Insurance Investment Policy

Effective July 1, 1997, the Department of Administration established the Group Health and Life Insurance Fund and the Retiree Health Insurance Fund. The Retiree Health Insurance Fund is further broken down into three plans: 1) medical, 2) dental, vision and audio, and 3) long term care.

The Retiree Long-Term Care Plan consists of premiums paid for retiree long term care. While many retirees are paying premiums into the plan today, at present only a small percentage of the premiums are needed for claims payments. Per the analysis, Actuarial Valuation of the State of Alaska Long-Term Care Program as of June 2019, conducted by Lewis & Ellis, Inc., the actuarial assumed net investment earnings assumption is 5.0%.

PCE Endowment - \$1.1 Billion

AY13: FY2022 PCE Endowment Investment Policy

AS 42.45.080(a)(2) directs the commissioner to invest in a manner likely to achieve at least a four percent nominal return over a five-year period.

On July 1 of each year, the commissioner shall determine the monthly average market value of the fund for the previous three fiscal years. Five percent of the amount determined by the commissioner, pending the governor signing legislation, may be appropriated for the fiscal year beginning the following July 1.

State Asset Allocation Next Steps

- Once a budget has been passed, further evaluate the CBRF, general fund, GeFONSI and other participants with respect to time horizon and downside risk tolerance.
- Update short-term funds return expectations using current yields and market analysis.
- Finish evaluation of improvements to both fixed income and equities.
- Late June – Commissioner considers full set of investment policies and asset allocations for adoption.
